

Feather River College

2018 CATALOG

What you'll encounter on your way to class at Feather River College: towering mountains, acres of forestland, clean air and water, and wildlife.

What you won't find: traffic.

If you're looking for a change of scenery, look into Feather River College. Plumas National Forest provides a million-acre classroom in which to learn, and vast open spaces and a four season climate in which to play.

We can't guarantee you won't be late to class, but at least your excuse will be a good one.

To learn more and to arrange a campus tour, e-mail info@frc.edu, or call **1(800) 442-9799, ext. 315**.

GREETINGS FROM FEATHER RIVER COLLEGE

Small college ... big education. Home to the million-acre classroom. Feather River College is known by many names - we are also known as a college that cares about your success.

Nestled in a small, rural mountain community, Feather River College offers many opportunities that you will not find elsewhere. Our faculty, staff and administrators are dedicated to helping students both inside the classroom and in extracurricular activities. Championship athletic teams, outdoor recreation programs and unique programs in Equine Studies, Fish Hatchery Management and Environmental Studies are some of our special educational opportunities available to students. Feather River College has the privilege to offer one of the first bachelor degrees from a California community college. In May 2018, FRC awarded its first Bachelor of Science in Equine and Ranch Management. In addition, we offer traditional transfer programs, vocational training certificates and personal enrichment courses. No matter what your interests, everyone will find something of value at Feather River College. Coupled with breathtaking views from our natural setting, Feather River College offers a unique learning environment to help you reach your educational goals. I thank you for your interest in Feather River College and I look forward to seeing you on campus.

Kevin Trutna, Ed.D.
Superintendent/President

FEATHER RIVER COLLEGE GENERAL CATALOG 2018-2020

Feather River College is accredited by the Accrediting Commission for Community and Junior Colleges of the Western Association of Schools and Colleges.

Feather River Community College District has made every reasonable effort to ensure that the information published in this catalog accurately reflects current legislation, policy, and fees. However, these are subject to modification at any time in order to accommodate changes in the resources or educational plans of the District or for reasons deemed appropriate by the college president or designee. These changes may be made without prior notice and may supersede this publication or any portion thereof. The full text of any Board Policy and/or Administrative Procedure listed in this catalog can be found on the FRC website at www.frc.edu/administration/board-of-trustees.cfm.

The District is committed to the support of campus wide diversity, while emphasizing the employment of qualified administrators, faculty, and staff members who are dedicated to student success. The Board recognizes that diversity in the academic environment fosters cultural awareness, promotes mutual understanding

and respect, and provides suitable role models for all students. The Board is committed to hiring and staff development processes that support the goals of equal employment opportunity and diversity, and provide equal consideration for all qualified candidates (BP 7100).

The District shall provide access to its services, classes and programs without regard to, national origin, religion, age, sex (gender), gender identity, gender expression, race or ethnic group identification, color, medical condition, genetic information, ancestry, sexual orientation, marital status, disability, pregnancy, or because he/she is perceived to have one or more of the foregoing characteristics, or based on association with a person or group with one or more of these actual or perceived characteristics.

Questions or disputes regarding the College's compliance with nondiscrimination policies, EEO, Title IX and Section 504/ADA, should be directed to the College's Director of Human Resources/EEO, Feather River College, 570 Golden Eagle Avenue, Quincy, CA 95971, (530) 283-0202, ext. 280.

ABOUT FEATHER RIVER COLLEGE

STATEMENT OF MISSION

Feather River College provides high-quality, comprehensive student education as well as opportunities for learning, workforce preparation, and achievement in a small college environment. The College provides general education, associate and bachelor's degrees, certificates, transfer programs, and life-long learning for a diverse student population by serving local, regional, national and international students through traditional face-to-face instruction as well as distance education. The College also serves as a cultural and economic leader for all communities that lie within the District and embraces the opportunities afforded by its natural setting.

STATEMENT OF VISION

Feather River College cultivates engaged citizens striving for a resilient, solution-based society. As a campus community, we aim to foster the values of education, service, and stewardship in our students, staff, and community. We will continue to develop our educational and co-curricular offerings to support our students' pursuit of sustainable, fulfilling, and dynamic lives.

STATEMENT OF VALUES

Develop the Mind

We believe that diversity of opinion on all issues helps develop the minds of our students so that they may make sound judgments of value in the continuing pursuit of lifelong learning.

Celebrate the Individual

We celebrate the uniqueness of the individual by affirming that personal identity and cultural heritage are the base from which each person may aspire to any height.

Strive for Excellence

We are committed to the creation of a quality learning environment, striving for excellence at all levels, fully supported by adequate resources, so that our students will have the best chance to learn.

Open Doors

We pledge that the doors of opportunity and encouragement will be open to everyone who can benefit and that our guiding principle in approaching students is to provide accessibility to all that the college has to offer.

Nourish the Community

As a member of our community, we take pride in affirming an active partnership in improving the quality of life and economic development in our area.

INSTITUTIONAL CODE OF ETHICS

Feather River College (FRC) offers forth the following series of values to collectively serve as a Statement of Ethics for our institution. It is meant as an articulation of our collective ethics, and should guide the ethical deliberations of each member of the FRC community. While members of FRC differ in age, gender, race, ethnicity, religion, sexual orientation, political persuasion, and many other personal values, we agree on the following:

A respect for persons: The inherent importance of respecting persons implies recognizing that we are distinctive individuals with our own goals, beliefs, feelings, values and relationships, and that these have a vital place in one's sense of dignity and autonomy.

Esteem for education: Create a student-centered environment for teaching and learning, which emphasizes a respect for the institution and for the values of education and learning, and encourages the belief that access to education is a right and learning at the college level is a privilege and a responsibility.

Collegiality and individual responsibility: With respect for the individual, we also value collegiality, learning and decision-making under the umbrella of collaboration in support of institutional unity.

Concern for the personal development of each member of FRC and the community it serves: We encourage a nurturing environment and offerings that promote culturally enriched opportunities for the professional and personal growth of students, faculty and staff. In addition, we recognize the integral relationship between FRC and the community and the responsibility we share to promote diverse opportunities.

Do no harm: At Feather River College every effort is taken to avoid actions and policies that cause unnecessary harm to others. The college is committed to promoting increased individual self-worth, dignity and safety. All members at Feather River College have the right to learn and work in a safe environment free of discrimination. All members of the college community share the responsibility of refraining from activities that tarnish or degrade the image of the institution or any of its constituents, and of protecting the confidentiality of individuals.

Fairness: Evaluations of all members of the Feather River College community shall be based upon clearly stated criteria that are administered equally.

Honesty and openness: At Feather River College we encourage a respect for truthfulness. This includes the development and expression of intellectual honesty, honesty in relationships with others, and honesty in regard to oneself. We also encourage that honesty be expressed in the context of openness, and that differences in opinions be respected while working with others in the spirit of harmony and cooperation. We support decisions made by the majority while respecting the rules of democracy, and providing constructive analysis free of personal prejudices and biases.

Freedom: Members of the Feather River College community have the right to academic and artistic expression, which includes investigating and describing their values and beliefs, exploring and discussing controversial points of view, and advocating what they believe is in the best interest of the college. Students, in particular, have a right to be free from indoctrination and other forms of miseducation that fail to respect the autonomy of the student.

Sense of place: Feather River College is committed to creating a sense of place that integrates social, environmental and educational values. This includes the development of facilities, academic programs, curricula, and community projects to foster ethnic diversity, community congregation, historical and cultural celebrations, environmental explorations, and multi-discipline classes that bridge the varying backgrounds and interests of students and community members.

Environmental stewardship: Protecting the natural beauty of our unique location is paramount to the delivery of our academic programs. Because the Feather River College campus abuts other public lands, the campus community has an obligation to carefully manage its woodland location and natural laboratories. A respect for nature is a building block in the development of productive citizens.

AP 3050 - Institutional Code of Ethics

Approved: November 14, 2005

ACADEMIC FREEDOM

Academic freedom is defined as the freedom to teach and learn in an atmosphere of free inquiry and expression, including freedom in presenting and discussing subjects, as well as any other relevant matters, including controversial matters, as long as the difference between personal opinion and factual information is clearly delineated. This applies to all members of the Feather River College community: faculty, students, classified and administrative staff, and trustees.

The Board of Trustees recognizes that academic freedom is necessary to the pursuit of truth and supports the principles of academic freedom enunciated in contracts negotiated between the District and bargaining units (e.g. Article 4 on academic freedom, Agreement Between Feather River Federation of Teachers AFT/CFT, AFL-CIO and Feather River Community College District; and Article 4 on academic freedom, Agreement Between Feather River Federation of Teachers, Associate Faculty Chapter, AFT/CFT, AFL-CIO and Feather River Community College District) or, in the case of students, as outlined in the policy on Standards of Student Conduct.

BP 4030 - Academic Freedom

Approved: February 19, 2015

FEATHER RIVER COLLEGE STUDENT LEARNING OUTCOMES

Students who complete a certificate or degree at Feather River College should be able to demonstrate that they have achieved the following student learning outcomes. Each academic program and student support service area has additional outcomes.

- 1. Students will communicate effectively by:**
 - Writing clearly and accurately in a variety of contexts and formats
 - Articulating thoughts, ideas, concepts, and opinions verbally
 - Reading, comprehending, and applying published ideas
 - Listening and responding to others
- 2. Students will demonstrate critical thinking skills by:**
 - Applying principles of scientific and/or qualitative reasoning and logic to solve problems
 - Evaluating strengths, weaknesses, and fallacies of logic in arguments and information
 - Utilizing a variety of academic lenses to develop and employ a multidisciplinary worldview
 - Applying knowledge and skills in real-life settings
- 3. Students will locate, evaluate, and apply information by:**
 - Using technologies to identify, access, evaluate and use information to accomplish a specific purpose or task (e.g., library and Internet search engines)
 - Using social learning tools (e.g., systems that connect learners, instructors, and information: Moodle, SharePoint, Google docs, social software/ media sites)
 - Organizing information (e.g., creating and maintaining electronic organization system for files)
 - Understanding the social and ethical issues surrounding the responsible use of information technology

- Demonstrating competency in concepts, terminologies, and applications (e.g., word processing, spreadsheets, databases, presentations, and web)
- Using technology to responsibly conduct academic-related pursuits (e.g. file the FAFSA, search and apply for scholarships and jobs, search and apply for transfer)

4. Students will demonstrate a sense of personal and professional ethics by:

- Accepting responsibility for their own actions
- Respecting and honoring diversity of individuals and ideas
- Exhibiting personal, professional, and academic honesty

5. Students will develop a clear sense of self, purpose, and ability to achieve goals by:

- Developing autonomy
- Developing prioritization skills
- Advocating for self
- Delaying self-gratification
- Setting goals
- Using time management skills
- Accessing resources

6. Students will demonstrate skills in relationships through interpersonal communication, compromise, teamwork, and collaboration.

7. Students will value their education, understand its privilege, and become responsible citizens by:

- Participating in community service
- Respecting and questioning authority
- Expressing themselves creatively
- Being proactive in learning

HISTORY OF THE COLLEGE

Based on a need for accessible community college education for the residents of rural Plumas County, Feather River College was created in 1968 as a satellite campus of the Peralta Community College District through annexation with the Plumas Unified School District. In 2018-2019, Feather River College will be celebrating 50 years of providing higher education opportunities in Plumas County.

Feather River College offered its initial academic program in September 1968, holding classes in the high schools of Plumas County. In August 1969, FRC moved to the Plumas County Fairgrounds where it remained until the college was established at its permanent site in April 1971. An extensive building program and aggressive recruitment program contributed to the College's steady growth.

In 1988, it was determined that the future of Feather River College and the needs of the citizens of Plumas County would best be served if the college became an independent, locally controlled community college

district. Thus, in July 1988, Feather River College was de-annexed from the Oakland based Peralta District and the Feather River Community College District was formed. The first Board of Trustees was elected in November 1988.

Currently, the College offers 30 associate degrees, 12 transfer degrees, and several short-term certificate options. In 2015, Feather River College was selected to be one of the first California Community Colleges to offer a bachelor's degree; the College will offer the Bachelor of Science in Equine and Ranch Management starting in fall 2016. For students pursuing other advanced degrees beyond that in Equine and Ranch Management, many students continue their education at four-year colleges or universities. All lower-division general education requirements and many introductory major requirements can be completed at FRC in preparation for a bachelor's degree. These transferable classes parallel the freshman and sophomore courses offered at four-year schools.

The College participates in intercollegiate athletics that includes men's and women's basketball, soccer, and rodeo, men's football and baseball, and women's softball, volleyball, beach volleyball, and cross country and track.

Feather River College continually strengthens the institution through technology by maintaining an integrated management and student information system, providing access to the Internet, e-mail and desktop applications, supporting wireless access throughout campus, and increasing the efficiency and effectiveness of instruction and student support through alternative delivery methods. In addition, FRC is a community leader in green energy and sustainability.

In 2015, EDsmart ranked Feather River College as the top small school in California. The main factors considered in this ranking were graduation, transfer, and first-year retention rates, cost of attendance, and number of students on campus. FRC had both the highest graduation and transfer rate, as well as the highest first-year retention rate of all small colleges in California.

The College is fully accredited by The Western Association of Schools and Colleges.

THE COLLEGE SETTING

Stretching over a mountainside richly forested with pine and oak, Feather River College is tucked away in one of California's hidden, quiet spots within Plumas County. Bordering Plumas National Forest, the over 400-acre campus hosts a variety of wildlife including a resident deer herd. Far removed from the bustle of city life, the campus provides a sanctuary for self-discovery, study, and relaxation.

Plumas County is a land of majestic, snowcapped mountains, lush valleys and scattered small towns. The College is located within walking distance of the picturesque town of Quincy where 5,500 residents enjoy

a peaceful, unhurried life style and exceptional services. Quincy's facilities include a library, hospital, theater, restaurants, churches, and shopping center. Recently, Quincy was voted as one of the "10 coolest small towns in America."

National forest covers about seventy percent of the county, creating a "million-acre classroom" - a natural laboratory for FRC's unique outdoor programs. Nearly 350 miles of marked trails wind through the area, including about 75 miles of the Pacific Crest Trail. In addition, over 1,000 miles of river and streams and more than 100 lakes provide a recreational wonderland.

Plumas County's four-season climate and miles of wide open spaces favor outdoor activities. Fall, summer and spring activities include hiking, biking, fishing, boating, tennis, golf, climbing, swimming, and horseback riding. When the snow falls, cross-country ski trails lead in every direction. Other local favorite activities include snow camping, ice skating, and snowmobiling.

CAMPUS FACILITIES

In addition to the natural laboratory provided by the location of Feather River College, traditional facilities at the campus include:

- Lecture Classrooms
- Science Classrooms/Lab Facilities
- Art Studio and Photography Laboratory
- Instructional Resource Center
- Learning Resource Center/Library
- Computer Labs including a Mac Lab - Open for Student Use
- High Tech Center with Adaptive Equipment, Alternate Media, and Assistive Technology
- Simulation Lab for Allied Health Programs
- Multipurpose Gymnasium
- Sports Complex with Baseball, Softball, Soccer, and Beach Volleyball Facilities
- All-Weather Track and Football Stadium
- Administrative and Student Services Offices
- Mental Health and Wellness Center
- Cafeteria and Student Lounge
- Campus Bookstore and Post Office
- Child Development Center and Preschool
- Three Student Housing Facilities

The campus also features the following unique facilities:

Equestrian Center and Rodeo Grounds: Home to the Agriculture, Equine Studies, Rodeo, Equine and Ranch Management Bachelor Degree Programs. The Agriculture Department consists of over 200 acres of a working ranch facility and pastures. The ranch property contains a working cattle operation complete with hydraulic livestock chute, holding pens, covered work area and a registered herd of Angus cattle. The equine

facility consists of an 80 x 100 ft. heated indoor arena, 150 x 300 ft. outdoor arena, heated veterinary barn and breeding facility, round pens, mechanical cow arena, 60 individual student horse boarding stalls, a student study computer lab and miles of trails to explore. The equine program has its own string of riding horses, registered Quarter Horse broodmares and stallions, and young horses in training that are utilized in the hands on courses. The Rodeo Grounds include a complete rodeo practice facility consisting of 140 x 240 ft. arena, a 70 x 100 ft. turn-back pen for bulls, feedlot for practice livestock, and 70 student horse boarding stalls.

Fish Hatchery: FRC is the only community college in California to operate its own fish hatchery. The on campus hatchery provides practical hands-on experience in aquaculture methods. Students learn hatchery management by performing all the necessary tasks to operate an aquaculture facility-from hatchery site selection and collecting eggs to transporting fish for stocking. The new state-of-the-art recirculation system allows students to experience cutting edge technology used in aquaculture. The hatchery also offers several positions for student employment and volunteers. The experience students acquire will allow them to compete on a global scale for employment.

Most campus buildings are open from 7 a.m. to 10 p.m. Monday through Thursday, and 7 a.m. to 6 p.m. on Friday. Campus buildings are normally locked from 6 p.m. Friday to 7 a.m. Monday, except during weekend classes and special events. The campus is secured at the end of each day or evening session by college maintenance personnel, and is covered by a 24-hour-a-day security alarm for automatic response, which notifies the local law enforcement personnel.

THE STUDENTS

Feather River College's average enrollment of 1,500 students allows for individual attention in the classroom and is embraced within our campus culture. This provides a unique opportunity for students to form lasting relationships. The College views its diverse student body as an important learning resource. The majority of students are from California and surrounding states. Students also attend from across the United States and other countries. As is the case with most California community colleges, some students are recent graduates from high school and others are returning after many years, balancing school with jobs and family obligations.

On campus, students enjoy a variety of extra and co-curricular activities designed to reflect the interests of the diverse student population. Activities include entertaining and educational events that promote cultural and social awareness. Events are sponsored by the associated student organization, other student driven clubs, the Diversity Committee, student support programs, music and drama classes, local artisan groups, and out-of-area performers.

STUDENT RIGHT TO KNOW

Completion and Transfer Rates: Beginning in Fall 2010, a cohort of all certificate-, degree-, and transfer-seeking first-time, full-time students were tracked over a six year period. Their completion and transfer rates are listed below. These rates do not represent the success rates of the entire student population at Feather River College, nor do they account for student outcomes occurring after this six-year tracking period.

Based upon the cohort defined above, a Completer is a student who attained a certificate or degree or became 'transfer prepared' during a six-year period, from Fall 2010 to Spring 2016. Students who have completed 60 transferable units with a GPA of 2.0 or better are considered 'transfer-prepared.' Students who transferred to another post-secondary institution, prior to attaining a degree, certificate, or becoming 'transfer-prepared' during an eleven-semester period, from Spring 2011 to Spring 2016, are transfer students.

Completion Rate: 31.32% | Transfer Rate: 27.47%

More information about Student Right-to-Know rates and how they should be interpreted can be found at the California Community Colleges "Student Right-to-Know Information Clearinghouse Website," located at srtk.cccco.edu/index.asp.

CAMPUS SAFETY

Student Safety

Feather River College makes every effort to provide a safe and secure environment for all members of the college community. All safety concerns, odd or unusual behavior, and/or criminal activities should be reported to the following people:

Safety Officer:	(530) 283-0202, ext. 259/307 or (530) 394-7503
Campus Switchboard:	(530) 283-0202, ext. 200
Night Administrator:	(530) 283-0202, ext. 270
Library Assistant:	(530) 283-0202, ext. 236

Preventing Sexual Assault

Definitions

- The new Violence Against Women Act (VAWA) protects people of all genders.
- Four main categories covered in VAWA are: sexual assault, dating violence, domestic violence, and stalking.
- Sexual Assault is defined as rape, fondling, incest, and statutory rape.
- California law defines a minor as a person under 18.
- Dating violence includes physical, psychological, or emotional abuse, or coercion in sexual activity without consent.
- Domestic violence can be committed by a former spouse or intimate partner or a person with whom you share a child.

Affirmative Consent Law (SB 967) - California Law

- Affirmative Consent is defined as an affirmative, conscious, and voluntary agreement to engage in sexual activity. Neither the lack of protest or resistance nor silence constitutes consent, and consent may be withdrawn at any time.
- Affirmative consent must be given by all parties to sexual activity.
- Under this law a student cannot consent if they are asleep or unconscious, incapacitated due to drugs/alcohol/medication, or unable to communicate due to a mental or physical condition. (Ed. Code, 67386, subd. (a) (4).)

Rights of the Victim/Survivor

The rights of any victim/survivor of domestic violence, dating violence, sexual assault or stalking on Feather River College property or while participating in college sponsored activities can be found at www.frc.edu/student-services/documents/VictimRights.pdf. This document includes contact information for College Personnel and Resource Agencies.

Reduce Your Risk of Sexual Violence

- Trust your instincts.
- Make your limits known as early as possible.
- Say "NO" clearly and firmly.
- Notice when your boundaries are not being respected.
- Assert your right to have those boundaries respected.
- Be "situationally aware" by taking note of your surroundings and who is present.
- Do not be afraid to ask for help in situations where you do not feel safe.

Be a Proactive Bystander in a Possible Incident of Sexual Violence

- Provide a distraction that interrupts an interaction.
- Directly engage one or more of the involved parties.
- Get law enforcement involved.
- Ask the person if he/she is okay and wants to leave.
- Make sure he/she gets home safely.
- Provide options and a listening ear.

Mental Health and Wellness Center

Through the on-campus Mental Health and Wellness Center, Feather River College provides free and confidential counseling services for FRC students. Services include:

- Individual and Group Counseling
- Consultation and Outreach
- Programming and Workshops
- Crisis Intervention
- Referrals to Community Providers

Any FRC campus community member concerned about a student in distress may contact the Center at (530) 283-0202, ext. 234.

Crime Statistics at Feather River College

Any criminal activity may be reported to the Switchboard Operator, (530) 283-0202, ext. 200 who will immediately contact the Safety Officer, appropriate administrator or other responsible authority. Offenses requiring intervention by law enforcement agencies should be reported directly to the Plumas County Sheriff's Office by dialing 911.

Criminal actions occurring on campus should be reported immediately and directly by campus authorities to the Plumas County Sheriff's Office. Investigation and any subsequent action on reports of campus crime will be handled as required by law and the relevant local law enforcement agency. The College may elect to pursue administrative and/or disciplinary action consistent with Board Policies, Education Code and/or Penal Code against students who are found guilty of crimes committed on campus or at college events.

Feather River College's crime statistics are reported to the Department of Education website: ope.ed.gov/security. At this site search on: Feather River Community College District, Quincy, California Crime statistics for 2015 are:

Crimes	# Reported
Burglary	1
Simple Assault	1
Thefts	1
Drug Arrests	0
Sex Offenses	0

ADMISSIONS

OPEN ENROLLMENT

The policy of Feather River College is that, unless specifically exempted by statute or regulation, every course, course section, or class reported for state aid, wherever offered and maintained by the College, shall be fully open to enrollment and participation by any person who has been admitted to the College and who meets any course prerequisites.

Non-discrimination: It is the policy of Feather River College neither to discriminate against, nor exclude from participation in any benefits or activities related to registration, enrollment, or any other phase of the instructional program or student activities, any otherwise qualified person on the grounds of ethnic group identification, religion, gender, gender identities, sexual orientation, age, color, or physical or mental disability.

ELIGIBILITY FOR ADMISSION

Feather River College accepts for admission:

- Anyone over 18 years old; or
- Anyone under 18 years old who:
 - Has graduated from high school, passed the California High School proficiency test, or has a General Education Development (GED) Certificate.
 - High school and other young students with the approval of their parent/ guardian and school principal.

Students must meet special admissions requirements for eligibility to Licensed Vocational Nursing and the Bachelor Degree in Equine and Ranch Management.

CONCURRENT ENROLLMENT OF HIGH SCHOOL AND OTHER YOUNG STUDENTS

High school and other young students who are under 18 and have not graduated from high school must complete a High School Co-Enrollment Student Permit /Registration form to enroll. Forms are available from area high school counseling offices, Feather River College website, and the Admissions & Records Office. All high school and other young students must have the approval of a parent/guardian, school principal, Feather River College counselor/advisor (academic classes only), and the Director of Admissions and Records. Special part-time high school and other young students may

enroll up to 11 units for the fall and spring semesters, and 10 units for the summer session. Students below the 11th grade must also have instructor approval prior to enrolling for classes. Registration opens for High School Co-Enrollment the same date as non-matriculated new student registration. Please see the Academic Calendar for registration dates. The standard enrollment fee is waived for special part-time students; however, the health, transit, and course/ material fees apply. Special full-time students enrolling for 12 or more units will pay full enrollment fees.

All applicants who meet the eligibility requirements listed above will be accepted for admission to Feather River College. Prior to registration, new students must complete an online Application for Admission available on the Feather River College website.

DUAL ENROLLMENT

Dual enrollment is a program that allows qualified high school students to earn college and high school credit while meeting graduation requirements. Students must be a high school student having the support of parents, principal and a high school counselor who verified appropriate college level capability based on assessment scores and/or program pathway. Dual enrolled courses are taught on the high school campus.

RESIDENCY REQUIREMENTS

Residence Classification

Residency classifications shall be determined for each student at the time of each registration and whenever a student has not been in attendance for more than one semester. Residence classifications are to be made in accordance with the following provisions:

- A residence determination date is that day immediately preceding the opening day of instruction for any session during which the student proposes to attend.
- Residence classification is the responsibility of the Admissions Office.

Students will be notified of residence determination within 14 calendar days of submission.

Rules Determining Residence

- A student who has resided in the state for more than one year immediately preceding the residence determination date is a resident.
- A student who has not resided in the state for more than one year immediately preceding the residence determination date is a nonresident.

Granting California Residency

California residency will be granted if all of the following criteria are met:

1. Evidence of physical presence in California for one year and one day prior to the residence determination date by providing documentation of continuous occupancy of rented or leased property in California or utility bill with a California residence.
2. Evidence of financial independence by providing state and federal tax returns where the student has not and will not be claimed as an exemption by his or her parent in the calendar year prior to the year the reclassification application is made.
3. Evidence of intent to make California the home for other than a temporary purpose by maintaining a California driver's license or California ID.

If all of the above criteria are not met, the student may provide additional evidence of intent to make California their home for other than temporary purposes. To do so the student must provide evidence for #1 above and four (4) items from the list below. Evidence must be submitted along with a written narrative describing their intent. The Residency Committee, whose membership includes the Chief Student Services Officer, Chief Instructional Officer, and Registrar, will then determine if there is a sufficient union of act and intent by reviewing the coupling of his/ her physical presence in California with objective evidence of intent, along with a personal explanation of how the student's evidence and intent fit together.

Objective manifestations on intent to establish California residence include, but are not limited to:

1. Evidence of financial independence by providing state and federal tax returns where the student has not and will not be claimed as an exemption by his or her parent in the calendar year prior to the year the reclassification application is made.
2. Evidence of intent to make California the home for other than a temporary purpose by maintaining a California driver's license or California ID.
3. Ownership of residential property or continuous occupancy of rented or leased property in California.
4. Registering to vote and voting in California.
5. Licensing from California for professional practice.
6. Active membership in California professional, religious, merchant, or service organizations or social clubs.

7. Presence of spouse, children, or other close relatives in the state.
8. Showing California as home address on federal income tax forms.
9. Payment of California state income tax as a resident.
10. Maintaining California motor vehicle license plates/ registration.
11. Maintaining permanent military address, or home of record in California while in armed forces.
12. Establishing and maintaining active California bank accounts.
13. Being a petitioner of divorce in California.
14. Remaining in California during academic breaks.
15. Registering for the Selective Service in California (indicating California address).

Physical presence within California solely for educational purposes does not allow a student to establish residence, regardless of the length of time present in the state. (ED 68043, T5 54022(c))

CALIFORNIA NONRESIDENT TUITION EXEMPTION FOR ELIGIBLE CALIFORNIA HIGH SCHOOL GRADUATES

(The law passed by the Legislature in 2001 as "AB 540")

Any student, other than one with a United States Citizenship and Immigration Services (USCIS) nonimmigrant visa status (see exception below for students who have been granted T or U visa status), who meets all of the following requirements, shall be exempt from paying nonresident tuition at the California Community Colleges.

Requirements

- The student must have:
 - attended a high school (public or private) in California for three or more years, or
 - attained credits earned in California from a California high school equivalent to three or more years of full-time high school course work and attended a combination of elementary, middle and/or high schools in California for a total of three or more years, and
- The student must have graduated from a California high school or attained the equivalent prior to the start of the term (for example, passing the GED or California High School Proficiency exam), and
- The student must file an affidavit with the college or university stating that he or she has filed an application to legalize his or her immigration status, or will file an application as soon as he or she is eligible to do so.

Students who are nonimmigrants who are victims of trafficking, domestic violence, and other serious crimes who have been granted T or U visa status, under Title 8 of the United States Code, sections 1101(a)(15)(T) or (U) are eligible for this exemption.

Students who are nonimmigrants, other than those with T or U visa status as noted above, [for example, those who hold F (student) visas, B (visitor) visas, etc.] are not eligible for this exemption.

The student must file an exemption request including a signed affidavit with the college that indicates the student has met all applicable conditions described above. Student information obtained in this process is strictly confidential unless disclosure is required under law. Students eligible for this exemption who are transferring to another California public college or university must submit a new request (and documentation if required) to each college under consideration. Nonresident students meeting the criteria will be exempted from the payment of nonresident tuition, but they will not be classified as California residents. They continue to be "nonresidents."

The California Dream Act extends Cal Grant A and B Entitlement awards, Cal Grant C awards, Chaffee grants, and institutional financial aid to students that meet these criteria as well as the applicable criteria for eligibility for specific types of financial aid. AB540 does not provide federal student financial aid eligibility for undocumented students. These students remain ineligible for federal financial aid.

Procedures for Requesting Exemption from Nonresident Tuition

Complete the form entitled *California Nonresident Tuition Exemption Request*. Submit it to the Admissions & Records Office with an official copy of your high school transcript. Additional documentation may be required. Call the Admissions & Records Office, (530) 283-0202. Ext 285 if you have questions.

VETERANS ACCESS, CHOICE, AND ACCOUNTABILITY ACT (VACA) NONRESIDENT TUITION EXEMPTION

In compliance with Section 68075.7 of the California Education Code, Feather River College will grant a full exemption from the nonresident enrollment fee to all students verified to be "covered individuals" that are eligible to use Montgomery GI Bill-Active Duty or Post-9/11 GI Bill education benefits (Chapters 30 and 33, respectively, of Title 38, U.S. Code) **while living in California**.

Eligibility for VACA Nonresident Tuition Exemption:

- Must be a "covered individual" as defined in the Veterans Access, Choice, and Accountability Act.

- Must start attending classes at FRC within three years of discharge from a period of active duty service of 90 days or more (of self or of eligible spouse or parent).
- Must provide evidence of eligibility for VA education benefits by providing a "Certificate of Eligibility" issued by the Veterans Administration, confirming the approved education benefits for the veteran student or eligible dependent.
- Eligible spouse or dependent must provide a copy of the Transfer of Entitlement approval form.
- Must provide a copy of form DD-214, Certificate of Release of Discharge from Active Duty.

For more information, please contact the Veteran Certifying Official.

INTERNATIONAL STUDENT ADMISSIONS

Feather River College welcomes applications from international students. Admission requirements conform to the regulations of the United States government for issuing F-1 visas.

Admissions Requirements

The checklist below should be used for submitting an International Student Admissions Application and all supporting documents. Submit the requested information in English, adhere to date deadlines listed, and include a \$25.00 processing fee. The Application with supporting documents must be submitted by May 15th for the Fall semester and October 15th for the Spring semester. Receipt of the Application does not guarantee acceptance into Feather River College.

1. Submit an online International Student Admissions Application at the following URL: <https://frcforms.forms-db.com/view.php?id=28666>
2. Provide a Statement of Financial Information (requires you provide a copy of bank statement or letter from your bank verifying funds).
3. Provide High School, University, or College transcripts (in English).
4. Provide TOEFL score report (minimum computer based 180, PBL 500, iBT 65) for non English speaking countries.
5. Provide verification of Health Insurance that will cover you while in the U.S. or intention to purchase health insurance upon arrival in the U.S.

Send supporting documents (2-5) and processing fee to FRC Admissions & Records Office, 570 Golden Eagle Avenue, Quincy, CA 95971, USA, or email them to Admissions-Records@frc.edu.

Completed application packets will be evaluated as they are received, on a first-come, first-served basis. If approved, an acceptance letter with a SEVIS Certificate of Eligibility (I-20) will be sent to the student. The I-20 form must be presented to the appropriate officials in order to obtain an F-1 Student Visa.

International students must declare a program of study that is approved by SEVIS, maintain full-time status by enrolling in and completing a minimum of 12 units each semester (only one online course allowed each semester), maintain at least a 2.0 grade point average, and complete their academic program at Feather River College within six semesters. Failure to maintain a full-time status may lead to dismissal from the College and possible deportation from the United States.

International students may not arrive more than thirty (30) days prior to the semester they are attending and must arrive in time to attend New Student Orientation. On arrival, students must report to the Admissions & Records Office and present their Passport and F1 Visa.

International Student Tuition

International students pay all required fees listed below. Students receive a bus pass that provides transportation in the local area. The parking fee is waived if a student does not own a vehicle.

All required fees must be paid in full by the first day of the semester of attendance.

Required Fees for the 2018-19 Academic Year

(consult the FRC website at frc.edu for current year fees):

Nonresident Tuition Fee:	\$235 per unit
Standard Enrollment Fee:	\$46 per unit
Health Services Fee:	\$18 per semester; \$15 per summer session
Transportation Fee:	\$1.50 per unit
Parking Fee:	\$20 per semester; \$5 per summer session (Required if parking a vehicle on campus.)

Baccalaureate Degree Program

Students accepted into the Bachelor Degree in Equine and Ranch Management will pay an additional \$84 per unit for upper division coursework.

Optional Fees

Computer Printing Fee:	\$5 per 100 pages (first 50 pages free)
Transcript Fee:	First two are free; \$5 each thereafter; 10 rush service or fax service

Pursuant to California Education Code, Article 9, Section 76140, nonresident tuition fees for foreign students may be exempted provided that the nonresident has demonstrated a financial need for the exemption, and that not more than 10 percent of the nonresident foreign students attending Feather River College receive an exemption. If the provision for an exemption of nonresident tuition fees is currently available, Feather River College will evaluate requests from applicants who document financial need for an exemption. There are no guarantees that an exemption will be granted. Requests for an exemption are accepted the beginning of the fall semester. Students awarded exemptions for the fall semester must complete 12 units with a 2.0 grade point average to receive their second exemption for the spring semester.

Applicants selected for admission to Feather River College are responsible for their own housing. Student Housing information can be found at the following URL: www.frc.edu/housing.

International Student Employment

International students may work on campus. Off-campus employment must be approved by the Homeland Security Department. A request must be filed by the college and a fee is assessed, however, the request does not guarantee that it will be approved. Students interested in requesting off-campus employment must consult with the Registrar or Chief Student Services Officer prior to applying for off campus employment.

For more information about the international student program at Feather River College, contact by email at Admissions-Records@frc.edu, by phone at 011-1-530-283-0202, ext. 285, or by mail, 570 Golden Eagle Avenue, Quincy, CA 95971 USA.

STUDENT RECORDS

All student records at Feather River College are maintained in the Admissions & Records Office in accordance with the provisions of the Family Educational Rights and Privacy Act of 1974. Copies of the Act are available to students in the Admissions & Records Office. All rights apply equally to currently enrolled and former students.

Right to Review and Challenge

Present and former FRC students have the right to inspect, review and challenge the contents of all educational records related to them. Students who wish to inspect or challenge their records must make a request in writing to the Chief Instructional Officer.

Privacy Rights of Students

Education records will not be released to any individual or agency without the written consent of the student, with the following exceptions:

- A student's records are open to college employees acting in the course of their duties and to state and federal officials as defined in Section 54618 of the California Administrative Code.
- The College may grant access to individual student records for emergency purposes and for court orders as permitted in Sections 54620 and 54622 of the California Administrative Code.
- The College may release certain "directory information" unless the student informs the Admissions & Records Office within 10 days after courses begin that certain, or all, of such information cannot be released without the student's consent.

Directory Information

Directory information is information contained in an education record of a student that would not generally be considered harmful or an invasion of privacy if disclosed. It includes, but is not limited to, the student's name, address, telephone listing, electronic mail address, photograph, date and place of birth, major field of study, dates of attendance, grade level, enrollment status, participation in officially recognized activities and sports, weight and height of members of athletic teams, degrees, honors and awards received, and the most recent educational agency or institution attended.

Transcript Requests

- Transcript requests may be made by:
 - visiting the student portal (MyFRC) and selecting the first option "Requesting Transcript" for the first two free transcripts, or
 - selecting the second option for transcripts beyond the first two free, or
 - completing a *Transcript Request* form in the Admissions & Records Office.
- Financial obligations to the college must be cleared prior to receiving transcripts.
- Students can view and print unofficial transcripts through their student portal (MyFRC).
- There will be no charge for the first two official transcripts requested. Additional official transcripts are available for \$5 each. Additional fees are charged for official transcripts needed on a "rush" basis. Transcript fees are subject to change.
- Transcripts reflecting work completed at FRC prior to summer 1988 must be obtained from Peralta Community College District, 333 East 8th Street, Oakland, CA 94606.

TUITION AND FEES

The required tuition, enrollment, health, transportation, and parking fees for 2018-19 are listed below. Consult the website at frc.edu for any updates to these fees and to view optional fees.

California Resident Students

Standard Enrollment Fee: \$46 per unit

Nonresident/International Students

Nonresident/International Tuition: \$235 per unit

Standard Enrollment Fee: \$46 per unit

\$281 per unit

Baccalaureate Degree Program Students

California Residents

Upper Division Coursework Fee: \$84 per unit

Standard Enrollment Fee: \$46 per unit

\$130 per unit (300 & 400 level courses)

Nonresident/International Students

Nonresident/International Tuition: \$235 per unit

Upper Division Coursework Fee: \$84 per unit

Standard Enrollment Fee: \$46 per unit

\$365 per unit (300-400 level courses)

Fees Required of All Students

Health Services Fee: \$18 per semester
\$15 per summer session

Transportation Fee: \$1.50 per unit

Parking Fee: \$20 per semester;
(Required if parking a vehicle on campus) \$5 per summer session

FEE REFUNDS

If the balance is \$10 or more:

Student fee refunds for full-term courses will be processed automatically by the college for 100% of the balance for full-term courses dropped through the second week of courses. No refunds will be issued for full-term courses dropped after the second week of courses.

Refunds for half-term courses will be automatically processed for 100% of the balance for half-term courses that are dropped through the first week of courses. No refunds will be issued for half-term courses dropped after the first week of courses.

Refunds for short-term courses will be processed automatically for 100% of the balance for short-term courses that are dropped prior to the first class meeting. No refunds will be issued for short-term courses dropped after the first class meeting.

NOTE: If a student receives financial aid and then totally withdraws or drops from all courses, the student may be responsible to pay back some or all the financial aid received.

If the balance is less than \$10, the amount will be credited to the student for the next semester. Credits not used in the following semester will be written off.

The college will automatically process a full refund if the college cancels a class.

BECOMING A SUCCESSFUL STUDENT

GETTING STARTED AT FRC...

FOLLOW THESE SIMPLE STEPS TO ENSURE YOUR SUCCESS AT FEATHER RIVER COLLEGE

**Indicates this step is required to be eligible for priority registration*

1. **Apply for Admissions**

Apply at: www.frc.edu, click on "Apply Now" at the top of the page. Within 1 to 2 business days you will receive an email welcome letter. This letter will have your FRC Student ID number which will be your "User ID" for your student portal "MyFRC" as well as the next steps to enroll.

2. **Apply for Financial Aid**

Complete the Free Application for Federal Student Aid (FAFSA). The FAFSA can be completed online at www.fafsa.ed.gov. You can check the status of your application by logging onto "MyFRC." If you have questions, contact the Financial Aid Office at 1-800-442-9799, ext. 603. Also search and apply for scholarships by visiting the Financial Aid website at www.frc.edu/financialaid.

3. **Request a Network Account**

Click on the link in your welcome letter to request a Network Account. All students need a Network Account to receive a student email address, to login to computers on campus, and to login to Canvas, the college's learning management system that is used in most courses.

4. **Secure Housing**

FRC is unique in offering student housing and facilities are located on campus and in town. If you plan to live in student housing, complete the *Student Housing Application and License Agreement* as soon as possible as housing fills quickly. The application and additional information is available on the FRC website under Student Housing. If you have questions contact the Student Housing Office at (530) 283-9414.

Information on rentals in the Quincy area can be found at www.frc.edu/housing.

5. **Send Transcripts***

Notify your high school and/or previous college to send a copy of your Official Transcript to: FRC Admissions & Records, 570 Golden Eagle Ave, Quincy, CA 95971. Academic Advisors review previous coursework and overall GPA to assist with course placement. You will be allowed to register initially with an unofficial transcript, but official transcripts must be received

prior to registering for subsequent semesters, and for accepting transfer credit toward a degree.

6. **Complete Orientation***

Click on the link in your welcome letter to complete the Online Orientation. In addition, we encourage you to attend the on campus New Student Orientation held the Friday before classes begin. This is a great opportunity to get acquainted with college life and obtain tips for academic success.

7. **Take Assessment***

Contact the Counseling/Advising Center at (530) 283-0202, ext. 313, to see if an assessment test is needed. Assessments are designed to evaluate your skills in English or ESL, reading, and math. Assessment results, along with multiple measures such as high school or college transcripts, AP test scores, experience, etc. assist in building an appropriate schedule of classes. If you have questions, call (530) 283 0202, ext. 313.

Special testing accommodations are available for students with disabilities and limited English skills by advance appointment.

8. **Meet with an Academic Advisor/Counselor***

Call (530) 283-0202, ext. 313, to schedule an appointment to meet with an Academic Advisor or Counselor. In the meeting you will review transcripts and/or assessment scores and other measures, select courses, and develop a Student Education Plan (SEP) which identifies the courses you need to take to achieve your academic goals.

9. **Enroll in Classes Using your MyFRC Student Portal**

Remember that FRC Student ID Number? You need that number to log into your student portal. You can access your portal through the website; www.frc.edu. Click on "MyFRC." Fill in your User ID (9 digit #) and PIN number. The first time you access MyFRC, your PIN will be your date of birth, MM/DD/YY. Click on the "Student" tab, click on the "Registration" link, and then go to "Look Up Classes." Enrollment is just a few clicks from there. Advisors/ Counselors can also walk you through this process.

10. **Pay Fees**

Decide how you will pay your fees by choosing a payment plan option. Options include paying in full at the time of registration, paying in full by the 10th week of the semester, or verifying you have sufficient financial aid to cover your entire balance. You will be required to complete a "Tuition Payment Agreement" designating the payment option you plan to use.

IMPORTANT THINGS TO CONSIDER

Attend Day in the Mountains: Plan to attend Day in the Mountains, which provides priority registration for new students starting in the fall. Assessment testing, meeting with an Academic Advisor in a group setting, enrolling in classes, and paying your fees can all be completed in one day. Day in the Mountains is typically the last Monday in April.

Get an FRC Photo ID Card: When you get to campus stop by the Admissions & Records Office to get your free student identification card. This card is updated each semester with a validation sticker and entitles you to bus services through Plumas Transit Systems for in-county travel, health services with Plumas County Public Health Agency, and discounts on campus as well as in the community.

Purchase a Parking Permit: If you plan to park on campus, you must purchase a parking permit in the Admissions & Records Office. This permit must be displayed in the lower left hand corner of your vehicle windshield. Students living in student housing are required to purchase an additional permit from the dorm office.

Download and Register for the FRC App: The FRC app will provide you with emergency and urgent notifications, will keep you updated on upcoming events and activities, and help you stay connected with other students. Download from the App Store or Get it on Google Play at frc.campusapp.com.

ENROLLMENT PRIORITIES

Enrollment priority is provided for students enrolling at Feather River College for the purpose of degree or certificate attainment, transfer to a four-year college or university, or career advancement.

Registration priority shall be provided to students who have completed orientation, assessment, developed a student education plan with a counselor/advisor, and are in good academic standing. The order of priority is listed below:

1. Active-duty military, veterans, foster youth, homeless, CalWORKS, EOPS/CARE, DSP&S
2. TRIO students
3. New and continuing students who meet the criteria above
4. High school/Co-enrollment begins with open registration

Enrollment priority for any student shall be lost at the first registration opportunity for either of the following reasons:

1. The student is placed on academic and/or progress probation for two consecutive semesters and is subject to dismissal,

- OR -

2. The student has earned 100 or more degree-applicable units at Feather River College excluding non-degree applicable English as a Second Language courses, basic skills courses, or special classes designed to address the educational limitations of students with disabilities excluding non-degree applicable English as a Second Language courses, basic skills courses, or special classes designed to address the educational limitations of students with disabilities.

Students who are placed on academic or progress probation, or who have earned 75% or more of the 100 unit limit will be notified of the potential for loss of enrollment priority.

Enrollment Priority Appeals

Students may appeal the loss of priority enrollment status due to extenuating circumstances, or where a student with a disability applied for but did not receive reasonable accommodation in a timely manner. Contact the Admissions & Records Office for further information.

CHOOSING COURSES

Every effort will be made by Feather River College to assist students in planning a program of study that will help them meet their academic and career goals. However, final selection of courses and completion of program requirements are the **responsibility of the student**.

Students are also responsible for maintaining standards of academic performance established for each course in which they are enrolled.

Course Numbering System

The FRC numbering system generally identifies courses according to their basic purposes:

- 001 - 005 Non-degree applicable, non-transferable credit
- 006-099 Associate degree applicable, non-transferable credit
- 100 - 199 Freshman level transferable credit
- 200 - 299 Sophomore level transferable credit
- 300 - 399 Junior level transferable credit
- 400 - 499 Senior level transferable credit

Contact the Advising/Counseling Office for specific course transferability information.

Adding Courses

Registered students may add courses to their semester class schedules the first two (2) weeks of full-term courses. Specific deadlines for first and second 9-week and short term courses are published in the current Class Schedule, and the Academic Calendar. Approval from the instructor is required for all full courses. Students must bring a completed *"Add Authorization"* form to the Admissions & Records Office for processing. Students are expected to be on time for classes and attend all sessions of each course in which they are enrolled.

Dropping Courses

Students may drop courses from their semester class schedule through 75% of the course duration with a grade of "W" indicating official withdrawal on their academic record (transcript). Withdraw grades (W) will be counted towards units attempted and future requests to repeat a course. Courses dropped during the first two (2) weeks for full-term courses and the published deadlines for the first and second 9-week and short term courses will not be recorded with a "W" grade and will be refunded 100%. Specific deadlines for dropping courses are published in the Class Schedule and the Academic Calendar. Instructors may drop students for non-attendance up to 75% of the course; however, it is the **students' responsibility** to drop course and failure to do so may result in a failing grade. Dropping courses may impact your financial aid; please contact the Financial Aid Office for additional information.

Limitation of Load

Students may enroll for a maximum of 20 units per semester. To exceed the maximum unit enrollment students must petition and receive the approval of their Academic Advisor/ Counselor. The *"Petition to Enroll for More than 20 Units"* form is available on the Admissions & Records webpage or at the Admissions & Records Office. Petitions must be processed by the Admissions & Records Office before enrolling for more than 20 units.

Overlapping Courses

Students may not enroll in courses or labs that have overlapping meeting times. An *"Overlapping Classes"* form requesting exception to this rule must be submitted to the Admissions & Records Office. The instructor of the course for which hours will be missed must approve the hours missed and state on the *"Overlapping Classes"* form the dates, days, and times that the hours will be made up. The *"Overlapping Classes"* form is available on the Admissions & Records webpage or in the Admissions & Records Office.

Attendance

Regular attendance promotes success in course work and students are expected to attend all sessions of each class in which they are enrolled. Instructors set an attendance policy for each class and have the option

of including attendance as class participation criterion. Any student enrolled in a course who does not attend the first two class meetings without prior notification to the instructor may be dropped as a no show by the instructor without notice.

Absence Due to Illness

Students should notify their instructors if they will be unable to attend class due to illness. Students are responsible for making arrangements with their instructors to complete missed coursework.

Class Cancellations

Courses listed in the current Class Schedule are subject to cancellation based on low enrollment. If a class is canceled, fees will be refunded automatically and every effort will be made to reschedule students to meet their academic goals. Early registration and attendance at first class meetings will help ensure continuance of scheduled courses.

Medical Withdrawal

Students may officially drop all courses through 75% of the course duration with a grade of "W" indicating official withdrawal on their academic record (transcript). Withdraw grades (W) will be counted towards units attempted and future request to repeat a course. After the 75% date, students may withdraw for medical reasons. Students must complete an *"Official Withdrawal"* form available at the Admissions & Records Office or on the Admissions & Records webpage, provide documentation from their doctor, and submit a completed *"Official Withdrawal"* form to the Admissions & Records Office for processing.

It is the **students' responsibility** to withdraw due to medical reasons and failure to do so may result in failing grades. All college property must be returned, and any outstanding debts to the college must be paid before the Admissions & Records Office will release FRC transcripts.

Military Withdrawal

A student who is a member of an active or reserve U.S. military service and who receives orders compelling a withdrawal from courses may withdraw at any time during the semester and qualify for full refund of enrollment fees for any courses for which academic credit has not been awarded. The student must complete an *"Official Withdrawal"* form and attach a copy of military orders.

Independent and Directed Study

A student may, because of special circumstances, prefer to take a regularly offered FRC course through **independent study**. A student may also wish to take additional coursework in a field of study after having completed the sufficient courses within the field of study (as determined by the faculty member in the

discipline) through **directed study**. Students must petition for independent and directed study courses with their instructor and the instructor submits the form electronically to the Office of Instruction for approval. Once approved, the Office of Instruction will notify Admissions & Records with the Course Reference Number (CRN) and Admissions & Records will process the enrollment. An email will be sent to the student once the enrollment has been processed.

Prerequisites

A prerequisite is a requirement for prior coursework, knowledge or skills that must be fulfilled by students before they may enroll in a course. Students who have equivalent experience may enroll in courses for which they have not fulfilled the prerequisite by consulting with their advisor. The advisor may consult with the instructor to determine if a prerequisite override is in the best interest of the student. If the advisor activates the override, the reason must be documented in the student's online record.

Auditing Courses

Students may audit courses under the following conditions:

- Students are ineligible to enroll for credit because they have already taken a course the maximum number of allowable times, and
- The admission of audit students will not result in credit students being denied access.

Auditing Registration Procedure: Students must file a "Petition to Audit" with the Admissions & Records Office requesting permission to audit a course. The Admissions & Records Office must verify that the course has been taken the maximum amount of times. The instructor must sign the petition acknowledging that the student has his/her approval to audit the course. Auditing students will not be listed on the class roster. Final determination to permit a student to audit a course will be made by the Chief Instructional Officer, or a designee.

Completed petitions must be submitted to the Admissions & Records Office for fee assessment.

Audit Fees: A fee of \$15 per unit will be charged to audit, except as noted:

- Students enrolled in 10 or more units of credit courses at FRC will not be charged to audit 3 or fewer units. They will be charged to audit more than 3 units at the \$15 per unit rate.
- Individuals who are not currently enrolled at FRC may audit courses, but must pay the health fee. They may either pay the student health fee in addition to enrollment fees, or show evidence of medical and accident insurance.

Audit Responsibilities: Students who audit a course will be expected to participate in all class activities with the exception of examinations and must pay all course material fees.

ALTERNATE WAYS TO EARN OR RECEIVE CREDIT

Feather River College recognizes the value of work completed at other accredited colleges and experience outside of the traditional classroom setting. Accordingly, college credit is awarded in the following areas.

Transfer Credit

Students who have attended other colleges or universities may transfer credit to Feather River College. Transfer credits will be counted toward an associate degree or certificate if completed at a regionally accredited institution. To be eligible for transfer credit the student must be an admitted student working towards an associate degree or certificate, have all official transcripts on file in the Admissions & Records Office, provide a copy of the catalog description of the transferring course or a copy of the ASSIST Articulated Agreement, and submit a completed "Request for Evaluation of Transfer Coursework/Credit" form. The Registrar will evaluate transcripts and post eligible transfer coursework/credits to the student's Feather River College academic history.

UP TO A MAXIMUM OF 32 ALTERNATE UNITS MAY BE AWARDED IN THE FOLLOWING CATEGORIES COMBINED.

Credit by Examination

Students are eligible to seek "credit by examination" in a maximum of six units worth of coursework if they:

- Are currently enrolled in at least one course other than the course to be challenged, have completed 12 units at FRC, and have a 2.0 or higher GPA in all college units attempted.
- OR -
- Have completed coursework for which an articulation agreement exists between FRC and the student's high school.

Credit by examination will be based upon a comprehensive exam that is designed by the supervising faculty member to cover the content of the course. If a course includes extensive writing or laboratory exercises, these will be included in the comprehensive exam. There may be courses for which a comprehensive exam cannot be developed or administered. The student has the option of receiving pass/no pass, or a grade, and the course will be identified as a "Credit by Examination" on their transcript. Units for which credit is given shall not be counted in determining the 12 semester hours of credit in residence required for an associate degree.

Students may only challenge a course that is listed in the current catalog to be taken for credit by examination. Students may only challenge a course one time. If they fail the challenge, they will receive an F on their transcript; however, they have the option of repeating the course to remove the failing grade. Students may not challenge introductory or less advanced courses if they have successfully completed sequential, or the prerequisite courses, or advanced courses in the discipline. If a student has failed a course, he/she cannot challenge that course through credit by examination.

Credit by exam grading shall be according to the regular grading scale approved by the governing board, except that students shall be offered a credit-no credit option if that option is ordinarily available for the course. The standards for determining the grades received may differ from credit by exam at the discretion of the faculty member. The grade is based on demonstrated proficiency in subject matter and the ability to demonstrate that proficiency.

Students must petition for "credit by examination" in the Admissions & Records Office during the first eight weeks of the semester in order to receive credit that semester. Exam fee is \$20.00 per unit and payable at the Admissions & Records Office before taking the exam.

The petition must be signed by an instructor qualified to teach the course a student requests and who has agreed to supervise the examination. Agreement to supervise the examination is at the discretion of the individual faculty member. Students should not enroll in the course that is to be taken through "credit by examination." Contact Admissions & Records for applicable fees.

Veterans (Advanced Standing)

Upon presentation to the Admissions & Records Office of discharge papers (DD Form 214 - Member 4 copy) verifying one or more years of satisfactory service in the United States Armed Forces, veterans receive six (6) units of general elective credits. In addition, credit will be awarded for work satisfactorily completed under the training program of the armed forces according to the recommendation of the American Council on Education. Equivalent course and unit credit will be offered for courses listed on your JST Military Transcript which parallel Feather River College offerings. Credits are posted to transcripts upon completion of all other graduation requirements. Students should request the Military Evaluation form from the Veterans Certifying Official or the Veterans Services/VA Forms web page and attach copies of their DD214 and JST Military Transcripts.

Advanced Placement (AP) Credit

Feather River College awards credit for successful completion of certain Advanced Placement Examinations through the College Board. Students who submit Advanced Placement Score Reports with scores of three or higher, are granted up to 6 semester units of credit for each AP course applicable to degree and certificate requirements.

College Level Examination Program (CLEP)

Subject Examination: FRC will award up to six (6) units of credit for each College Level Examination Program subject exam, except English, passed at the 50th percentile level or higher.

General Examination: Students may earn four (4) units of ungraded, elective credit applicable to the associate degree for each General Examination completed successfully. Minimum scores required for successful completion are:

Humanities	489	Natural Science	489
Mathematics	497	Social Science	488

Duplicate credit will not be awarded in the same area for both the Advanced Placement and the CLEP subject exams. In order to receive credit, students must request that official test results be mailed directly to Feather River College from the testing service. Credits are posted to FRC transcripts upon receiving test scores.

GRADING SYSTEM

Evaluation of student achievement is made in relation to the attainment of specific course objectives. At the beginning of each course, the instructor will outline the course objectives and explain the basis upon which grades will be determined.

Grade	Grade points per unit
A Excellent	4.0
A-	3.7
B+ Good	3.3
B	3.0
B-	2.7
C+ Satisfactory	2.3
C	2.0
D+ Passing	1.3
D	1.0
F Failing	0.0
FW Failing Withdrawal	0.0

The following designations are not included in computing grade point averages (GPA), but may be used in determining progress probation and dismissal.

P Pass (at least satisfactory, units not counted in GPA)
NP No pass (less than satisfactory, units not counted in GPA)
I Incomplete (units not counted in GPA)
IP In progress (class extends beyond term)
RD Report delayed (units not counted in GPA)
W Withdrawal (units counted in attempted units and towards repeatability)

Pass/No Pass

Students who do not wish to receive a letter grade may enroll in 3 units (or in one class exceeding 3 units) per semester on a Pass/No Pass basis.

(P) Credit will be awarded for work equivalent to a grade of "C" or better.

(NP) No Credit will be given for "D" or "F" work.

- Students may not take courses in their majors on a P/ NP basis except in cases where required courses are only available with a Pass/No Pass option.
- A maximum of 12 units of P/NP grades may be applied toward completion of the Associate Degree.
- Courses with P/NP grades may not be accepted by transfer institutions.
- Once the P/NP has been designated it may not be converted back to a letter grade.

Students who wish to be graded on this basis must change this grade mode on their student portal (MyFRC) no later than 30% of the duration of the course. P/NP grades will be recorded on the student's permanent record and unit credit will be awarded. P/NP grades will not be used to compute a student's grade point average. However, units attempted for which a NP grade is recorded will be used in determining progress probation and dismissal.

**Feather River College does not use non-degree applicable credit course grades in calculating students' degree applicable GPA (§55758.5(b)).*

Repeatability of Courses

A student may not repeat a course unless certain circumstances exist including, but not limited to:

- Significant lapse of time;
- Active participatory courses;
- Course repetition to alleviate substandard academic work;
- Course repetition due to extenuating circumstances;
- Disability Support Program for Students (DSPS) subject-coded courses;
- Course repetition of cooperative work experience; and,
- Course repetition due to employment, training, or other legal requirements.

Courses that are repeated shall be recorded on the student's permanent academic record using an appropriate symbol. Annotating the permanent academic record shall be done in a manner that all work remains legible, insuring a true and complete academic history. Students may not enroll in a course more than three times, except in limited circumstances defined in AP 4225. Enrollments include any combination of withdrawal(s) and grades(s). The student must file a *Petition to Repeat a Course* with the Admissions and Records Office prior to enrollment.

Administrative Procedure (AP) 4225 defines each of the circumstances listed. AP 4225, can be found on the FRC website at www.frc.edu/administration/board-of-trustees.cfm.

Grade Point Average

A student's grade point average (GPA) is determined by the following formula:

$$\text{GPA: } \frac{\text{Total GPA hours}}{\text{Total points}}$$

GPA is computed on an individual semester basis and on a cumulative basis that includes all work completed at Feather River College. At the time of graduation, grades received for college-level work at other institutions will be calculated and included in an overall GPA.

Grade Reports

Semester grades are usually posted by individual instructors within a week following final exams. Students may check grades on their student portal (MyFRC). Official grade reports are no longer mailed. Transcript of grades will not be released to students who have outstanding financial obligations to the college, unpaid library fines, parking citations, equipment holds, or returned checks.

Grade Changes

The determination of the student's grade by the instructor shall be final in the absence of mistake, fraud, bad faith, or incompetence. A student who feels that an instructor has given an evaluative grade based on one or more of these conditions, and has evidence to substantiate the claim, may pursue an appeal by following the Student Complaint and Grievance Procedures. Students requesting a change of grade on the basis of mistake, fraud, bad faith, or incompetence must begin the appeal process within one year from the end of the semester in which the course was taken.

Incomplete Grades

- An incomplete grade of "I" may be given by the instructor in the event of an unforeseeable emergency and justifiable reason if a student does not complete all requirements of a course in the regularly designated time period.
- Students requesting an incomplete grade must complete a *Request for Incomplete Grade* form available at the Admissions & Records Office. The *Request for Incomplete Grade* form is a contract between the student and instructor that outlines the conditions the student must meet to receive a final grade, and a deadline for completion. The form will be kept on file in the Admissions & Records Office.
- An incomplete grade should be made up by the date designated by the instructor, but in no case later than one year from the end of the semester during which the agreement was filed.

- If the conditions of the request are not met within one year, the "I" grade will be changed to the grade indicated by the instructor on the form, or an "F" grade will be recorded if the instructor has not indicated otherwise.
- When the student has completed the coursework, the instructor will assign the appropriate grade on a *Request for Grade Change* form and submit it to the Chief Instructional Officer for approval. The Instruction Office will forward all grade change forms to the Admissions & Records Office for processing. The incomplete grade will then be replaced with the appropriate final grade.

Scholastic Honors

Feather River College recognizes academic Honors for each semester and through annual acknowledgment of those who graduate with honors. In order to be eligible for the Honors List a student must earn a grade point average of 3.2, or higher, in one semester where 12 or more units are evaluated with letter grades.

Students who have completed all graduation requirements and have achieved a specified cumulative grade point average (GPA), which includes a minimum of 48 units in courses evaluated with letter grades, may be awarded the following levels of honors:

Honors	3.2 to 3.399 GPA
High Honors	3.4 to 3.599 GPA
Highest Honors	3.6 to 4.0 GPA

GRADUATION

To receive a Bachelor of Science, Associate in Arts and/or Associate in Science degree or a Certificate students are required to submit a *Degree/Certificate Graduation Application* to the Admissions & Records Office by the end of the second week of the term for which they are applying. Students are advised to meet with an academic advisor/counselor their first semester to declare a major and complete a Student Educational Plan.

Official transcripts from all colleges previously attended must be submitted prior to the graduation review process. This process reviews coursework completed at FRC and, when applicable, applies transfer college coursework to the FRC's associate degree and major requirements. A *Request for Evaluation of Transfer Coursework/Credit* must be submitted to the Admissions & Records Office for review by the Registrar. Applicants will be notified of their transferring coursework/credits and eligibility for the degree.

The annual commencement ceremony is held at the end of the spring term. Students who have applied to graduate for the fall, spring, and summer terms are eligible to participate in the graduation ceremony. Students eligible to participate in the ceremony will receive information after their applications have been evaluated.

FINANCIAL AID AND SCHOLARSHIPS

FINANCIAL AID

The Feather River College Financial Aid Office has made every reasonable effort to ensure that the information published in this catalog accurately reflects current federal and state legislation. However, both federal and state financial aid legislation change frequently; check www.frc.edu/financialaid and check with the FRC Financial Aid Office for the latest information.

Financial Aid programs provide funds to students to help meet educational and living expenses while attending college.

The Financial Aid Office is available to assist students in obtaining funds to help cover college costs. Financial assistance is available from the federal and state governments, Feather River College, and local organizations. Financial aid awards are generally based on the students' documented financial need, or in the case of scholarships, merit and/or need, and come in the following forms:

Grants: Federal or State assistance with no obligation for work or repayment.

Scholarships: Money that is awarded based on merit and/or need and does not have to be repaid.

Work: Federal Work-Study (FWS) provides part time job opportunities to students who have financial aid eligibility and show need. FWS gives students a chance to earn money to help pay for educational expenses and it provides valuable work experience.

Loans: Federal Subsidized, Unsubsidized and Parent PLUS loans which must be paid back with interest.

Meeting college expenses is a cooperative effort between the student, the student's family, and the federal government. The student and the student's family have the primary responsibility for financing the cost of their child's education, to the extent that the family can contribute. The student shares in this responsibility and is expected to contribute from savings, employment and, if necessary, from loans.

Financial aid programs such as scholarships, Pell grants, work-study jobs, and other state and federal grants and loan programs are designed to help students meet educational costs including enrollment fees, books and supplies, living expenses, transportation, and miscellaneous expenses.

Students must complete the Free Application for Federal Student Aid (FAFSA) to be considered for federal and state aid. The application is submitted electronically at www.fafsa.ed.gov.

To qualify for federal and state aid:

- Students must be U.S. citizens or eligible noncitizens.
- Students must have Social Security numbers.
- Male students over the age of 18 must be registered with the US Selective Service.
- Students must have a high school diploma or its equivalent, a GED, or have completed a high school education in a state-approved home-school.
- Students must be enrolled in a program offered at FRC for the purpose of completing an AA/AS degree or certificate program **that is eligible for financial aid**. Some certificate programs are not eligible.

The California Dream Application is for students who meet the qualifications of California AB 540. Both documented and undocumented AB 540 students can use the CA Dream Application to apply for private scholarships administered by FRC, Cal Grants, Chafee Grants and the California College Promise Grant. The California Dream Application is available at www.caldreamact.org.

NOTE: The California Dream Application is processed in a manner very similar to the FAFSA as described on the following pages.

FINANCIAL AID APPLICATION AND PAYMENT PROCESS

1. Students must complete a Free Application for Federal Student Aid (FAFSA) to be considered for any type of federal financial assistance. To complete the FAFSA, students and parents must sign it electronically with their respective Federal Student Aid User ID (FSA ID). Students and parents can create an FSA ID at fsaid.ed.gov. The FSA ID will allow a student and/or parent to submit and sign an application electronically, make corrections, check the status of their application, and access a pre-filled renewal FAFSA. Applications of dependent students MUST include a parent's signature. The application or renewal application must be filed annually at www.fafsa.ed.gov.

In order for FRC to receive the application, the FRC school code 008597 must be included on the FAFSA.

2. Students receive their Student Aid Report (SAR) from the federal government within a couple of weeks after submitting the FAFSA. If the student's email address is entered on the FAFSA, the SAR will be sent to the student via email. After reviewing the SAR any errors should be fixed immediately by making corrections to the FAFSA at www.fafsa.ed.gov.
3. Once FRC has received your official FAFSA from the federal government, the Financial Aid Office will send out an email confirming the FAFSA has been processed as well as instructions to login to MyFRC to check the list of requirements. All students are required to answer online questions. Some students are required to submit additional information such as tax return transcripts and a verification worksheet if the federal government selected your file for verification. The award will be finalized only after all required documentation has been received and reviewed by the Financial Aid Office staff. Additional information may be requested at any time, and students are notified of eligibility changes, should they occur.
4. The Financial Aid Office disburses student aid into student accounts starting at the beginning of each term and continuing weekly throughout the year. The timing of any given student's aid disbursement depends on when the student completes the required documentation, when the Financial Aid staff is able to finalize the file, and on what type of aid the student is receiving.
5. Pell Grants are disbursed in two payments each semester. Loans for first-time borrowers are disbursed the sixth or seventh week of the semester. Also, single-semester student and parent PLUS loans are disbursed in two parts during the semester. Details are available on the Financial Aid Calendar available at www.frc.edu/financialaid.
6. Fees or charges owed to the college will be deducted from the financial aid disbursement and a refund will be issued to the student for any remaining balance. Financial aid refund checks are produced by Student Accounts and distributed by Admissions & Records; photo ID is required at the time of check pickup.

FINANCIAL AID FUNDING PROCEDURE AND PRIORITIES

FAFSAs may be submitted throughout the award year; however, they should be submitted to the federal government by March 2nd prior to the start of the next academic year to ensure consideration for Cal Grants for California residents.

1. The Expected Family Contribution (EFC) is calculated based on the federal need analysis. Federal Pell Grant, Federal Supplemental Educational Opportunity Grant

(FSEOG), Federal Work Study, CalWORKs, and EOPS Work Study, are awarded on the basis of financial need. The Cost of Attendance minus the EFC equals the student's financial need.

2. Priority in the awarding of Federal SEOG is given to those students who demonstrate exceptional financial need.
3. Federal student loans and parent PLUS loans are available to ALL students, regardless of need.

FINANCIAL AID SATISFACTORY ACADEMIC PROGRESS POLICY

Federal regulations require that all students receiving Title IV aid meet or exceed the Satisfactory Academic Progress Policy established at that institution. It is the established policy at Feather River College that the Financial Aid Office will evaluate a recipient's progress at the end of each semester (fall, spring, and summer). This progress evaluation includes all semesters of attendance at FRC, regardless of whether or not a recipient received financial aid for those semesters. Progress also includes all units attempted at FRC and all units from other schools transferred to FRC, regardless of whether or not financial aid was received during the time the student earned the units.

Ability to Benefit

Criteria mandated by the Federal Department of Education states that, in order to receive federal financial aid a student must be qualified to study at the post-secondary level. For Student Financial Aid purposes, a student with a high school diploma or an equivalent such as a GED certificate, is considered qualified. While new students can no longer become eligible by passing an approved "ability-to-benefit" test, students who were enrolled in an eligible educational program of study before July 1, 2012 may continue to be considered eligible.

Academic Requirements

Students must be enrolled in an eligible program for the purpose of completing an AA/AS degree, a transfer program, or a certificate program.

Progress Standards

The FRC Financial Aid Office will evaluate student's academic progress at the end of each semester following the completion of the official posting of ALL grades for ALL students by the FRC Admissions & Records Office. Students must maintain a 2.0 or higher cumulative grade point average (GPA) and are required to maintain a satisfactory pace in progressing toward their certificate or degree. Pace is determined by computing the percentage from the academic record of cumulative units earned divided by cumulative units attempted. The resulting pace must be 67% or higher. Remedial courses are included in the cumulative GPA and pace calculations along with all other courses. Repeated

course attempts also count toward the student's pace and maximum timeframe. Students are expected to earn their certificate or associate degree before they have attempted 150% of the published length of the program (maximum timeframe). A student reaches maximum time frame after having attempted the credit hour equivalent of 150% of the program hours required for the current degree or certificate.

AA, AS, Transfer:	90 attempted units*
Certificate Program:	52 attempted units*
LVN:	120 attempted units
LVN Certificate:	85 attempted units
BA:	180 attempted units

*(*Maximum units may vary according to individual program)
A maximum of 30 remedial credits may be excluded from this limitation.*

All courses the student has received a grade for on the transcript, including A, A-, B+, B, B-, C+, C, D+, D, F, FW, I, IP, NP, P, RD, or W grades, count in the maximum time frame attempted hours calculation. As a courtesy, students who are close to reaching their maximum timeframe will receive an "alert" notice. Once a student reaches maximum timeframe, he/she will be disqualified from receiving further financial aid.

Financial Aid Warning

Students who drop below a cumulative 2.0 GPA and/or who do not earn 67% of their cumulative attempted units will be placed on Financial Aid Warning for the next semester they enroll at FRC.

Students on Financial Aid Warning will continue to receive their financial aid during the semester they are on warning. Students who are on Financial Aid Warning for a semester are expected to regain Financial Aid Satisfactory Academic Progress status by the end of that semester.

Financial Aid Disqualification

Students put on Dismissal by the Registrar immediately become ineligible for financial aid. Financial Aid Warning students who do not meet both the minimum 2.0 cumulative GPA requirement and/or 67% pace at the end of their Financial Aid Warning semester become ineligible for financial aid. Students that have reached their maximum timeframe become ineligible for financial aid. Financial Aid Disqualified students will be sent an email informing them of their Financial Aid Disqualified status and will also be given the opportunity to appeal for reinstatement of their financial aid eligibility.

Disqualification from Financial Aid does not prevent students from enrolling without financial aid if they are otherwise eligible to continue their enrollment.

The Appeal Process

Financial aid students that were disqualified due to GPA or Pace may appeal for reinstatement of their financial aid eligibility by completing a "Satisfactory Academic Progress Appeal Form." Financial aid students that were disqualified due to Program Completion or Maximum Timeframe may appeal for reinstatement of their financial aid eligibility by completing a "Maximum Credit Appeal Form."

The Financial Aid Appeal Committee will review each complete and timely appeal and will make a decision whether or not to approve the appeal and to restore the student's eligibility to receive financial aid at FRC. The student will be notified of the decision by email. Committee decisions are final.

Financial Aid Probation

Students whose appeals are approved are placed on Financial Aid Probation for one or more subsequent semesters for which they enroll at FRC. Students on Financial Aid Probation will receive their financial aid during the semester(s) they are on Financial Aid Probation.

Students who are on Financial Aid Probation are expected to regain Financial Aid Satisfactory Academic Progress by the end of their probationary period. Students on Financial Aid Probation who are given Academic Plans as part of the appeal approvals are expected to meet the requirements of their Academic Plans at the end of each semester. Failure to meet the requirements of any Financial Aid Probation semester will result in automatic Financial Aid Disqualification at FRC.

Regaining Eligibility

Students who fail to meet these Financial Aid Satisfactory Academic Progress Standards and who choose to enroll without benefit of financial aid may request a review of their academic records after any semester in which they are enrolled (without the receipt of financial aid) to determine whether they have met the financial aid satisfactory academic progress standards. If the standards are met, financial aid eligibility is regained for the next semester of enrollment at FRC.

Grade Change

It is the **student's responsibility** to notify the Financial Aid Office of a grade change at the time it is made in the Records Office. The Financial Aid Office will evaluate the student's transcript to determine if they have regained financial aid eligibility due to the grade change.

Loss of Eligibility for the California College Promise Grant (Formerly known as the Board of Governor's Fee Waiver)

A student shall become ineligible for the California College Promise Grant if the student is placed on Academic or Progress Probation, or any combination thereof, for two consecutive primary terms (fall, spring). Loss of eligibility shall become effective at the first registration opportunity after such determination is made.

Notification of Academic or Progress Probation Status

Students will be notified by email of their placement on Academic or Progress Probation no later than thirty days following the end of the term that resulted in the student's placement on probation. The notice will clearly state that two consecutive primary terms of probation will lead to a loss of the California College Promise Grant until the student is no longer on probation.

Notification of Loss of Eligibility for the California College Promise Grant

Students will be notified by email that they are no longer eligible for the California College Promise Grant, after being placed on Academic or Progress Probation for two consecutive primary terms of probation.

Appeal Process for Loss of Eligibility for the California College Promise Grant

Students may appeal the loss of the California College Promise Grant due to extenuating circumstances, or when a student with a disability applied for, but did not receive, a reasonable accommodation in a timely manner. Extenuating circumstances are verified cases of accidents, illnesses, or other circumstances that might include documented changes in the student's economic situation or evidence that the student was unable to obtain essential student support services. Extenuating circumstances also includes special consideration of the specific factors associated with Veterans, CalWORKs, EOPS, and DSPS student status. Foster Youth age 24 years and younger shall not be subject to loss of the California College Promise Grant due to placement on Academic or Progress Probation.

Students may appeal for reinstatement of their California College Promise Grant eligibility by completing a "California College Promise Grant Appeal Form." The Financial Aid Appeal Committee will review each complete and timely appeal and will make a decision whether or not to approve the appeal and to restore the student's eligibility to receive the California College Promise Grant at FRC. The student will be notified of the decision by email. Committee decisions are final.

Students whose appeals are approved are eligible to receive the California College Promise Grant during the semester that he/ she lost California College Promise Grant eligibility.

Regaining Eligibility for the California College Promise Grant

Students who do not appeal or whose appeal is not approved, will not regain eligibility for the California College Promise Grant until they are no longer on Academic or Progress Probation, or after not attending FRC for two consecutive primary terms (fall/spring).

RETURN OF TITLE IV (R2T4) FUNDS POLICY

COMPLETE WITHDRAWAL FROM CLASSES FOR A SEMESTER

Federal aid recipients who begin attendance in a given semester and withdraw from school before completing 60% of the semester may be subject to repayment of federal aid, called "Return of Title IV Funds". "Withdrawal" includes students who submit withdrawal forms as well as students who drop all classes, are dropped by all instructors, or do not earn any units for the semester. The Financial Aid Calendar is available at www.frc.edu/financialaid.

Federal formulas are used to determine how much financial aid a withdrawn student has "earned," unearned funds must be returned. If the amount disbursed to the student is less than the amount the student earned, and for which the student is otherwise eligible, he/she may be eligible to receive a post-withdrawal disbursement. Under federal regulations, the school and/or the student may be responsible for returning funds to the federal government.

Return of Title IV Funds calculations must be completed within 30 calendar days of the date of determination of complete withdrawal and must be returned to the program from which the funds originated, in the following order:

- Direct Unsubsidized Loan
- Direct Subsidized Loan
- Direct Plus Loan
- Pell Grant
- FSEOG
- Other Title IV programs

Funds the Student is Responsible to Return

Once FRC notifies the withdrawn student that s/he is responsible for repaying some of the aid previously received, the student will have 45 calendar days to repay these funds in a single payment to the college who will then return the funds to the Federal Government. If the obligation is not resolved within 45 days of the notification, the unearned funds will be reported to the National Student Loan Data System (NSLDS) as an overpayment and the student will be ineligible for Title IV funds (such as Pell Grant, FSEOG, Direct Loans) at any institution until this overpayment is resolved.

Funds the College is Responsible to Return

The college will return to the Federal Government any funds the institution is responsible to repay due to the student's complete withdrawal, within 45 calendar days of the R2T4 calculation. FRC will then bill the student on the student billing account in order to recover funds returned to the government. In addition to owing monies to the college, a hold will be placed on the student's

account, which will prevent registration and the release of transcripts. The student will also be given a deadline to make repayment, after which the student will be referred to collections.

POSSIBLE OVERPAYMENT OF FEDERAL AND/ OR STATE FINANCIAL AID DUE TO CHANGE IN ENROLLMENT

Each semester has a financial aid enrollment revision deadline. The amount of Pell Grant and Cal Grant a student is eligible to receive for the semester will correspond to the student's enrollment on the revision deadline. However, if a student receives financial aid based on a particular number of units and later drops units before a short-term class begins and/or is no show dropped from a class resulting in a reduction in level of enrollment, the student may owe a repayment. Summer has no revision deadline; all summer drops without a "W" impact summer eligibility. The Financial Aid Calendar is available at www.frc.edu/financialaid.

FRC will send emails to students who have received overpayments for the semester, notifying the students that they are responsible for repaying some of the aid previously received. Students with overpayments will have a specified time frame to (1) repay these funds in full to the college or (2) let the college know that they would like to make satisfactory repayment arrangements with the federal government. If the student does not take care of this matter within 30 days, the debt will be referred to the federal government for collections which will result in the student becoming immediately ineligible for Federal Aid at FRC and all other colleges in the country.

Contact the Financial Aid Office for more information on overpayment of funds and how it may affect your future eligibility for financial aid.

FEDERAL PROGRAMS

Pell Grants

Eligibility for the Pell Grant is determined by the federal government from the FAFSA. The amount of Pell Grant a student is eligible for (if any) is directly correlated to the Expected Family Contribution (EFC). The Pell Grant has a lifetime maximum for each student of the equivalent of six full-time academic years (or 12 full-time semesters).

Supplemental Educational Opportunity Grants (SEOG)

Supplemental Educational Opportunity Grants are for students with the most financial need. Awards are made on a first-come, first-served basis until available funds are exhausted.

Federal Work Study (FWS)

The Federal Work-Study funding received by Feather River College is awarded to some of the students employed on campus who have financial aid eligibility and show need. Students are paid at least the current minimum wage.

Federal Direct Loan Program

Stafford Loans offered at FRC are Federal Direct Loans that are low interest loans made to students enrolled in at least 6 units (half-time enrollment). The loan funds come directly from the federal government, and are offered as subsidized and unsubsidized. Subsidized loans are offered to students with financial need; unsubsidized loans are available to all students. Students who borrow subsidized loans are required to earn their degree or certificate within 150% of the time required to complete their program at FRC. Not completing the program within the 150% timeframe results in the students' existing subsidized loans losing the subsidy and in the student no longer being eligible to borrow subsidized loans for the current program. Students must repay loans; Federal Direct Loans offer flexible repayment terms. Repayment begins 6 months after the student discontinues their study program, graduates, or drops below half-time enrollment.

Federal Direct Parent PLUS Loans

Federal Direct Parent PLUS loans are available to assist families of dependent students in meeting the costs of education. The borrowers for these loans are the parents who apply for them, not the students. PLUS loans do involve a credit check through the federal government.

If a parent applies for and is not approved for a parent PLUS loan, the student is eligible for some additional student loan funds.

STATE PROGRAMS

Fee Waivers

The waiver of student fees provided by the California College Promise Grant Program is designed to ensure that the fee policies of the California Community Colleges (CCC) are not a financial barrier to education for any California resident or eligible non-resident. Enrollment fees are waived for needy students as defined by the California College Promise Grant program.

Students may apply for a California College Promise Grant using the Free Application for Federal Student Aid (FAFSA), the California Dream Act Application, or a separate California College Promise Grant application along with supporting documentation.

Students can be determined eligible in one or more of the following three primary parts of the California College Promise Grant program as well as special situations described below:

Part A:

Students receiving TANF, SSI/SSP and/or General Assistance as well as those identified under the Special Eligibility categories. Please Note: SSI received in the parent's name for a dependent student would not automatically qualify the student. Documentation: Verification that he or she is a current recipient of TANF, SSI/SSP, or General Assistance.

Part B:

Students who meet strict low-income criteria. Income levels are adjusted annually based upon the federal poverty guidelines published by the U.S. Department of Health and Human Services. Documentation of the student's (if independent) or parent's (if dependent) income is required.

Part C:

Students whose demonstrated financial need is at least equal to the enrollment fees for a full-time student (12 units per semester), the minimum need is \$1,104.

Special Qualifications:

To apply for a College Tuition Fee Waiver for Veteran Dependents, download the application on the CalVet website at www.calvet.ca.gov, then go to your local County Veterans Service Office. You may also contact the Office of Veterans Services located in the Financial Aid Office on campus for more information.

Eligibility Under The Special Categories:

- Dependents of veterans
- The student is a recipient of the Congressional Medal of Honor or is a dependent of a recipient.
- Surviving dependents of the September 11, 2001 attacks.
- Dependents of law enforcement or fire suppression personnel
- Dependents of California National Guard Members

Cal Grants

Cal Grants are California state-funded grants that may be applied toward meeting educational expenses at California colleges. Students must complete the Free Application for Federal Student Aid (FAFSA) or the California Dream Act Application prior to the March 2nd deadline, be a California resident or qualify under AB 540, have graduated from a California high school, or passed the GED or High School Equivalency test as well as meet other eligibility criteria. For more information about the Cal Grant program you may visit www.csac.ca.gov.

Cal Grant A:

May be used at four-year colleges or community colleges that offer a Bachelor's Degree, and may be granted and held in reserve for students attending community colleges with the intention of transferring. Grants are awarded based on merit as well as financial need.

Cal Grant B:

May be used at both two and four-year colleges, and may be awarded to part-time students. Grants are awarded based on merit, disadvantaged background, and financial need.

Cal Grant C:

For students enrolled in two-year vocational programs at two or four-year colleges. Part-time students may apply for this grant, which is awarded on the basis of financial need, vocational interests, and merit.

Students can check the status of their Cal Grant applications and awards at mygrantinfo.csac.ca.gov/logon.asp.

Full-Time Student Success Grant (FTSSG)

The Full-Time Student Success Grant is a new financial aid program for Cal Grant B and C recipients attending a California community college full time.

Community College Completion Grant (CCCG)

The Community College Completion Grant (CCCG) is a new financial aid program for Full-Time Student Success Grant (FTSSG) recipients, designed to encourage faster completion of the student's degree or certificate. Recipients must have a Comprehensive Student Education Plan, a minimum cumulative GPA of 2.0, and be enrolled in a minimum of 15 units of coursework directly applicable to their Student Education Plan each semester.

Chafee Grants

The California Chafee Grant Program provides funding to current or former foster youth to use for career and technical training or college courses. The Chafee Grant Program, also known as the Education and Training Voucher (ETV), is a federally and state funded program and is subject to the availability of federal and state funds each year. Additional information can be found at www.chafee.csac.ca.gov as well as visiting the Foster Youth Liaison on campus located in the Financial Aid Office.

SCHOLARSHIPS

Feather River College and the FRC Foundation offer a variety of scholarships for students who are entering or transferring to FRC and for continuing students. The college offers a single application packet for students to use to apply for both college and FRC Foundation scholarships. Application packets for scholarships for the next academic year are made available to students each spring; all entering, transferring in, and continuing students are encouraged to apply.

The FRC Financial Aid Office also makes applications available for outside scholarships from the local community and elsewhere when the sponsoring organizations provide the college with their information. In addition, the Financial Aid Office maintains information on a variety of scholarship websites and search engines.

Scholarship applications and information are available both in the Financial Aid Office and on the Financial Aid website at www.frc.edu/financialaid/Scholarships.cfm.

STUDENT AND INSTRUCTIONAL SERVICES

STUDENT LEARNING OUTCOMES FOR STUDENT SERVICES

1. Prospective students will learn about the unique opportunities and advantages available at FRC, and will make an informed decision to apply.
2. Students will demonstrate their ability to open the doors to education by learning how to access college resources, understanding their math, reading, and English needs, and using the tools available for self-registration.
3. Students will develop and demonstrate awareness in handling their financial responsibilities for all college expenses, and will take advantage of the resources to pay all expenses.
4. Students will develop resilience and resourcefulness empowering them to persist in attaining academic and personal goals.
5. Students will access available resources within the campus and community to enhance their sense of belonging.
6. Students will explore transfer options, write a student education plan, select a transfer institution, and successfully transfer and/or find employment in their field and advance in their career.

ACADEMIC ADVISING/TRANSFER

Entering students meet with an advisor or counselor before registering to identify educational and career goals and to develop a schedule of classes and a long-range, individualized Student Education Plan (SEP). Assessment scores, high school and/or college transcripts are used to help in this process. Preparation of an SEP helps ensure that students will meet all associate degree, transfer and/or certificate program requirements in a timely manner. Students who have completed 15 units of college credit are required to have a completed comprehensive SEP on file, which should be updated every semester. Student athletes and students receiving financial aid must have an SEP on file to maintain eligibility. Advisors/Counselors monitor the student's progress toward academic goals on an ongoing basis.

Academic Advising

Academic advising is available to all students whether they have defined goals in a specific major or vocational subject area, or are undecided and need help selecting

a program or major. Advisors/Counselors will use the College Catalog to provide students with discipline-specific information that includes the sequence of courses necessary for graduation or transfer. Advisors/Counselors are available on a drop-in or appointment basis.

An academic/athletic advisor specializes in advising student-athletes concerning NCAA I, NCAA II and NAIA transfer eligibility requirements and works to assure that student athletes remain eligible. All student athletes are required to have a completed Student Education Plan (SEP) on file their first semester. The SEP should be updated every semester.

Students should talk to faculty in their major about course sequencing, transfer options and employment opportunities in their field of study.

Advising for Transfer

The FRC Transfer Center offers a variety of materials to help students make informed educational choices. Assistance is available to help students, through interest, ability and value inventories, to determine their best career options and, therefore, their appropriate major. Once the student is ready to transfer, the Transfer Center sponsors activities that include hosting four-year college representatives, field trips to different colleges and universities, transfer workshops, transfer agreements, a catalog library, and assistance with web site navigation and other transfer questions.

Transfer Program: The Feather River College transfer program is designed for those students who would like to complete their first two years of college in an affordable, supportive, small school setting and then transfer to a four-year college to complete a bachelor's degree. The transfer program is designed to parallel lower-division courses offered for freshman and sophomore students at four-year colleges and universities. Lower-division college work consists primarily of general education classes which can be completed and certified at Feather River College. Because Feather River College is accredited by the Western Association of Schools and Colleges, all public California colleges and universities—and most other schools in the country—will accept these certified general education credits when a student transfers to another college.

Students may also complete a variety of lower-division courses at Feather River College that satisfy major requirements or prerequisites at the school to which they intend to transfer. Four-year institutions and their

departments limit the number of units in a specific major which may be taken at the lower-division level. Transfer students should work closely with college advisors/counselors, and consult the current catalog of the college to which they wish to transfer, to identify specific lower-division major requirements and plan a course of study. The final responsibility for class selection and program completion rests with the student.

In general, California four-year colleges and universities require that students complete at least 60 transferable semester units at the community college before they transfer. Usually up to 70 units of community college credit may be applied toward a bachelor's degree, which generally requires 124-132 units. With careful planning, most Feather River College students can qualify for admission to full junior class status when they transfer to other colleges, and concurrently fulfill Associate Degree requirements for graduation from Feather River College.

Transfer Classes: Transferable FRC classes have course numbers that range from 100 to 299. Courses numbered in the 100's generally parallel those offered at the freshman level, and courses numbered in the 200's are generally sophomore level classes. If such courses meet the general education requirements at the transfer school, or are appropriate to a student's major, they will usually be accepted by the transfer school for full credit value. Occupational, vocational and technical courses numbered from 006-099 are Associate Degree applicable courses and generally not accepted by transfer institutions.

California State University (CSU): Students transferring to any campus of the California State University System can complete all lower-division general education requirements at FRC. Students may accomplish this by completing the CSU General Education Breadth Requirements or by completing the Intersegmental General Education Transfer Curriculum (IGETC) before transferring.

A California Community College student applying for admission to the California State University in advanced standing will be given priority over all other applicants if the student:

1. Is a California Community College transfer student.
2. Has completed a total of at least 60 transferable units with a minimum GPA of 2.0 (certain majors and colleges may require a higher GPA) and is transferring with his/ her General Education Certification.
3. Has completed as much lower division major prerequisite coursework as possible.

University of California (UC): Students transferring to a campus of the University of California may either fulfill the lower-division general education requirements of each individual campus or complete the Intersegmental General Education Transfer Curriculum (IGETC).

A California Community College student applying for admission to the University of California in advanced standing will be given priority over all other applicants if the student:

1. Is a California Community College transfer student.
2. Has completed a total of at least 60 transferable units with a minimum GPA of 2.4, and 2.8 for nonresidents, (certain majors and colleges may require a higher GPA) and is transferring with his/her General Education Certification.
3. Has completed as much lower division major prerequisite coursework as possible.
4. Has completed a Transfer Admission Guarantee (TAG) agreement.

Intersegmental General Education Transfer Curriculum (IGETC): Completion of FRC courses that satisfy IGETC requirements will permit students to transfer from FRC to any UC or CSU campus without the need, after transfer, to take any additional lower-division general education courses to satisfy individual campus general education requirements.

University of Nevada, Reno (UNR): Transfer students must complete 24 transferable units with a minimum GPA of 2.5. All undergraduates are required to complete the core curriculum (general education) to graduate from UNR, but all courses do not need to be completed at FRC. If you have an intended major, refer to the current UNR catalog for specific requirements in the core curriculum. UNR will also accept the IGETC or CSU Breath certification in lieu of the core curriculum for non-major specific general education.

General Education/Core Class Identification: FRC classes that satisfy lower-division General Education requirements of California State Universities are designated by initial (CSU) in the course description section of this catalog below unit designations. The UC designation indicates a University of California transferable course.

For more information contact:

Greg McCarthy - Academic Advisor/
Articulation Coordinator
Phone: (530) 283-0202, ext. 288
Fax: (530) 283-9498

CALWORKS

California Work Opportunities and Responsibilities to Kids (CalWORKs) provides support services to people who are receiving TANF (Temporary Assistance to Needy Families) and want to attend Feather River College. Students may be referred by the Department of Social Services or may be self-referred.

Support services include:

- Priority registration
- Job preparation and placement
- Vouchers for books and school supplies
- Workshops for personal and professional development
- Referrals to campus and community services
- Transportation assistance
- Information on Welfare Rights

Students may be enrolled part-time or full-time in a number of areas including GED preparation, vocational education and Information and Communication Technologies.

For more information contact:

Cathy Riley - CalWORKS Coordinator
Phone: (530) 283-0202, ext. 291
Fax: (530) 283-9961
Email: criley@frc.edu

CHILD DEVELOPMENT CENTER

Feather River College's Child Development Center (CDC) provides a welcoming, nurturing, and engaging learning environment for preschool age children, ranging 2-5 years. The CDC offers an enriching child centered setting that allows children to explore and learn through play based education. Following CA Preschool Learning Foundations the emergent style curriculum focuses on social, physical, emotional, and cognitive development. The Center's staff are professionally trained in Early Childhood Education and are credentialed teachers. The Center provides three nutritional meals each day. Eligible student parents or community parents may qualify for our subsidized fee program. Students must be enrolled in 6 or more units with an educational goal. Full-day and part-day options are available. Visit our webpage to apply for the waiting list and to find out more information about the Center's program. The CDC is open Monday through Friday during FRC's Spring and Fall semesters.

For more information or to schedule a tour contact:

Kinderlin Hoznour - Child Development Center Director
Phone: (530) 283-0202, ext. 281 or (530) 283-0521
Email: khoznour@frc.edu

DISABILITY SUPPORT PROGRAM FOR STUDENTS (DSPS)

The Disability Support Program for Students (DSPS) is committed to promoting educational opportunities for students with disabilities. Its goal is to support equal access to classes, programs, educational activities, and facilities, thereby ensuring that all students are able to participate fully in campus life and gain the maximum benefit from the educational experience at FRC. This is accomplished through services and academic accommodations that assist students in meeting college goals and encourage maximum independence, integration, and personal empowerment. Services and accommodations are provided on an individualized basis according to the needs associated with each particular disability, and are determined through an interactive process between students and the DSPS Director. Support through DSPS could include:

- Priority Registration/Registration Assistance
- Specialized Counseling - Academic Counseling/Advising, Disability-Related Counseling, Personal Counseling
- Test Accommodations
 - Extended Time on Quizzes and Exams
 - Distraction Reduced Testing Room
 - Reader
 - Scribe
- Specialized Tutoring
- Notetaking Service/Shared Notes
- On Campus Mobility Assistance/Transportation
- Emotional Support Animal/Approval and Coordination
- Advocacy/Liaison with Instructors, Staff, and Community Resources
- Sign Language Interpreter/Computer Assisted Real-Time Transcription (CART)
- High Tech Center/Alternate Media and Assistive Technology

Students with a disability - learning disability, acquired brain injury, ADD/ADHD, intellectual disability, autism spectrum disorder, mental health disability (PTSD, depression, bipolar, etc.), physical disability, deaf/hard of hearing, blind/low vision, other health disability, or temporary disability - are eligible for services. Students who have had an IEP or a 504 Plan in high school are eligible for services.

To apply for services or discuss support that might be available, stop by the DSPS office, call (530) 283-0202 Ext. 318, or email mlang@frc.edu.

WorkAbility III

WorkAbility III (WAB) is a joint program between Feather River College and the State of California Department of Rehabilitation designed to increase employment opportunities for adults with disabilities. The program provides comprehensive pre-employment assessment and training for disabled individuals who are enrolled at FRC and who meet Department of Rehabilitation criteria. Services may include, but are not limited to:

- Vocational Counseling
- Support Services and Referrals
- Financial Assistance for Books, Supplies, Parking, Mileage, and Tuition/Fees Not Covered by Financial Aid
- Liaison Services with the Department of Rehabilitation
- Job Search, Job Development, and Job Placement Activities
- Assistance in Resume and Cover Letter Preparation
- Assistance in Completion of Job Applications
- Instruction in and Practice for Job Interviews

For more information contact:

Marci Lang - Director of DSPS/WorkAbility III
Phone: (530) 283-0202, ext. 318
Fax: (530) 283-9497
Email: mlang@frc.edu

EXTENDED OPPORTUNITY PROGRAM AND SERVICES (EOPS)

Extended Opportunity Program and Services (EOPS) is a California state-funded program designed to offer additional financial assistance and special support services to help and encourage those students affected by social and economic disadvantages. EOPS is committed to helping students gain access to the resources they need to achieve their academic goals and to succeed in college.

To be eligible for EOPS, a student must be a California resident, maintain a 2.0 grade point average, be enrolled in a minimum of 12 units, demonstrate financial need by qualifying for the California College Promise Grant (formally the Board of Governors Fee Waiver - BOGW), and be determined by the EOPS staff to be educationally underprepared. EOPS applications are reviewed by the EOPS staff for program eligibility.

Some services EOPS students may receive include:

- Educational and career guidance
- Transfer assistance
- Priority registration
- Textbooks
- Meal tickets
- EOPS work study
- CARE services

These services are designed to be "over and above" the services provided to the general student body. The academic progress of EOPS students is regularly monitored. Students are required to have no less than three scheduled EOPS appointments per semester and submit one progress report each semester so that staff and faculty can offer immediate assistance when alerted to obstacles that might be hindering a student's success.

Cooperative Agencies Resources for Education (CARE)

Cooperative Agencies Resources for Education (CARE) provides intensive support services to EOPS students who are single parents with at least one dependent child and are receiving TANF. In addition to EOPS benefits, CARE students receive additional financial support to help with the costs of attending college.

Services include:

- Academic advising/counseling
- Child care assistance
- Books and supplies
- Mileage reimbursement
- Car repair up to \$100/semester,
- Meal tickets
- Cash grants

CARE students must be enrolled full-time in a vocational program likely to lead to employment and maintain satisfactory progress in all classes. Early application through the college EOPS office is advised. All CARE students must also be EOPS eligible.

For more information contact:

Monica Potter - EOPS/CARE Counselor
Phone: (530) 283-0202, ext.354
Fax: (530) 283-9498
Email: mpotter@frc.edu

FOSTER YOUTH SUCCESS INITIATIVE

The FYSI Liaison is a designated person who will provide support for current and former foster youth. The liaison helps youth find resources to go to college, provides a safe and supportive environment, is familiar with the challenges of foster youth, and is committed to helping students access and connect with college and community resources. The liaison will assist with:

- Arranging college tours
- Completing the Admissions Applications
- Completing financial aid/ FAFSA & CHAFEE applications
- Setting appointments for assessment testing
- Applying for the Burton Book Fund
- Priority enrollment
- Connecting students with counseling, tutoring and other programs or services on or off campus

Homeless Services are also available on campus.

For more information about homeless services and foster youth services contact:

Alyia Pilgrim - FYSI Liaison (located in the Financial Aid Office)
Phone: (530) 283-0202 ext. 298
Fax: (530) 283-4659
Email: apilgrim@frc.edu

HEALTH SERVICES

Feather River College provides health services to all its students through a special arrangement with the Plumas County Public Health Agency (PCPHA). Licensed health care providers are available and offer counseling, health education, assessment and/or referral services that include, but are not limited to:

- Pregnancy testing, family planning, and referral as indicated.
- HIV antibody testing, counseling, and education and referral as needed.
- Assessment and referral to community health care providers or hospital emergency room as needed. The Plumas County Public Health Agency does not provide primary or emergent care for issues not in this list, including chronic pain or chronic medical case management.
- Tdap, MMR, Flu and HPV Immunizations for FRC students who qualify for the Vaccines for Children program.
- TB skin testing
- Assessment of health risk behavior, counseling, intervention and/or referral as needed.
- Counseling regarding lifestyle decisions toward greater wellness, including diet, exercise, healthcare intervention, and mental health referrals.
- Assessment of clients for sexually transmitted disease; information and/or referral as needed.
- Assistance in accessing Children Health Disability Prevention (CHDP) Services for eligible adolescents.
- Physical assessment; referral as indicated. Students who have received a physical assessment are allowed up to a maximum of two rechecks for blood pressure and urine checks only.
- Limited over the counter medications at no charge. PCPHA only prescribes medications, lab tests, x-rays or other diagnostic tests necessary for family planning, sexually transmitted diseases, and tuberculosis.

To receive services, students must show their FRC photo identification card with the current semester's validation sticker and they must make an appointment with the Plumas County Public Health Agency (530-283-6330).

Students are responsible for all costs as a result of referral visits, including but not limited to prescription medications, lab tests, x-rays, and any hospital emergency room or patient fees.

Students under the age of 18 must have parental consent to receive services, except family planning services, and must provide documentation of such consent before an appointment is made.

Student Insurance: The College provides students with limited secondary accident insurance coverage in the event of an injury occurring in the course of a college class or activity. All such accidents should be reported immediately to the instructor or staff member in charge of the class or activity, Athletic Trainer, or the Human Resources Office. **It is the student's responsibility to file any insurance claims with their primary carrier, then with the secondary accident insurance.** Claim forms and general information are available at the Office of Human Resources.

For more information contact:

Student Services
Phone: (530) 283-0202, ext.317
Fax: (530) 283-3757

INSTRUCTIONAL RESOURCE CENTER

The Instructional Resource Center (IRC) offers students a variety of services including individualized or group tutoring, writing critiques, instructional assistance in mathematics, the sciences and English as a Second Language. The IRC is staffed by professionals dedicated to helping students achieve academic excellence across the curriculum and personal success.

The tutoring program offers free individual or group peer tutoring in most subjects. This program is an excellent opportunity for students to hone their leadership skills and to gain pre-professional teaching experience by working on campus as tutors. Tutoring information and applications are available in the IRC.

All of the computers in the IRC are networked with the FRC Library, having full access to the Internet and FRC e-mail. Staff will provide students with instruction on finding relevant information for research papers and will assist students in outlining and drafting papers for any college class.

For more information contact:

Dr. Jeanette Kokosinski - IRC Director
Phone: (530) 283-0202, ext.217
Email: jkokosinski@frc.edu

LIBRARY

The library is a pleasant, comfortable, well-lighted facility with areas for group study and individual carrels for students to study or read for pleasure. An audio-visual room allows students to use the media collection in privacy without disturbing others and headphones are available for streaming media playback on the computer workstations.

Thirty computer workstations provide students with high-speed connection to the Internet and the local campus network. Wireless capability throughout the library allows students with their own laptops to access the Internet as well. Quality academic research can be performed using scholarly e-books and electronic databases accessible to students from both on and off campus (an FRC network account is required). Word processing, spreadsheet and other appropriate software applications are available, enabling students to perform research and write their assignments without leaving the library.

The library supports the college curriculum with a collection of over 23,000 books in hardcopy, 10,000 e-books, thousands of print and electronic periodical subscriptions, numerous state, local and national newspapers, and 8,500 video, DVD and streaming media selections. In locating relevant materials for research assignments, students may obtain assistance at the main desk of the library or schedule a research appointment with the library director. Subject-specific research orientations are also delivered in the classroom for courses that particularly emphasize scholarly research.

For more information contact:

Darryl Swarm - Library Director
Phone: (530) 283-0202, ext.236 or 211
Email: dswarm@frc.edu

MENTAL HEALTH AND WELLNESS CENTER

The Feather River Mental Health and Wellness Center offers a variety of services for students, including individual and group counseling, wellness activities and referral services. Clinicians are also available to provide consultation and educational outreaches for staff and faculty.

Counseling services at the Feather River College Mental Health and Wellness Center, like most college counseling centers, are generally short-term. If it appears that long-term services are appropriate, the counselor will assist the student in locating an off-campus provider.

The Center is open Monday through Friday, 8:00 AM-4:30 PM (August-May). The Center is closed during the months of June and July.

To schedule an appointment or to get more information, stop by the office or contact:

Dr. Kelsie Foster - Counselor/
Mental and Behavioral Health
Phone: (530) 283-0202, ext.234
Email: kfoster@frc.edu

STUDENT EMPLOYMENT PROGRAM

Feather River College has a variety of on-campus jobs available to students. Students compete with other students for these jobs. No one is promised a position, and qualifying for Work Study is not a guarantee of employment. Students can work up to 20 hours per week. To be eligible for student employment, students must meet the following criteria:

- Must be enrolled in 6 or more units during the semester of employment.
- Must present appropriate documentation that establishes identity and employment authorization.

Additional information about the student employment program, student employee responsibilities, and on campus student jobs is listed on the Feather River College website at the following link: www.frc.edu/student-services/student-employment.cfm. Jobs are labeled open or closed depending on their current status. Job descriptions linked to the job list show minimum qualifications and preferred scheduling.

Advising/Counseling Center staff can also provide information about part-time and temporary jobs available in the community. Students seeking summer employment or post graduate employment information may find listings in the Center and/or through their faculty advisor.

For more information contact:

Krystal Drybread - Program Staff
Specialist II/Student Services
Phone: (530) 283-0202, ext.313
Fax: (530) 283-9498
Email: kdrybread@frc.edu

STUDENT HOUSING

Student Housing supports the academic mission of Feather River College by providing living environments that enhance the personal growth of students and provides a community atmosphere that complements the educational mission of the College. FRC offers three Housing options. The rent package is the same for all three options, which includes utilities, internet and Direct TV services, and on-site laundry facilities. There is on-site

management and security at each facility. Throughout the year, various student activities are offered to all housing residents. Because there is a high demand for student housing, all bedrooms are double occupancy.

Housing Options Include:

Apartment Style Dorm: Located on campus, the two story apartment style dorm features one-bedroom units shared by two students, and two-bedroom units shared by four students. Each apartment has a bathroom, kitchen area, living room, one bed per student, and a private outside entrance. On-site management includes at least one resident assistant in each building. This facility houses 160 students.

The Pines: Located in the heart of Quincy, the Pines provides a more traditional dorm setting with a community atmosphere. The Pines features double rooms located off three corridors. Each room has a sink, small refrigerator and stove, closet/cupboard space and one bed per student. Two rooms share a small bathroom with a toilet and sink, and all students on each corridor share a common shower facility. Available to all Pines residents is a large, comfortable lounge, recreation room with big screen TV, and group study rooms. On-site management includes an assistant manager and resident assistant. This facility houses 50 students.

Meadows Apartments: Located near downtown Quincy on Buck's Lake Road, the Meadows is an apartment complex that features one-bedroom units shared by two students, and two-bedroom units shared by four students. Each apartment includes a bathroom, kitchen, living room, one bed per student, and a private outside entrance. On-site management includes a resident assistant. This facility houses 28 students.

For more information contact:

Sarah Ritchie - Student Housing Manager
Phone: (530) 283-9414
Fax: (530) 283-5401
Email: sritchie@frc.edu

STUDENT LIFE

Associated Students of FRC (ASFRC)

The Associated Students of FRC (ASFRC) organization is an integral component of Feather River College's shared governance structure. Elected members serve on campus wide committees and assist in organizing social and special interest activities. Elections for ASFRC executive officers are traditionally held in the spring. All students are encouraged to attend the open ASFRC meetings. The ASFRC schedule of meetings is posted at the Associated Student Office located on the lower level of the Campus Center.

Student Activities & Clubs

FRC sponsors a variety of activities designed to reflect the interests of a diverse student population. Several committees, clubs, and service areas sponsor entertaining and educational events and activities throughout the year. Examples of some of the activities include:

- Week of Welcome
- First Year Experience
- Spirit Week
- Chili Cook-Off
- Resource Fair
- Cultural Fair
- Earth Day
- Movies at the local theater

Student clubs are open to all students and provide an opportunity to pursue special interests with those who share them. Clubs may vary from year to year depending on student interests and their formation is actively encouraged. Clubs are required to have a club advisor (an FRC faculty or staff member), and must file for a club charter with the ASFRC.

FRC has also has a Student Ambassador program with paid student leaders who work closely with ASFRC in sponsoring student activities and events.

Students are encouraged to download the FRC app for emergency notifications, to keep updated on college activities and events, and to stay connected with fellow students.

For more information contact:

Jeff Lewis - Student Life Engagement Specialist
Phone: (530) 283-0202, ext.319
Email: jlewis@frc.edu

Intercollegiate Athletics

Feather River College participates in twelve intercollegiate sports. All teams except Football and Rodeo compete in the Golden Valley Conference of the California Community College Athletic Association (CCCCAA). The Football team participates in the CCCCCAA Nor Cal Conference, and Men's and Women's Rodeo teams participate in the National Intercollegiate Rodeo Association..

- Football
- Men's Soccer
- Women's Soccer
- Men's Basketball
- Women's Basketball
- Men's Rodeo
- Women's Rodeo
- Baseball
- Softball
- Volleyball
- Beach Volleyball
- Women's Cross Country
- Women's Track

Intercollegiate Athletic Eligibility: Student-athletes are required to maintain the regulations established by the California Community College Commission on Athletics which include but are not limited to the following:

1. A student-athlete must be continuously and actively enrolled in a minimum of 12 credit units at his/ her community college during the season of sport. Students dropping below 12 units are not eligible for competition until they are once again actively enrolled and attending class in at least 12 units.
2. Of the 12 units, at least 9 shall be attempted in courses counting toward the associate degree, remediation, transfer, and/or certification as defined by the college catalog and are consistent with the student-athlete's educational plan.
3. In order to continue athletic participation in any sport, the student-athlete shall maintain a cumulative 2.0 grade point average in accredited post-secondary coursework completed since the start of the semester/ quarter of the first participation in any sport, regardless of the college attended.
4. To be eligible for the second season of a sport, the student athlete must complete and pass 24 semester units, 18 units must be courses counting toward the associate degree, remediation, transfer, and/or certification with a 2.0 grade point average before the beginning of semester of the second season of completion.

Note: College units mentioned do not apply until the student has first participated in a collegiate sport.

Transfer Rule: A student transferring to a California community college for athletic participation purposes whose last competition was at another California community college must complete 12 units in residence prior to the beginning of the semester/quarter of completion for that college; a maximum of eight (8) units may be from courses completed during the summer session(s) or winter intersession(s). Transfer status is determined by where the athlete last competed, not necessarily where the student last attended. A *Student-Athlete Tracer Form* verifying attendance and competition in intercollegiate athletics and a transcript are required to determine eligibility.

Late Registration: A student athlete must be registered, enrolled, and attending class no later than four (4) weeks after the first day of class instruction in order to represent that California community college in athletic competition during that season.

IMPORTANT: The eligibility requirements are very rigorous. Athletes are strongly advised to become knowledgeable with them in order to avoid loss of eligibility. All interested students are urged to meet with the Athletic Advisor and/or contact the Athletic Department at the beginning of the school year to learn the requirements.

FRC Athletic Participation Requirements: The Feather River College Athletic Department requires the following processes be completed by each student-athlete prior to participating in any FRC athletic activity.

1. **Attend Mandatory Athletic Orientation** to obtain athletic rules and regulations, complete required forms, and become familiar with the Athletic Code of Conduct and individual Team Rules.
2. **Complete a Sports Physical** to be released to participate.
3. **Complete the Following Forms:**
 - Felony Form - must be currently Felony free.
 - Release of Liability Form
 - Travel Release Form
 - Release of Information Form
 - Eligibility Form 1
 - Tracers, if needed, along with official transcripts

Feather River Fitness

Feather River Fitness (FRF) is a fitness and health center owned by the Feather River College Foundation and operated by Feather River College. FRF offers a full line of Cybex equipment, a strength training room, free weights, treadmills, elliptical machines and stationary bikes. The center also offers a full locker room with towel service, sauna, and Jacuzzi. An outdoor pool is available during the summer months. Exercise classes are offered throughout the day and include Tabata, Yoga, Cardio Cycle, Body Blast and Gentle Fit. FRC students are offered memberships at a discounted rate.

For more information contact:

TRIO-SSS

Student Support Services (SSS) is a program of TRiO, a federally-funded student support program designed to assist first-generation, low-income and disabled students who plan on graduating with an associate degree or certificate and transferring to a four-year university. TRiO provides students with a variety of services designed to create an academically focused environment. These services include:

- Academic, Career and Transfer Advising
- Priority Registration
- Mentoring - Tutoring
- Transfer Trips to Four Year Campuses
- Transfer Application Assistance
- Financial Literacy Workshops
- Assist in Completing the FAFSA
- Scholarship Opportunity
- Study Room and Computer Lab
- Cultural Events

Staff is available to discuss eligibility requirements for this comprehensive program and will make every effort to meet students' graduation and transfer needs.

For more information contact:

Gretchen Baumgartner - Director/TRiO-SSS
Phone: (530) 283-0202, ext.221
Fax: (530) 283-9498
Email: gbaumgartner@frc.edu

VETERANS SERVICES

Location: The Veterans Certifying Officials are located in the Financial Aid Office.

Our Certifying Officials assist students who have served in the branches of the U.S. Armed Forces as well as dependents of veterans who have served. Veterans may be eligible for priority registration after eligibility criteria has been confirmed by the Certifying Official.

Certifying Officials will be able to assist students in the following areas:

1. Priority Registration: Veterans may be eligible for priority registration after eligibility criteria has been confirmed by providing a copy of the DD Form 214 Member 4 Copy or NOBE to the Certifying Official.
2. GI Bill/Education Benefits: Offer assistance with applying for veterans education benefits, verify and certify enrollment to the VA.
3. Fee Waivers: process Dependent Fee Waivers that have been approved by local county Veteran Services Offices. (More information on applying can be found at www.calvet.ca.gov).

Eligibility: Feather River College has been approved by the U.S. Department of Veterans Affairs to offer benefits of higher education to veterans, reservists and eligible dependents (including step-child or adopted child). These benefits are available through the following programs:

- The Montgomery GI Bill-Active Duty (**Chapter 30**)
- Veterans Educational Assistance Program - VEAP (**Chapter 32**)
- Post-9/11 GI Bill (**Chapter 33**)
- Survivors' and Dependents' Educational Assistance Program (**Chapter 35**)
- Montgomery GI Bill - Selected Reserve (**Chapter 1606**)
- Reserve Education Assistance Program - REAP (**Chapter 1607**)
- Educational Assistance Test Program (**Chapter 901**)

How to Apply:

- Apply Online at www.vets.gov/education/apply
- Call 1-888-GI-BILL-1 (888-442-4551) to have the application mailed to you.
- Consult with the VA Certifying Official located in the Financial Aid Office.

Student Responsibilities: Before benefits are received the student must provide the VA Certifying Official with the following:

- Completed Educational Plan through an Academic Advisor/Counselor
- Transcripts of all previous coursework
- A copy of your DD Form-214 Member 4 Copy or the veterans DD Form 214 Member 4 Copy for dependent students
- Completed assessment test
- Any additional forms requested by the Certifying Official

Each semester the student must meet with:

- Certifying Officers to complete additional paperwork

Report any changes in enrollment or academic status which may affect VA benefits to the Veterans Certifying Officials at FRC. When changes are not reported, the result is often underpayment or overpayment of VA benefits.

Benefit Coverage: When applying for benefits the student must declare an eligible major. For a list of eligible majors you may use the VA's WEAMS Institution Search tool www.benefits.va.gov/gibill/school_locator.asp. Payment of educational benefits is based on the number of units in which a student is enrolled. Benefits will be paid only for courses required for that degree. Once a satisfactory grade has been earned, the student may not receive benefits for a repeated course.

**Benefits are restricted on some types of courses. Students should always check with the Certifying Official on campus before registering for courses.*

Satisfactory Academic Progress: The Veterans Administration requires that students receiving education benefits maintain satisfactory progress toward a degree. Veterans or dependents who become academically dismissed must follow the school's criteria for reinstatement after academic dismissal. For guidance regarding Probation, Dismissal and Readmission, please refer to the Academic Policies & Procedures section of the catalog. Under these policies it is possible that a veteran or dependents' VA educational benefits could be suspended due to unsatisfactory progress while they are still technically in a probationary status with the college and allowed to continue in attendance.

***Course Repetition:** *A course may be repeated for VA benefits only if repetition is necessary to successfully satisfy specific major requirements. Veterans may repeat a class more than once and receive VA educational benefits if the condition which required the initial repetition still exists.*

VACA Nonresident Enrollment Fee Exemption Form: In compliance with Section 68075.7 of the California Education Code, Feather River College will grant a full exemption from the nonresident enrollment fee to all students **verified** to be "covered individuals" that are eligible to use Montgomery GI Bill-Active Duty or Post-9/11 GI Bill education benefits (Chapters 30 and 33, respectively, of Title 38, U.S. Code) **while living in California.**

For more information on the eligibility for VACA Nonresident Tuition Exemption please refer to Admissions.

College Fee Waiver Program for Dependents of Veterans: The dependent child, spouse or unmarried surviving spouse of a service connected disabled or deceased veteran may be entitled to tuition and fee waiver benefits at Feather River College. The program is administered by the California Department of Veterans Affairs. Eligible students do not need to be drawing the GI Bill, but may be required to meet certain income requirements to qualify. To apply for a Veterans College fee waiver, download an application on www.calvet.ca.gov/VetServices/Pages/College-Fee-Waiver.aspx, then go to your local County Veterans Service Office.

COLLEGE POLICIES

ACADEMIC POLICIES AND PROCEDURES

Probation

Notification of Probation

Each student is entitled to be notified of his/her academic challenges/difficulty and the availability of college support services to respond to the academic challenges/difficulty before the student is dismissed. Notification will consist, at a minimum, of the following: After a student has attempted 12 units of work and at the end of the semester in which the student's grade point average falls below 2.0 in all units attempted, a notice that the student is on probation shall be sent to the student informing him/her that he/she is on academic probation and that he/she must see a counselor to develop a plan for improvement. "All units attempted" is defined as all units of credit for which the student is enrolled in at the community college that they attend.

If the percentage of a student's recorded entries of "W," "I," "NC" and "NP" reaches or exceeds 50% of all units in which a student has enrolled, the student shall be placed on progress probation.

At the end of the third semester on which the student is on academic or progress probation, a notice that the student is subject to dismissal will be sent to the student informing him/her that he/she is subject to dismissal.

Probationary Letter

The letter notifying the student of probation will cover, at a minimum, the significance of being on probation and description of the services available.

Extension of Probation

A student who is on academic probation and earns a semester grade point average of 2.0 or better shall not be dismissed as long as this minimum semester grade point average is maintained, even if the student's cumulative GPA is less than 2.0.

Dismissal and Readmission

Standards for Dismissal

A student who is on academic probation shall be subject to dismissal if the student has earned a cumulative grade point average of less than 2.0 in all units attempted in each of three consecutive primary semesters (Fall and Spring). A student who has been placed on probation shall be subject to dismissal if the percentage of units in which the student has been enrolled for which entries

of "W," "I," "NC," and "NP" are recorded in at least three consecutive primary semesters (Fall and Spring) reaches or exceeds fifty percent (50%).

Dismissal Letter

The letter notifying the student that he/she is subject to dismissal will cover, at a minimum, reference to this procedure, explanation of what dismissal means, procedure for reinstatement, and procedure to appeal the dismissal.

Appeal of Dismissal

The student has the right to appeal a proposed dismissal action if the student feels that facts exist that warrant an exception to the dismissal action. The student must file the written petition of appeal with the Chief Student Services Officer (CSSO) (or designee) within 40 working days after the dismissal letter was mailed. If the student fails to file a written petition within the 40 working days, the student is officially dismissed. The student has the option to file a petition of appeal at least 30 working days prior to any future semester in which they intend to enroll.

It is the student's responsibility to indicate on the petition a clear statement of the grounds on which continued enrollment should be granted and to provide evidence supporting the reasons. Petitions will be reviewed by the Satisfactory Academic Progress (SAP) Committee. The student will be continued on probation until the SAP Committee decides on the student's appeal.

The decision of the SAP Committee will be communicated to the student in writing by the CSSO (or designee) within 15 working days of receipt of the student's appeal. The student may appeal the decision of the SAP Committee in writing to the Superintendent/President (or designee) within 10 working days of the date of notification of the decision of the SAP Committee. The decision of the Superintendent/President is final.

If the dismissal appeal is granted, the student will be continued on probation for an additional semester. At the end of the additional semester, the student's academic record will again be evaluated to determine whether the student may be removed from probation, should be dismissed, or should be continued on probation.

Academic Renewal

The purpose of Academic Renewal is to disregard a student's past substandard academic performance when such work is not reflective of their current demonstrated ability. It is based on the recognition that due to unusual

circumstances or circumstances beyond the student's control, the past substandard work will negatively affect their academic standing and unnecessarily prolong the rate at which they complete their current objectives.

If specific conditions are met, Feather River College may disregard the grades earned during a particular period of time from all consideration associated with the computation of a student's cumulative grade point average (GPA). This process is limited to no more than 30 units of coursework taken at any college for graduation. These conditions are:

1. The coursework to be disregarded is substandard. The total GPA of the semester is less than 2.0 units.
2. A minimum of two (2) semesters with at least eighteen (18) units having been completed at Feather River College with a cumulative GPA of 2.0 or better subsequent to the coursework to be disregarded.
3. At least 12 months have elapsed since the most recent coursework to be disregarded.
4. All substandard coursework shall be disregarded except those courses required as a prerequisite or to satisfy a requirement in the student's redirected educational objective.
5. Credit for courses from other colleges or universities may be disregarded in order to meet the GPA requirements for an associate degree or certificate of achievement toward graduation.

NOTE: It is important to understand that all coursework will remain legible on the student's permanent records (transcripts), ensuring a true and complete academic history. However, the student's permanent records will be annotated so that it is readily evident to all users of the records that the substandard units, are to be disregarded. This notation will be made at the time that the academic renewal has been approved by the Admissions & Records Office.

If another accredited college has acted to remove previous coursework from consideration in computing the grade point average, such action shall be honored in terms of its policy. However, such units disregarded shall be deducted from the 30 semester unit maximum of coursework eligible to be disregarded at Feather River College.

Students requesting removal of previous coursework for certificate or degree consideration must file a petition in the Admissions & Records Office. The petition shall outline the term or consecutive terms of coursework to be disregarded and shall include evidence verifying (a) that work completed during the period is substandard, and (b) at least twelve (12) months has elapsed since completion of most recent coursework to be disregarded.

The Chief Instructional Officer shall act on the petition and return it to the Admissions & Records Office for entry

of the proper annotation on the student's permanent record. Academic renewal actions are irreversible.

NOTE: This policy does not directly apply to the Financial Aid Academic Progress requirements. The Financial Aid Academic Progress requirements must be met for students to qualify for financial aid. Students must submit financial aid appeals directly to the Financial Aid Office for reinstatement of their aid eligibility.

Academic Integrity

Students of Feather River College are expected to behave as responsible members of the college community and to be honest and ethical in their academic work. FRC strives to provide students with the knowledge, skills, judgment, and wisdom they need to function in society as educated adults. To falsify or fabricate the results of one's research; to present the words, ideas, data, or work of another as one's own; or to cheat on an examination corrupts the essential process of higher education.

The following guidelines will assist students in upholding academic integrity:

- Students assume full responsibility for the content and integrity of the coursework they submit and are responsible for adhering to coursework requirements as specified by the instructor in the course syllabus.
- Students must follow all written and/or verbal instructions given by instructors or designated college representatives prior to taking examinations, placement assessments, tests, quizzes, projects, reports, and other forms of evaluating student learning.
- Students may collaborate or cooperate with other students on graded assignments or examinations as directed by the instructor.

Any faculty member who has evidence of an act of dishonesty shall attempt to resolve the matter informally by speaking with the student, and may file a Student Incident Report with the Chief Student Services Officer (CSSO). Depending on the seriousness of the offense and/or the number of instances of academic dishonesty by the same student, the CSSO may take appropriate disciplinary action.

Grade Changes

The determination of the student's grade by the instructor shall be final in the absence of mistake, fraud, bad faith, or incompetence. A student who feels that an instructor has given an evaluative grade based on one or more of these conditions, and has evidence to substantiate the claim, may pursue an appeal by following the Student Complaints and Grievance Procedure. Students requesting a change of grade on the basis of mistake, fraud, bad faith, or incompetence must begin the appeal process within one year from the end of the semester in which the course was taken.

Limitations on Remedial Courses

Feather River College has established the following criteria for enrollment of students in remedial, pre-collegiate basic skills coursework:

1. The need for remedial coursework is determined through appropriate assessment instruments and advising process.
2. A student may not accumulate more than 30 semester units of remedial coursework at FRC.
3. Remedial coursework taken at another community college will not be included in the 30 units of remedial coursework permitted at FRC.
4. Students enrolled in one or more courses of English as a Second Language and students identified by the appropriate instruments, methods and procedures to have a learning disability are exempt from the 30 unit limitation.
5. A student who does not obtain full eligibility status for college level courses after completing 30 semester units shall be dismissed and referred to adult noncredit education courses. Dismissal shall be in accordance with the District's dismissal policy.
6. After dismissal, the student may, upon completion of the appropriate noncredit education courses or upon demonstration of appropriate college-level skills, request reinstatement. Reinstatement will be in accordance with the District's reinstatement policy.
7. Students should be aware that all remedial coursework may not be applied toward their degree.

STUDENT POLICIES AND PROCEDURES

The following policies and procedures pertain to conduct and should be noted by all students. The full text of these policies and procedures is located in Board Policy and Administrative Procedures and can be found on the FRC website at www.frc.edu/administration/board-oftrustees.cfm.

Standards of Student Conduct

Admission to Feather River College carries with it the presumption that the student will conduct him/herself as a responsible member of the College community. Thus, when a student is admitted to and/or enrolled at FRC, the student likewise assumes the obligation to observe standards of conduct which are appropriate to the pursuit of educational goals. It is expected that each student will obey Federal, State, and local laws, will show respect for properly constituted authority, and will exhibit and maintain integrity and honor in all manners related to the College. Violations of student conduct and other disruptive behavior are reported

to the Chief Student Services Officer who in turn may take appropriate disciplinary action when the conduct is deemed to be disruptive to the operation of the College.

Student behavior, which after due process is found to be disruptive to classes or the general operation of the College, or to violate the rights of others or damage/destroy property, may result in disciplinary action including probation, suspension, or expulsion.

The following shall be subject to disciplinary procedures:

- Academic dishonesty such as cheating and plagiarism.
- Illegal possession or use of any firearm, explosive, dangerous chemical or other weapon.
- Threatening, harassing, physically abusing or endangering in any manner the physical or mental health and/or safety of any person.
- Theft, willful destruction, damage, or misuse of any college property or any property belonging to or in possession of any person.
- Under the influence of a controlled substance or alcohol.
- Disruption of the orderly process of activities of the College.
- Unauthorized entry into, obstruction of, or occupation of any college property.
- Dishonesty such as forgery, knowingly furnishing false information, alteration or misuse of College documents and records.
- Unauthorized and inappropriate use of College computers and network systems.
- Violation of any criminal, state or federal law including sexual assault or violation of the Affirmative Consent law.

Student Complaints and Grievance Procedures

This procedure provides a prompt and equitable means of resolving general student complaints and grievances, and is available to any student who reasonably believes a college decision or action has adversely affected his or her rights as a student.

All complaints or grievances about general harassment and unlawful discrimination and sexual harassment are handled by the Director of Human Resources, who is the District's single point of contact for these issues.

All complaints and grievances related to instructional issues including grade changes are handled by the Chief Instructional Officer.

All other general complaints and grievances begin with an informal and confidential discussion with the Chief Student Services Officer (CSSO), or in the case the CSSO is the subject of the complaint, the Chief Instructional Officer (CIO). The CSSO will then determine how the complaint or grievance will be

resolved, and follow the process through resolution according to prescribed timelines. If any administrator (Superintendent/President, Chief Instructional Officer, Director of Facilities/CTO, Director of Human Resources/EEO, Athletic Director, Chief Financial Officer) receives a written complaint for any reason, the CSSO must be notified to assure all timelines are met, and resolution is logged in the student complaint log.

Students must notify the CSSO in writing of their intent to file a written complaint or grievance within 6 months of the incident(s). This written notification can be in the form of a letter or email to the CSSO.

Students must file a written formal complaint within 30 working days of notifying the CSSO using the *Student Complaint/Grievance Form*, which can be obtained from the Student Services Office.

In order to maintain accurate records, administrators who receive a written complaint/grievance must provide a copy of the complaint to the CSSO within 5 working days of receipt. Upon receipt of a written complaint/grievance the CSSO or designee must complete an investigation and render a decision in writing to the student within 30 working days; OR in the case that this deadline cannot be met, the CSSO will notify the student in writing within 30 working days; OR, in the case the grievance/complaint is the responsibility of another administrator, assure that all timelines are met according to policy.

Discrimination and Harassment

It is the policy of Feather River College to provide an educational, employment, and business environment in which no person shall be subjected to unlawful discrimination and/or harassment of any kind, nor unlawfully denied full and equal access to the benefits of any program or activity of the College. Questions or disputes regarding the college's compliance with nondiscrimination policies, EEO, Title IX and Section 504/ADA should be directed to the Director of Human Resources. Individuals that believe they have been subjected to discrimination or harassment, including sexual harassment, and violations of the Affirmative Consent Law, should report their concerns to:

Director of Human Resources/EEO Officer
570 Golden Eagle Avenue
Quincy, CA 95971
(530) 283-0202, ext. 280

Campus Regulations and Restrictions

Alcohol and Illegal Drugs: Feather River College is a Drug-Free Campus. Unlawful manufacture, distribution, dispensation, possession or use of a controlled substance as defined in Schedules I-V of section 202 of the Controlled Substance Act (21 U.S.C. 812), or unlawful use of alcohol, is prohibited on campus and at college-sponsored activities. Violators of this policy are

subject to disciplinary action, which may include referral to an appropriate rehabilitation program, suspension, expulsion, or dismissal.

Animals on Campus: It is prohibited for any person to permit any pet or animal which is owned, harbored, or controlled by such person to be on the premises of the FRC campus, unless the animal is a guide dog for the blind, a service dog in the company of its owner, or unless the animal is participating in a college approved instructional activity with permission from the college administration.

Horses are not allowed on lawns or athletic fields unless the horse is participating in a college approved instructional activity with permission from the Director of Facilities. Damage caused by unauthorized activity of an animal on Feather River College property is the responsibility of the rider or individual in control of the animal.

An emotional support animal must be approved through the Disability Support Program for Students (DSPS) to be on campus with its owner/handler as an accommodation necessary in the educational process.

Children on Campus: Children under the age of 16 who are not officially enrolled in classes, employed by the college, or participating in an organized activity targeted to children must be actively supervised by a parent, guardian, or responsible adult while on District property. Furthermore, children (as defined above) are not allowed in areas where their presence is disruptive or where health, safety, and liability risks are identified. Children are not permitted as passengers in any form of District transportation unless they are registered in the class or program for which the transportation is being used, including but not limited to golf carts, college vans, maintenance trucks, and buses.

Computer and Network Use: The ability to use Feather River College computing systems and software, as well as internal and external data networks, is an important privilege for all members of the College community. The preservation of that privilege requires that each individual faculty member, staff member, administrator and student comply with all established College policy and procedures for appropriate use, including all relevant federal, state, and local laws. These include laws of general application such as libel, copyright, trademark, privacy, obscenity and child pornography laws as well as laws that are specific to computers and communication systems, such as the Computer Fraud and Abuse Act and the Electronic Communications Privacy Act.

A copy of the Computer and Network Use Agreement is provided when individual network accounts are established. It is the duty of every College employee and student using FRC's computing resources to fully understand their responsibilities as stipulated in the Computer and Network Use Agreement. Violations of College procedures may result in progressive disciplinary

action, including the loss of computer use privileges, dismissal from the College, and legal action. Additionally, specific violations may constitute a criminal offense.

Firearms and Weapons: Firearms or other weapons are prohibited on any property under jurisdiction of the District or in any facility of the District except for activities conducted under the direction of District employees as authorized by an official law enforcement agency.

Smoking/Tobacco: It is the intent of the Feather River Community College District to become a tobacco free environment by the 2020-2021 academic year. It is also acknowledged that tobacco is a highly addictive habit and personal behaviors cannot change immediately. The use of any tobacco product, including electronic smoke or smoke-free devices, are prohibited in all buildings on campus, all college facilities, all college-owned vehicles, and within 20 feet of any entrance, exit and operable window. Smoking and the use of tobacco products are only allowed in the designated smoking areas on campus.

Parking Regulations

Students utilizing FRC parking facilities must purchase a parking permit. The permit must be displayed in the lower left hand corner of the vehicle windshield. Citations are issued for vehicles not displaying a valid parking permit.

Students are allowed to park only in designated parking areas. Parking in unauthorized areas is cause for having a vehicle towed at the owner's expense. Parking is permitted between the hours of 6 a.m. and 10 p.m. on designated class days. Hours are extended only for special college sanctioned activities.

Parking or loitering on campus after 10 p.m. or after the conclusion of special events is prohibited. Overnight parking is prohibited without advance approval of the Business Office. Any vehicle left parked for more than 72 hours will be cited as abandoned and towed at the owner's expense.

In the event of mechanical failure, vehicles must be removed from college property as soon as possible. Vehicle repair, other than emergency repair, is prohibited in campus parking areas.

Students are urged to lock unattended vehicles. Parking on FRC property is at the risk of the owner. FRC assumes no liability for damage or theft of vehicles or their contents.

Students are to adhere to all traffic signs and posted speed limits. Maximum speed is 15 mph.

All student-operated motor vehicles must remain on paved campus roadways. All wheeled modes of transportation (including all vehicles, bicycles, motorcycles, skateboards and roller skates or blades) are prohibited in buildings and may not be ridden on campus paths, walkways, and grassy areas.

Special permits are required for any upper campus parking. Information is available at the campus switchboard or Maintenance Office.

FRC enforces traffic and parking regulations on-campus by the authority granted by the California Vehicle Code, section 21113. Violators are subject to citations.

The complete text of the FRC Vehicle Use, Parking and Traffic Regulations is available at the Business Office.

Disabled Student Parking: Any student or employee of FRC who possess a disabled permit/plate issued by the Department of Motor Vehicle can park in specially marked disabled spaces on campus. The CHP routinely patrol disabled parking spaces on campus and may require proof of disability. A disabled parking permit/plate does NOT guarantee or reserve a disabled parking space. These parking spaces are available only on a first-come, first-serve basis. Even though the college meets State of California requirements for the number of disabled parking spaces, the availability of these parking spaces may be insufficient at certain times of the day. DSPS provides rides to the upper campus for disabled students. Please contact the DSPS office at (530) 283-0202, ext. 255 to make transportation arrangements.

A disabled parking permit does NOT entitle you to park in the spaces reserved for wheelchair-only parking, unless your permit specifically designates this type of parking. ANY vehicle in a wheelchair-only parking space will be ticketed unless that vehicle is specifically authorized to park in this space. Parking is prohibited in the loading zone in front of Human Resources. This is strictly for commercial purposes.

The disabled permit must be clearly displayed in the vehicle while the vehicle is parked in disabled parking spaces. If the permit is not displayed the student/employee will be held responsible for any parking ticket received.

Students/employees with a disabled permit/plate must also purchase and properly display an FRC parking permit.

EARNING A DEGREE AT FRC

PHILOSOPHY AND CRITERIA FOR ASSOCIATE DEGREES

General Education must account for a minimum of 18 semester units and up to 24 units of a student's overall college units, in the following arrangement.

Area A: Communication and Language: Courses in communication and language are those that develop for the student the principles and applications of language toward logical thought, clear and precise expression and critical evaluation of communication in whatever symbol system the student uses.

Area B: Natural Science and Quantitative Reasoning: Courses in the natural sciences are those that examine the physical universe, its life forms, and its natural phenomena. To satisfy the General Education requirement in natural sciences, a course shall be designated to help the student develop an appreciation and understanding of the relationships between science and other human activities. This category would include introductory or integrative courses in astronomy, biology, chemistry, general physical science, geology, mathematics, physical geography, physical anthropology, physics and other scientific disciplines.

Area C: Humanities: Courses in the humanities are those that study the cultural activities and artistic expressions of human beings. To satisfy the General Education requirement in the humanities, a course shall be designed to help the student develop an awareness of the ways in which people throughout the ages and in different cultures have responded to themselves and the world around them in artistic and cultural creation, and help the student develop aesthetic understanding and an ability to make value judgements. Such courses could include introductory or integrative courses in the arts, foreign languages, literature, philosophy, and religion.

Area D: Social and Behavioral Sciences: Courses in the social and behavioral sciences are those that focus on people as members of society. To satisfy the General Education requirement in social and behavioral sciences, a course shall be designed to develop an awareness of the method of inquiry used by the social and behavioral sciences. It shall be designated to stimulate critical thinking about the ways people act and have acted in response to their societies and should promote appreciation of those societies and how social subgroups operate. This category would include introductory or integrative survey courses in cultural anthropology, cultural geography, economics, history, political science, psychology, sociology and related disciplines.

Area E: American Institutions: One course as defined by the Curriculum Committee and specified in the college catalog.

Area F: Wellness: As defined by the Curriculum Committee and specified in the college catalog.

Students pursuing an associate degree shall have the option of substituting the California State University (CSU) Breadth General Education or the Intersegmental General Education Transfer Curriculum (IGETC) requirements for the college's General Education requirements.

PHILOSOPHY AND CRITERIA FOR BACCALAUREATE DEGREES

Students completing a baccalaureate degree shall complete the CSU General Education pattern or Intersegmental General Education Transfer Curriculum general education pattern.

The college shall require a minimum of six additional semester units of upper division General Education courses. Upper division General Education courses should come from at least two disciplines outside of the major, one of which must have an emphasis in written communication, oral communication or computation. The Curriculum Committee shall define the relevant upper division coursework required at the college for completion of a baccalaureate degree.

Upper division courses are defined as requiring lower division knowledge and applying that knowledge as demonstrated measures of critical thinking through writing, oral communication or computation. Upper division coursework may also encompass research elements, workforce training, apprenticeships, internships, required practicum or capstone projects. Upper division courses typically will have one or more lower division or upper division prerequisites that have been established using content review of the entry skills necessary to be successful as outlined in Title 5, Section 55003.

Courses that have been designated as upper division are only intended to be applicable to baccalaureate degrees.

ASSOCIATE DEGREE REQUIREMENTS

To graduate with an Associate Degree from Feather River College a student must:

1. Complete a minimum of 60 semester units (or greater if required by the major). In order to submit a *Degree/Certificate Graduation Application*, a student must either: 1) have completed a minimum of 12 semester units at FRC and be enrolled at FRC during the semester the student submits the application, OR 2) have previously completed a minimum of 32 units of associate degree applicable units at FRC.
 - A minimum of 24 semester units of FRC General Education Core courses selected from areas A through F must be completed or completion of either the CSU Breadth Requirements or the IGETC.
 - Students must successfully complete with a "C" or better English 101 (Composition & Reading) and one 4-unit Math course at the level of Math 18 (Intermediate Algebra) or higher.
 - Complete all courses required for the major with a "C" or better in each course.
 - A maximum of 12 semester units of Pass/No Pass grades may be applied to the Associate Degree but no Pass/No Pass grades may be applied to courses required for the major except in cases where required courses are only available with a Pass/No Pass option.
 - A maximum of 16 semester units of Cooperative Work Experience (CWEE 102-122), or a maximum of 6 semester units of General Work Experience (CWEE 010) may be applied to the Associate Degree.
 - Students may count a maximum of 6 units of activity courses as electives towards the total number of units required for an associate degree. Students should be aware of transfer limitations on some activity classes. Please work with an academic advisor.
 - Courses numbered in the 001-005 and all noncredit courses may not be applied to the Associate Degree.
 - Students may use up to two (2) courses (not to exceed eight units total) required for their major to also meet General Education requirements.
 - Students completing an associate degree for transfer (AA-T or AS-T) can use as many courses as are permitted by the degree to count toward the general education and major requirements.
 - Students completing a high unit major (24 or more units) can use up to 16 units of coursework as permitted by the degree to be counted towards the general education and major requirements.

2. Maintain a minimum cumulative grade point average (GPA) of 2.0.
3. Submit a completed Degree/Certificate Graduation Application to the Admissions & Records Office before the published deadline. Following a review of the student record to determine that all requirements have been met, a letter will be sent to the student by the Admissions & Records Office with important graduation information.

CERTIFICATE REQUIREMENTS

FRC offers an array of occupational certificate programs that provide a course of study preparing students directly for employment or self-employment upon completion of the program. Generally, certificate programs are developed through the collaboration of faculty and industry leaders who serve on Advisory Committees for the occupational disciplines. There are three types of certificates recognized by the College: Certificates of Achievement (usually 18 or more units), Certificates of Specialization (usually fewer than 18 units, not posted to the student's transcript), and Certificates of Completion (for non-credit certificates). Please work with your advisor and program faculty to establish an education plan that allows you to reach your goal.

In order to earn a certificate, you must meet the following requirements:

- No more than 50% of certificate's units may be taken at another college.
- Maintain a minimum cumulative grade point average of 2.0 for both Certificates of Achievement and Certificates of Specialization.
- All courses taken toward the completion of a certificate must be taken for a letter grade, except where courses are only available with a Pass/No Pass (P/NP) option.
- Submit a completed Degree/Certificate Graduation Application to the Admissions & Records Office before the published deadline. Following a review of the student record to determine that all requirements have been met, a letter will be sent to the student by the Admissions & Records Office with important graduation information.

CATALOG RIGHTS

Catalog rights refer to the right of every student maintaining continuous enrollment at FRC to choose one, and only one, catalog under whose course requirements the student is to be evaluated for the purpose of determining whether the student meets FRC graduation requirements. Students maintaining continuous enrollment may select the catalog which was in effect when the student initially enrolled at FRC or any catalog in effect thereafter through and including the semester when the student applies for graduation. Continuous enrollment in this instance is defined as completing at least one course in each academic year.

MULTIPLE MAJORS

The following rules apply to granting multiple majors:

1. The General Education Core to be used must match those stipulated under Catalog Rights
2. Major course work may be divided into two parts:
 - Courses required for the major (core) and
 - Courses listed as electives for the major. A particular major may, for example, require 24 units of major core, and 6 units of major electives. By this policy, 2 major elective units used in one major may be used to satisfy elective units for other majors.
3. Coursework applied to the General Education section, of an initial degree or majors may be used to satisfy the General Education section of multiple degrees or majors.
4. Additional degrees may be earned after the completion of a minimum of twelve (12) additional units of required courses in the subsequent major.

AMERICAN INSTITUTIONS EDUCATION CODE REQUIREMENT

EXECUTIVE ORDER 405 AMERICAN INSTITUTIONS: *(One from each group)*

US-1: HIST 108, 110

US-2 and US-3: POL 101 (satisfies both)

INTERSEGMENTAL GENERAL EDUCATION TRANSFER CURRICULUM (IGETC)

Completion of all the requirements in the Intersegmental General Education Transfer Curriculum (IGETC) will permit a student to transfer from a community college to a campus in either the California State University (CSU) or the University of California (UC) system without the need, after transfer, to take additional lower-division, general education courses to satisfy campus general education requirements.

All courses must be completed with grades of "C" or better. Consult with your counselor/advisor for more detailed information.

AREA 1 ENGLISH COMMUNICATION | 6-9 UNITS

CSU: Three courses required, one from each group below

UC: Two courses required, one from Group A and one from Group B below

Group A: English Composition - 3 units English 101

Group B: Critical Thinking - 3 units
English 103

Group C: Oral Communication - 3 units (CSU only)
English 120

AREA 2 MATHEMATICAL CONCEPTS AND QUANTITATIVE REASONING | 4 UNITS

CSU/UC: One course from below

Mathematics: +110, +116, 202, 218, 220

AREA 3 ARTS AND HUMANITIES | 9 UNITS

CSU/UC: Three courses from below, one must be from Arts and one from Humanities.

Arts:

Art 100, 124, 166, 172, 174

English 128

Humanities 100, 101, 128

Music 101

Humanities:

English 180, 245, 256, 257, 277

History 108, 110, 111, 112

Humanities 110, 112

Philosophy 100, 102, +103

+Indicates that transfer credit may be limited by either UC or CSU or both. Please see Assist for details at www.assist.org.

AREA 4 SOCIAL AND BEHAVIORAL SCIENCES | 9 UNITS

CSU/UC: Three courses from at least two disciplines

Anthropology: ANTH 100, +103, 106, 150

Business: BUS 106, 108

Early Childhood Education: ECE 162

Geography: GEOG 104

History: HIST 108, 110, 111, 112, 120, 130, 140

Political Science: POL 101, 130, 140, 160

Psychology: PSY 102

Sociology: SOC 100, 102, 140, 160

+Indicates that transfer credit may be limited by UC or CSU or both. Please consult with a counselor/advisor.

AREA 5 PHYSICAL AND BIOLOGICAL SCIENCES | 7-9 UNITS

CSU/UC: At least two courses, one from 5A and one from 5B.
One course must have a lab identified by “*”

- 5A Physical Science:
Chemistry 102*, 104*, 106*
Environmental Studies 142, 142L*
Geology 102*, 104* Geography 102
Physics 102*, 104* Physical Science 120
- 5B Biological Science:
Anthropology 120, 120L*
Biology 100*, 102*, 104*, 106*, 210*

AREA 6 LANGUAGE OTHER THAN ENGLISH | 4-5 UNITS

(UC Requirement Only)

Must complete two years of high school level work in the same foreign language with a grade of “C” or better OR earn a score of 3 or higher on a foreign language Advanced Placement test OR 550 on the College Board Achievement Test in Foreign Language OR complete 4-5 units from the courses below:

- American Sign Language 132
- French 102, 201
- Spanish 102, 201, 204

U.S. HISTORY, CONSTITUTION AND AMERICAN IDEALS (CSU Requirement Only)

NOTE: This requirement is NOT part of IGETC, but it may be completed prior to transfer.

CSU-Group 1: Historical Development of American Institutions and Ideals (HIST 108, 110) CSU-Group 2: U.S. Constitution and Government (POL 101)

UNIVERSITY OF NEVADA, RENO

Completion of either the Intersegmental General Education Transfer Curriculum (IGETC) or the California State University Breadth Requirement (CSU), or the Associates of Arts for Transfer (AA-T) or the Associates of Science for Transfer (AS-T) may satisfy the lower-division general education requirements at UNR. Certification of the IGETC or CSU Breadth must be provided from the institution as a separate official document or listed on the transcript. The AA-T or AS-T must be listed on the transcript from the California Community College. Courses not listed may be evaluated on an individual basis.

NOTE: If you have declared a major, please refer to the University Catalog for specific college requirements in the Silver Core Curriculum.

Core Curriculum Requirements

Requirements	Credits	Equivalent Course(s)
ENGLISH	6	UNR ENG 101: ENGL 101 UNR ENG 102: ENGL 102 or ENGL 103
MATHEMATICS	3	MATH 108 & 110, 110, 116, 202, 218
NATURAL SCIENCE	8	Choose two courses. At least one course used here must include an appropriate Lab experience: ANTH 120 & 120L, BIOL 100, 104, 106; CHEM 102, 104; ENVR 142 & 142I; GEOL 102, 104; PHYS 102, 104, 202, 204, 206
SOCIAL SCIENCE	3	ANTH 100, 130; BUS 106, 108; GEOG 104; POL 101, 130, 150; PSY 102; SOC 102
FINE ARTS	3	ART 100, 116, 140, 166, 172, 174; HUMN 100, 101, 128; MUS 101; THEA 105
CORE HUMANITIES	6	History and Culture (3 units) CH 201 Substitution: HIST 102; HIST 111 OR CH 202 Substitution: HIST 104; HIST 112 United States and Nevada Constitutions (3 units) CH 203 Substitution: HIST 108 [2] OR POL 101[2] (Must also complete one of the following courses at UNR for full CH 203 credit: HIST 217; PSC 100)
DIVERSITY	3	PHIL 103
CAPSTONE	6	TO BE COMPLETED AT UNR (MUST BE UPPER DIVISION)

Foot Notes

[1] After matriculation to the University of Nevada, Reno, students may not take substitute courses for Core Humanities. Students must satisfy any remaining CH requirements by completing the required CH courses.

Transfer

If you are planning to transfer to a four-year school, work with your advisor to make sure you address any general education requirements that you may wish to transfer from Feather River College. (Please see IGETC, CSU, or UNR General Ed transfer sheets.)

TRANSFER DEGREES (T)

Administration of Justice: AS-T	History: AA-T
Anthropology: AA-T	Kinesiology: AA-T
Business Administration: AS-T	Mathematics: AS-T*
Early Childhood Education: AS-T	Political Science: AA-T
English: AA-T	Sociology: AA-T
Geology: AS-T*	Studio Arts: AA-T

***Transfer Degree Disclaimer (AA-T or AS-T):** There are some new transfer degrees that are currently under review by the California Community College Chancellor's Office. You may take courses toward the major's during this process. Please contact the program director for more information or work with an advisor before signing up for any classes.

Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T)

The Student Transfer Achievement Reform Act (Senate Bill 1440, now codified in California Education Code sections 66746- 66749) guarantees admission to a California state University (CSU) campus for any community college student who completes an “associate degree for transfer,” a newly established variation of the associate degrees traditionally offered at a California community college. The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor’s degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major. Students transferring to a CSU campus that does accept the AA-T or AS-T will be required to complete no more than 60 units after transfer to earn a bachelor’s degree (unless the major is a designated “high-unit” major).

The following are required for all AA-T or AS-T degrees:

1. Completion of a minimum of 60 CSU-transferable semester units.
2. Minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum of 2.0 is required for admission, some majors may require a higher GPA. Please consult with a counselor or advisor for more information.

3. Completion of a minimum of 18 semester units in an “AA-T” or “AS-T” major as detailed in the Academic Majors section of the catalog. All courses in the major must be completed with a grade of C or better or a “P” if the course is taken on a “pass-no pass” basis (title 5 § 55063).
4. Certified completion of the California State University General Education-Breadth pattern (CSU GE Breadth) (see page 43 for more information); OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern (see pages 50-51 in the catalog for more information).
5. Students completing an associate degree for transfer (AA-T or AS-T) can use as many courses as are permitted by the degree to count toward the general education and major requirements.

Students should note that no more than 60 units are required and that no additional requirements will be imposed by Feather River College. In addition, no remedial or non-collegiate level coursework will be counted in the total units for the degree.

This degree may not be the best option for students intending to transfer to a particular CSU campus or to a university or college that is not part of the CSU system. Students should consult with a counselor or advisor when planning to complete the degree for more information on university admission and transfer requirement.

Degrees

A.S.-T Administration of Justice
A.A. Administration of Justice

Certificate of Achievement

Forensic Crime Scene Investigation

Program Description

The Administration of Justice Program at Feather River College is designed to give students a basic foundation in the three major areas of the criminal justice system: law enforcement, courts and prosecution, and corrections. Students entering this program may consider careers as police officers, corrections personnel, probation and parole officers, juvenile officers, wildlife enforcement officers, and other social services positions. Program courses will acquaint students with the American Justice System as well as some comparative systems world-wide. Students will study causes of crime and the roles of administration of justice practitioners in responding to criminal acts. Criminal law and evidence procedures are themes found in most courses. The program at FRC also includes the study of terrorism, crime scene investigation and multiculturalism. The Administration of Justice Program provides transfer opportunities to four-year universities in the areas of Administration of Justice, Criminal Justice, and Public Administration.

Student Learning Outcomes

- **Communication:** Written and oral communication skills in disciplines and professions related to the Criminal Justice System. This includes the ability to convey information and work effectively with groups of varying sizes, as well as different audience levels.
- **Multidisciplinary perspective:** The ability to speak the language of the various disciplines representing the Criminal Justice system keeps graduates competitive in an increasingly interrelated and competitive market.
- **Knowledge:** A quantitative and qualitative understanding of how the Criminal Justice System functions, how technology is used, how public policy drives the system, and how the various system components ensure safe and high-quality communities.
- **Application skills:** Proficiency in disciplines related to the Criminal Justice System is an outcome of quality practice. Investigative skills are taught and practiced regularly at FRC, both in mock crime scenes and the classroom.
- **Professional ethics:** Ethical considerations of all related Criminal Justice System disciplines will be the focal point of AJ students' studies. Ethical considerations are the very core of decisions involving police powers. FRC students are encouraged to question the intended and unintended consequences of the Criminal Justice system.
- **Understanding multiculturalism:** An appreciation for responsibly interacting and respecting the diverse populations of the community, understanding the tensions that may exist between minority communities and the police, striving toward a balance between meeting today's needs for law enforcement and respecting human rights.

A.S. University Studies - Agriculture

Certificate of Achievement

Equine Studies

Certificates of Specialization

General Agriculture
Ranch Technology
Fundamentals of Ranch Skills
Fundamentals of Pack Station & Stable Operations
Fundamentals of Horse Training Skills
Fundamentals of Rodeo Techniques

Program Description – B.S. Equine and Ranch Management

Program Description: The Bachelor of Science: Equine and Ranch Management combines scientific agricultural management courses with a hands-on livestock experience. It incorporates both traditional and progressive ranch management, and performance horse methods. The degree provides a hands-on learning environment with a comprehensive curriculum, outstanding instructional facilities, exceptional full-time faculty and staff, and extensive agriculture industry connections, all to ensure students will acquire the practical, intellectual and communication skills necessary to meet the needs of the agriculture industry. Students pursuing the Bachelor of Science Degree can choose to take extra courses throughout their time at Feather River College and graduate with both an associates degree and a bachelor's degree. They can choose to receive an Associate of Science Degree in the Agriculture or Equine Studies Field upon completion of the required courses of these degrees. **Acceptance into the Equine and Ranch Management Bachelor Degree Program is required prior to enrollment in upper division courses.**

To complete the **120 unit** requirement for the Equine and Ranch Management Degree, students must:

1. Complete the CSU-GE breadth certification requirements including the Equine and Ranch Management
2. recommended general education courses for a total of 42-43 units of lower division general education.
3. Complete the Lower Division Major Course Requirements for 22 units.
4. Complete the Upper Division Core Requirements, and General Education requirements for a total of 33 units
5. Complete a minimum of 23 units of upper and lower division electives.

BACHELOR OF SCIENCE IN EQUINE AND RANCH MANAGEMENT ~ LOWER DIVISION

Lower Division General Education Requirements (40-43 units). to be completed by applicants applying for upper division standing.

The following lower division courses are required to be completed by the Bachelor's Degree student and will fulfill CSU breadth requirements. Areas with no degree requirements are indicated by the STUDENT CHOICE label. A student can choose any course in that area as long as it fulfills the CSU breadth requirements. All courses within the major requirements must be completed with a C or better.

Lower Division Major Course Requirements

The following lower division courses are major course requirements for the Bachelor of Science Degree. Students must complete these courses to participate in the upper division course work.

AGAB 110	Introduction to Agriculture Business	3
AGAB 150	Agriculture Computer Applications	3
AGAS 125	Animal Feeds And Nutrition	3
AGAS 170	Elements of Beef Cattle Science	3
AGEQ 102	Elements of Equine Science	3
AGMA 160	Introduction to Mechanized Agriculture	3
BUS 102	Financial Accounting	4

Total Major Requirements..... 62-65

Bachelor of Science Lower Division Requirements

General Education	40-43

Lower Division Major Courses	22

Total Lower Division Units:..... 62-65

BACHELOR OF SCIENCE IN EQUINE AND RANCH MANAGEMENT - UPPER DIVISION

Upper Division Core Requirements

AGAB 335	Equine and Ranch Management	3
CWEE 418	Equine and Ranch Management Internship	6
AGAB 465	Equine and Ranch Enterprises	3
AGAS 421	Equine Production and Management	3
- OR - AGAS 423	Beef Cattle Production and Management	3
AGPS 300	Pasture, Rangeland and Forage Management	3
AGAS 313	Equine and Bovine Health and the Prevention and Control of Disease	3
AGMA 404	Livestock Facilities Maintenance and Management	3

Upper Division General Education

ENGL 310	Applied Professional and Technical Communication and Composition	3
ENGL 416	Research Methods in Equine and Ranch Management Current topics and Issues	3
ENVR 480	Human Dimensions of Natural Resources	3
- OR - HIST 400	The American West	3

Upper Division Career Electives

Select a minimum of 9 upper division units

AGAS 302	Advance Techniques in Equine Training-Fall	2
AGAS 303	Advanced Techniques in Equine Training Spring	2
AGAS 307	Advanced Techniques in Equine Sale Preparation I	2
AGAS 308	Advanced Techniques in Equine Sale Preparation II	2
AGAS 360	Technical Veterinary Skills	3
AGAB 364	Promotion and Marketing in the Equine and Beef Cattle Industry	3
AGPS 370	Soil Fertility and Plant Nutrition	4
AGAB 410	Equine and Ranch Management Leadership Seminar	3
AGAS 350	Reproduction, Breeding Systems, and Genetics of Livestock	3
AGAS 402	Training of the Hackamore Horse	2
AGAS 403	Training of the Bridle Horse	2
AGAS 450	Applied Beef Cattle Reproductive Management	2
AGAS 455	Applied Equine Reproductive Management	2

General Electives

May consist of lower or upper division courses to satisfy a minimum of 120 units required for a bachelor degree

Total Major Requirements..... 120

ASSOCIATE OF SCIENCE IN EQUINE STUDIES

Program Description

The courses offered in Equine Studies are designed to prepare students for a variety of professions in the horse industry or transfer to a higher institution. Students preparing for immediate entry into a horse career will find practical hands on courses designed to assist them in achieving their occupational goals. Through study and applied practice, students prepare for careers in four basic Equine Studies concentrations: Pack Skills, Ranch Skills, Horse Training Skills, and Rodeo Skills.

Major Core Requirements

AG 270	Fundamentals of Agriculture Education and Employment	0.5
AGAS 120	Introduction to Animal Science	3
- OR - AGAS 125	Animal Feeds and Nutrition	3
AGEQ 009	Draft Horse Driving I	0.5
AGEQ 102	Elements of Equine Science	3
AGEQ 103	Western Equitation I	2
AGEQ 104	Horse Conformation and Judging	1
AGEQ 106	Western Equitation II	2
AGEQ 115	Elements of Horse Training I	0.5
AGEQ 123	Introduction to Farrier Science	1
AGEQ 140	Introduction to Equine Behavior and Training	2
AGEQ 141	Equine Behavior & Training	2
AGEQ 214	Handling and Care of The Foal, Weanling, And Yearling Horse Fall	1
- OR - AGEQ 215	Handling and Care of The Foal, Weanling, And Yearling Horse Spring	1
	Agriculture Electives	4.5

Major Electives

(Select 1 or more of the following four concentrations)

Pack Skills

AGEQ 107	Elements of Pack Station And Stable Operations	3
AGEQ 108	Fundamentals of Pack Station & Stable Operations Field Experience	2
AGEQ 109	Pack Station & Stable Operations Field Experience	2

Ranch Skills

AGEQ 210	Intro. to Ranch Work With Horses	2
AGEQ 211	Applied Ranch Skills With Horses I	2
AGEQ 212	Applied Ranch Skills With Horses II	2
AGEQ 225	Ranch Horsemanship	0.5
AGEQ 226	Advanced Horsemanship	0.5

Horse Training Skills

AGEQ 116	Elements of Horse Training II	0.5
AGEQ 204	Training Young Horses Under Saddle Fall	2
AGEQ 205	Training Young Horses Under Saddle Spring	2
AGEQ 206	Advanced Training of Young Horses	2
AGEQ 226	Advanced Horsemanship	0.5

Rodeo Skills

AGEQ 180	Rodeo Skills & Techniques – Men’s Events	2
- OR - AGEQ 181	Rodeo Skills & Techniques – Women’s Events	2
AGEQ 182	Intercollegiate Rodeo	2
AGEQ 184	Advanced Intercollegiate Rodeo	2
AGEQ 186	Rodeo Production	1

Total Major Requirements.....30

To earn an A.S. in Equine Studies:

1. Complete Major Core Requirements and Major Electives, as outlined.
2. Complete one of the following General Education (GE) patterns: FRC GE, CSU Breadth, or IGETC.
3. Complete electives so that major units, plus GE units, plus elective units total sixty (60) units or higher.

ASSOCIATE OF SCIENCE IN UNIVERSITY STUDIES - AGRICULTURE

Students should consult with Feather River College (FRC) Agriculture Department advisors to prepare a Student Education Plan to ensure the students’ courses will satisfy certification, degree and/or transfer requirements. It may be beneficial to contact the four-year institution where the student intends to transfer to accurately determine the ideal course of action to earn a Bachelor’s degree.

Major Core Requirements

Area of Emphasis: select 12 units from one of the two areas of emphasis, listed below, to complete your major requirements. Then select 6 units from any of the courses listed under **General Agriculture, Agricultural Science, the Agriculture Electives**, or any other General Education courses to fulfill transfer requirements to a four-year institution and/or Agriculture career goals.

General Agriculture

AG 270	Fundamentals of Agriculture Education And Employment	0.5
AG 271	Agriculture Education & Employment	0.5
AGAB 110	Introduction to Agriculture Business	3
AGAB 112	Agriculture Sales And Communication	3
AGAB 124	Agriculture Economics	3
AGAB 150	Agriculture Computer Applications	3
AGAB 188	Farm Management	3
AGMA 108	Tractor Operation	3
AGMA 116	Agriculture Welding	3
AGMA 146	Introductory Agriculture Structural Technology	3
AGMA 160	Introduction to Mechanized Agriculture	3
AGPS/ENVR 210	Introduction to Soil Science	3

Major Core Requirements: Agricultural Science

AG 270	Fundamentals of Agriculture Education And Employment	0.5
AG 271	Agriculture Education & Employment	0.5
AGAB 150	Agriculture Computer Applications	3
AGAS 120	Introduction to Animal Science	3
AGAS 125	Animal Feeds And Nutrition	3
AGAS 170	Elements of Beef Cattle Science	3
AGEQ 102	Elements of Equine Science	3
AGEQ 103	Western Equitation I	2
AGEQ 104	Horse Conformation And Judging	1
AGEQ 106	Western Equitation II	2
AGEQ 115	Elements of Horse Training I	0.5
AGEQ 116	Elements of Horse Training II	0.5
AGEQ 204	Training Young Horses Under Saddle Fall	2
AGEQ 205	Training Young Horses Under Saddle Spring	2
AGPS 104	Introduction to Plant Science	3
AGPS/ENVR 210	Introduction to Soil Science	3

Major Core Requirements: Agricultural Electives

Students may choose other courses to fulfill transfer or career goals. (Minimum of 6 electives.)

AG 295	Community Service Learning In Agriculture	1-4
AG 299	Special topics In Agriculture	1-4
AGEQ 140	Introduction to Equine Behavior And Training	2
AGEQ 141	Equine Behavior & Training	2
AGEQ 214	Handling And Care of The Foal, Weanling, And Yearling Horse Fall	1
AGEQ 215	Handling And Care of The Foal, Weanling, And Yearling Horse Spring	1
AGEQ 296	Special Projects In Equine Studies- Behavior And Training	1-4
AGMA 132	Advanced Agriculture Welding	3
AGMA 140	Beginning Agriculture Metal Fabrication	3
BUS 106	Principles of Economics-Macro	3
BUS 115	Business Law	3

Total Major Requirements..... 18

To earn an A.S. in University Studies - Agriculture:

1. Complete Major Core Requirements and Major Electives, as outlined.
2. Complete one of the following General Education (GE) patterns: FRC GE, CSU Breadth, or IGETC.
3. Complete electives so that major units, plus GE units, plus elective units total sixty (60) units or higher.

AGEQ 280	Advanced Rodeo Skills & Techniques – Men’s Events	2
- OR - AGEQ 281	Advanced Rodeo Skills & Techniques – Women’s Events	2

Total Certificate Requirements..... 14

Student Learning Outcomes

1. Theoretical knowledge, practical experience and skills of modern procedures reflecting the technology and science based nature of agriculture and animal resource management.
2. Knowledge of concepts and theories with a balance between production and protection of soil, plant, and animal resources.
3. An ability to analyze data and solve problems related to the agricultural field utilizing the scientific method.
4. A proficiency in critical thinking, reading, writing, and oral language skills in the agriculture occupational context.
5. An ability to enter employment in a field of agriculture or transfer to a college of agriculture at a four-year university.

Degree

A.A.-T Anthropology

Program Description

Anthropology is the study of the human species, its relatives and antecedents, everywhere and throughout time. As a discipline, it includes social sciences, biological sciences, earth sciences, and health sciences. It is often presented as a set of sub-disciplines: cultural anthropology, linguistic anthropology, physical anthropology, and archaeology. As such, anthropology involves the study of people, their origins, their biological variations and characteristics, their languages and cultural patterns, their social structures and institutions, and their adaptation to their environment

ASSOCIATE OF ARTS IN ANTHROPOLOGY FOR TRANSFER

UNITS

Major Core Requirements

ANTH 100	Introduction To Cultural Anthropology	3
ANTH 120	Physical Anthropology	3
ANTH 130	Introduction To Archaeology	3

List A

Select 4 plus units from below. Students must take MATH 202 but may additionally take ANTH 120L

ANTH 120L	Physical Anthropology Lab	1
MATH 202	Elementary Statistics	4

List B

Select one course from below

BIOL 110	Human Anatomy	4
GEOL 102	Physical Geology	4

List C

Select 3 units from below

Take one of the following courses or an unused course from List A or List B

ADMJ 203	Introduction To Multiculturalism	3
ANTH 103	Magic, Witchcraft, And Religion	3
ANTH 150	Native North Americans	3
GEOG 104	Cultural Geography	3
SOC 102	Introduction To Sociology	3

Total Major Requirements..... 20-21

Pursuant to California Education Code 66746, students completing the Associate of Arts in Anthropology for Transfer Degree are expected to meet the following:

- Completion of no more than 60 semester units that are eligible for transfer to the California State University, including both of the following:
 - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education - Breadth Requirements
 - A minimum of 18 semester units in the major with a grade of C (or P) or better while maintaining a minimum overall grade point average (GPA) of at least 2.0 in all CSU transferable coursework.

Student Learning Outcomes

- Describe the interrelated sub-disciplines of cultural anthropology, biological anthropology, linguistics, and archaeology.
- Discuss the evolution of the human species and its antecedents and their relationships to other non-human primates.
- Analyze the processes that lead to cross-cultural differences.

Degrees

- A.A. Studio Arts
- A.A. Graphic Design
- A.A.-T Studio Arts for Transfer

Program Description

Studio Arts artists produce expressive images that educate us, please and challenge us, and document societal trends. The Studio Arts Degree prepares students for transfer to an art institute or private academy, a four-year college, a specialized art-related program or apprenticeship, or to work as an exhibiting artist. Various career opportunities evolve from a study of the basics of studio arts leading to jobs in design, animation, gaming and concept design, gallery exhibition, fashion, painting, digital and film photography, sculpture, graphic design, and industrial design. All studio arts disciplines are rooted in the language of visual creation. The Department of Labor statistics indicate visual art fields will enjoy healthy growth in the coming years since communication is heavily visual in the modern era. Studio Arts curriculum provides the foundation in visual language production modalities, understanding implementation and concept, critical thinking linked to visual analysis, and historical evidence of the role of art in society.

Degree

A.S. Biology

Program Description

The Biology (BIOL) program is primarily designed for students who intend to transfer into any biology-related track at a four-year college or university or for students considering transfer to a nursing or pre-medical program. The curriculum is organized so that courses will readily transfer to the UC and CSU system. The program gives students the necessary biology major transfer credits but is flexible enough to let students choose and integrate informal areas of emphasis such as a premedical curriculum, cell and molecular biology, organismal biology and resource and environmental biology into an individualized and varied lower division biology program. Majors must also complete one of the college's general education requirement schemes. Students expecting to transfer to a 4-year university are strongly advised to complete the CSU Breadth or the IGETC requirements rather than the FRC GE requirements.

ASSOCIATE OF SCIENCE IN BIOLOGY

UNITS

Major Core Requirements

BIOL 102	Cell and Molecular Biology	4
BIOL 104	Animal Biology, Evolution and Ecology	4
BIOL 106	Plant Biology, Evolution and Ecology	4
MATH 202	Elementary Statistics	4

Elective List A

Select 3-4 units from below

BIOL 110	Human Anatomy	4
BIOL 112	Human Physiology	4
BIOL 210	General Microbiology	4
ENVR 142	Introduction to Environmental Science	3
ENVR 142L	Introduction to Environmental Science Lab	1
ENVR 240	Introduction to Wildlife	3

Elective List B

Note: Students planning to transfer as Biology majors are strongly encouraged to check biology transfer requirements for the institution they want to attend after FRC and choose from this list accordingly. You may also need more than 8 units to transfer into a Biology major at a university.

Select 8 units from below

CHEM 102	General Chemistry I	5
CHEM 104	General Chemistry II	5
CHEM 106	Organic Chemistry for Science Majors	5
ENGL 180	Nature Literature in America	3
MATH 218	Single Variable Calculus I – Late Transcendentals	4
MATH 220	Calculus II	4
PHYS 102	General Physics I	4
PHYS 104	General Physics II	4

Total Major Requirements.....27 - 28

To earn an A.S. in Biology:

1. Complete Major Core Requirements and Major Electives, as outlined.
2. Complete one of the following General Education (GE) patterns: FRC GE, CSU Breadth, or IGETC.
3. Complete electives so that major units, plus GE units, plus elective units total sixty (60) units or higher.

Student Learning Outcomes

- Students will be able to apply the biological concepts of structure and function, organization, cellular processes, genetics, as well as ecology and evolution at all levels (molecular, cellular and organismal) and across the lineages of the Tree of Life.
- Students will be able to compare and contrast features of living systems with respect to their common evolutionary origin as well as with respect to evolutionary differences.
- Students will apply the Scientific Method of investigation to hypothesis generation, testing, analysis and communication, and develop basic laboratory and field skills.

Student Learning Outcomes

Upon degree or certificate completion, students will be able to demonstrate the following competencies:

- **Resources:** Identifies, organizes, plans, and allocates resources of time, money, material and facilities, and human resources.
- **Interpersonal:** Works well with others by participating as a member of a team, teaching others new skills, serving clients and customers, demonstration leadership, negotiating, and working with diversity.
- **Information:** Acquires and uses information by evaluating, organizing, maintaining, interpreting, managing, and communicating and accounting for information as well as using computers to process information.
- **Systems:** Understands complex inter-relationships that include the ability to understand systems, such as how social, organizational, financial, technological, and marketing systems work and be able to operate effectively with them; monitors and corrects performance such as distinguishing trends and predicting impacts on systems operations; improves and designs systems, such as suggesting modifications to existing systems.
- **Technology:** Works with a variety of technologies that may include selecting, applying, and/or maintaining and troubleshooting equipment.

EARLY CHILDHOOD EDUCATION

A.A. Early Childhood Education
A.S.-T Early Childhood Education

Certificates of Achievement

Early Childhood Education

Certificates of Specialization

Associate Teacher
Administration of ECE Programs
Child Care Entrepreneurship
Infant/Toddler
Master Teacher - Special Needs
Master Teacher - Creative Curriculum

Program Description

The Early Childhood Education (ECE) Program provides an academic and experiential foundation offering students occupational and transfer degree options and a variety of certificates. Students will study child development in the context of the family and the community as well as best practices for teaching and learning. Observation and participation opportunities allow students to apply their emerging skills under the supervision of select teachers and mentors in both public and private settings, including the Child Development Center on campus. Students are encouraged to work closely with a program advisor to determine which options best meet their career and educational goals.

EARLY CHILDHOOD EDUCATION PERMITS

(Required to work in state-funded facilities)

Requirements vary for Assistant, Associate Teacher, Teacher, Master Teacher and Site Supervisor

Recommended Core Courses

ECE153	Child, Family and Community	3
ECE162	Child Growth and Development	3
Variable	Programs/Curriculum (see your advisor)	6

Title	Education Requirement	Experience Requirement	Alternative Requirement
Assistant (optional)	6 units of ECE/CD	None	Accredited HERO Program (including ROP); or CTC approved training
Associate Teacher	12 units of ECE/CD (including core)	50 days of 3+ hours per day within 2 years	Child Development Associate (CDA) Credential; or CTC approved training
Teacher	24 units of ECE/CD (including core) 16 GE units	175 day of 3+ hours per day within 4 years	AA or higher in ECE or related field with 3 semester units of supervised field experience in ECE setting; or CTC approved training
Master Teacher	24 units of ECE/CD (including core) 16 GE units, 6 units specialization, 2 units adult supervision	350 days of 3+ hours per day within 4 years including at least 100 days of supervising adults	BA or higher with 12 units of ECE, plus 3 semester units of supervised field experience in ECE setting; or CTC approved training
Site Supervisor	AA (or 60 units) with 24 units of ECE/CD (including core), 6 units administration 2 units adult supervision	350 days of 3+ hours per day within 4 years, including at least 100 days of supervising adults	BA or higher with 12 units of ECE plus 3 semester units of supervised field experience in ECE setting; Teaching or Admin. credential with 12 units of ECE, plus 3 units supervised experience in ECE setting; or CTC approved training
Program Director	BA 24 units of ECE/CD (including core) 6 units administration, 2 units adult supervision	Site supervisor status and one program year of site supervisor experience	Teaching or Admin. credential with 12 units of ECE, plus 3 units supervised experience in ECE setting; or CTC approved training

All coursework must be completed with a grade "C" or better

ECE = Early Childhood Education CD = Child Development CTC = Commission on Teacher Credentialing

Degree

A.A. Education: Liberal Studies Elementary Teacher Preparation

Program Description

The Liberal Studies Program is a pathway designed for prospective elementary teachers who intend to transfer to earn a baccalaureate degree and a multiple subject (K-8) credential. The required courses are part of a program of study that can be started at the community college level and completed at a four-year institution. Students are encouraged to work closely with advisors to address any additional requirements of the intended institution of transfer.

ASSOCIATE OF ARTS IN EDUCATION: LIBERAL STUDIES ELEMENTARY TEACHER PREPARATION

UNITS

Major Core Requirements

The following courses may also apply towards general education requirements for graduation:

BIOL 100	Concepts in Biology	4
- OR - BIOL 102	Cell and Molecular Biology	4
ECE 153	Child, Family and Community	3
ENGL 101	Composition and Reading	3
ENGL 118	Small Group Communication	3
- OR - ENGL 120	Speech	3
HIST 108	The United States to 1877	3
- OR - HIST 110	The United States Since 1865	3
HIST 111	World History to 1500	3
HUMN 112	Introduction to Humanities II	3
PHIL 101	Logic	3
POL 101	American Government and Politics	3
THEA 105	Introduction to Acting	3

The following courses are non-general education applicable:

EDUC 200	Introduction to Education/Field Experience	3
MATH 150	Concepts and Structures of Mathematics for Educators	3
MATH 152	Concepts and Structures of Mathematical Problem Solving and Geometry	3

Recommended Electives

ANTH 100	Introduction to Cultural Anthropology	3
ECE 154	Creative Activities for Children	3
POL/SOC 140	Introduction to Race and Ethnicity	3

See advisor for courses for specific college transfer. Additional electives may be accepted at transferring institution up to a Total of 70 units. See your advisor.

Advisories

1. *This course of study is designed to meet the specific requirements of CSU Chico and provide ease of transfer. The majority of the coursework will apply to transfer requirements at any institution. However, there will be some variation between campuses. Students should meet with their counselor/advisor to address the requirements of the intended campus for transfer.*
2. *It is recommended that the California Basic Education skills Test (CBEST) be taken as soon as possible following completion of English and math coursework.*
3. *All required courses must have a grade of "C" or better.*
4. *One year of high school or three units of college credit in a second language is required (includes ASL).*
5. *Additional coursework in mathematics may be required for general education, depending on the intended institution for transfer. Although students at CSU Chico are required to complete MATH 150 and MATH 152, a student will be accepted for transfer with MATH 150.*
6. *A course must be selected from Area E under CSU General Education Breadth requirements.*

Total Major Requirements.....49

To earn an A.A. in Liberal Studies Elementary Teacher Preparation:

1. Complete Major Core Requirements and Major Electives, as outlined.
2. Complete one of the following General Education (GE) patterns: FRC GE, CSU Breadth, or IGETC.
3. Complete electives so that major units, plus GE units, plus elective units total sixty (60) units or higher.

Student Learning Outcomes

- Integrate understanding of the needs, the characteristics and multiple influences on the development of children birth to age eight as related to high quality care and education of young children.
- Design, implement and evaluate environments and activities that support positive developmental play and learning outcomes for young children.
- Establish and maintain safe and healthy learning environments for young children.
- Assess the development of young children using authentic assessment tools and use the data to plan appropriate environments and activities based on the developmental needs of children.
- Apply effective guidance, problem solving and interaction strategies that support children social learning, identity and self-confidence.
- Demonstrate linguistically and culturally relevant, inclusive and anti-bias practices in working with children and families.
- Demonstrate ethical standards and professional behaviors that deepen understanding, knowledge and commitment regarding the ECE profession.
- Students seeking a baccalaureate in a similar discipline will successfully complete the transfer process to a four-year institution (AS-T degree only).

Degree

A.A.-T English

Program Description

The major in English, resulting in an A.A. degree, provides students with a solid knowledge in the literature and culture of the Anglophone world. Through the study of literature, students develop an understanding of important themes that have been present throughout the history of the English-speaking world and an understanding about how these themes have shaped thought and literary expression. The major is based in writing, discussion, development of interpretive skills, and the application of critical thinking methods in a wide variety of situations. The major in English provides a general academic foundation for further literary study and for other areas, including pre-law, teaching, research, journalism, and publishing and editing. Students can complete the Associate in Arts in English for Transfer by completing 18 units in the major plus general education and be guaranteed transfer in the major to a California state University campus. students who are planning to transfer in the major to a CSU campus, as well as those planning to transfer to a UC or other colleges, can choose to augment the major with additional elective courses in English or humanities, thus establishing a well-rounded curriculum in literature and humanistic thought.

SPAN 102	Beginning Spanish II	4

Total Major Requirements 18-19

Pursuant to California Education Code 66746, students completing the Associate of Arts in English for Transfer Degree are expected to meet the following:

- Completion of no more than 60 semester units that are eligible for transfer to the California State University, including both of the following:
 - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education - Breadth Requirements
 - A minimum of 18 semester units in the major with a grade of C (or P) or better while maintaining a minimum overall grade point average (GPA) of at least 2.0 in all CSU transferable coursework.

Student Learning Outcomes

- Comprehend cultural and literary background of the English-speaking world.
- In English, use written and verbal expression to communicate information factually, argumentatively, and creatively.
- In English, read, comprehend, interpret, and respond to a wide variety of materials touching on literary knowledge, society, culture, the arts, history, gender, politics, and philosophy.

ENVIRONMENTAL STUDIES

DR. DARLA DERUITER
(530) 283-0202, EXT 262

Degrees

A.S. Environmental Studies
A.S. Environmental Science

Certificate of Achievement

Ecological Farming

Certificates of Specialization

Biological Science Technician
Forestry Technician
Hatchery Technician
Hydrologic Technician

Program Description

Students pursuing an AS degree in Environmental Studies will learn the basics of environmental science and policy by taking coursework in biological, physical, and social science areas. In addition, students will focus on at least one more specialized subject area such as water, forests, wildlife or fish and improve their understanding of this topic by completing a class with the topic focus. Students completing this major will be prepared to work in field jobs or transfer to four-year schools to pursue degrees related to Natural Resource Management.

A.S. ENVIRONMENTAL STUDIES CONCENTRATIONS

Students pursuing an A.S. in Environmental Studies may choose to complete a concentration in one of the following areas:

Ecological Farming (12 units)

- ENVR/AGPS 210 Introduction to Soil Science required as Physical Science elective in ENVR core (3 units)
- 9 additional units will be satisfied by completing as a series of low-unit skill based classes, including ENVR 130, ENVR 131, ENVR 132, ENVR 133, ENVR 134, and ENVR 135

Fish Hatchery (12 units)

- ENVR 250 - Introduction to Aquaculture required as a Natural Resource elective in ENVR core (3 units)
- 9 additional units must be chosen from the Hatchery Technician Certificate list (see information about certificates under certificates.)

Forestry (12 units)

- ENVR 220 - Introduction to Forestry required as a Natural Resource elective in ENVR core (3 units)
- 9 additional units must be chosen from the Forestry Technician Certificate list (see information about certificates under certificates.)

Hydrology (12 units)

- ENVR 160 -Watershed Protection and Restoration required as a Natural Resource elective in ENVR core (3 units)
- 9 additional units must be chosen from the Hydrologic Technician Certificate list (see information about certificates under certificates.)

Wildlife (12 units)

- ENVR 240 - Introduction to Wildlife required as a Natural Resource elective in ENVR core (3 units)
- 9 additional units must be chosen from the Biological Science Technician Certificate list (see information about certificates under certificates.)

Student Learning Outcomes

The major competencies we expect our students to attain while completing the Environmental Studies Program include:

- Knowledge: A quantitative and qualitative understanding of how our planet functions, how technological societies operate, and how policy interacts between the two.
- Application skills: Proficiency in disciplines related to the environment comes at the price of practice; technical field skills will be taught and practiced regularly at FRC, where our spatial proximity to a variety of environmental issues encourages fieldwork. Communication: Written and oral communication skills in disciplines and professions related to the environment; this includes the ability to convey information and work effectively with groups of varying sizes, as well as different audience levels.
- Communication: Written and oral communication skills in disciplines and professions related to the environment; this includes the ability to convey information and work effectively with groups of varying sizes, as well as different audience levels.
- Multidisciplinary perspective: The ability to speak the language of the various environmental disciplines keeps graduates competitive in an increasingly interrelated and competitive market.
- Environmental ethic: A developed ecological identity, established professional and educational goals, and an identified career track will cement the student's sense of place in the environmental fields, and provide direction toward a constructive career in their chosen field.

To earn an A.S. in Environmental Studies:

1. Complete Major Core Requirements and Major Electives, as outlined.
2. Complete one of the following General Education (GE) patterns: FRC GE, CSU Breadth, or IGETC.
3. Complete electives so that major units, plus GE units, plus elective units total sixty (60) units or higher.

Student Learning Outcomes

The major competencies we expect our students to attain while completing the Environmental Science Program include:

- Scientific literacy: A quantitative and qualitative understanding the fundamentals of biological and physical science that will provide students the required knowledge to move forward in scientific disciplines.
- Application skills: Proficiency in disciplines related to the environment comes at the price of practice; technical field skills will be taught and practiced regularly at FRC, where our spatial proximity to a variety of environmental issues encourages fieldwork.
- Communication: Written and oral communication skills in disciplines and professions related to the environment; this includes the ability to convey information and work effectively with groups of varying sizes, as well as different audience levels.
- Multidisciplinary perspective: The ability to speak the language of the various environmental disciplines keeps graduates competitive in an increasingly interrelated and competitive market.
- Environmental ethic: A developed ecological identity, established professional and educational goals, and an identified career track will cement the student's sense of place in the environmental fields, and provide direction toward a constructive career in their chosen field.
- Understanding of sustainability: An appreciation for responsibly managing critical natural resources: striving toward a balance between meeting today's needs while ensuring ecosystem health and resource plentitude for future generations.

CERTIFICATE OF ACHIEVEMENT IN ECOLOGICAL FARMING

UNITS

Ecological Farming

Complete required core courses and select 4 - 5 units from the remaining list of electives.

Required Core Courses

AGPS/ENVR 210	Introduction to Soil Science	3
ENVR 130	Introduction to Sustainable Food Systems	2
ENVR 131	High Altitude Crop Production - Fall	2
ENVR 132	High Altitude Crop Production - Spring	2
ENVR 133	Ecological Pest Management	1

Electives

Select 4 - 5 units

AGMA 160	Introduction to Mechanized Agriculture	3
BUS 121	Introduction to Entrepreneurship	1
BUS 122	Entrepreneurial Marketing	1.5
BUS 123	Financial Management For Entrepreneurs	1
BUS 124	Preparing Effective Business Plans	1.5
BUS 171	Project-Based Learning	1-3
ENVR 134	Season Extension Structures	1
ENVR 135	Small Farm tools and Infrastructure	1

Total Certificate Requirements.....14-15

CERTIFICATE OF SPECIALIZATION IN BIOLOGICAL SCIENCE TECHNICIAN

Certificate Requirements

Select 12 units from below

BIOL 104	Animal Biology, Evolution and Ecology	4
BIOL 106	Plant Biology, Evolution and Ecology	4
BIOL/ENVR 120	Sierra Nevada Natural History	3
ENVR/ADMJ 125	Wildlife Law and Issues	2
ENVR 240	Introduction to Wildlife (required)	3
ENVR 241	Wildlife Diversity and Field Techniques	4

Total Certificate Requirements..... 12

CERTIFICATE OF SPECIALIZATION IN FORESTRY TECHNICIAN

UNITS

Certificate Requirements

Select 12 units from below

BIOL 106	Plant Biology, Evolution and Ecology	4
BIOL/ENVR 120	Sierra Nevada Natural History	3
ENVR 160	Watershed Protection and Restoration	3
ENVR/AGPS 210	Introduction to Soil Science	3
ENVR 220	Introduction to Forestry (required)	3

Total Certificate Requirements..... 12

CERTIFICATE OF SPECIALIZATION IN HATCHERY TECHNICIAN

Certificate Requirements

Select 17 -19 units from below

AGAS/ENVR 266	Advanced Aquaculture	3
AGMA 140	Beginning Agriculture Metal Fabrication	3
AGMA 160	Introduction to Mechanized Agriculture	3
ENVR 250	Introduction to Aquaculture	3
ENVR/BIOL 264	Introduction to Fish	4
ENVR 291	Directed Study	1-3

Total Certificate Requirements..... 17-19

CERTIFICATE OF SPECIALIZATION IN HYDROLOGIC TECHNICIAN

Certificate Requirements

Select 12 units from below

BIOL 100	Concepts in Biology	4
- OR - BIOL 104	Animal Biology, Evolution and Ecology	4
- OR - BIOL 106	Plant Biology, Evolution and Ecology	4
ENVR 160	Watershed Protection and Restoration (required)	3
ENVR/BIOL 264	Introduction to Fish	4
GEOL 102	Physical Geology	4
MATH 202	Elementary Statistics	4

Total Certificate Requirements..... 12

Degrees

A.A. General Studies: Arts and Humanities
A.A. General Studies: Social and Behavioral Sciences

Program Description

This degree is designed to give students an interdisciplinary foundation in a particular area of focus while preparing them to think critically, analyze evidence effectively, and understand the different approaches of the various disciplines. A minimum of 60.0 semester units must be completed with a grade of "C" or better in all area-of-emphasis-applicable units.

GENERAL STUDIES: ASSOCIATE OF ARTS IN ARTS AND HUMANITIES

UNITS

Arts and Humanities Emphasis

Major Core Requirements ~ Choose two courses from the following list (6 units total)

ART 172	World Art to 1500	3
ART 174	World Art Since 1500	3
HIST 111	World History to 1500	3
HIST 112	World History Since 1500	3
HUMN 110	Introduction to Humanities I	3
HUMN 112	Introduction to Humanities II	3

Major Electives

Select 12 units from below

ART/HUMN 100	Art Appreciation	3
ART 107	Two Dimensional Design	3
ART 109	Three Dimensional Design	3
ART 116	Drawing I	3
ART 122	Painting I	3
ART 150	Introduction to Photography	3
ART 172	World Art to 1500	3
ART 174	World Art Since 1500	3
ENGL/HUMN 128	Film Appreciation	3
ENGL 180	Nature Literature In America	3
ENGL/HUMN 228	Novel And Film	3
ENGL 245	Contemporary Literature	3
ENGL 246	Women's Literature	3
ENGL 252	American Literature I	3
ENGL 254	American Literature II	3
ENGL 256	Survey of British Literature I	3
ENGL 257	Survey of British Literature II	3
ENGL 277	Introduction to Shakespeare	3
HUMN/MUS 101	Music Appreciation	3
HUMN 110	Introduction to Humanities I	3
HUMN 112	Introduction to Humanities II	3
PHIL 100	Introduction to Philosophy	3
PHIL 102	Introduction to Ethics	3
PHIL 103	Philosophy of Religions	3
THEA 105	Introduction to Acting	3
THEA 106	Advanced Acting	3

One of the following foreign language courses may count toward satisfaction of the degree requirements.

UNITS

ASL 130	American Sign Language I	3
ASL 132	Beginning ASL II	3
FRN 101	Beginning French I	4
FRN 102	Beginning French II	4
FRN 201	Intermediate French I	5
SPAN 101	Beginning Spanish	4
SPAN 102	Beginning Spanish II	4
SPAN 201	Intermediate Spanish I	4

Total Major Requirements..... 18

To earn an AA in General Studies (Arts and Humanities Emphasis):

1. Complete Major Core Requirements and Major Electives, as outlined.
2. Complete one of the following General Education (GE) patterns: FRC GE, CSU Breadth, or IGETC.
3. Complete electives so that major units, plus GE units, plus elective units total sixty (60) units or higher.

Student Learning Outcomes

- Identify, describe, and analyze significant works, people, ideas, and events in their cultural contexts
- Effectively communicate an understanding of culture as expressed in arts and letters in global and comparative perspectives
- Critically analyze individual belief systems by comparing diverse perspectives and considering cultural and historical complexities.

GENERAL STUDIES: ASSOCIATE OF ARTS IN SOCIAL AND BEHAVIORAL SCIENCES

Major Core Requirements

Choose 18 units from the following classes including at least 6 units in one discipline.

ADMJ 102	Introduction to Administration of Justice	3
ADMJ/PSY 152	Psycho Pathology of Serial Killers and Mass Murderers	3
ADMJ 203	Introduction to Multiculturalism	3
ANTH 100	Introduction to Cultural Anthropology	3
ANTH 103	Magic, Witchcraft, and Religion	3
ANTH 106	Introduction to Prehistory	3
ANTH 150	Native North Americans	3
BUS 106	Principles of Economics-Macro	3
BUS 108	Principles of Economics-Micro	3
ECE 153	Child, Family And Community	3
ECE 162	Child Growth and Development	3
ENVR/POL 180	Environmental Policy	3
GEOG 104	Cultural Geography	3
HIST 108	The United States to 1877	3
HIST 110	The United States Since 1865	3
HIST 111	World History to 1500	3
HIST 112	World History Since 1500	3
HIST 120	Women In American History	3
HIST 130	Native American History	3
HIST 140	California History	3
MATH 202	Elementary Statistics	4
POL 101	American Government and Politics	3
POL 130	Introduction to International Relations	3
POL/SOC 140	Introduction to Race and Ethnicity	3
POL 150	Introduction to Political Science	3
POL/SOC 160	Globalization	3
PSY 102	Introductory Psychology	3
PSY 130	Psychology of Women	3
SOC 100	Sex, Gender, And Society	3
SOC 102	Introduction to Sociology	3
SOC 150	Social Trends & Problems	3

Total Major Requirements..... 18

To earn an AA in General Studies (Social and Behavioral Sciences Area of Emphasis):

1. Complete Major Core Requirements and Major Electives, as outlined.
2. Complete one of the following General Education (GE) patterns: FRC GE, CSU Breadth, or IGETC.
3. Complete electives so that major units, plus GE units, plus elective units total sixty (60) units or higher.

Student Learning Outcomes

- Identify, describe, and recognize the use of methods, approaches, and assumptions within social science disciplines.
- Effectively communicate an understanding of the complexity and interrelatedness of social institutions and their evolution.
- Critically analyze and compare concepts of human behavior over time and across cultures, and disciplines.

Degree

A.A. Geography

Program Description

Geography is the study of Earth phenomena by examining spatial patterns of physical, biological, social or political processes and features on our planet. Our unique planet is currently experiencing rapid changes and is supporting an unprecedented population. Now more than ever, it is imperative that we have people who can understand and analyze these Earth phenomena through modes of geographic inquiry. Students completing this degree have a greater appreciation and understanding for the world around them and will be prepared to move on to four-year schools to study geography.

ASSOCIATE OF ARTS IN GEOGRAPHY

UNITS

Major Requirements

ANTH 100	Introduction to Cultural Anthropology	3
ENVR/GEOG 201	Introduction to Geographic Information Systems (GIS)	3
GEOG 102	Physical Geography	3
GEOG 104	Cultural Geography	3
GEOG 125	World Regional Geography	3
GEOL 102	Physical Geology	4

Total Major Requirements 19

To earn an A.A. in Geography:

1. Complete Major Core Requirements and Major Electives, as outlined.
2. Complete one of the following General Education (GE) patterns: FRC GE, CSU Breadth, or IGETC.
3. Complete electives so that major units, plus GE units, plus elective units total sixty (60) units or higher.

Student Learning Outcomes

- Understand and be able to recognize and explain basic physical, biological, social and political Earth processes
- Recognize spatial patterns of physical, biological, social and political phenomena on Earth
- Understand how to read and make maps
- Be able to use geographic information systems to answer geographic questions

Degrees

A.S. Geology
A.S.-T Geology

Program Description

Geology is scientific study of the Earth, including our planet’s composition, behavior, and history. Students pursuing geologic careers should plan to transfer to Universities where they can continue their studies in order to ultimately find themselves qualified for a variety of positions, such as working for mining companies or studying earthquake or volcanic hazards. Students pursuing an AS degree or an AS-T degree in Geology will learn the basics of geologic and physical science that will prepare them to further pursue this line of study in a baccalaureate program.

The Associate of Science in Geology for Transfer Degree (AS-T) is designed for students who intend to pursue a degree in Geology or related discipline at a California State University. Students who complete The Geology Associates of Science in Geology Degree for Transfer (AS-T) are guaranteed admission to the CSU system, not particular university but to one within the CSU system. Geology majors should check the degree requirements of the university to which they intend to transfer and should meet with an academic advisor to construct an academic plan.

ASSOCIATE OF SCIENCE IN GEOLOGY

UNITS

Major Requirements

CHEM 102	General Chemistry I	5
CHEM 104	General Chemistry II	5
GEOL 102	Physical Geology	4
GEOL 104	Historical Geology	4
MATH 218	Single Variable Calculus I – Late Transcendentals	4
MATH 220	Calculus II	4

Total Major Requirements.....26

To earn an A.S. in Geology:

1. Complete Major Core Requirements and Major Electives, as outlined.
2. Complete one of the following General Education (GE) patterns; FRC GE, CSU Breadth, or IGETC.
3. Complete electives so that major units, plus GE units, plus elective units total sixty (60) units or higher.

ASSOCIATE OF SCIENCE IN GEOLOGY FOR TRANSFER

Major Requirements

CHEM 102	General Chemistry I	5
CHEM 104	General Chemistry II	5
GEOL 102	Physical Geology	4
GEOL 104	Historical Geology	4
MATH 218	Single Variable Calculus I – Late Transcendentals	4
MATH 220	Calculus II	4

Total Major Requirements.....26

Pursuant to California Education Code 66746, students completing the Associate of Science in Geology for Transfer Degree are expected to meet the following:

- Completion of no more than 60 semester units that are eligible for transfer to the California State University, including both of the following:
 - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education - Breadth Requirements
 - A minimum of 18 semester units in the major with a grade of C (or P) or better while maintaining a minimum overall grade point average (GPA) of at least 2.0 in all CSU transferable coursework.

Student Learning Outcomes

- Understand and be able to recognize and explain basic Earth processes, materials, and hazards, etc.
- Understand the scientific process and how scientific data is collected and analyzed
- Possess the quantitative and physical science background to succeed in upper division geologic course work

HEALTH AND EXERCISE STUDIES

TERRY BAUMGARTNER
(530) 283-0202, EXT 229

Degrees

A.S. Health and Exercise Studies
A.A.-T Kinesiology

Certificate of Achievement

Health and Exercise Studies

Certificate of Specialization

Athletic Training
Teaching/Coaching

Program Description

The Health and Exercise Studies Program prepares students who plan on transferring to four-year colleges. The curriculum emphasizes general education courses that will assist the student in undertaking upper-level coursework at a university, while enhancing their admissions profile and increasing their chances of acceptance to a physical education program at a four-year college or university. Two degrees are available: Health and Exercise Sciences and a Kinesiology Transfer Degree. In addition to the two degrees, three certificates are available; Health and Exercise Studies, Athletic Training and Teaching/Coaching. The primary goal of this degree is to facilitate students who wish to pursue a Kinesiology major at a four-year school of their choosing. Each student in this program must choose to utilize either the CSU General Education Breadth or IGETC requirements as a part of their degree in addition to the course/s required for this major.

DON WILLIAMS

ASSOCIATE OF SCIENCE IN HEALTH AND EXERCISE STUDIES

UNITS

Major Core Requirements

BIOL 110	Human Anatomy	4
HES/HLTH 100	Principles of Healthful Living	3
HES 133	Introduction to Kinesiology	3
HES 141	Principles of Fitness and Performance	3
HES 143	Principles of Performance Lab	1
HES 172	Beginning Life Long Fitness	1
HES 194	Principles of Physical Education	3
HES 220	Management and Care of Athletic Injury I	3

Health and Exercise Studies Electives

Courses are currently being articulated (see HES faculty for details). 6

Total Major Requirements.....27

To earn an A.S. in Health & Exercise Sciences:

1. Complete Major Core Requirements and Major Electives, as outlined.
2. Complete one of the following General Education (GE) patterns: FRC GE, CSU Breadth, or IGETC.
3. Complete electives so that major units, plus GE units, plus elective units total sixty (60) units or higher.

ASSOCIATE OF ARTS IN KINESIOLOGY FOR TRANSFER

UNITS

Major Core Requirements

BIOL 110	Human Anatomy	4
BIOL 112	Human Physiology	4
HES 133	Introduction to Kinesiology	3

Major Elective Units

(choose 2 courses from the following list of electives)

MATH 202	Elementary Statistics	4
CHEM 102	General Chemistry I	5
CHEM 104	General Chemistry II	5
CHEM 106	Organic Chemistry for Science Majors	5
PHYS 102	General Physics I	4
PHYS 104	General Physics II	4
PHYS 202	Physics Scientists/Engineers I	4
PHYS 204	Physics for Science and Engineers II	4

Movement Based Courses

Courses are currently being articulated. (See HES faculty for details) 3

Total Major Requirements..... 22 - 24

Pursuant to California Education Code 66746, students completing the Associate of Arts in Kinesiology for Transfer Degree are expected to meet the following:

- Completion of no more than 60 semester units that are eligible for transfer to the California State University, including both of the following:
 - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education - Breadth Requirements
 - A minimum of 18 semester units in the major with a grade of C (or P) or better while maintaining a minimum overall grade point average (GPA) of at least 2.0 in all CSU transferable coursework.

CERTIFICATE OF ACHIEVEMENT IN HEALTH AND EXERCISE STUDIES

Certificate Requirements

HES 133	Introduction to Kinesiology	3
HES 141	Principles of Fitness and Performance	3
HES 143	Principles of Performance Lab	1
HES 172	Beginning Life Long Fitness	1
HES 194	Principles of Physical Education	3
HES 220	Management and Care of Athletic Injury I	3
	Any HES Course Electives	6
	Any HES Activity Course Electives	2

Total Certificate Requirements.....22

CERTIFICATE OF SPECIALIZATION IN ATHLETIC TRAINING

Certificate Requirements

BIOL 110	Human Anatomy	4
BIOL 112	Human Physiology	4
HES 220	Management & Care of Athletic Injury I	3
HES 222	Management and Care of Athletic Injury II	3
HES 223	Observation & Practicum of Athletic Training	1

Total Certificate Requirements..... 15

CERTIFICATE OF SPECIALIZATION IN TEACHING/COACHING

UNITS

Certificate Requirements

HES 104	Sports Management	3
HES 124	Sports in American History	3
HES 132	Sports in Society	3
HES 160	Psychology of Coaching	3
HES 180	Theory of Sport: Applied Biomechanics	1
- OR - HES 181	Theory of Sport: Coaching Methods and Issues	1
HES 220	Management & Care of Athletic Injury I	3

Total Certificate Requirements..... 16

Student Learning Outcomes

- **Communication:** Student will be able to effectively communicate using written and oral communication skills in disciplines and professions related to health and Exercise studies; this includes the ability to convey information and work effectively with groups of varying sizes, as well as different audience levels.
- **Multidisciplinary Perspective:** The ability to speak the language of the various disciplines in health and Exercise studies keeps graduates competitive in an increasingly interrelated and competitive market.
- **Knowledge:** A quantitative and qualitative understanding of physical activity in relation to: exercise and skill movement.
- **Application Skills:** Proficiency in disciplines related to Health and Exercise Studies will be taught and practiced regularly at FRC, through practicum experiences with the head athletic trainer and coaches in the profession.
- **Career Responsibility:** A developed professional identity, with established professional and educational goals, and an identified career track will cement the student's sense of place in Health and Exercise Studies, and provide direction toward a constructive and ethical career in their chosen field.

Degrees

A.A. History
A.A.-T History

Program Description

The study of history demonstrates that, as individuals and as a community, we cannot hope to comprehend the present and prepare for the future without an understanding of the past. Knowledge of the past provides students with a sense of the people, ideas, forces, and institutions that shaped the condition of our contemporary world. The study of history can lead to professional work as a teacher, government or private agency historian, or museum curator. Additionally, historical study produces a student capable of performing a variety of jobs where knowledge and intellect are in demand and in which organizational skills and critical thinking are required, and can be particularly used to students pursuing a career in politics or law. (History majors should check the degree requirements of the university to which they intend to transfer and should meet with an academic advisor to construct an academic plan. history majors intending to transfer to CSU Chico are strongly encouraged to take the World history survey series which they require of history majors.) Feather River College offers two degrees in History. The first is a History Transfer Model Curriculum degree for students anticipating transfer to a California state University. The second is a more general degree that can be completed by students who are not planning to transfer to a four-year university.

ASSOCIATE OF ARTS IN HISTORY

UNITS

Major Core Requirements

Choose one of the following year-long course sequences and one course from the other sequence (9 units Total)

U.S. History Survey Series

HIST 108	The United States to 1877	3
HIST 110	The United States Since 1865	3

World History Survey Series

HIST 111	World History to 1500	3
HIST 112	World History Since 1500	3

Major Electives

Select 12 units from below

ANTH 106	Introduction to Prehistory	3
ANTH 150	Native North Americans	3
HIST 108	The United States to 1877	3
HIST 110	The United States Since 1865	3
HIST 111	World History to 1500	3
HIST 112	World History Since 1500	3
HIST 120	Women in American History	3

HIST/POL 170	Dem. in Practice, Washington DC Week	3
HIST/HUMN/POL 172	Dem. in Practice Landmarks of Civil Rights	3
POL/SOC 140	Introduction to Race and Ethnicity	3

Total Major Requirements.....21

To earn an A.A. in History:

1. Complete Major Core Requirements and Major Electives, as outlined.
2. Complete one of the following General Education (GE) patterns: FRC GE, CSU Breadth, or IGETC.
3. Complete electives so that major units, plus GE units, plus elective units total sixty (60) units or higher.

ASSOCIATE OF ARTS IN HISTORY FOR TRANSFER

UNITS

Major Core Requirements

HIST 108	The United States to 1877	3
HIST 110	The United States Since 1865	3

LIST A

6 units from the following

HIST 111	World History to 1500	3
HIST 112	World History Since 1500	3

LIST B

1 course from each of the following two groups, 6 units total

AREA 1 (3 UNITS)

ENGL 246	Women’s Literature	3
HIST 120	Women in American History	3
HIST 130	Native American History	3
POL/SOC 140	Introduction to Race and Ethnicity	3
POL/SOC 160	Globalization	3

AREA 2 (3 UNITS)

ANTH 106	Introduction to Prehistory	3
ANTH 150	Native North Americans	3
HIST 120	Women In American History	3
HIST 130	Native American History	3
HIST 140	California History	3
HIST 160	History of the American West	3
POL 130	Introduction to International Relations	3
POL/SOC 140	Introduction to Race and Ethnicity	3

Total Major Requirements..... 18

Pursuant to California Education Code 66746, students completing the Associate of Arts in History for Transfer Degree are expected to meet the following:

- Completion of no more than 60 semester units that are eligible for transfer to the California State University, including both of the following:
 - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education - Breadth Requirements
 - A minimum of 18 semester units in the major with a grade of C (or P) or better while maintaining a minimum overall grade point average (GPA) of at least 2.0 in all CSU transferable coursework.

Student Learning Outcomes

- Identify significant events, people, and places in history;
- Comprehend the connections, contributions, and experiences of various regions, ethnicities, races and genders in the creation of the modern world.
- Interpret and extract meaning from primary and secondary sources;
- Appraise the connections between the past and the present through (written and orally) clearly and accurately about history.

Degrees

- A.A. Liberal Arts: Arts and Humanities
- A.A. Liberal Arts: Social and Behavioral Sciences

Program Description

The Liberal Studies Program is a pathway designed for prospective elementary teachers who intend to transfer to earn a baccalaureate degree and a multiple subject (K-8) credential. The required courses are part of a program of study that can be started at the community college level and completed at a four-year institution. Students are encouraged to work closely with advisors to address any additional requirements of the intended institution of transfer.

LIBERAL ARTS: ASSOCIATE OF ARTS IN ARTS AND HUMANITIES

ENGL 252	American Literature I	3
ENGL 254	American Literature II	3
ENGL 256	Survey of British Literature I	3
ENGL 257	Survey of British Literature II	3
ENGL 277	Introduction to Shakespeare	3
HIST 111	World History to 1500	3
HIST 112	World History Since 1500	3
HUMN/MUS 101	Music Appreciation	3
HUMN 110	Introduction to Humanities I	3
HUMN 112	Introduction to Humanities II	3
PHIL 100	Introduction to Philosophy	3
PHIL 103	Philosophy of Religions	3
THEA 105	Introduction to Acting	3
THEA 106	Advanced Acting	3

Total Major Requirements..... 18

To earn an A.A. in Liberal Arts (Arts and Humanities Emphasis):

1. Complete Major Core Requirements and Major Electives, as outlined.
2. Complete one of the following General Education (GE) patterns: CSU Breadth, or IGETC.
3. Complete electives so that major units, plus GE units, plus elective units total sixty (60) units or higher.

LIBERAL ARTS: ASSOCIATE OF ARTS IN SOCIAL AND BEHAVIORAL SCIENCES

Program Description

Social Sciences refer to any discipline or branch of science that deals with the social and cultural aspects of human behavior. The Social Sciences generally include Economics, Political Science, Sociology, and may include Cultural Anthropology, Geography, Psychology, and Social Psychology. This area of emphasis is designed to give students a broad foundation in the related fields of the social and behavioral sciences, and prepare students to think critically, analyze evidence effectively, and understand the different approaches of the various disciplines that examine people as members of society and how societies and social groups operate.

UNITS

Major Core Requirements

Choose 18 units from the following classes including at least 6 units in one discipline.

ADMJ 102	Introduction to Administration of Justice	3
ADMJ/PSY 152	Psycho Pathology of Serial Killers and Mass Murderers	3
ANTH 100	Introduction to Cultural Anthropology	3
ANTH 106	Introduction to Prehistory	3
ANTH 120	Physical Anthropology	3
ANTH 120L	Physical Anthropology Lab	1
BUS 106	Principles of Economics-Macro	3
BUS 108	Principles of Economics-Micro	3
ECE 153	Child, Family and Community	3
ECE 162	Child Growth and Development	3
ENVR/POL 180	Environmental Policy	3
GEOG 104	Cultural Geography	3
HIST 108	The United States to 1877	3
HIST 110	The United States Since 1865	3
HIST 111	World History to 1500	3
HIST 112	World History Since 1500	3
HIST 120	Women In American History	3
HIST 130	Native American History	3
HIST 140	California History	3
MATH 202	Elementary Statistics	4
POL 101	American Government and Politics	3
POL 130	Introduction to International Relations	3
POL/SOC 140	Introduction to Race and Ethnicity	3
POL/SOC 160	Globalization	3
PSY 102	Introductory Psychology	3
PSY 130	Psychology of Women	3
SOC 100	Sex, Gender, and Society	3
SOC 102	Introduction to Sociology	3
SOC 150	Social Trends & Problems	3

Total Major Requirements..... 18

To earn an A.A. in Liberal Arts (Social and Behavioral Sciences Emphasis):

1. Complete major requirements as outlined.
2. Complete one of the following General Education (GE) patterns: CSU Breadth, or IGETC.
3. Complete electives so that major units, plus GE units, plus elective units total sixty (60) units or higher.

Student Learning Outcomes

- Think critically and explore how knowledge across multiple disciplines in interrelated
- Communicate clearly in written and verbal forms
- Comprehend and evaluate all forms of written material
- Evaluate the essential role of diversity
- Formulate personal goals for continued learning and teacher preparation
- Apply for transfer to complete a bachelor's degree and a multiple subject Teaching Credential

Degrees

A.S. Associate of Science in Mathematics
A.S.-T Associate of Science in Mathematics for Transfer

Program Description

Goal: The proposed Associate in Science in Mathematics for transfer degree is based on the approved Transfer Model Curriculum provided by the Academic Senate for California Community Colleges in accordance to SB1440 and California Education Code sections 66746-66749. The AS-T in Mathematics is consistent with and supports the college's mission of providing transfer education to its students. The courses within the AS-T in Mathematics fulfill transfer major requirements for students for transfer into the CSU system to complete a baccalaureate degree in Mathematics or similar major. Students who obtain an advanced degrees and/or professional certificates, such as a baccalaureate degree will have the foundation to pursue careers including urban planner, financial analyst, statistician, systems analyst, computer programmer and teacher. The Mathematics AS-Transfer degree requires 19 - 20 units and is designed for students who intend to pursue a degree in mathematics or a related discipline, and who plan to transfer to a four-year college or university. The Mathematics Associates Degree for Transfer (AS-T) may assist students in seamlessly transferring to a CSU. Mathematics majors should check the degree requirements of the university to which they intend to transfer and should meet with an academic advisor to construct an academic plan.

DR. BECKY EASLEY
(530) 283-0202, EXT 358

ASSOCIATE OF SCIENCE IN MATHEMATICS

UNITS

Major Core Requirements

MATH 202	Elementary Statistics	4
MATH 218	Single Variable Calculus I – Late Transcendentals	4
MATH 220	Calculus II	4
MATH 291	Directed Study	1

Additional Requirements

(Minimum of 18 units from below)

CHEM 102	General Chemistry I	5
MATH 150	Concepts and Structures of Mathematics for Educators	3
MATH 222	Multivariable Calculus	4
MATH 224	Ordinary Differential Equations	4
PHIL 101	Logic	3
PHYS 202	Physics Scientists/Engineers I	4
PHYS 204	Physics for Science & Engineers II	4

Total Major Requirements.....31

To earn an A.S. in Mathematics

1. Complete Major Core Requirements and Major Electives, as outlined.
2. Complete one of the following General Education (GE) patterns: FRC GE, CSU Breadth, or IGETC.
3. Complete electives so that major units, plus GE units, plus elective units total sixty (60) units or higher.

Student Learning Outcomes

- Apply mathematical concepts and principles to perform computations.
- Apply critical thinking and technology to solve applied problems.
- Create, use and analyze graphical representations of mathematical relationships.
- Communicate mathematical knowledge and reasoning.

ASSOCIATE OF SCIENCE IN MATHEMATICS FOR TRANSFER

UNITS

Major Core Requirements - List A

(Take the following 4 courses - 16 units)

MATH 218	Single Variable Calculus I – Late Transcendentals	4
MATH 220	Calculus II	4
MATH 222	Multivariable Calculus	4
MATH 224	Ordinary Differential Equations	4

Major Core Requirements - List B

MATH 202	Elementary Statistics	4
----------	-----------------------	---

Total Major Requirements.....20

Pursuant to California Education Code 66746, students completing the Associate of Science in Mathematics for Transfer Degree are expected to meet the following:

- Completion of no more than 60 semester units that are eligible for transfer to the California State University, including both of the following:
 - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education - Breadth Requirements
 - A minimum of 18 semester units in the major with a grade of C (or P) or better while maintaining a minimum overall grade point average (GPA) of at least 2.0 in all CSU transferable coursework.

Student Learning Outcomes

- Demonstrate mathematical reasoning necessary for success in upper division work in their major, including the ability to generalize concepts and comprehend increasing levels of abstraction.
- Demonstrate mathematical literacy, problem solving ability and modeling ability.

Degree

A.S. Licensed Vocational Nursing

Certificate of Achievement

Licensed Vocational Nursing

Program Description

Careers in the health care industry are expected to increase dramatically in the next few years. Both the A.S. and certificate options prepare the students to take the State Board of Vocational Nursing Licensing Exam (NCLEX-PN) and upon passing the exam apply for a state license as a vocational nurse. The FRC Vocational Nursing Program averages 20 hours per week for 4 semesters, with 8 weeks of clinical instruction at a major hospital during each of 2 summers. FRC accepts 30 students every two years at its Feather River Campus. Applications are accepted in January of the year of the beginning of the program in August.

ASSOCIATE OF SCIENCE IN LICENSED VOCATIONAL NURSING

UNITS

Required Prerequisites

BIOL 110	Human Anatomy	4
BIOL 112	Human Physiology	4
HES/NCA 170	Introduction to Nutrition	3
NURS 100	Nurse Aide	6

Major Core Requirements

NURS 111	Drug Dosage Calculations For Health Providers	3
NURS 112	Nursing Foundations	1
NURS 114	Nursing Foundations Lab	2
NURS 116	Psychological Principles for Nurses	3
NURS 120	Introduction to Pharmacology	1
NURS 122	Basic Medical Surgical Nursing	5
NURS 123	Basic Medical Surgical Nursing Lab I	2
NURS 125	Basic Medical Surgical Nursing Lab II	3.5
NURS 212	Intermediate Medical Surgical Nursing	3
NURS 214	Intermediate Medical Surgical Nursing Lab	2.5
NURS 222	Advanced Medical Surgical Nursing	5
NURS 223	Advanced Medical Surgical Laboratory I	2
NURS 225	Advanced Medical Surgical Laboratory II	1.5
NURS 232	Obstetrical Nursing	2
NURS 234	Obstetrical Nursing Laboratory I	0.5
NURS 235	Obstetrical Nursing Laboratory II	1
NURS 237	Pediatric Nursing	2
NURS 239	Pediatric Nursing Laboratory I	0.5
NURS 240	Pediatric Nursing Laboratory II	1

Recommended Electives

NURS 080	Intravenous Therapy/Blood Withdrawal	2
NURS 280	Synthesis of Nursing Concepts	2

Total Major Requirements.....41.5

To earn an A.S. in Vocational Nursing:

1. Complete Major Core Requirements and Major Electives, as outlined.
2. Complete one of the following General Education (GE) patterns: FRC GE, CSU Breadth, or IGETC.
3. Complete electives so that major units, plus GE units, plus elective units total sixty (60) units or higher.

CERTIFICATE OF ACHIEVEMENT IN LICENSED VOCATIONAL NURSING

UNITS

Certificate Requirements

NURS 111	Drug Dosage Calculations for Health Providers	3
NURS 112	Nursing Foundations	1
NURS 114	Nursing Foundations Lab	2
NURS 116	Psychological Principles for Nurses	3
NURS 120	Introduction to Pharmacology	1
NURS 122	Basic Medical Surgical Nursing	5
NURS 123	Basic Medical Surgical Nursing Lab I	2
NURS 125	Basic Medical Surgical Nursing Lab II	3.5
NURS 212	Intermediate Medical Surgical Nursing	3
NURS 214	Intermediate Medical Surgical Nursing Lab	2.5
NURS 222	Advanced Medical Surgical Nursing	5
NURS 223	Advanced Medical Surgical Laboratory I	2
NURS 225	Advanced Medical Surgical Laboratory II	1.5
NURS 232	Obstetrical Nursing	2
NURS 234	Obstetrical Nursing Laboratory I	0.5
NURS 235	Obstetrical Nursing Laboratory II	1
NURS 237	Pediatric Nursing	2
NURS 239	Pediatric Nursing Laboratory I	0.5
NURS 240	Pediatric Nursing Laboratory II	1

Total Certificate Requirements.....41.5

Student Learning Outcomes

- Discuss the principles of physical and mental health nursing care.
- Describe specific disease conditions including prevention, treatment, nursing care, and rehabilitation.
- Demonstrate technical competence with the ability to perform nursing skills, including patient care procedures and medication administration in a safe and competent manner.
- Demonstrate understand of the role of the Licensed Vocational Nurse in problem solving and critical thinking skills in clinical practice and to promote the physical, mental, emotional, and spiritual well-being of each patient to the highest level of independence.
- Perform the professional role of the Licensed Vocational Nurse as a member of the health care team, and also an individual and a member of the community.

NUTRITION, FOOD AND CULINARY ARTS

SEAN CONRY
(530) 283-0202, EXT 238

Degree

A.A. Nutrition, Food and Culinary

Certificate of Specialization

Baking Entrepreneurship
Catering Entrepreneurship
Restaurant Management

LOWELL SIWUNDHLA

(530) 283-0202, EXT 238

Program Description

The Nutrition, Foods, and Culinary Arts Program is primarily designed for students who intend to earn an AA degree and move directly into the workforce. The program prepares students for a wide range of jobs that exhibit a continued strong labor market. Becoming a trained food professional will help students better compete for year-round and more highly paid positions. FRC staff provides professional training for employment in commercial culinary service. Elective courses allow students to tailor learning experiences to their personal goals. Classes are hands-on with quality instructors who have owned and managed their own businesses. Internships are available at many local restaurants and resorts.

ASSOCIATE OF ARTS IN NUTRITION, FOOD AND CULINARY

UNITS

Major core Requirements

BUS 130	Small Business Management	3
HES/NCA 170	Introduction to Nutrition	3
NCA 001	Food Safety And Sanitation	1.5
NCA 002	Professional Chef Cooking I	2.5
NCA 003	Professional Chef Cooking II	2.5
NCA 004	Food Service Cost Controls	2
NCA 010	Restaurant Operations - Breakfast	3.5
NCA 021	Fundamentals of Baking	2.5
NCA 023	Advanced Baking	3

Elective Requirements

Select 7-9 units from below

NCA 012	Catering for the Professional	2.5
NCA 014	Stocks And Sauces	2
NCA 022	The World of Breads	3
NCA 025	The Art of the Wedding Cake	1.5
NCA 031	Mexican Cooking	1

Total Major Requirements..... 30.5 – 32.5

To earn an A.A. in Nutrition, Food Service and Culinary Arts:

1. Complete Major Core Requirements and Major Electives, as outlined.
2. Complete one of the following General Education (GE) patterns: FRC GE, CSU Breadth, or IGETC.
3. Complete electives so that major units, plus GE units, plus elective units total sixty (60) units or higher.

CERTIFICATE OF SPECIALIZATION IN BAKING ENTREPRENEURSHIP UNITS

Certificate Requirements

Entrepreneurship

BUS 121	Introduction to Entrepreneurship	1
BUS 122	Entrepreneurial Marketing	1.5
BUS 123	Financial Management for Entrepreneurs	2
BUS 124	Preparing Effective Business Plans	1.5

Nutrition, Food and Culinary Arts

NCA 001	Food Safety And Sanitation	1.5
NCA 004	Food Service Cost Controls	2
NCA 021	Fundamentals of Baking	2.5
NCA 023	Advanced Baking	2.5
NCA 025	The Art of the Wedding Cake	1.5

Total Certificate Requirements..... 16

CERTIFICATE OF SPECIALIZATION IN CATERING ENTREPRENEURSHIP

Certificate Requirements

Entrepreneurship

BUS 121	Introduction to Entrepreneurship	1
BUS 122	Entrepreneurial Marketing	1.5
BUS 123	Financial Management for Entrepreneurs	2
BUS 124	Preparing Effective Business Plans	1.5

Certificate Requirements

Nutrition, Food and Culinary Arts

NCA 001	Food Safety and Sanitation	1.5
NCA 002	Professional Chef Cooking I	2.5
NCA 004	Food Service Cost Controls	2
NCA 012	Catering for the Professional	2.5
NCA 015	Garde Manger	2

Total Certificate Requirements..... 16.5

CERTIFICATE OF SPECIALIZATION IN RESTAURANT MANAGEMENT

Certificate Requirements

Entrepreneurship

BUS 121	Introduction to Entrepreneurship	1
BUS 122	Entrepreneurial Marketing	1.5
BUS 123	Financial Management for Entrepreneurs	2
BUS 124	Preparing Effective Business Plans	1.5

Certificate Requirements

Nutrition, Food and Culinary Arts

NCA 001	Food Safety and Sanitation	1.5
NCA 002	Professional Chef Cooking I	2.5
NCA 004	Food Service Cost Controls	2
NCA 011	Restaurant Operations - Lunch	3.5

Total Certificate Requirements..... 15.5

Student Learning Outcomes

- Apply theories and concepts of cooking and implement techniques to operate or function in a commercial kitchen.
- Apply theories and concepts of baking and implement techniques to operate or function in a commercial kitchen.
- Identify sanitation and safety codes and procedures necessary to maintain a safe foodservice facility.
- Analyze food cost and implement necessary controls to maintain costs and ensure profitability.
- Demonstrate a personal sense of professionalism necessary for working successfully in the foodservice and hospitality industry.
- Gain appreciation for the history, evolution, and international diversity of the culinary arts profession.
- Communicate effectively with customers and fellow employees.
- Apply knowledge and skills and succeed as a cook or baker in a restaurant or other culinary service business.

OUTDOOR RECREATION LEADERSHIP

RICK STOCK
(530) 283-0202, EXT 275

Degree

A.A. Outdoor Recreation Leadership

Certificates of Specialization

Outdoor Recreation Leadership
Backcountry Search and Rescue

Program Description

Outdoor Recreation Leadership is a unique program, designed to prepare students for careers in outdoor leadership and outdoor teaching positions as well as preparing students for transfer. Experiential education is a hallmark of the program. Feather River College and the surrounding 1.2 million acre Plumas National Forest provide an ideal laboratory for learning skills related to outdoor adventure leadership, and teaching. This is the only associate degree in Outdoor Recreation Leadership in California.

DR. DARLA DERUITER

ORL 182	Swiftwater Rescue Technician Level I	1
ORL 190	Avalanche Technician Level I	1
ORL 291	Directed Study	1-3
One ORL Technical Skills Course (See list under Certificate of Specialization)		1

Total Certificate Requirements.....6 - 8

Student Learning Outcomes

- Leadership: Assess a group & situation to determine what is needed to reach goals while maintaining emotional & physical safety.
- Communication: Demonstrate competence in speaking, writing, and use of computers that will lead to successful employment in an entry-level position.
- Application: Actively apply knowledge & practiced skills in a variety of settings.
- Knowledge: Demonstrate knowledge of concepts and theories in recreation.
- Involvement: Demonstrate knowledge of issues related to the recreation field, develop opinions about them, and advocate for that position.
- Environment: Develop a philosophy & life style that reflects an understanding of the effect humans have on the environment, trying to mediate the harmful consequences of human behavior.

Degree

A.S. Physical Science

Program Description

The Associate of Science Degree in Physical Science offers a flexible, broad-based, and interdisciplinary approach directed toward an understanding of our physical world. Students who contemplate transfer to a university Bachelor of Science program and who envision themselves a teacher or professional in the sciences will find the Physical Science Degree especially valuable. Beyond the required core courses, the degree program offers students a choice of two options designed to emphasize a student's particular interest and transfer desires: 1) a chemistry foundation, or 2) a physics foundation. Majors must also complete one of the college's general education requirement schemes. Students expecting to transfer to a 4-year university are strongly advised to complete the CSU Breadth or the IGETC requirements rather than the FRC GE requirements.

DR. MICHAEL BAGLEY

(530) 283-0202, EXT 342

ASSOCIATE OF SCIENCE IN PHYSICAL SCIENCE

UNITS

Major Core Requirements

Select a minimum of 8 units from below

MATH 108	Introduction to Trigonometry	1
MATH 110	College Algebra	4
MATH 116	Precalculus	4
MATH 202	Elementary Statistics	4
MATH 218	Single Variable Calculus I – Late Transcendentals	4
MATH 220	Calculus II	4

Elective Units

22 units | Units taken in Mathematics beyond 8 units can be used towards achieving 22 elective unit total.

BIOL 102	Cell And Molecular Biology	4
CHEM 102	General Chemistry I	5
CHEM 104	General Chemistry II	5
CHEM 106	Organic Chemistry For Science Majors	5
ENVR 142	Introduction to Environmental Science	3
ENVR 142L	Introduction to Environmental Science Lab	1
ENVR/GEOG 201	Introduction to Geographic Information Systems (GIS)	3
GEOG 102	Physical Geography	3
GEOL 102	Physical Geology	4
GEOL 104	Historical Geology	4
GEOL 120	Introduction to Earth Science	4
PHSC 120	Introduction to Astronomy	3
PHYS 102	General Physics I	4
PHYS 104	General Physics II	4
PHYS 202	Physics Scientists/Engineers I	4
PHYS 204	Physics for Science & Engineers II	4
PHYS 206	Physics for Science & Engineers III	4

Total Major Requirements.....30

To earn an A.S. in Physical Science:

1. Complete Major Core Requirements and Major Electives, as outlined.
2. Complete one of the following General Education (GE) patterns: FRC GE, CSU Breadth, or IGETC.
3. Complete electives so that major units, plus GE units, plus elective units total sixty (60) units or higher.

Student Learning Outcomes

- Know, use, and interpret scientific explanations of the natural world
- Generate and evaluate scientific evidence and explanations
- Understand the nature and development of scientific knowledge
- Participate productively in scientific practices and discourse

Electives Recommended for an Earth Science Emphasis – GEOL 102, CHEM 102, CHEM 104, MATH 218, MATH 220

Electives Recommended for a Chemistry Emphasis – CHEM 102, CHEM 104, CHEM 106, MATH 218, MATH 220

Electives for Engineering/Physics Emphasis – PHYS 102, PHYS 104, CHEM 102, CHEM 104, MATH 218, MATH 220

Prospective Two Year CSU Transfer Plan (Associate in Physical Science)

Students are encouraged to choose CSU Breadth courses that also align with the IGETC pattern to satisfy UC requirements.

Fall	
Core Physical Science- MATH (CSU B4/IGETC 2)*	4

Degrees

A.A. Political Science
A.A.-T Political Science for Transfer

Program Description

The study of politics is the study of power. Political science students study power relationships between people and government, and the decisions that affect peoples' lives at the state, national, and international levels. The program offers foundational courses in the field that explore topics in international relations, American politics, globalization and development, race/class/gender, public policy, human rights, law, public opinion, bureaucracy, and foreign policy. In their studies, students will develop an appreciation for citizen involvement and how civic engagement and social movements can compel change in this world. Students seeking a Political Science degree will build skills in critical thinking, effective written and oral communication, and global citizenship. This will prepare students for an advanced degree, professional certificates, and for a broad range of career options. This degree pursuit is well suited for students interested in employment in the public or private sectors, in areas of public service, public administration, civil service, governmental/non-governmental and grassroots organizations, research, communications, journalism, law, teaching policy analysis, and/or politics. Feather River College offers two degrees in Political Science. The first is a Political Science Transfer Model Curriculum degree for students anticipating transfer to a California State University political science or comparable degree program. The second is an associate degree that can be completed by students seeking other transfer opportunities or who are not planning transfer to a four-year university. Political science majors should check the degree requirements of the university to which they intend to transfer and should meet with an academic advisor to construct an academic plan.

ASSOCIATE OF ARTS IN POLITICAL SCIENCE

UNITS

Core Requirements

POL 101	American Government and Politics	3
POL 150	Introduction to Political Science	3

SOC 102	Introduction to Sociology	3

Total Major Requirements..... 19

Pursuant to California Education Code 66746, students completing the Associate of Arts in Political Science for Transfer Degree are expected to meet the following:

- Completion of no more than 60 semester units that are eligible for transfer to the California State University, including both of the following:
 - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education - Breadth Requirements
 - A minimum of 18 semester units in the major with a grade of C (or P) or better while maintaining a minimum overall grade point average (GPA) of at least 2.0 in all CSU transferable coursework.

Student Learning Outcomes

- Identify and define the core concepts of political science and government that apply to the state, national, and international levels.
- Apply research methods and major theoretical perspectives to analyze political behavior, and the role of structures and institutions of power and governance.

Degrees

A.A. Sociology
A.A.-T Sociology for Transfer

Program Description

Sociology is the systematic study of human society and social interactions. Students in this major explore how the interactions between individuals, groups, and the larger society shape and are shaped by social institutions such as the criminal justice system, education, government, economic structures, the media, politics, family, and religion. Using sociological theories and social science research methods, sociology students will examine how socioeconomic status, race, ethnicity, age, gender, sexualities, etc. affect behavior, interactions, and experiences in diverse societies. With these perspectives and approaches, students will critically examine contemporary social issues and problems. Students seeking a Sociology degree will build skills in critical thinking, effective written and oral communication. This will prepare students for an advanced degree, professional certificates, and for a broad range of career options. A number of careers are open to sociology majors including social service, social work, law, education, counseling, criminal justice, business, research, government, and communication. Feather River College offers two degrees in Sociology. The first is a Sociology Transfer Model Curriculum degree for students anticipating transfer to a California State University sociology, social work, or comparable degree program. The second is an associate degree that can be completed by students seeking other transfer opportunities or who are not planning to transfer to a four-year university. Sociology majors should check the degree requirements of the university to which they intend to transfer and should meet with an academic advisor to construct an academic plan.

ASSOCIATE OF ARTS IN SOCIOLOGY

UNITS

Total Major Requirements 18

To earn an A.A. in Sociology:

1. Complete Major Core Requirements and Major Electives, as outlined.
2. Complete one of the following General Education (GE) patterns: FRC GE, CSU Breadth, or IGETC.
3. Complete electives so that major units, plus GE units, plus elective units total sixty (60) units or higher.

ASSOCIATE OF ARTS IN SOCIOLOGY FOR TRANSFER

UNITS

Major Core Requirements

MATH 202	Elementary Statistics	4
SOC 102	Introduction to Sociology	3
SOC 150	Social Trends & Problems	3

Major Elective Requirements - List A

Select 6 units from below

ADMJ 112	Introduction to Criminology	3
ADMJ 203	Introduction to Multiculturalism	3
SOC 100	Sex, Gender, and Society	3
POL/SOC 140	Introduction to Race and Ethnicity	3
POL/SOC 160	Globalization	3
PSY 102	Introductory Psychology	3

Major Elective Requirements - List B

Take one of the following courses, or an unused course from List A

ANTH 100	Introduction to Cultural Anthropology	3
ECE 153	Child, Family and Community	3
GEOG 104	Cultural Geography	3

Total Major Requirements..... 19

Pursuant to California Education Code 66746, students completing the Associate of Arts in Sociology for Transfer Degree are expected to meet the following:

- Completion of no more than 60 semester units that are eligible for transfer to the California State University, including both of the following:
 - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education - Breadth Requirements
 - A minimum of 18 semester units in the major with a grade of C (or P) or better while maintaining a minimum overall grade point average (GPA) of at least 2.0 in all CSU transferable coursework.

Student Learning Outcomes

- Understand the interrelationships of individuals, social groups, social institutions, culture and society.
- Analyze the interaction of individuals, social groups, social institutions, and cultures using social science research methods and major sociological perspectives.

COURSE LISTINGS

ADMINISTRATION OF JUSTICE

ADMJ 102 - Introduction to Administration of Justice

54 LEC, 3 UNITS

CSU(D8), UC

This course introduces students to the characteristics of the criminal justice system in the United States. Focus is placed on examining crime measurement, theoretical explanations of crime, responses to crime, components of the system, and current challenges to the system. The course examines the evolution of the principles and approaches utilized by the justice system and the evolving forces which have shaped those principles and approaches. Although justice structure and process is examined in a cross cultural context, emphasis is placed on the US justice system, particularly the structure and function of US police, courts, and corrections. Students are introduced to the origins and development of criminal law, legal process, and sentencing and incarceration policies.

ADMJ 105 - Community and Human Relations

54 LEC, 3 UNITS

CSU, UC

This course examines the complex, dynamic relationship between communities and the justice system in addressing crime and conflict with an emphasis on the challenges and prospects of administering justice within a diverse multicultural population. Topics may include the consensus and conflicting values in Cultural, Religion, and Law.

ADMJ 106 - Introduction to Evidence

54 LEC, 3 UNITS

CSU

This course examines categories of evidence and legal rules governing its admission and exclusion in the criminal process.

ADMJ 108 - Introduction to Investigations

54 LEC, 3 UNITS

CSU

This course addresses the techniques, procedures, and ethical issues in the investigation of crime, including organization of the investigative process, crime scene searches, interviewing and interrogating, surveillance, source of information, utility of evidence, scientific analysis of evidence and the role of the investigator in the trial process.

ADMJ 112 - Introduction to Criminology

54 LEC, 3 UNITS

CSU(D0)

An introduction into major types of criminal behavior, characteristics of offenders, factors that contribute to crime and delinquency; the criminal justice process; the function of law enforcement, courts, probation, parole and institutions; changes in crime control and treatment processes; the role of society.

ADMJ 114 - Juvenile Justice

54 LEC, 3 UNITS

CSU

This course is an examination of the origin, development, and organization of the Juvenile Justice System as it evolved in the American Justice System. The course explores the theories that focus on Juvenile Law, courts and processes, and the constitutional protections extended to juveniles administered in the American Justice System.

ADMJ 116 - Vice, Narcotics, and Organized Crime

54 LEC, 3 UNITS

CSU

Drug identification, drug prevention techniques and strategies, and drug addiction treatment; interrelations of organized crime to the community, impact of covert criminal activities upon the social structure, symptoms of organized crime activity, i.e. vice, narcotics, and organized criminal enterprises; political influences of organized crime in the legal system; investigation of organized crime. Formerly and ADMJ016.

ADMJ 118 - Police Field Operations

54 LEC, 3 UNITS

CSU

History and development of patrol philosophy; planning for field activities to include functions of patrol, traffic, and other investigative duties of the field officer; techniques for planning patrol activities; handling complaints and requests for services; mechanics of field interviews, searches, and arrests; handling traffic-related problems; civil and domestic disturbances and other community crime incidents. Formerly ADMJ 010 and ADMJ 018.

ADMJ 120 - Introduction to Corrections

54 LEC, 3 UNITS

CSU

Survey of correctional science. Historical development, current concepts and practice; explanations of criminal behavior; functions and objectives of the criminal justice system concerned with institutional, probation, and parole processes as they modify the offender's behavior; survey of professional career opportunities in public and private agencies.

ADMJ 125 - Wildlife Law and Issues

36 LEC, 2 UNITS

CSU

In-depth studies of wildlife issues, laws, and regulations throughout North America and the world. The course includes in-depth discussions and analysis of the Endangered Species Act, commercialization of wildlife, illegal trade of wildlife, introduction of exotic species, the effects of pollution on wildlife, depredation wildlife and human populations' effect upon wildlife. Possible solutions to wildlife issues will be reviewed. Cross-listed with ENVR 125.

ADMJ 126 - Crime Scene Investigation

54 LEC, 3 UNITS

CSU

This course provides an introduction to the role of forensics in criminal investigations. It examines the methods utilized in the forensic analysis of crime scenes, pattern evidence, instruments, firearms, questioned documents and controlled substances.

ADMJ 128 - Introduction to Terrorism

58 LEC, 3 UNITS

CSU

Historical overview of terrorism, its development in modern times, and its impact on society.

ADMJ 152 - Psycho Pathology of Serial Killers and Mass Murderers

54 LEC, 3 UNITS

CSU

Provides a historical examination and analysis of serial, mass, and spree homicides. Examines theories on the motives for these types of murders. Studies the historical application of the law to homicide and murder cases. Examines the detection, investigation and prosecution of murder cases including the analysis of forensic evidence in homicide cases. Explores the criminal justice system's capabilities of responding to multiple murder cases as well as society's response. Cross-listed with PSY 152.

ADMJ 201 - Introduction to Community Policing

54 LEC, 3 UNITS

CSU(D0, D3, D7)

Community policing involves a rethinking of the role of the police and restructuring of the police organization. It emphasizes community/police collaboration and policing as problem-solving instead of responding to crime. Building partnerships with the community is emphasized. Community-Oriented Policing and Problem-Oriented Policing efforts will be analyzed.

ADMJ 203 - Introduction to Multiculturalism

54 LEC, 3 UNITS

CSU(DO, D3, D7)

Police community relations will be covered to include the tension caused by minority concern with equal protection under the law and the police concern with crime control and order maintenance. The history of racism in America as it relates to police and minority relations will be a focus of the course. Diversity will be placed in context of other disciplines such as anthropology, sociology, political science, and history.

ADMJ 204 - Criminal Law and Procedure

54 LEC, 3 UNITS

CSU, UC

This course offers an analysis of the doctrines of criminal liability in the United States and the classification of crimes against persons, property, morals, and public welfare. Special emphasis is placed on the classification of crime, the general elements of crime, the definitions of common and statutory law, and the nature of acceptable evidence. This course utilizes case law and case studies to introduce students to criminal law. The completion of this course offers a foundation upon which upper-division criminal justice course will build. The course will also include some limited discussion of prosecution and defense decision-making, criminal culpability, and defenses to crimes.

ADMJ 210 - POST - Use of force: Legal Issues

9 LEC, 0 UNITS

Course is for all levels of law enforcement personnel. It is designed to familiarize students with Use of force principles with relevant statutes and case law. The course integrates practical scenarios with these principles to allow the student to effectively analyze applicable Use of force options on any level of confrontation. Emphasis also will be placed upon prevailing organizational policies as well as relevant statutes and case law as they apply to investigations and policy improvements for Use of force issues.

ADMJ 211 - POST - Internal Affairs Investigation

27 LAB, 0 UNITS

Studies the legal issues, case law, interviewing techniques, and report writing - covers the Public Safety officers Procedural Bill of Rights Act.

ADMJ 212 - POST - Domestic Violence, Racial Profiling, Workplace Harassment

9 LEC, 0 UNITS

Legal issues updates and policies concerning domestic violence, racial profiling, and workplace harassment (sexual) prevention. All topics are legally mandated for law enforcement personnel.

ADMJ 213 - POST - Courtroom Testimony

9 LEC, 0 UNITS

This course is designed to assist the officer in becoming more comfortable in the courtroom and to teach the officer to testify effectively.

ADMJ 214 - POST - Report Writing

18 LEC, 1 UNIT

This course will enhance report writing skills for both criminal and civil liability reports, recognizing the demands placed on field personnel for increased follow-up investigations and changing societal norms which impact perceptions of police practices.

ADMJ 291 - Directed Study

18 - 270 HOURS, 1 - 5 UNITS

CSU

A student may take advanced course work or complete a student designed project in Administration of Justice after having completed introductory courses. The topics, learning objectives, educational material(s), number of units to be awarded, and method of evaluation are determined in a written agreement between the instructor and the student before the student engages in the learning experience. A "Learning Contract for Directed Studies" must be completed by the student, approved by the instructor and Chief Instructional Officer, and placed on file with the Office of Instruction.

AGRICULTURE**CWEE 418 - Equine and Ranch Management Internship**

60 - 450 FIELD, 1 - 6 UNITS

Student will spend time with an approved agricultural firm engaged in production or related business. Time will be spent applying and developing production and managerial skills and abilities. Independent student research and presentations are emphasized. 60 hours unpaid, or 75 hours paid work are required to earn each 1.0 unit. A maximum of 6 units may be completed per term. Course prerequisites include: sophomore standing or 30 completed units, acceptance to the Bachelor of Science Program, or approval by the Agriculture Department Chair.

AG 270 - Fundamentals of Agriculture Education and Employment

9 LEC, 0.5 UNITS

CSU

Articulate knowledge in education and employment opportunities in agriculture. Includes Feather River College educational plan development and curriculum requirements toward educational goals for Agriculture majors. Addresses job seeking skills, presentation, interviewing, resume development, and transfer procedures to other educational programs. Current events that impact agriculture and society will be discussed.

AG 271 - Agriculture Education and Employment

9 LEC, 0.5 UNITS

CSU

Articulate knowledge in education and employment opportunities in agriculture. Includes graduation plan development and curriculum requirements toward educational goals for transfer Agriculture majors. Completion of applications at four-year transfer institutions. Includes critique of the Agriculture Program and knowledge acquired while at Feather River College. Current events that impact agriculture and society will be discussed.

AG 291 - Directed Study

18 - 270 HOURS, 1 - 5 UNITS

CSU

A student may take advanced course work or complete a student designed project in Agriculture after having completed introductory courses. The topics, learning objectives, educational material(s), number of units to be awarded, and method of evaluation are determined in a written agreement between the instructor and the student before the student engages in the learning experience. A "Learning Contract for Directed Studies" must be completed by the student, approved by the instructor and Chief Instructional Officer, and placed on file with the Office of Instruction.

GENERAL EDUCATION/CORE CLASS IDENTIFICATION

The transfer requirements satisfied by FRC courses for California four-year universities or University of Nevada, Reno are indicated to the right of the unit value of each course. The IGETC pattern applies to both the California State University (CSU) and University of California (UC) Systems, as well as the University of Nevada, Reno. The letters in parentheses indicate any General Education (GE) Breadth area also satisfied. Please refer to the CSU and IGETC transfer patterns (pages 49-51) or meet with an academic advisor for clarification.

AG 295 - Community Service Learning in Agriculture*9 - 36 LEC, 27 - 108 LAB, 1 - 4 UNITS*

Individual opportunities to complete a community service-learning project that provides service that will be of benefit to the community, including internship, apprenticeship, or other volunteer opportunities. The service is associated with knowledge and skills developed within their Agriculture studies. Students identify and complete different objectives for each unit of credit.

AG 296 - Special Projects in Agriculture*9 - 27 LEC, 38 - 109 LAB, 1 UNIT*

Individual opportunities to study investigate research and participate in special topics in Agriculture. Student completes different performance objectives for each unit of credit.

AG 299 - Special Topics in Agriculture*4.5 - 36 LEC, 13.5 - 81 LAB, 0.5 - 3 UNITS**CSU*

Course covers selected topics in evolving issues or research in the area of Agriculture or special field topics not covered by regular course offerings. Independent student research and presentation are emphasized.

AGRICULTURE-BUSINESS**AGAB 110 - Introduction to Agriculture Business***54 LEC, 3 UNITS**CSU*

This class is a survey and basic understanding of the business and economics of the agriculture industry. It is an introduction to the economic aspects of agriculture and their implications to the agricultural producer, consumer and the food system. The management principles encountered in the day-to-day operation of an agricultural enterprise are stressed as they relate to the decision making process.

AGAB 112 - Agriculture Sales and Communication*36 LEC, 54 LAB, 3 UNITS**CSU*

This course involves the study of principles of the selling process: selling strategies and approaches, why and how people buy, prospecting, and customer service. Self-management, communication, and interpersonal skills necessary in developing leadership qualities, and facilitating teamwork within the agribusiness sector will be explored. Students will gain experience through role-play and formal sales presentations. Formerly AG112

AGAB 124 - Agriculture Economics*54 LEC, 3 UNITS**CSU(D2)*

The place of agriculture and farming in the economic system; basic economic concepts, and problems of agriculture; pricing and marketing problems, factors of production; and state and federal farm programs affecting the farmer's economic position.

AGAB 150 - Agriculture Computer Applications*54 LEC, 3 UNITS**CSU*

Computer use in the workplace with emphasis on agribusiness situations. Computer applications including word-processing, spreadsheets, databases, and presentation managers will be covered. Also included will be instruction on accessing information through the internet and World Wide Web, telecommunications, an introduction to web page design and other software applications appropriate to agribusiness. Formerly AG150.

AGAB 188 - Farm Management*36 LEC, 54 LAB, 3 UNITS**CSU*

Organization and operation of farm and ranch businesses. Identification of factors affecting profitability. Evaluation of the business for increased efficiency and profit. Application of budgeting to laboratory farm and independent analysis of a farm.

AGAB335-EquineandRanchManagementEntrepreneurship*54 LEC, 3 UNITS*

Learn how to be a successful agriculture entrepreneur by gaining foundational knowledge and exploring the strengths and weaknesses of your entrepreneurial plan. Topics include defining and refining the idea, developing the opportunity, and planning and delivering the business venture. Learn the importance of the business plan as preparation for launching your business venture, managing the business and obtaining investor dollars.

AGAB 364 - Promotion and Marketing in the Equine and Beef Cattle industry*54 LEC, 3 UNITS*

Introduction to marketing strategies, planning, budgeting, research, product development, pricing, branding, communications and promotions, with applications specific to the equine and beef cattle industry. Students will become acquainted with multimedia marketing techniques and event planning in the agriculture industry.

AGAB 410 - Equine and Ranch Management Leadership Seminar*54 LEC, 3 UNITS*

The study of leadership traits. Knowledge, skills and attitudes that enhance personal effectiveness and professional success. Goal attainment, personal organization and critical thinking strategies are emphasized. Principles and practices in planning, developing, conducting, and evaluating leadership programs for agricultural groups. Improving group communication; becoming effective leaders and members of groups; improving leadership and personal development skills; assessing leadership situations, determining and administering appropriate leadership strategies, and evaluating results.

AGAB 465 - Equine and Ranch Enterprises*36 LEC, 54 LAB, 3 UNITS*

A capstone course evaluating agribusiness organization and management. A variety of Equine, Agriculture, and Ranch management businesses will be evaluated and examined either through case studies and/ or facility tours. Discussion topics will include evaluation of business plans, location, costs, natural resource management, environmental regulations, and human resource management. Budgeting, output-input relationships, and enterprise analysis in decision making.

AGRICULTURE-ANIMAL SCIENCE**AGAS 120 - Introduction to Animal Science***36 LEC, 54 LAB, 3 UNITS**CSU*

This course is a survey of the livestock industry, supply of animal products, and their uses in animal production. There is a special emphasis on the origin, characteristics, adaptation, and contributions of farm animals to the agriculture industry. The student will analyze the economic and environmental roles of animal production and companionship to society. A survey of nutrition, genetics, reproduction, behavior, growth and development of animals is included. Animal products, biosecurity, and food processing will also be addressed.

AGAS 125 - Animal Feeds and Nutrition*36 LEC, 54 LAB, 3 UNITS**CSU*

The science of animal nutrition; the fundamentals of digestion and absorption in both ruminants and non-ruminants are discussed. The nutritive value of feeds as they relate to the formulation of livestock rations will be emphasized including by-product feeding.

AGAS 164 - Animal Behavior*54 LEC, 3 UNITS*

CSU

General introduction to animal behavior. Behavior of individual animals, animal relationships, origins of behavior, and social organizations are discussed. Cross-listed with BIOL164.

AGAS 170 - Elements of Beef Cattle Science*36 LEC, 54 LAB, 3 UNITS*

CSU

Study of the principles and practices of purebred and commercial beef cattle production throughout the World, United States and California; emphasis on the importance of breeds, breeding principles, selection, nutrition, environmental management, health, marketing and recordkeeping to ensure scientifically based management decisions and consumer product acceptance as applied to beef cattle.

AGAS 266 - Advanced Aquaculture*36 LEC, 54 LAB, 3 UNITS*

CSU

This course builds upon the knowledge gained in ENVR250 Fish Culture and delve deeper into the subjects of water quality, water management, feed management, inventory, and bio filtration. These subjects are the driving force for recirculation fish culture. Students will explore the important mechanical components of a system and the role each plays in the life support of the culture species. Cross-listed with ENVR266.

AGAS 302 - Advance Techniques in Equine Training-Fall*9 LEC, 81 LAB, 2 UNITS*

Mastering advanced principles and applications of training young horses under saddle. Course includes groundwork, philosophy of colt starting, problem solving, equine behavior modification. Training young horses in beginning maneuvers under saddle with special emphasis on continuing the fall training of two year olds started in the spring.

AGAS 303 - Advanced Techniques in Equine Training Spring*9 LEC, 81 LAB, 2 UNITS*

Mastering advanced principles and applications of training young horses under saddle. Course includes groundwork, philosophy of colt starting, problem solving, equine behavior modification. Training young horses in beginning maneuvers under saddle with special emphasis on starting the two-year old horse in the spring.

AGAS 307 - Advanced Techniques in Equine Sale Preparation I*18 LEC, 54 LAB, 2 UNITS*

Fitting and showing horses. Students gain experience training, conditioning, grooming, showing and/or selling horses. Training young horses in advanced maneuvers under saddle including cow work, rope work, trail, versatility, and reining patterns. Techniques and applications of fitting a horse in preparation for horse sale or show.

AGAS 308 - Advanced Techniques in Equine Sale Preparation II*18 LEC, 54 LAB, 2 UNITS*

Culminate experience in training, conditioning, grooming, showing and/or selling horses. Training young horses in advanced maneuvers under saddle including cow work, rope work, trail, versatility, and reining patterns. Techniques and applications of fitting a horse in preparation for horse sale or show. Enrollment in this course is contingent upon acceptance to the bachelor's degree program.

AGAS 313 - Equine and Bovine Health and the Prevention and Control of Disease*54 LEC, 3 UNITS*

Important diseases of livestock. Immunity, disease mechanisms, infectious agents, diagnostic procedures, and post-mortem techniques as well as a survey of selected but generally well-recognized diseases of livestock.

AGAS 350 - Reproduction, Breeding Systems, and Genetics of Livestock*36 LEC, 54 LAB, 3 UNITS*

A study of the mechanisms of livestock reproduction, genetics, and animal breeding systems with an emphasis on beef cattle and horses. Physiological mechanisms of livestock reproduction including gonad function, endocrine relationships, fertility, and factors affecting reproduction efficiency; genetics including study of the genetic basis of selection, kinds of gene action, principles of physical and chemical basis of heredity, mutations, sex-linkage, chromosome mapping, multiple alleles and chromosomal abnormalities. Breeding systems including the application of genetic principles to livestock improvement and development of breeding programs based on principles of population genetics.

AGAS 360 - Technical Veterinary Skills*36 LEC, 54 LAB, 3 UNITS*

Restraint and handling of animals, physical examination, necropsy procedure, basic wound management, applied pharmacology, herd health programs, applied veterinary techniques.

AGAS 402 - Training of the Hackamore Horse*9 LEC, 81 LAB, 2 UNITS*

Problem with DESC Techniques and applications involved in the training of a hackamore horse. This course will continue the advancement of the training of the young horse in the hackamore. Course includes advanced riding techniques, philosophy of equine behavior modification, the function of the hackamore. Training young horses in advanced maneuvers under saddle with special emphasis on continuing the fall training of three year olds and progressing to a hackamore.

AGAS 403 - Training of the Bridle Horse*9 LEC, 81 LAB, 2 UNITS*

Techniques and applications involved in the training of a bridle horse. This course will continue the advancement of the training of the young horse in the bridle. Course includes advanced riding techniques, philosophy of equine behavior modification, the function of the bridle. Training young horses in advanced maneuvers under saddle with special emphasis on continuing the spring training of the four year old horse and progressing to the bridle.

AGAS 421 - Equine Production and Management*36 LEC, 54 LAB, 3 UNITS*

Knowledge and skills for the application of current management practices in the area of horse production and management. Emphasis on nutrition, disease, preventative health care, reproductive management, anatomy and physiology and facility development and maintenance. (Also counts as a Career Elective)

GENERAL EDUCATION/CORE CLASS IDENTIFICATION

The transfer requirements satisfied by FRC courses for California four-year universities or University of Nevada, Reno are indicated to the right of the unit value of each course. The IGETC pattern applies to both the California State University (CSU) and University of California (UC) Systems, as well as the University of Nevada, Reno. The letters in parentheses indicate any General Education (GE) Breadth area also satisfied. Please refer to the CSU and IGETC transfer patterns (pages 49-51) or meet with an academic advisor for clarification.

AGAS 423 - Beef Cattle Production and Management

36 LEC, 54 LAB, 3 UNITS

Knowledge and skills for the application of current management practices in the area of beef cattle production and management. Emphasis on reproduction, breeding, nutrition, health care and facility development and maintenance. (Also counts as a Career Elective)

AGAS 450 - Applied Beef Cattle Reproductive Management

18 LEC, 54 LAB, 1 UNIT

An advanced course in bovine reproductive management. Further explores the principles of reproduction management of cattle by emphasizing current cattle breeding techniques and practices, management and care of the cow and calf, management and care of the bull. Emphasis on development of technical skills.

AGAS 455 - Applied Equine Reproductive Management

18 LEC, 54 LAB, 1 UNIT

An advanced course in equine reproductive management. Further explores the principles of reproduction management of horses by emphasizing current horse breeding techniques and practices, management and care of the broodmare and neonatal foal, and management and care of the stallion. Emphasis on development of technical skills.

AGRICULTURE-EQUINE STUDIES

AGEQ 009 - Draft Horse Driving I

4.5 LEC, 13.5 LAB, 0.5 UNITS

Work horse history, attitude, approach, dynamics of draft, anatomy, health care, harness and harnessing, and principles of driving

AGEQ 010 - Draft Horse Driving II

4.5 LEC, 13.5 LAB, 0.5 UNITS

Work horse history, attitude, approach, dynamics of draft, anatomy, health care, harness and harnessing, and principles of driving. Progressive skill development from course prerequisite AGEQ 009 to gain proficiency to harness and drive a single or double draft team with assistance.

AGEQ 011 - Draft Horse Driving III

4.5 LEC, 13.5 LAB, 0.5 UNITS

Work horse history, attitude, approach, dynamics of draft, anatomy, health care, harness and harnessing, and principles of driving. Progressive skill development from course prerequisite AGEQ 010 to gain proficiency to harness and drive a single or double draft team unassisted.

AGEQ 015 - Western Horseback Riding for Beginning Riders

18 LEC, 54 LAB, 0.5 - 2 UNITS

Western riding techniques and equitation for beginning riders. Participants learn the principles of general horse care, equipment and tack, and horse riding. Students will develop their skills through practical experience and will have "individualized" equitation lessons in a group setting.

AGEQ 102 - Elements of Equine Science

45 LEC, 27 LAB, 3 UNITS

This course is a survey of the equine industry, encompassing the evolution and role of the equine species throughout history, breed selection and development, nutrition, disease, preventative health care, reproductive management, basic anatomy and physiology, and equine career options.

AGEQ 103 - Western Equitation I

18 LEC, 54 LAB, 2 UNITS

CSU

Western riding techniques and equitation. Designed to teach horseback riding to students with little or no previous

experience, and those who have experience riding, but have not had the opportunity to "take lessons." Students will develop their skills through practical experience, and will have "individualized" equitation lessons in a group setting.

AGEQ 104 - Horse Conformation and Judging

18 LEC, 1 UNIT

Horse Conformation is a survey course, which covers varied elements of horse conformation and judging as it relates to the horse in action. Participant will be able to identify and recognize desired horse conformation for various types of equitation and demonstrate an overall knowledge of how the horse moves. Basic horse anatomy and physiology; bone structure, circulatory, and respiratory systems as they relate to the horse in motion.

AGEQ 106 - Western Equitation II

18 LEC, 54 LAB, 2 UNITS

Intermediate and advanced western riding techniques and equitation. Use of natural aides for advanced equitation and riding maneuvers. Horse behavior and psychology.

AGEQ 107 - Elements of Pack Station and Stable Operations

45 LEC, 27 LAB, 3 UNITS

CSU

Major business and skill aspects of pack station and horse stable management. Operational theories, practical applications, and specific skills in horse packing and guided horseback rides will be discussed in this course. The program is designed to expose students to current pack station and stable operations theories and their practical application, and to provide student with specific skills in the pack station and stable operations field.

AGEQ 108 - Fundamentals of Pack Station and Stable Operations Field Experience

18 LEC, 54 LAB, 2 UNITS

Course demonstrates practical skills necessary in organizing and implementing an actual pack trip. Practical applications of skills such as how to plan, organize and implement a three-day pack trip. The application of skills learned in course co-requisite AGEQ 107.

AGEQ 109 - Pack Station and Stable Operations Field Experience

18 LEC, 54 LAB, 2 UNITS

Course demonstrates practical skills necessary in organizing and implementing a pack trip. Practical applications of skills such as the planning, organization and implementing of a three-day pack trip. The progressive application of skills learned in prerequisite AGEQ 108.

AGEQ 115 - Elements of Horse Training I

4.5 - 27 LEC, 13.5 - 81 LAB, 0.5 - 3 UNITS

CSU

Elements of Horse Training I covers various elements of horse behavior modification. Participants will be able to understand a variety of techniques to teach the horse to respond and advance in progressive levels from AGEQ115 through AGEQ118, the course levels provides the skills to explain, demonstrate, compare, contrast, differentiate, create and evaluate horse training philosophies, techniques and specific skills.

AGEQ 116 - Elements of Horse Training II

4.5 - 27 LEC, 13.5 - 81 LAB, 0.5 - 3 UNITS

CSU, UC

Elements of Horse Training II covers various elements of horse training techniques and concepts. Participants will be able to progress in AGEQ116 enhanced understanding and skill development from AGEQ115. The ability to compare and contrast horse training philosophies, techniques, and specific skills. Prerequisite: AGEQ 115.

AGEQ 117 - Elements of Horse Training III*4.5 - 27 LEC, 13.5 - 81 LAB, 0.5 - 3 UNITS*

Elements of Horse Training III covers various elements of horse training techniques and concepts. Participants will be able to progress in AGEQ117 enhanced understanding and skill development from AGEQ116, the ability to differentiate and demonstrate horse training philosophies, techniques and specific skills. Prerequisite AGEQ 116

AGEQ 118 - Elements of Horse Training IV*4.5 - 27 LEC, 13.5 - 81 LAB, 0.5 - 3 UNITS*

CSU

Elements of Horse Training IV covers various elements of horse training techniques and concepts. Participants will be able to progress in AGEQ118 enhanced understanding and skill development from AGEQ117, the ability to create and evaluate horse training philosophies, techniques and training skills. Prerequisite AGEQ 117.

AGEQ 123 - Introduction to Farrier Science*18 LEC, 1 UNIT*

CSU

Introductory horseshoeing principles and practices, including basic anatomy and physiology of the horse's limbs and feet, horseshoeing terminology, and guidelines for assessing a proper horseshoeing job.

AGEQ 124 - Elements of Farrier Science*18 LEC, 1 UNIT*

CSU

Horseshoeing principles and practices, including anatomy and physiology of the horse's limbs and feet, horseshoeing terminology, and guidelines for assessing a proper horseshoeing job. Causes, treatment and prevention of common lameness problems. Progression of student learning outcomes from course prerequisite AGEQ 123.

AGEQ 135 - Conditioning the Horse and Rider I*27 - 108 LAB, 0.5 - 1 UNIT*

CSU

Development of sport specific strength, neuromuscular strength, power and speed for both horse and rider. A progression of exercises and techniques to maximize individual performance, minimize injury, develop and maintain a safe and healthy horse and rider conditioning program.

AGEQ 136 - Conditioning the Horse and Rider II*27 - 108 LAB, 0.5 - 1 UNIT*

CSU

Development of sport specific strength, neuromuscular strength, power and speed for both horse and rider. A progression of exercises and techniques to maximize individual performance, minimize injury, develop and maintain a safe and healthy horse and rider conditioning program. Demonstrate exercises for both horse and rider. Progression of skills from prerequisite course AGEQ 135.

AGEQ 137 - Conditioning the Horse and Rider III*27 - 108 LAB, 0.5 - 1 UNIT*

CSU

Development of sport specific strength, neuromuscular strength, power and speed for both horse and rider. A progression of exercises and techniques to maximize individual performance, minimize injury, develop and maintain a safe and healthy horse and rider conditioning program. Demonstrate exercises for both horse and rider. Progression of skills from prerequisite course AGEQ 135.

AGEQ 138 - Conditioning the Horse and Rider IV*27 - 108 LAB, 0.5 - 1 UNIT*

CSU

Development of sport specific strength, neuromuscular strength, power and speed for both horse and rider. A progression of exercises and techniques to maximize individual performance, minimize injury, develop and maintain a safe and healthy horse and rider conditioning program. Demonstrate exercises for both horse and rider. Progression of skills from prerequisite course AGEQ 135.

AGEQ 140 - Introduction to Equine Behavior and Training*27 LEC, 27 LAB, 2 UNITS*

CSU

Introduction to the principals involved in handling and training horses with an emphasis on the historical perspectives and technical development of the unique cooperation between horses and humans. Course covers equine behavior patterns and training philosophy, evolution of horsemanship, development of training equipment, alternative equine health care and therapies.

AGEQ 141 - Equine Behavior and Training*27 LEC, 27 LAB, 2 UNITS*

CSU

Principles involved in handling and training horses utilizing behavior modification procedures that emphasize communication thru knowledge, skills, and respect for the horse. Course includes equine training behavior patterns on the ground and in the saddle. Innovative horse training techniques, equine training problems and general solutions.

AGEQ 151 - Introduction to Horse Event Competition and Showing*9 - 18 LEC, 27 - 54 LAB, 1 - 2 UNITS*

CSU

Introduction to Horse Event Competition and Showing provides an introduction to theories and practices of horse competition and show events such as; reining, versatility, horsemanship, showmanship, cow work, equitation, trail, pleasure and halter. Emphasis will be placed on the introduction to the discipline fundamentals, history of the sport, scoring, rule interpretation, and judging. The course will also provide the student the opportunity to study, learn, and practice the basic skills and beginning techniques necessary to participate in horse competition and show.

AGEQ 152 - Fundamentals of Horse Event Competition and Showing*9 - 18 LEC, 27 - 54 LAB, 1 - 2 UNITS*

CSU

Fundamentals of Horse Event Competition and Showing develops the fundamentals of theories, skills, and practices of horse competition and show events such as; reining, versatility, horsemanship, showmanship, cow work, equitation, trail, pleasure and halter. Emphasis will be placed on horse competition and show discipline fundamentals, history of the sport, scoring, rule interpretation, and judging. Students will be provided the opportunity to study, learn, and practice the skills and techniques necessary to participate in horse competition and show. Participants will develop an enhanced understanding and skill development while progressing skills and techniques learned in AGEQ151.

GENERAL EDUCATION/CORE CLASS IDENTIFICATION

The transfer requirements satisfied by FRC courses for California four-year universities or University of Nevada, Reno are indicated to the right of the unit value of each course. The IGETC pattern applies to both the California State University (CSU) and University of California (UC) Systems, as well as the University of Nevada, Reno. The letters in parentheses indicate any General Education (GE) Breadth area also satisfied. Please refer to the CSU and IGETC transfer patterns (pages 49-51) or meet with an academic advisor for clarification.

AGEQ 175 - Ranch Skills Short Course

162 LEC, 54 LAB, 10 UNITS

CSU

Techniques and skills necessary for ranch work using horses. Designed to teach horseback riding to students with little or no previous experience, and those who have experience riding, but have not had the opportunity to "take lessons." Students will develop their skills through practical experience, and will have "individualized" equitation lessons in a group setting. Application of introductory, intermediate and advanced roping and cattle working techniques. Allows student to participate in working cows, roping, sorting and other ranch related activities. Successful achievement of student learning outcomes will lead to a Certificate of Specialization in Fundamentals of Ranch Skills. Along with the Certificate of Specialization, students can apply the AGEQ 175 Ranch Skills Short Course as a substitute for the following courses when utilized towards the Equine Studies Associate Degree or Equine Studies Certificate of Achievement: AGEQ 001 (2 units), AGEQ 103 (2 units), AGEQ 210 (2 units), AGEQ 211 (2 units), and AGEQ 212 (2 units).

AGEQ 180 - Rodeo Skills and Techniques – Men's Events

9 - 36 LEC, 27 - 108 LAB, 1 - 4 UNITS

CSU, UC

This course focuses on the fundamental, theory, and practice of intercollegiate men's rodeo events; bareback riding, saddle bronc riding, bull riding, tie down roping, steer wrestling, team roping emphasizing the physiology and physical foundations, history of the sport, scoring, rule interpretation, and judging. The course will also provide the student the opportunity to study, learn, and practice the skills and techniques necessary to participate in intercollegiate men's rodeo events. Formerly EQS 180

AGEQ 181 - Rodeo Skills and Techniques – Women's Events

9 - 36 LEC, 27 - 108 LAB, 1 - 4 UNITS

CSU UC

This course focuses on the fundamental, theory, and practice of intercollegiate woman's rodeo events; barrel racing, goat tying, break away roping, team roping emphasizing the physiological fundamentals, history of the sport, scoring, rule interpretation, and judging. The course will also provide the student the opportunity to study, learn, and practice the skills and techniques necessary to participate in intercollegiate women's rodeo events. Formerly EQS 181.

AGEQ 182 - Intercollegiate Rodeo

18 LEC, 54 LAB, 2 UNITS

CSU UC

Designed to provide students' the opportunity to further develop their proficiency in men and women's intercollegiate rodeo events. Methods in competitive performance, individual and team strategy, in a National intercollegiate Rodeo Association (NIRA) sanctioned competition event. Enrollment limited to those qualified to compete in intercollegiate rodeo. Formerly EQS 182.

AGEQ 184 - Advanced Intercollegiate Rodeo

18 LEC, 54 LAB, 2 UNITS

CSU

Designed to provide students' the opportunity to further advance their proficiency in men and women's intercollegiate rodeo events. Methods in competitive performance, individual and team strategy, in a National intercollegiate Rodeo Association (NIRA) sanctioned competition event. Enrollment limited to those qualified to compete in intercollegiate rodeo. Formerly EQS 184.

AGEQ 186 - Rodeo Production

18 LEC, 54 LAB, 1 UNIT

CSU

Practical application of the planning, organizing, and staging an intercollegiate rodeo. Students participate in all aspects of rodeo production, procedures, promotion, finance, rodeo contractors, and sponsorship. Formerly EQS 186.

AGEQ 204 - Training Young Horses Under Saddle Fall

9 LEC, 81 LAB, 2 UNITS

CSU

Basic principles involved in handling and training the young horse. Course includes groundwork, philosophy of colt starting, advancing the green horse, and problem solving. Special emphasis on continuing the fall training of two-year olds started in the spring.

AGEQ 205 - Training Young Horses Under Saddle Spring

9 LEC, 81 LAB, 2 UNITS

CSU

Basic principles involved in handling and training the young horse. Course includes groundwork, philosophy of colt starting, advancing the green horse, and problem solving. Special emphasis on starting the two-year old horse in the spring.

AGEQ 206 - Progressive Training of the Horse Under Saddle

18 LEC, 54 LAB, 2 UNITS

CSU

Handling and training of the horse. Course includes principles and applications of equine behavior modification for training horses under saddle. Special emphasis will be placed on developing lead departures, lead changes, body control, turnarounds, collection, stopping, and working with cattle from horseback. Developing physical skills while horseback through repetition and refinement of practice.

AGEQ 207 - Preparing the Horse for Sale and Show

18 LEC, 54 LAB, 2 UNITS

CSU

Instruction in fitting and showing horses. Students gain experience training, conditioning, grooming, showing and /or selling horses. Training horses in maneuvers under saddle including cow work, rope work, trail, ranch riding, and reining patterns. Techniques and applications of fitting a horse in preparation for horse sale or show.

AGEQ 208 - Advanced Pack Station and Stable Operations

18 LEC, 108 LAB, 2 UNITS

CSU

Course demonstrates practical skills necessary in organizing and implementing a pack trip. Practical applications of skills such as the planning, organization and implementing of a three-day pack trip. The advanced application of skills learned in AGEQ 108.

AGEQ 210 - Introduction to Ranch Work with Horses

9 LEC, 54 LAB, 2 UNITS

CSU

Techniques and skills necessary for ranch work using horses. Designed to teach the basic skills for working and handling cattle, ranch roping. Specialized training of horses for ranch work. Selection of equipment and horses.

AGEQ 211 - Applied Ranch Skills with Horses I

9 LEC, 54 LAB, 2 UNITS

CSU

Application of intermediate roping and cattle working techniques with horses. Allows student to participate horseback working cows, roping, sorting and other ranch related activities.

AGEQ 212 - Applied Ranch Skills with Horses II

9 LEC, 54 LAB, 2 UNITS

CSU

Application of advanced roping and cattle working techniques with horses. Allows students to participate horseback working cows, roping, sorting and other ranch related activities. The ability to demonstrate advanced ranch techniques and skills. Course prerequisite AGEQ 211.

AGEQ 214 - Handling and Care of the Foal, Weanling, and Yearling Horse - Fall

9 LEC, 27 LAB, 1 UNIT CSU

Course will focus on the management and handling of foals, weanlings, and yearling horses. Emphasizing safe and practical behavior handling techniques as well as current management practices utilized in health and farrier care. Special emphasis on care and candling of weanlings in the Fall.

AGEQ 215 - Handling and Care of the Foal, Weanling, and Yearling Horse - Spring

9 LEC, 27 LAB, 1 UNIT CSU

Course will focus on the management and handling of foals, weanlings, and yearling horses. Emphasizing safe and practical behavior handling techniques as well as current management practices utilized in health and farrier care. Special emphasis placed on care and handling of newborn foals in the spring.

AGEQ 216 - Advanced Handling and Care of the Foal, Weanling, and Yearling Horse - Fall

9 LEC, 27 LAB, 1 UNIT CSU

Advanced Handling and Care of the Foal, Weanling, and Yearling Horse-Fall will focus on the advanced management and handling of horses in this unique age group during the fall and early winter months. Management practices include weaning of foals, vaccinating and deworming, nutrition and conditioning of young horses and other practices specific to the Fall and early winter months. Emphasis will be placed on safe and practical handling techniques during the management of the foal, weaning and yearling horse.

AGEQ 217 - Advanced Handling and Care of the Foal, Weanling, and Yearling Horse - Spring

9 LEC, 27 LAB, 1 UNIT CSU

Advanced Handling and Care of the Foal, Weanling, and Yearling Horse-Spring will focus on the advanced management and handling of horses in this unique age group during the late winter and spring months. Management practices include foaling mares, neonatal care of foal, early foal handling, vaccinating and deworming, nutrition and growth of young horses and other practices specific to the late winter and spring months. Emphasis will be placed on safe and practical handling techniques during the management of the foal, weaning and yearling horse.

AGEQ 225 - Ranch Horsemanship

4.5 - 27 LEC, 13.5 - 81 LAB, 0.5 - 3 UNITS CSU

Ranch Horsemanship is a survey course that covers the techniques and philosophies of training horses for ranch purposes. Participants will be able to identify and recognize training philosophies and various techniques of horse training, and advance from intermediate to advanced stages of horse training and in ranch horsemanship. Prerequisite AGEQ 103 and 115.

AGEQ 226 - Advanced Horsemanship

4.5 - 27 LEC, 13.5 - 81 LAB, 0.5 - 3 UNITS CSU

Advanced Horsemanship is a survey course that covers the techniques and philosophies of advanced horse training. Participants will be able to identify and recognize training philosophies and various techniques of horse training, and advance from intermediate to advanced stages of horse training and horsemanship. Prerequisite AGEQ 103 and 115.

AGEQ 227 - Advanced Ranch Horsemanship

4.5 - 27 LEC, 13.5 - 81 LAB, 0.5 - 3 UNITS CSU

Advanced Ranch Horsemanship covers the techniques and philosophies of training horses for ranch purposes. Participants will learn horse training philosophies and techniques related to work with cattle. For advanced levels of horse training and in ranch horsemanship. Prerequisite AGEQ 225.

AGEQ 251 - Advanced Horse Competition and Show Level I

9 - 18 LEC, 27 - 54 LAB, 1 - 2 UNITS CSU

Advanced Horse Competition and Show Level I develops the skills, theories, and practices of horse competition and show events such as; reining, versatility, horsemanship, showmanship, cow work, equitation, trail, pleasure and halter. Emphasis will be placed on horse competition and show techniques, scoring, rule interpretation, judging, and assisting the course instructor in developing the horse and rider in AGEQ151 and AGEQ152. Students will be provided the opportunity to study, learn, and practice the skills and techniques necessary to participate in horse competition and show. Participants will develop an enhanced understanding and skill development while progressing skills and techniques learned in AGEQ152.

AGEQ 252 - Advanced Horse Competition and Show Level II

9 - 18 LEC, 27 - 54 LAB, 1 - 2 UNITS CSU

Advanced Horse Competition and Show Level II advances the theories, and practices of horse competition and show events such as; reining, versatility, horsemanship, showmanship, cow work, equitation, trail, pleasure and halter. Emphasis will be placed on management of horse competition and participation in horse show events. Students will be provided the opportunity to study, learn, and practice the skills and techniques necessary to participate in horse competition and show while assisting the course instructor in developing the horse and rider in AGEQ151 and AGEQ152. Participants will develop an enhanced understanding and skill development while progressing skills and techniques learned in AGEQ251.

AGEQ 280 - Advanced Rodeo Skills and Techniques - Men's Events

9 - 36 LEC, 27 - 108 LAB, 1 - 4 UNITS CSU

This course focuses on the fundamental, theory, and practice of intercollegiate men's rodeo events; bareback riding, saddle bronc riding, bull riding, tie down roping, steer wrestling, team roping emphasizing the physiology and physical foundations, history of the sport, scoring, rule interpretation, and judging. The course will also provide the student the opportunity to study, learn, and practice the skills and techniques necessary to participate in intercollegiate men's rodeo events.

AGEQ 281 - Advanced Rodeo Skills and Techniques - Women's Events

9 - 36 LEC, 27 - 108 LAB, 1 - 4 UNITS CSU

This course focuses on the fundamental, theory, and practice of intercollegiate woman's rodeo events; barrel racing, goat tying, break away roping, team roping emphasizing the physiological fundamentals, history of the sport, scoring, rule interpretation, and judging. The course will also provide the student the opportunity to study, learn, and practice the skills and techniques necessary to participate in intercollegiate women's rodeo events.

GENERAL EDUCATION/CORE CLASS IDENTIFICATION

The transfer requirements satisfied by FRC courses for California four-year universities or University of Nevada, Reno are indicated to the right of the unit value of each course. The IGETC pattern applies to both the California State University (CSU) and University of California (UC) Systems, as well as the University of Nevada, Reno. The letters in parentheses indicate any General Education (GE) Breadth area also satisfied. Please refer to the CSU and IGETC transfer patterns (pages 49-51) or meet with an academic advisor for clarification.

AGEQ 296 - Special Projects in Equine Studies- Behavior and Training

9 - 36 LEC, 27 - 108 LAB, 1 - 4 UNITS

Individual opportunities to study investigate research and participate in equine studies projects that are specific to equine behavior and training such as; hackamore training, bridle training, advanced saddle horse training, cow-horse training, behavior modification. Student completes different performance objectives for each unit of credit.

AGEQ 297 - Special Projects in Equine Studies: Summer/Fall Operations

9 - 36 LEC, 27 - 108 LAB, 1 - 4 UNITS

Individual opportunities to study investigate research and participate in equine studies projects that are specific to the summer and fall months such as; fall production sales, futurity horse training, weaning and halter breaking foals, fall hunt-packing trips, winter livestock preparation. Student completes different performance objectives for each unit of credit.

AGEQ 298 - Special Projects in Equine Studies: Winter/Spring Operations

9 - 36 LEC, 27 - 108 LAB, 1 - 4 UNITS

Individual opportunities to study investigate research and participate in specific equine studies projects during the winter and spring months such as; reproductive management of the stallion or broodmare, care of the newborn foal, starting the two year old, sale horse preparation, horse show preparation. Student completes different performance objectives for each unit of credit.

AGEQ 299 - Special Topics in Equine Studies

9 - 36 LEC, 27 - 108 LAB, 1 - 4 UNITS

CSU

Course covers selected topics in evolving issues or research in the area of Equine Studies or special field topics not covered by regular course offerings. Independent student research and presentation are emphasized.

AGRICULTURE-MECHANIZED

AGMA 084 - Ranch Operations: Fencing and Irrigation

36 LEC, 54 LAB, 3 UNITS

General introduction into irrigation and fencing principles; plant, soil, and water relationships; soil moisture sensing devices; delivery systems; design of drip, sprinkler, and surface irrigation systems, and use of chemigation. The class will also provide general knowledge into the fencing industry, including supplies, design, materials, and differing types of fencing.

AGMA 108 - Tractor Operation

45 LEC, 27 LAB, 3 UNITS

CSU

This course involves design principles, selection, maintenance, adjustment, and safe operation of wheel and track type tractors used in agriculture and in the construction industry.

AGMA 116 - Agriculture Welding

36 LEC, 54 LAB, 3 UNITS

CSU

Entry-level welding skill development in modern agriculture welding and cutting processes, theory and practice. Emphasis on safety regulations as established by the National and State Occupational Health and Safety Act guidelines.

AGMA 132 - Advanced Agriculture Welding

36 LEC, 54 LAB, 3 UNITS

CSU

An intermediate-level Agriculture welding course designed to develop skills in Shielded Metal Arc Welding, Gaseous Metal Arc Welding, Gaseous Tungsten Arc Welding and Plasma Arc Cutting. Emphasis on safety regulations as established by the National and State Occupational Health and Safety Act.

AGMA 140 - Beginning Agriculture Metal Fabrication

36 LEC, 54 LAB, 3 UNITS

This course is designed to provide basic shop and job site fundamentals of welding; to allow students to design and apply ARC and MIG welding techniques as well as acetylene cutting in the field.

AGMA 146 - Introductory Agriculture Structural Technology

36 LEC, 54 LAB, 3 UNITS

CSU

This is an introductory course in planning and designing various types of farm buildings necessary for agricultural enterprises. Characteristics, types, fabrication techniques and costs of construction materials used in farm buildings will be studied. A practical course in building metal, wood or composite frame buildings from planning to finish is included.

AGMA 160 - Introduction to Mechanized Agriculture

36 LEC, 54 LAB, 3 UNITS

CSU

This course involves basic mechanical skills in woodworking, cold metal, electricity, plumbing, concrete, and project construction skills as related to farm maintenance and repair. Hand and power tool use skills will be developed. Safety practices for all mechanical areas will be covered.

AGMA404-Livestock Facilities Maintenance and Management

54 LEC, 3 UNITS

The interaction between the physical design and business management of equine and cattle enterprises. Principles of equine and cattle facility design and maintenance with particular emphasis on the application of skills related to managing an equine and cattle facility.

AGRICULTURE-PLANT SCIENCE

AGPS 104 - Introduction to Plant Science

54 LEC, 3 UNITS

CSU(B1, B2, B3)

Introduction to plant science including structure, growth processes, propagation, physiology, growth media, biological competitors, and post-harvest factors of food, fiber, and ornamental plants.

AGPS 210 - Introduction to Soil Science

36 LEC, 54 LAB, 3 UNITS

CSU(B1), UC

An introduction to the biological, chemical and physical properties of soils. Major topic areas include the relationship of soil characteristics to land management, maintenance of soil productivity, soil erosion processes and erosion control methods, soil classification and the use of soil survey information in agriculture, watershed and wildlife applications. The relationship of soil properties and the geologic/geomorphic setting is emphasized. Cross-listed with ENVR210.

AGPS 300 - Pasture, Rangeland and forage Management

36 LEC, 54 LAB, 3 UNITS

Characteristics, history and multiple uses of pasture and rangeland. Principles of plant physiology and ecology in relation to forage conditions, trends, utilization and improvement practices. Principles of proper grazing practices and nutrition of livestock

AGPS 370 - Soil Fertility and Plant Nutrition

54 LEC, 54 LAB, 4 UNITS

Plant nutrition, soil fertility, and nutrient management. An emphasis on quantitative and chemical factors that control and measure soil and plant nutrient content, as well as background on the essential plant nutrients. Provides an understanding of the environmental implications of fertility management and operations.

AMERICAN SIGN LANGUAGE

ASL 130 - American Sign Language I

45 LEC, 27 LAB, 3 UNITS

CSU(C2)

Introduction to American Sign Language (ASL). A visual-gestural language used by the deaf in the United States and Canada. Vocabulary, syntax, grammar, conversational skills, and cultural aspects of the Deaf Community will be included throughout the course.

ASL 132 - Beginning American Sign Language II

45 LEC, 27 LAB, 3 UNITS

CSU(C2), IGETC(6A)

Continuation of American Sign Language (ASL), offering students a broader scope of language functions and communication skills. Study in ASL, vocabulary, syntax, and grammar will be emphasized at a beginning level. Further study in deaf culture awareness. Cultural aspects of the Deaf Community will be introduced and studied throughout the course.

ASL 291 - Directed Study

18 - 270 LEC, 1 - 5 UNITS

A student may take advanced course work or complete a student designed project in American Sign Language after having completed introductory courses. The topics, learning objectives, educational material(s), number of units to be awarded, and method of evaluation are determined in a written agreement between the instructor and the student before the student engages in the learning experience. A "Learning Contract for Directed Studies" must be completed by the student, approved by the instructor, and Chief Instructional Officer, and placed on file with the Office of Instruction.

ANTHROPOLOGY

ANTH 100 - Introduction to Cultural Anthropology

54 LEC, 3 UNITS

CSU(D1), IGETC(4A)

The nature of culture, cross-cultural analysis of human behavior, and the history of cultural growth. Material culture, social-political organization, religion/world view, language, aesthetics. Emphasis on non-literate societies, comparative western customs and contemporary problems. Formerly ANTH 002 and 102.

ANTH 103 - Magic, Witchcraft and Religion

54 LEC, 3 UNITS

CSU(D1), IGETC(4A)

A comparative analysis and study of religious practices, beliefs, and rituals within the cultural context. Topics will include definitions of religion, religion in culture and society, polytheisms, and monotheisms

ANTH 106 - Introduction to Prehistory

54 LEC, 3 UNITS

CSU(D1), IGETC(4A)

This course will cover discoveries that have shaped our view of world prehistory. We will discuss methods and techniques to reconstruct the past, physical evidence and major events of human history. Topics will also include human origins, occupation of the New World, origins of agriculture, rise of civilizations, and relevance of the archaeological perspective.

ANTH 120 - Physical Anthropology

54 LEC, 3 UNITS

CSU(B2), IGETC(5B)

Descriptive course covering a view of the biological evidence of human evolution, and the social and ecological interpretations of that evidence. Topical coverage will include the nature of human variation, primate taxonomy and social behavior, and the fossil discoveries leading to our current view of human development.

ANTH 120L - Physical Anthropology Lab

54 LAB, 1 UNIT

CSU(B3), IGETC(5C)

An introductory lab course designed to allow the students an opportunity to become familiar with the methods of science while investigating anthropological topics in a lab environment. Topics covered include application of the scientific method with regard to evolutionary theory, biological variation/genetics, the human skeleton and its measurements, comparative osteology of primates and lithic technology. Prerequisite or co-requisite: ANTH 120.

ANTH 130 - Introduction to Archaeology

54 LEC, 3 UNITS

CSU(D1)

This course is an introduction to the study of concepts, theories, data and models of anthropological archaeology that contribute to our knowledge of the human past. The course includes a discussion of the nature of scientific inquiry; the history and interdisciplinary nature of archaeological research; dating techniques; methods of survey, excavation, analysis, and interpretation; cultural resource management; professional ethics; and selected cultural sequences. There is a separate lab course.

ANTH 150 - Native North Americans

54 LEC, 3 UNITS

CSU(D1, D3), IGETC(4A)

A broad study of North American Indian cultures by cultural area. Traces archaeological evidence for the origin and migration of Native Americans Examines the development of distinctive societies in relation to ecology, linguistics, kinship, technology religion and rituals. Formerly ANTH 005.

ANTH 200 - Introduction to Forensic Anthropology

54 LEC, 3 UNITS

CSU, UC

An overview of forensic anthropology, which is an applied field of physical anthropology. Human skeletal remains will be analyzed using a comparative method to determine age, sex, race, time of death, trauma, pathology for identification purposes. Forensic anthropology is used in crime scene investigation of homicides, missing persons, human rights investigations and mass disasters.

ART

ART 100 - Art Appreciation

54 LEC, 3 UNITS

CSU(C1), IGETC(3A)

This course provides a general introduction to art that offers a look at works of art through the study of theory, terminology, themes, design principles, media, techniques, with an introduction to the visual arts across time and diverse cultures.

GENERAL EDUCATION/CORE CLASS IDENTIFICATION

The transfer requirements satisfied by FRC courses for California four-year universities or University of Nevada, Reno are indicated to the right of the unit value of each course. The IGETC pattern applies to both the California State University (CSU) and University of California (UC) Systems, as well as the University of Nevada, Reno. The letters in parentheses indicate any General Education (GE) Breadth area also satisfied. Please refer to the CSU and IGETC transfer patterns (pages 49-51) or meet with an academic advisor for clarification.

ART 107 - Two Dimensional Design

36 LEC, 54 LAB, 3 UNITS

CSU, UC

A foundation course in the application and appreciation of the elements and principles of design as they relate to the two-dimensional surface using line, shape, color, value, texture, and space, and the exploration of art historical examples and aesthetics related to creative expression in two-dimensional design.

ART 109 - Three-Dimensional Design (3D Design)

36 LEC, 54 LAB, 3 UNITS

CSU(C1)

Introduction to the concepts, applications, and historical references related to three-dimensional design and spatial composition, including the study of the elements and organizing principles of design as they apply to three-dimensional space and form. Development of a visual vocabulary for creative expression through lecture presentations and use of appropriate materials for non-representational three-dimensional studio projects.

ART 116 - Drawing I

36 LEC, 54 LAB, 3 UNITS

CSU(C1)

Introduction to principles, elements, and practices of drawing, employing a wide range of subject matter and drawing media. Focus on perceptually based drawing, observational skills, technical abilities, and creative responses to materials and subject matter.

ART 117 - Drawing II

36 LEC, 54 LAB, 3 UNITS

CSU(C1), UC

Exploration of artistic concepts, styles, and creative expression related to intermediate-level drawing, focusing on complex subject matter and concepts using a variety of drawing mediums, techniques, and methodologies. Students in this course will build on fundamental drawing skills to develop personalized approaches to content and materials in exercises covering multiple historical and contemporary.

ART 122 - Painting I

36 LEC, 54 LAB, 3 UNITS

CSU(C1), UC

This course consists of studio experiments in the materials and techniques necessary for painting in oils and acrylics and concepts of pictorial composition including spatial arrangement, design, and color mixing, supplemented with the examination of paintings by traditional and contemporary artists.

ART 124 - Painting II

36 LEC, 54 LAB, 3 UNITS

CSU(C1), UC, IGETC(3A)

This course consists of advanced studio experiments for exploring various painting techniques using still life, landscape, the human figure, and abstraction for subjects. Emphasis is on the conceptual and technical aspects of painting in oils and acrylics with examination of works from art historical and contemporary sources.

ART 126 - Color Theory

36 LEC, 54 LAB, 3 UNITS

CSU(C1), UC,

Exploration of color by examining color theory and principles related to additive and subtractive color with studio applications that employ the elements of design as they relate to color. Discussions include art historical and contemporary color systems.

ART 128 - Introduction to Printmaking

36 LEC, 54 LAB, 3 UNITS

CSU(C1)

A beginning course in printmaking using various methods of image production, linoleum and woodblock printing, collograph, etching, silkscreen and monotype printing, with an emphasis on technical methods, composition, idea development, and the study of historical examples.

ART 132 - Life Drawing I

36 LEC, 54 LAB, 3 UNITS

CSU

This course involves studio experiments in drawing the human figure, clothed and nude, with emphasis on anatomical structure, expressive content, and techniques and methods of depiction.

ART 134 - Life Drawing II

36 LEC, 54 LAB, 3 UNITS

CSU

This course continues the structural study of the human form with emphasis on exploring expressive concepts, media and techniques, and methods of depiction.

ART 136 - Life Painting I

36 LEC, 54 LAB, 3 UNITS

CSU(C1)

This course is based on studio experiments in painting the nude and clothed human figure in oils and acrylics with emphasis on anatomical structure, expressive content, and techniques and methods of depiction.

ART 138 - Life Painting II

36 LEC, 54 LAB, 3 UNITS

CSU

This course is based on studio experiments in painting the nude and clothed human figure in oils and acrylics with emphasis on anatomical structure, expressive content, and techniques and methods of depiction.

ART 140 - Sculpture I

36 LEC, 54 LAB, 3 UNITS

CSU

Students will learn practical techniques and conceptual processes involved in creating contemporary three-dimensional art in a variety of materials, such as wood, metal, clay and fabric. Occasional emphasis is given to making contemporary 3-dimensional art using skills from integrated disciplines; for example, fine arts with design, with computer 3-d modeling and with craft.

ART 142 - Sculpture II

36 LEC, 54 LAB, 3 UNITS

CSU

Sculpture II expands the student's understanding of three-dimensional form emphasizing the conceptual and material requirements of working in a variety of materials. Students will engage in fewer yet more ambitious projects that demonstrate more knowledge of material use and more comprehensive problem solving techniques with a greater integration of concept, form and context. Students will continue to study and practice the integration of related 3-dimensional disciplines such as design, architecture and craft.

ART 144 - Introduction to Ceramics

36 LEC, 54 LAB, 3 UNITS

CSU

Introduction to ceramic materials, concepts, and processes. Emphasis on basic design principles creative development, hand-building, throwing, glazing, firing, and appropriate terminology. The course includes the aesthetics and development of clay objects from a world art perspective, both historical and contemporary.

ART 150 - Introduction to Photography

36 LEC, 54 LAB, 3 UNITS

CSU

Basic principles of both film (darkroom) and digital photography, including technique, design, and content. Students learn the basic properties of light, the functions of both film and digital cameras, lenses, control of exposure and development, basic processes of black and white darkroom printing, inkjet printing, editing, presentation of professional photographs through critiques and visualization and critical interpretation of photographs. Students will have to provide their own digital cameras, but film cameras can be checked out through the Art Department.

ART 151 - Intermediate Photography

36 LEC, 54 LAB, 3 UNITS

CSU

Students will engage in intermediate principles of black and white (film) photography and digital photography. Students will use medium format film and cameras, master printing to larger format paper and complete thorough lighting shoots. Students who choose to photograph digitally along with film cameras will have to provide their own DSLR, but film cameras can be checked out through the Art Department.

ART 160 - Digital Imagery

54 LEC, 3 UNITS

Digital imaging using raster image editing and/or image creation software; scanning, resolution, file formats, output devices, color systems, and image-acquisitions.

ART 161 - Typography and Layout

54 LEC, 3 UNITS

Course examines common graphic tools available in layout design, typography, and underlying design principles. Content includes typography and type design, ways of using illustrations and photographs in layouts, basic tools of graphic design for specific typography layout projects, properties of letter forms and converting letter forms into legible work. Adobe InDesign used as the main software to create typography layouts.

ART 162 - Web Design

54 LEC, 3 UNITS

Introduction to the web, web design, and associated standards and processes. Topics include HTML, CSS, introductory scripting, and content management applications. For students with or without web design experience. Working knowledge of computers, applications, and the Internet strongly recommended.

ART 163 - 3D Printing

54 LEC, 3 UNITS

Understand the workflow for a consumer-level 3D printer. Become familiar with online databases of objects to print, and experience free or open-source software for all stages of the process. This class will focus on tools for the open 3D printer ecosystem with principles that apply to consumer 3D printers.

ART 166 - Art of the Modern Period

54 LEC, 3 UNITS

CSU(C1), IGETC(3A)

This course provides an overview of art and architecture from the Western modern period of the 19th and 20th centuries.

ART 172 - World Art to 1500

54 LEC, 3 UNITS

CSU(C1), IGETC(3A)

This course provides an overview of western art and architecture from prehistory through the medieval period.

ART 174 - World Art Since 1500

54 LEC, 3 UNITS

CSU(C1), IGETC(3A)

This course provides an overview of art and architecture from the Renaissance to the Contemporary period.

ART 291 - Directed Study

18 - 270 HOURS, 1 - 5 UNITS

CSU

A student may take advanced course work or complete a student designed project in Art after having completed introductory courses. The topics, learning objectives, educational material(s), number of units to be awarded, and method of evaluation are determined in a written agreement between the instructor and the student before the student engages in the learning experience. A "Learning Contract for Directed Studies" must be completed by the student, approved by the instructor and Chief Instructional Officer, and placed on file with the Office of Instruction.

BIOLOGY**BIOL 100 - Concepts in Biology**

54 LEC, 54 LAB, 4 UNITS

CSU(B3, B2), IGETC(5C, 5B)

An introduction to biology, covering a variety of topics including cell biology, genetics, organismal biology, ecology, and evolution and an introduction to the human body. Some specific topics covered will include cancer research, cloning and stem cell research, and the biodiversity crisis. Meets lab science requirements for non-science majors. Not designed for students with credit in BIOL 102.

BIOL 102 - Cell and Molecular Biology

54 LEC, 54 LAB, 4 UNITS

CSU(B2, B3), IGETC(5B, 5C)

This course, intended for majors, will cover principles and applications of prokaryotic and eukaryotic cell structure and function, biological molecules, homeostasis, cell reproduction and its controls, molecular genetics, classical/Mendelian genetics, cell metabolism including photosynthesis and respiration, and cellular communication. The philosophy of science, methods of scientific inquiry and experimental design are foundational to the course.

BIOL 104 - Animal Biology, Evolution and Ecology

54 LEC, 54 LAB, 4 UNITS

CSU(B3, B2), IGETC(5B, 5C)

This course is intended for majors and covers the comparative structure, function, evolution, and a survey of animal phyla. Topics include development, morphology and physiology, microevolution and macroevolution, taxonomy and systematics, molecular and morphological phylogeny, population ecology and behavior.

BIOL 106 - Plant Biology, Evolution and Ecology

54 LEC, 54 LAB, 4 UNITS

CSU(B3, B2), IGETC(5B, 5C)

This course is intended for majors and covers the diversity, structure, and function of green plant, fungal and protist phyla. Topics include development, morphology and physiology, taxonomy and systematics as well as plant evolution and community ecology.

BIOL 110 - Human Anatomy

54 LEC, 54 LAB, 4 UNITS

CSU(B3, B2)

Structural organization of the human body: gross and microscopic structure of the integumentary, skeletal, muscular, nervous, sensory, endocrine, cardiovascular, lymphatic, respiratory, digestive, excretory, and reproductive systems, from cellular to organ system levels of organization. This course is primarily intended for nursing, allied health, kinesiology, and other health related majors.

GENERAL EDUCATION/CORE CLASS IDENTIFICATION

The transfer requirements satisfied by FRC courses for California four-year universities or University of Nevada, Reno are indicated to the right of the unit value of each course. The IGETC pattern applies to both the California State University (CSU) and University of California (UC) Systems, as well as the University of Nevada, Reno. The letters in parentheses indicate any General Education (GE) Breadth area also satisfied. Please refer to the CSU and IGETC transfer patterns (pages 49-51) or meet with an academic advisor for clarification.

BIOL 112 - Human Physiology

54 LEC, 54 LAB, 4 UNITS

CSU(B2, B3)

Study of the physiological principles, function, integration and homeostasis of the human body at the cellular, tissue, organ, organ system and organism level: integumentary system, bone, skeletal, smooth and cardiac muscles, nervous system, sensory organs, cardiovascular system, lymphatic and immune systems, respiratory system, urinary system, digestive system, endocrine system, and reproductive system. This course is primarily intended for Nursing, Allied Health, Kinesiology, and other health related majors.

BIOL 120 - Sierra Nevada Natural History

36 LEC, 54 LAB, 3 UNITS

CSU

Learn to observe the patterns and relationships of flora, fauna, non-living elements of the Sierra Nevada range, with a particular focus on Plumas County. Basic ecology, climatology and geology will also be discussed. An overnight field trip is required. Cross-listed with ENVR 120.

BIOL 135 - Human Sexuality

54 LEC, 3 UNITS

CSU(E, E)

This course presents to the student the biological, psychological and cultural aspects of human sexuality. Formerly BIOL 071. Formerly cross-listed with PSY135.

BIOL 164 - Animal Behavior

54 LEC, 3 UNITS

CSU

General introduction to animal behavior. Behavior of individual animals, animal relationships, origins of behavior, and social organizations are discussed. Cross-listed with AGAS164

BIOL 210 - General Microbiology

54 LEC, 54 LAB, 4 UNITS

CSU(B3, B2), IGETC(5C, 5B)

The study of morphological, physiological and biochemical aspects of representative microorganisms. Lab includes aseptic technique, media preparation, taxonomy of algae, fungi and bacteria, and identification of an unknown. Formerly BIOL 003.

BIOL 264 - Introduction to Fish

54 LEC, 54 LAB, 4 UNITS

CSU(B2, B3)

This course introduces students to the study of fishes. Students delve into the history of fishes and the techniques used to differentiate the 31,000 species. The course covers anatomy, behavior, structure and form, ecology of different classes, and students will identify and describe fishes that are found in and around California. Cross-listed with ENVR 264.

BIOL 291 - Directed Study

18 - 270 HOURS, 1 - 5 UNITS

CSU

A student may take advanced course work or complete a student designed project in Biology after having completed introductory courses. The topics, learning objectives, educational material(s), number of units to be awarded, and method of evaluation are determined in a written agreement between the instructor and the student before the student engages in the learning experience. A "Learning Contract for Directed Studies" must be completed by the student, approved by the instructor, and Chief Instructional Officer, and placed on file with the Office of Instruction.

BIOL 299 - Special Topics in Environmental Studies

0 - 54 LEC, 0 - 162 LAB, .5 - 3 UNITS

CSU

Course covers selected topics in evolving issues or research in the area of environmental management or ecosystem science or special field topics as the opportunity arises. Independent student research and presentation are emphasized. Cross-listed with ENVR 299.

BUSINESS

BUS 100 - Introduction to Business

54 LEC, 3 UNITS

CSU

A survey in business providing a multidisciplinary examination of how culture, society, economic systems, legal, international, political, financial institutions, and human behavior interact to affect a business organization's policy and practices within the U.S. and a global society. Demonstrates how these influences impact the primary areas of business including: organizational structure and design; leadership, human resource management, organized labor practices; marketing; organizational communication; technology; entrepreneurship; legal, accounting, financial practices; the stock and securities market; and therefore affect a business' ability to achieve its organizational goals

BUS 102 - Financial Accounting

72 LEC, 4 UNITS

CSU(D2), IGETC(4B)

This is the study of accounting as an information system, examining why it is important and how it is used by investors, creditors, and others to make decisions. This course covers the accounting information system, including recording and reporting of business transactions with a focus on the accounting cycle, the application of generally accepted accounting principles, the financial statements, and financial analysis. Includes issues relating to asset, liability, and equity valuation, revenue and expense recognition, cash flow, internal controls, and ethics.

BUS 104 - Managerial Accounting

72 LEC, 4 UNITS

CSU(D2), IGETC(4B)

This is the study of how managers use accounting information in decision-making, planning, directing operations and controlling. Focuses on cost terms and concepts, cost behavior, cost structure and cost-volume-profit analysis. Includes issues relating to cost systems, cost control, profit planning, and performance analysis in manufacturing and service environments.

BUS 106 - Principles of Economics-Macro

54 LEC, 3 UNITS

CSU(D2), IGETC(4B)

An introductory course focusing on aggregate economic analysis. Topics include: market systems, aggregate measures of economic activity, macroeconomic equilibrium, money and financial institutions, monetary and fiscal policy, international economics, and economic growth.

BUS 108 - Principles of Economics-Micro

54 LEC, 3 UNITS

CSU(D2), IGETC(4B)

This is an introductory course focusing on choices of individual economic decision-makers. Topics include scarcity, specialization and trade, market equilibrium, elasticity, production and cost theory, market structures, factor markets, and market failure.

BUS 115 - Business Law

54 LEC, 3 UNITS

CSU

Fundamental legal principles pertaining to business transactions. Introduction to the legal process. Topics include sources of law and ethics, contracts, torts, agency, criminal law, business organizations, and judicial and administrative processes.

BUS 116 - Human Relations in Business

54 LEC, 3 UNITS

CSU

Exploration of contemporary behavioral science concepts as applied to human problems in business. Special attention to creative theories in management and motivation as well as ethical behavior. Study of organizational behavior and behavior in organizations.

BUS 118 - Personal Finance

54 LEC, 3 UNITS

CSU

Management of personal income and expenditure emphasizing financial security. Topics include: financial planning, managing your money, protecting yourself with insurance, managing your investments, and dealing with life cycle issues.

BUS 130 - Small Business Management

54 LEC, 3 UNITS

CSU

For current and potential owners and managers of small businesses. Analysis of personal qualifications, forms of ownership, sources of information, financing, planning, legal issues, record keeping, advertising, marketing, insurance, promotion, credit, and current aids to successful management.

BUS 131 - Computer Information Systems

54 LEC, 3 UNITS

CSU

Examination of information systems and their role in business and organizations. Topics include information systems, database management systems, networking, e-commerce, ethics and security, and computer systems. These topics will be learned and applied through the hands-on development of computer-based solutions to business problems. For all students. Working knowledge of computers, applications, and the internet strongly recommended. Cross-listed with ICT 131.

BUS 132 - Bookkeeping

54 LEC, 3 UNITS

CSU

Analysis of financial transactions so that they can be recorded in the accounting records of a business in accordance with the rules of double-entry bookkeeping. The accounting cycle is covered to include adjusting entries, the expanded worksheet, and the preparation of financial statements. Not open to students who have completed principles of accounting 102 with a 'C' or better. Formerly BO 032

BUS 140 - Marketing

54 LEC, 3 UNITS

CSU

A study of the role and function of marketing in the distribution of goods and services to familiarize students with marketing policies and practices and integration of marketing activities. This course contains global, international and multi-cultural material interspersed throughout the classroom curriculum.

BUS 170 - Spreadsheet

54 LEC, 1 UNIT

CSU

Introduction to business spreadsheets. This course provides a sound, in-depth knowledge of Microsoft Excel spreadsheet practices for use in business.

BUS 171 - Project-Based Learning

36 LEC, 54 LAB, 1 UNIT

CSU

Students will participate in project-based learning to develop competencies needed to become successful in the workplace and leadership positions. Students receive instruction and participate in experiential learning activities through project-based internships placed with community-based organizations or industry partners. This course combines work-based learning internship hours with instruction on the 21st Century Skills curriculum including: adaptability, analysis/solution mindset, collaboration, communication digital fluency, empathy, entrepreneurial mindset, resilience,

self-awareness, and social/diversity awareness. Students will receive instruction on building resumes, LinkedIn profiles, and other tools necessary to enter the workplace.

BUS 172 - Soft Skills for the Workplace

27 LEC, 1 UNIT

Students will receive instruction in workplace soft skills theory examples of soft skills will include successful job behavior, customer service basics, project management leadership, business written and verbal communication, power listening, conflict resolution, working in teams, and networking.

BUS 172L - Project-Based Learning

90 - 135 FIELD, 1 UNIT

This course emphasizes experiential learning in a work- or project-based environment. Students will apply soft skills knowledge in a work- and/or project-based environment. Examples of soft skills will include successful job behavior, customer service basics, project management leadership, business written and verbal communication, power listening, conflict resolution, working in teams, and networking.

CHEMISTRY**CHEM 100 - Chemistry and Society**

54 LEC, 54 LAB, 4 UNITS

CSU(B1, B3)

This course is an introduction to the fundamental concepts in chemistry, a broad overview to the field, and moves at a rapid pace. Emphasis on understanding rather than memorization. This course is useful for students who have taken high school chemistry previously, but would like to improve their skills before going on to the general lecture series.

CHEM 102 - General Chemistry I

4 LEC, 3 LAB, 5 UNITS

CSU(B1, B2), IGETC(5A, 5C)

This is the first semester of a one-year course in chemistry intended for majors in the natural sciences (chemistry, biochemistry, biology, physics, and pre-medicine), mathematics, and engineering.

CHEM 104 - General Chemistry II

3 LEC, 3 LAB, 5 UNITS

CSU(B1), IGETC(5A, 5C)

This is the second semester of a one-year course in chemistry intended for majors in the natural sciences (chemistry, biochemistry, biology, physics, pre-medicine), mathematics, and engineering. Prerequisite: CHEM 102, MATH018 or the equivalent.

CHEM 106 - Organic Chemistry for Science Majors

54 LEC, 54 LAB, 4 UNITS

CSU(B1, B2), UC, IGETC(5A, 5C)

This is the first semester of a one-year course in organic chemistry intended for majors in the natural sciences (chemistry, biochemistry, biology, physics, and pre-medicine). Prerequisite: CHEM 102. Advisory: CHEM 104.

COLLEGE**COLL 003 - Supervised Tutoring**

54 LEC, 0 UNITS

Assist students in all academic subject areas by offering extensive supplemental instruction via tutoring, library and computer-related materials. Emphasizes tutoring in writing, solving math problems, and working with computers.

GENERAL EDUCATION/CORE CLASS IDENTIFICATION

The transfer requirements satisfied by FRC courses for California four-year universities or University of Nevada, Reno are indicated to the right of the unit value of each course. The IGETC pattern applies to both the California State University (CSU) and University of California (UC) Systems, as well as the University of Nevada, Reno. The letters in parentheses indicate any General Education (GE) Breadth area also satisfied. Please refer to the CSU and IGETC transfer patterns (pages 49-51) or meet with an academic advisor for clarification.

COLL 100 - College Success and Personal Development

54 LEC, 3 UNITS

CSU

This course will help students develop skills to be successful in college through immersion in the campus community, services and resources, and cultivate college-level survival skills in the areas of academic performance (reading, note-taking, memorization, critical and analytical thinking, time management, studying and test-taking, and computer literacy), educational planning (understanding and following college policies and procedures from admissions through graduation), career exploration/planning (occupational research, personal and lifestyle value assessment, goal setting and learning plans), and life skills (intra- and interpersonal communication, decision-making, health and wellness, money management, and taking care of personal needs such as housing and transportation).

EARLY CHILDHOOD EDUCATION

CWEE 120 - Cooperative Work Experience Education – Early Childhood Education

60 - 600 LAB, 1 - 8 UNITS

CSU

Designed to develop skills and knowledge, to acquire desirable work habits and attitudes and to expand career awareness with planned, supervised paid or unpaid work experience in an ECE program. Combines work experience with regular college instruction to extend classroom learning for the student volunteer. Provides the opportunity to enhance employment skills and program quality for those who are currently employed in an ECE program.

ECE 040 - Administering the Environmental Rating Scales

18 LEC, 1 UNIT

CSU

Designed to provide the training necessary to administer and score the Environmental Rating Scales for Early Childhood Education programs. Includes development of improvement plans.

ECE 051 - Administration of Programs for Young Children

54 LEC, 3 UNITS

CSU

Designed to provide experience in the procedures of planning and administering programs for young children. Emphasis on state regulations, selection of staff, budgeting, selection of facility and equipment. Meets state licensing administration requirement for director. Satisfies three of the required six units in administration for the Site Supervisor Permit.

ECE 055 - Supervision: Parent/Staff Relations

54 LEC, 3 UNITS

CSU

Provides information and practice necessary for working effectively within a children's program in a supervisory capacity. Emphasis is on parent relations, staff relations, and leadership. Meets state licensing administration requirement for a director. Meets 3 of the 6-unit administration requirement for the Site Supervisor Permit. Formerly CHDV055.

ECE 060 - Infant Toddler Development

54 LEC, 3 UNITS

CSU

A study of infants and toddlers from pre-conception to age three including physical, cognitive, language, social and emotional growth and development. Applies theoretical frameworks to interpret behavior and interactions between heredity and environment. Emphasizes the role of family and relationships in development.

ECE 061 - Infant Toddler Care and Learning

54 LEC, 3 UNITS

CSU

Explores the development of infants and toddlers and examines the policies, principles and practices of quality care that support physical, emotional and intellectual growth. Includes strategies for home and group care for children birth to 36 months.

ECE 063 - Programs for School-Age Children

54 LEC, 3 UNITS

CSU

Explores the social, emotional, physical and intellectual development of the school age child through the pre-adolescent years. Focuses on the development of programs for school age children, including program design, curriculum, and management to meet the needs of school age children and communities.

ECE 072 - Science Curriculum for the Young Child

18 LEC, 1 UNIT

CSU

Presents information on planning and implementing science experiences for young children. Emphasis on spontaneous science activities, enhancing children's natural curiosity in relation to science, and using the scientific approach with young children.

ECE 080 - Adult and Pediatric CPR/Pediatric First Aid

9 LEC, 0 UNITS

CSU

Designed to give students knowledge and practical skills to handle CPR and First Aid emergencies for infants, children, and adults. Certification available with a grade of "C" or better. May be repeated for recertification and credit.

ECE 082 - Child Health and Safety

9 LEC, 0 UNITS

CSU

The student will be able to identify and address health and safety needs of children and adults in early childhood center-based programs, family childcare settings or in individual homes. Topics include: Playground safety, facilities management, sanitation, immunizations, disease prevention and control, food storage, child abuse and neglect, fire safety, flooding, earthquake safety, emergency preparedness and risk management plans. Certification available with a grade of "C" or better.

ECE 083 - Children's Storytelling and Puppetry

18 LEC, 1 UNIT

CSU

Explores storytelling and puppetry for young children. Focus is on the presentation of activities and techniques for effective storytelling. Includes incorporating and extending literacy-based activities across the curriculum.

ECE 084 - Children's Literature

27 LEC, 1 UNIT

Presents an overview of literature for young children. Focus is on the presentation of activities and techniques for effective storytelling. Includes incorporating and extending literacy-based activities across the curriculum. Replacing CHDV084

ECE 085 - Emerging Literacy

54 LEC, 1 UNIT

CSU

Explores the developmental continuum of literacy from birth. Provides examples of age appropriate experiences, integrated curriculum, literacy-rich environments, and intentional teaching.

ECE 087 - Dual Language Learners

54 LEC, 1 UNIT

CSU

Focuses on the knowledge and tools needed to support young dual language learners. Includes stages and strategies of second language acquisition, bilingualism, and providing culturally sensitive environments.

ECE 088 - Quality Improvement in ECE Programs

27 LEC, 3 UNITS

CSU

Provides the opportunity for students to improve their professional skills or specific program components. Includes self-assessment, development of goals, action plan, assessment and documentation of specific improvements.

ECE 098 - Succeeding in an ECE Career

27 LEC, 1 UNIT

CSU

Designed as a capstone course to assist students with skills for successfully obtaining employment in the ECE field. Addresses job seeking skills, presentation, interviewing, permit applications, and resume development. Includes critique of completed portfolios, and articulation of skills and knowledge acquired in the ECE program of study.

ECE 140 - Teaching Young Children with Special Needs

54 LEC, 3 UNITS

CSU (D9)

Provides an overview of the variations in development of children with special needs; age's birth through eight and the resulting impact on families. Covers curriculum and intervention strategies for working with children with special needs in partnership with their families. Focuses on the use of observation and assessment in meeting the individualized needs of children in inclusive and natural environments. Includes the role of the teacher as a professional working with families, collaboration with interdisciplinary teams, the referral process and cultural competence.

ECE 150 - Observation and Assessment

36 LEC, 54 LAB, 3 UNITS

CSU(D9)

Focuses on the appropriate use of a variety of observation and assessment strategies to understand and document child development and behavior. Includes conducting, interpreting and analyzing observations and developing recommendations for promoting children's development.

ECE 152 - Introduction to Curriculum

54 LEC, 3 UNITS

CSU(D9)

Presents an overview of knowledge and skills related to providing appropriate curriculum and environments for young children from birth to age six. Examines the teacher's role in supporting development and engagement, emphasizing the essential role of play. Provides strategies for developmentally appropriate practice across the curriculum based on observation and assessment. Includes an overview of the content areas of the curriculum including academic areas, creativity, communication and language, social-emotional learning and cognitive skills.

ECE 153 - Child, Family and Community

54 LEC, 3 UNITS

CSU(D9)

Examines the developing child in a societal context focusing on the interrelationship of family, school and community and emphasizes historical and socio-cultural factors. Highlights the processes of socialization and identity development, showing the importance of respectful, reciprocal relationships that empower families. Includes study of community agencies and resources that support families.

ECE 154 - Creative Activities for Children

54 LEC, 3 UNITS

CSU(D9), IGETC(4I)

Planning creative curriculum experiences for a group setting that will foster creativity as well as cognitive, social, emotional and physical development in children. Hands-on instructional approach is used to build a repertoire of creative activities and skills for supporting creativity in children. Formerly ECE 54 and ECE 154AB. Repeatable.

ECE 156 - Mentoring/Supervising Adults in the Classroom

36 LEC, 2 UNITS

CSU(D9)

Provides methods and principles of supervising and mentoring student teachers and volunteers in early care and education settings. Emphasis is on the role of experienced teachers who function as leaders and mentors while simultaneously addressing the needs of the children, parents and other staff. Meets requirement for Master Teacher level and above on the Child Development Permit Matrix.

ECE 157 - Principles and Practices of Teaching Young Children

36 LEC, 54 LAB, 3 UNITS

CSU(D9), IGETC(4I)

Examines the underlying theoretical principles of developmentally appropriate practices applied to early childhood programs and environments. Emphasizes the key role of relationships, constructive adult-child interactions and teaching strategies in supporting physical, social, creative and intellectual development. Includes a review of the historical roots of early childhood programs and the evolution of the professional practices promoting advocacy, ethics and professional identity.

ECE 158 - Practicum

36 LEC, 54 LAB, 3 UNITS

CSU(D9)

Demonstrates developmentally appropriate early childhood teaching competencies under guided supervision. Provides opportunities to make connections between theory and practice, develop professional behaviors, and build a comprehensive understanding of children and families. Emphasizes child-centered, play-oriented approaches to teaching, learning and assessment. Explores curriculum content areas as student teachers design, implement and evaluate experiences that promote positive development and learning for young children.

ECE 159 - Health, Safety and Nutrition

54 LEC, 3 UNITS

CSU

Introduction to the laws, regulations, standards, policies and procedures and early childhood curriculum related to child health, safety and nutrition. Identifies the key components that ensure physical health, mental health and safety for both children and staff. Includes the importance of collaboration with families and health professionals. Focuses on integrating the concepts into everyday planning and program development.

ECE 160 - Teaching in a Diverse Society

54 LEC, 3 UNITS

CSU(D9)

Examines the development of social identities in diverse societies including theoretical and practical implications of oppression and privilege affecting young children, families, programs, education and teaching. Explores classroom strategies emphasizing culturally relevant and linguistically appropriate anti-bias approaches, supporting all children in becoming competent members of a diverse society. Includes self-examination and reflection on issues related to social identity, stereotypes and bias, social and educational access, media and schooling.

GENERAL EDUCATION/CORE CLASS IDENTIFICATION

The transfer requirements satisfied by FRC courses for California four-year universities or University of Nevada, Reno are indicated to the right of the unit value of each course. The IGETC pattern applies to both the California State University (CSU) and University of California (UC) Systems, as well as the University of Nevada, Reno. The letters in parentheses indicate any General Education (GE) Breadth area also satisfied. Please refer to the CSU and IGETC transfer patterns (pages 49-51) or meet with an academic advisor for clarification.

ECE 162 - Child Growth and Development

54 LEC, 3 UNITS

CSU(D9), IGETC(4I)

Examines the major physical, psychosocial and cognitive/language developmental milestones for children, both typical and atypical, from conception through adolescence. Emphasizes interactions between maturational processes and environmental factors. Includes observation and evaluation of individual differences and analysis of characteristics of development at various stages while studying developmental theory and investigative research methodologies.

ECE 166 - Music with Children

54 LEC, 1 UNIT

CSU

Provides knowledge, methods and opportunities to develop and implement musical activities with children. Experiential course including rhythm, song, movement and dance. Designed for early childhood and elementary education majors, teachers and parents.

ECE 291 - Directed Study

18 - 270 HOURS, 1 - 5 UNITS

CSU

A student may take advanced course work or complete a student designed project in Early Childhood Education after having completed introductory courses. The topics, learning objectives, educational material(s), number of units to be awarded, and method of evaluation are determined in a written agreement between the instructor and the student before the student engages in the learning experience. A "Learning Contract for Directed Studies" must be completed by the student, approved by the instructor and Chief Instructional Officer, and placed on file with the Office of Instruction.

ECE 299 - Special Topics

18 LEC, 0 UNITS

CSU

Designed to permit in-depth investigation of topics not covered by regular course offerings. Course content to be determined by the instructor in relation to community and student interest and need.

EDUCATION

EDUC 101 - Teacher Assistant I

36 LEC, 2 UNITS

CSU

EDUC 101 is an introductory course for students who have trained as First Level instructional tutors and mentors. Students will have the opportunity to develop introductory knowledge of current teaching skills that will support migrant or Second Language Learner children who are most academically at risk, such as hands-on activities and individual tutoring. The student will learn about introductory English language arts, English language development, mathematics curriculum content. The students will learn about introductory professionalism standards in education, such as communication protocols and role modeling.

EDUC 102 - Teacher Assistant II

36 LEC, 2 UNITS

CSU

EDUC 102 is an early advance course for students who have trained as Third Level instructional tutors and mentors. Students will have the opportunity to develop early advanced knowledge of current teaching skills that will support migrant children or second language learners who are most academically at risk, such as, using assessments to inform instruction and strategic thinking. The student will learn about early advanced curriculum content in English Language Arts (ELA), English Language Development (ELD) and math, e.g. fluency development, preparing and using various strategies to model reading and oral language development, and identifying types of assessments. The student will learn about early advanced

professionalism standards in education, such as networking, mentoring and exam preparation.

EDUC 104 - Teacher Assistant I - Puppetry

36 LEC, 2 UNITS

CSU

EDUC 104 is part of Mini-Corps, a component of the California Master Plan for the education of migrant children. During the summer the California Mini-Corps program sponsors a Puppeteer Program and trains a select team of tutors as puppeteers assigned to multiple school districts in Migrant Regions that have requested these services. Students learn how to develop and conduct presentations on a variety of health and school connectedness related topics including drug prevention, dental hygiene, bullying, anti-smoking and self-esteem. Working as student mentors and teacher assistants, students will relay their knowledge to migrant children in a classroom or migrant camp setting by performing puppetry. Course instructors will provide students with the necessary puppetry skills.

EDUC 105 - Teacher Assistant Field Experience I

182 LAB, 3 UNITS

CSU

EDUC 105 is a work experience course for students who have trained as First Level instructional tutors and mentors. Students will apply introductory knowledge of current teaching skills that will support migrant and/or second language learner children who are most academically at risk, such as hands-on activities and individual tutoring. The student will apply introductory English Language Arts (ELA), English Language Development (ELD), MATH curriculum content. The students will apply introductory professionalism standards in education, such as communication protocols and role modeling. Students will work under the supervision of a classroom teacher.

EDUC 106 - Teacher Assistant Field Experience III

182 LAB, 3 UNITS

CSU

EDUC 106 is a work experience course for students who have trained as Third Level instructional tutors and mentors. Students will have the opportunity to apply early advanced knowledge of current teaching skills that will support migrant and/or second language learner children who are most academically at risk, such as, using assessments to inform instruction and strategic thinking. The student will apply early advanced curriculum content in English language arts (ELA), English language development (ELD) and math, e.g. fluency development, preparing and using various strategies to model reading and oral language development, and identifying types of assessments. Students will work under the supervision of a classroom teacher.

EDUC 107 - Teacher Assistant I-Science and Literacy Camps

40 LEC, 2 UNITS

CSU

EDUC 107 is part of Mini-Corps, a component of the California Master Plan for the education of migrant children. It is a basic preparation course for second level Mini-Corps instructional mentors and tutors who will teach migrant children, primarily in group settings, in outdoor summer science and literacy camps. The students will gain introductory knowledge of curriculum content including basic English language development (ELD), English language arts (ELA), mathematics, science and leadership development strategies.

EDUC 108 - Field Experience I-Science and Literacy Camps

336 LAB, 6 UNITS

CSU

EDUC 108 is part of Mini-Corps, a component of the California Master Plan for the education of migrant children. It is a basic preparation field experience course for second level Mini-Corps instructional mentors and tutors who will teach migrant children, primarily in group settings, in outdoor summer

science and literacy camps. The students will apply introductory knowledge of tutoring/presenting curriculum content including basic English language development (ELD), English language arts (ELA), mathematics, science and leadership development strategies in a small group outdoor instructional setting. Student with the assistance of a third and fourth level MC students will be able to apply knowledge learned in EDUC 107.

EDUC 200 - Introduction to Education/Field Experience

36 LEC, 54 LAB, 3 UNITS

CSU

Introduces the student to concepts and issues related to teaching diverse learners in today's contemporary schools, Kindergarten through grade 12. Includes teaching as a profession and career, credentialing requirements, historical and philosophical foundations of the American education system, contemporary educational issues, California's content standards and frameworks, teacher performance standards and ethical responsibilities. Requires 45 hours of structured field experience in public school elementary classrooms under a certificated classroom teacher.

EDUC 201 - Teacher Assistant III

36 LEC, 2 UNITS

CSU

EDUC 201 is an intermediate course for students who have trained as Second Level instructional tutors and mentors. Students will have the opportunity to develop intermediate knowledge of current teaching skills that will support migrant and/or second language learner children who are most academically at risk, such as, identifying and applying math and English language development (ELA) concepts and strategies to meet identified deficiencies. The student will learn about intermediate curriculum content in math, ELA and English Language Development (ELD) including vocabulary development, small group instruction, preparing and using realia and hands on materials. The student will learn about intermediate professionalism standards in education, such as developing a professional portfolio.

EDUC 202 - Teacher Assistant IV

36 LEC, 2 UNITS

CSU

EDUC 202 is a work experience course for students who have trained as Fourth Level instructional tutors and mentors. Students will have the opportunity to develop advanced knowledge of current teaching skills that will support migrant and/or second language learner children who are most academically at risk, such as, career preparation, differentiated instruction and extended instruction. The student will learn about advanced curriculum content in English language arts (ELA), English language development (ELD) and math, e.g. .comprehension, analysis and integration of multiple sources of data, resources and strategies. The student will learn about advanced professionalism standards in education, such as career preparation.

EDUC 204 - Teacher Assistant II- Puppetry

36 LEC, 2 UNITS

CSU

EDUC 204 is part of Mini-Corps, a component of the California Master Plan for the education of migrant children. It is the advanced course for students in their second level as instructional tutors and mentors. During the summer, the California Mini-Corps program sponsors a Puppeteer Program

and trains a select team of tutors as puppeteers assigned to multiple school districts in Migrant Regions that have requested these services. Students advanced their training on developing and conducting presentations on a variety of health and school connectedness related topics including drug prevention, dental hygiene, bullying, anti-smoking and self-esteem. Working as mentors to teacher assistant I, assist them in relaying their knowledge to migrant children in a classroom or migrant camp setting by performing puppetry. Course instructors will provide students with the necessary puppetry skills.

EDUC 205 - Teacher Assistant Field Experience III

182 LAB, 3 UNITS

CSU

EDUC 205 is a work experience course for students who have trained as Second Level instructional tutors and mentors. Students will have the opportunity to apply intermediate knowledge of current teaching skills that will support migrant and/or second language learners children who are most academically at risk, such as, identifying and applying math, English language arts (ELA) and English language development (ELD) concepts and strategies to meet identified deficiencies. The student will apply their knowledge of intermediate math, ELA and ELD curriculum content, including vocabulary development, small group instruction, preparing and using realia and hands on materials. Students will work under the supervision of a classroom teacher.

EDUC 206 - Teacher Assistant Field Experience IV

182 LAB, 3 UNITS

CSU

EDUC 206 is a work experience course for students who have trained as Fourth Level instructional tutors and mentors. Students will have the opportunity to apply advanced knowledge of current teaching skills that will support migrant and/or second language learner children who are most academically at risk, such as, career preparation, differentiated instruction and extended instruction. The student will apply advanced curriculum content in English Language Arts (ELA), English Language Development (ELD) and math, e.g. comprehension, analysis and integration of multiple sources of data, resources and strategies. The students will work under the supervision of a classroom teacher.

EDUC 207 - Teacher Assistant II-Science and Literacy Camps

40 LEC, 2 UNITS

CSU

EDUC 207 is part of Mini-Corps, a component of the California Master Plan for the education of migrant children. It is an intermediate preparation course for third level Mini-Corps instructional mentors and tutors who will teach migrant children, primarily in group settings, in outdoor summer science and literacy camps. The students will gain intermediate knowledge of curriculum content including basic ELD, ELA, mathematics, science and leadership development strategies.

EDUC 208 - Field Experience II-Science and Literacy Camps

336 LAB, 6 UNITS

CSU

EDUC 208 is part of Mini-Corps, a component of the California Master Plan for the education of migrant children. It is a basic preparation field experience course for third level Mini-Corps instructional mentors and tutors who will teach migrant children, primarily in group settings, in outdoor summer science and literacy camps. The students will apply intermediate knowledge

GENERAL EDUCATION/CORE CLASS IDENTIFICATION

The transfer requirements satisfied by FRC courses for California four-year universities or University of Nevada, Reno are indicated to the right of the unit value of each course. The IGETC pattern applies to both the California State University (CSU) and University of California (UC) Systems, as well as the University of Nevada, Reno. The letters in parentheses indicate any General Education (GE) Breadth area also satisfied. Please refer to the CSU and IGETC transfer patterns (pages 49-51) or meet with an academic advisor for clarification.

of tutoring/presenting curriculum content including basic English Language Arts (ELA), English Language Development (ELD), mathematics, science and leadership development strategies in a small group outdoor instructional setting. Student with the assistance of a fourth level MC student will be able to apply knowledge learned in EDUC 107.

EDUC 217 - Teacher Assistant III-Science and Literacy Camps
40 LEC, 2 UNITS CSU

EDUC 217 is part of Mini-Corps, a component of the California Master Plan for the education of migrant children. It is a basic preparation course for fourth level Mini-Corps instructional mentors and tutors who will teach migrant children, primarily in group settings, in outdoor summer science and literacy camps. The students will gain advanced knowledge of curriculum content including basic ELD, ELA, mathematics, science and leadership development strategies.

EDUC 218 - Field Experience III-Science and Literacy Camps
336 LAB, 6 UNITS CSU

EDUC 218 is part of Mini-Corps, a component of the California Master Plan for the education of migrant children. It is an intermediate preparation field experience course for fourth level Mini-Corps instructional mentors and tutors who will teach migrant children, primarily in group settings, in outdoor summer science and literacy camps. The students will apply advanced knowledge of tutoring/presenting curriculum content including basic English Language Arts (ELA), English Language Development (ELD), mathematics, science and leadership development strategies in a small group outdoor instructional setting. Student will assist second and third level MC student to apply knowledge learned in 109.

EMERGENCY MEDICAL TECHNICIAN

EMT 021 - Emergency Medical Technician Refresher
32 LEC, 1 UNIT CSU

This 32-hour course is designed to meet the State of California requirements for recertification for Basic Emergency Medical Technician. The course includes updated information and standards required to maintain certification. Current Emergency Medical Technician Basic seeking recertification in the State of California.

EMT 120 - Emergency Medical Technician IA
72 LEC, 54 LAB, 5 UNITS CSU

This course is designed to meet the certification requirements for the National Certification exam for Emergency Medical Technicians, and meets the requirements as prescribed under Title 22, California Code of Regulations.

EMT 200 - Advanced Emergency Medical Technician
36 LEC, 54 LAB, 3 UNITS CSU

This course is designed for current holders of EMT-1 or EMT-Basic to be eligible to become an Advanced Emergency Medical Technician and serve in career positions. Upon successful completion, the student will be able to sit for the National Registry of Emergency Medical Technicians Advanced EMT written and practical skills examination.

EMT 201 - Advanced EMT IIB
36 LEC, 81 LAB, 3.5 UNITS

This course is the laboratory component of EMT200 and involves 40 hours of supervised hospital emergency department clinical training and 40 hours of supervised emergency medical service training. Upon successful completion, the student will be able to sit for the National Registry of Emergency Medical Technicians Advanced EMT practical skills examination.

ENGLISH

ENGL 001 - English as a Second Language

54 LEC, 0 UNITS

This is a competency based education course designed for the beginning ESL student who has little or no formal education, who lacks experience with the Roman alphabet, or has other literacy problems. English survival skills will be taught while emphasizing listening, speaking, reading and writing skills.

ENGL 002 - English as a Second Language - Beginning Level

54 LEC, 0 UNITS

This is a competency based education course designed for the beginning ESL student who is beginning to learn survival English skills. Emphasis on listening, speaking, reading and writing skills will allow students to gain confidence in survival English and go on to use more complex structures.

ENGL 003 - English as a Second Language - Intermediate Level

54 LEC, 0 UNITS

This is a competency based education course designed for the intermediate ESL student with some experience with English, but may still have difficulty with complex English structures such as tenses, imbedded clauses and modalities. Most students at this level need few survival skills, but lack fluency in the structures that they use. While this course will continue to provide advanced listening and speaking skills, the emphasis will begin to shift toward reading and writing skills. Formerly ENGL402.

ENGL 004 - English as a Second Language - Advanced

54 LEC, 0 UNITS

This is a competency based education course designed for the advanced ESL student who needs to develop grammar and structure skills in English before going into higher academic-level English courses. This course will fine-tune listening and speaking skills but will focus on the complex grammatical structures needed to advance into higher academic-level classes. Reading and writing skills will be especially emphasized

ENGL 005 - Reading and Writing Skills

54 LEC, 3 UNITS

CSU

This course is designed for those students who need a review of the reading and writing process. The student should have a background in grammar and sentence structure but will need additional help in developing the ideas, critical thinking, details and revision skills necessary to succeed in ENGL010. This course will provide instruction with particular emphasis on learning to read and write more effectively

ENGL 010 - Elementary Composition and Reading

54 LEC, 3 UNITS

CSU

Pre-college level composition and reading intended to prepare students for college-level work. Reading: emphasis on reading rate, retention, comprehension and vocabulary. Composition: emphasis on grammar, structure and usage, paragraph construction, short essays. Completion of ENGL 303 with a "C" grade or higher or appropriate assessment test score.

ENGL 101 - Composition and Reading

54 LEC, 3 UNITS

CSU(A2), IGETC(1A)

College-level expository writing based on critical reading of influential writers contributing to cultural literacy. Emphasizes the analysis of ideas in oral and written form. Concentration on the essay and the research paper as resources for expression and argumentation. Each student will write 7,000 to 8,000 words. ENGL 010 with a C or higher or appropriate assessment test score.

ENGL 102 - Introduction to Literature

54 LEC, 3 UNITS

CSU(A3, A2), IGETC(1A)

Students are introduced to major literary genres of fiction, poetry, and drama. Students learn to read and write analytically and critically about major literary themes taken from a wide variety of writers, time periods, and cultures. Students build on the writing and expository skills learned in English 101. This is the second course in the composition and reading sequence. Each Student will write 7,000-8,000 words. Completion of ENGL 101 with a "C" grade or higher or appropriate assessment test score equivalent to passing ENGL 101.

ENGL 103 - Critical Thinking and Writing

54 LEC, 3 UNITS

CSU(A3), IGETC(1B)

Course develops critical thinking, reading and writing skills beyond the level achieved in English 101, 102. Special emphasis put on the use of sound thinking in written communication of ideas. Based on the logical fundamentals of critical thinking, analysis and argumentation. Readings are oriented toward philosophy and similar areas. This is the third course in the composition and reading sequence. Each student will write 7,000 to 8,000 words. Completion of ENGL 101 with a "C" grade or higher or assessment test score.

ENGL 118 - Small Group Communication

54 LEC, 3 UNITS

CSU(A1)

Group process theory, leadership concepts and techniques, and the role of communication in small groups. Course involves participation in small group dynamics and development of skills in problem-solving, critical thinking, and individual communication techniques within the small group context.

ENGL 119 - Interpersonal Communication

54 LEC, 3 UNITS

CSU(A1)

A survey of the field of interpersonal communication that includes a review of the theory, research and skills that students can use to improve the quality of their relationships.

ENGL 120 - Speech

54 LEC, 3 UNITS

CSU(A1), IGETC(1C)

Theory and techniques of public speaking in democratic society. Discovery, development, and criticism of ideas in public discourse through research, reasoning, organization, composition, presentation, and evaluation of various types of speeches. Including informative and persuasive speeches. Composition, presentation, and evaluation of original speeches and critical assessment of public communication events. Speaking modes include informative, persuasive, descriptive, narrative, and impromptu speaking.

ENGL 128 - Film Appreciation

54 LEC, 3 UNITS

CSU(C1), IGETC(3A)

Analytical and critical survey of a genre of films, including fields of production, direction and acting. Cross-listed as HUMN 128.

ENGL 150 - Introduction to Journalism

36 LEC, 54 LAB, 3 UNITS

CSU(C2)

An introductory journalism and new media website/blog production course. Emphasis in the lecture portion of the course focuses on contemporary journalism/media and its role in society, as well as ethics, news writing and editing and multimedia storytelling; lab portion emphasizes web-based

news production, reporting, blogging, social media networking and advertising, copy editing, layout and design.

ENGL 170 - Creative Writing

54 LEC, 3 UNITS

CSU(C2)

Emphasis on fiction but may include poetry. Practical writing assignments follow from analytical knowledge of basic elements of fiction. Critical reading of established writers and critique of student work. Some degree of individual instruction.

ENGL 172 - Creative Writing II

54 LEC, 3 UNITS

CSU

Students undertake intensive work in creative writing, choosing to work in fiction, prose, or poetry. Special attention is paid to enhancing specific writing skills and to work on well-defined and large projects. A portion of the students' class time will be to mentor students in English 170, Creative Writing as a way to teach themselves more about their own writing and skills.

ENGL 180 - Nature Literature in America

54 LEC, 3 UNITS

CSU(C2), IGETC(3B)

A survey of American literature that will investigate how our emotions, aesthetics, personal and social consciousness, and even our very orientation in the world, have always been inseparably tied to our experience of nature. Students will discover how the best American writers have portrayed the natural world as nurturing or antagonistic, as robust or endangered, and especially as a symbolic means of expressing those elements of the inner life that seem impossible to articulate in normal, discursive language.

ENGL 228 - Novel and Film

54 LEC, 3 UNITS

CSU

A study in literary and cinematic technique focusing on narrative genres and theme. Selected novels compared to transposed versions on film. Novel types covered: Bildungsroman, Gothic, Detective, Post-modern, Contemporary. Examples of theme: love and revolution, coming of age, ethnic assimilation, colonialism and consciousness. Lecture, discussion, film viewing. Cross-listed with HUMN228.

ENGL 245 - Contemporary Literature

54 LEC, 3 UNITS

CSU(C2), IGETC(3B)

An intensive examination of literature from the English-speaking world, 1945 to present. Students will consider different national perspectives and cultures, as well as the major trends of contemporary literature. Issues covered will include modernism and post-modernism, the nuclear age, technology, society and culture, and the end of colonial rule. In addition, we will also examine the underlying political and philosophical issues which are necessary for an understanding of contemporary literature.

ENGL 246 - Women's Literature

54 LEC, 3 UNITS

CSU(C2)

A survey of literature by women writing in English in all genres that will examine both canonical texts and overlooked, neglected or forgotten works which have fallen outside the traditional canon. Students will investigate how these works engage and/or circumvent the traditional canon.

GENERAL EDUCATION/CORE CLASS IDENTIFICATION

The transfer requirements satisfied by FRC courses for California four-year universities or University of Nevada, Reno are indicated to the right of the unit value of each course. The IGETC pattern applies to both the California State University (CSU) and University of California (UC) Systems, as well as the University of Nevada, Reno. The letters in parentheses indicate any General Education (GE) Breadth area also satisfied. Please refer to the CSU and IGETC transfer patterns (pages 49-51) or meet with an academic advisor for clarification.

ENGL 252 - American Literature I

54 LEC, 3 UNITS

CSU(C2)

An intensive examination of American literature from its beginnings to 1877. Students will examine writings that reflect cultural encounters from 1492 to 1750, practical and political ideas of revolutionary thinkers, romantic spirit of individualism, and realistic challenges of the civil war, reconstruction and frontier life to 1877. Students will explore America's cultural diversity, as well as our unity, in an examination of what it means to be an American. Advisory: ENGL 101.

ENGL 254 - American Literature II

54 LEC, 3 UNITS

CSU(C2)

An intensive examination of American literature from 1877 to the present. Students will read selected literature, discuss the material in-depth, and write reflectively to discover what it is about these texts that make them distinctly "American". Students will consider the major historical, cultural, intellectual and political events that influenced the American authors whose writings are examined. Advisory: ENGL 101.

ENGL 256 - Survey of British Literature I

54 LEC, 3 UNITS

CSU(C2), IGETC(3B)

Survey of literary culture and civilization of England. Covers development of literary forms and the history of critical taste in political, cultural and philosophical context. Emphasis on the great writers and central works from Beowulf to Pope (Medieval period through 18th century).

ENGL 257 - Survey of British Literature II

54 LEC, 3 UNITS

CSU(C2), IGETC(3B)

Survey of literary culture and civilization of England. Covers development of literary forms and the history of critical taste in political, cultural and philosophical context. Emphasis on the great writers and central works from Blake to Seamus Heaney (19th through 20th century).

ENGL 277 - Introduction to Shakespeare

54 LEC, 3 UNITS

CSU(C2), IGETC(3B)

Acquaints students with dramatic structure, poetry and central themes of Shakespeare's work. Plays selected to represent range and development of his art. Emphasis on close text analysis, critical viewing of videotaped plays, and thematic interpretation. Includes introduction to Shakespearean criticism. Formerly ENGL 077.

ENGL 291 - Directed Study

18 - 270 HOURS, 1 - 5 UNITS

CSU

A student may take advanced course work or complete a student designed project in English after having completed introductory courses. The topics, learning objectives, educational material(s), number of units to be awarded, and method of evaluation are determined in a written agreement between the instructor and the student before the student engages in the learning experience. A "Learning Contract for Directed Studies" must be completed by the student, approved by the instructor and Chief Instructional Officer, and placed on file with the Office of Instruction.

ENGL 310 - Applied Professional and Technical Communication and Composition

54 LEC, 3 UNITS

Provides experience and feedback on writing effective and concise professional and technical communications such as memos, emails, letters, reports, technical papers, proposals, reports, social media, pamphlets, and other communications media. Important skills such as working in teams, preparing and giving presentations, and managing information are emphasized. The purpose of this course is to improve the

writing and presentation ability of students in their professional communication with others.

ENGL 416 - Research Methods in Equine and Ranch Management Current Topics and Issues

54 LEC, 3 UNITS

Research in current Equine and Ranch Management topics through critical exploration of research language, ethics, and approaches. The elements of the APA style research process within quantitative, qualitative, and mixed methods approaches, and emphasizes industry related topics including animal welfare and ethical training methods.

ENVIRONMENTAL STUDIES**ENVR 040 - Firefighter Type 2**

32 LEC, 12 LAB, 2 UNITS

CSU

This is the first course in the wildland firefighter training series. This course provides students with entry level firefighter skills for wildland fire incidents. This course also provides instruction in wildland fire behavior, hazard recognition, human factors in high risk environments, basic incident command system, radio operations, and documentation. Classroom and field exercises will prepare the student for a position as a Firefighter Type 2 (FF2). This course meets the National Wildfire Coordinating Group's (NWCG) requirements for S-130/S-190/L-180/I-100 and J-158. This course may be taken once and repeated once for credit.

ENVR 041 - Firefighter Type 1

32 LEC, 12 LAB, 2 UNITS

CSU

This is the second course in the wildland firefighter training series. This course prepares students with additional leadership and skills sets needed to make leadership and tactical decisions on wildland fire incidents. This course also provides instruction in the Risk Management Process, fire line reference materials, portable fire pump operations, and staging area standard operating procedures and practices. Classroom and field exercises will prepare the student for a position as a Firefighter Type 1 (FF1) and will provide the skills necessary to become an Incident Commander Type 5 (ICT5) and Staging Area Manager. This course meets the National Wildfire Coordinating Group's (NWCG) requirements for S-131/S-133/S-211/J236/RT-130. This course may be taken once and repeated once for credit. Prerequisite: ENVR 040 Firefighter Type 2.

ENVR 042 - Portable Pumps Water Use

16 LEC, 12 LAB, 1 UNIT

CSU

This course provides students with practical knowledge and skills in the use of portable fire pumps and related equipment during wildland fire incidents. The course consists of three skill areas: supply, delivery, and application of water. Students will be required to demonstrate their knowledge of correct water use, basic hydraulics, and equipment care. Field exercises, demonstrations, and evaluations will cover set up, operation, and maintenance of pump equipment. This course meets the National Wildfire Coordinating Group's (NWCG) requirements. This course may be taken once and repeated once for credit.

ENVR 043 - Wildland Fire Chainsaws

16 LEC, 16 LAB, 1 UNIT

CSU

This course provides the basic knowledge, understanding, function, maintenance, and use of internal combustion engine powered chain saws. The student will also learn the tactical use of wildland fire chainsaws. Field exercises support entry level training for fighters with little or no previous experience in operating a chain saw. The field exercises will provide students with hands-on cutting experience in surroundings similar to fire line situations. This is an entry level course for

students interested in wildland fire suppression and is highly recommended prior to enrolling in intermediate level wildland fire related course. Students who have already completed this course may retake it in order to advance their skill classification. This course meets the National Wildfire Coordinating Group's (NWCG) requirements. This course may be taken once and repeated three times for credit.

ENVR 045 - Seasonal Firefighting Basic

36 LEC, 2 UNITS

CSU

Basic concepts, techniques, skills and theories on fire suppression and control. Includes fire physics, fuels, weather, topography, behavior, fire-line construction, National interagency Incident Management System, safety and working around helicopters. Meets training requirement to become a firefighter for federal and state agencies.

ENVR 046 - Introduction to Incident Command System

18 LEC, 1 UNIT

CSU

This course provides an introduction to the Incident Command System (ICS-100), the National Incident Management System (ICS-700), the National Response Framework (ICS-800), and Emergency Support Function #4 – Firefighting (ICS-804). This course also provides a basic introduction to wildland fire management (S-110) and a basic working knowledge of the human performance concepts in dynamic and high risk environments (L-180). This course meets the National Incident Management System (NIMS) and National Wildfire Coordinating Group (NWCG) National Standard Curriculum.

ENVR 047 - Incident Command System for Single Resources (I200)

13 LEC, 0 UNITS

This course is designed to enable personnel to operate efficiently during an incident or event within the Incident Command System (ICS). The course focuses on the implementation of ICS and single resources. Topics include ICS fundamentals review, leadership and management, delegation of authority, management by objectives, ICS functional areas and positions, briefings, organizational flexibility, and transfer of command. This course provides training and resources for personnel who are likely to assume a supervisory position within the ICS. This course meets the National Incident Management System (NIMS) National Standard Curriculum. Prerequisite: ENVR 046 Introduction to Incident Command System.

ENVR 048 - Intermediate Incident Command System (I300)

24 LEC, 1 UNIT

CSU

This course provides description and detail of the Incident Command System (ICS) organization and operations in supervisory roles on expanding or Type 3 incidents. Topics include ICS fundamentals review, incident/event assessment and agency guidance in establishing incident objectives, Unified Command, incident resource management, planning process, demobilization, transfer of command, and close out. Students will be organized into teams for classroom exercises that replicate an incident operation. This course meets the National Incident Management Systems (NIMS) National Standard Curriculum. Prerequisite: ENVR 047 ICS for Single Resources.

ENVR 102 - Introduction to Environmental Studies

54 LEC, 3 UNITS

CSU

This interdisciplinary course introduces students to the field of environmental studies by emphasizing connections between person, place, and time. Through readings in the foundational texts of environmental philosophy, exposure to the complexities of "environmentalism," and reflective outdoor experiences, students will begin developing an appreciation for their unique ecological identity, significance in history, and role in their community.

ENVR 103 - Environmental Studies Seminar

18 LEC, 1 UNIT

This course is designed to be taken early in a student's career in the Environmental Studies program. It will help build community among new students by introducing them to program staff, returning students, Plumas County (through map exercises, primarily), and by inviting natural resource professionals to speak about their careers and experiences.

ENVR 120 - Sierra Nevada Natural History

36 LEC, 54 LAB, 3 UNITS

CSU

Learn to observe the patterns and relationships of flora, fauna, non-living elements of the Sierra Nevada range, with a particular focus on Plumas County. Basic ecology, climatology and geology will also be discussed. An overnight field trip is required. Cross-listed with BIOL120.

ENVR 125 - Wildlife Law and Issues

36 LEC, 2 UNITS

CSU

In-depth studies of wildlife issues, laws, and regulations throughout North America and the world. The course includes in-depth discussions and analysis of the Endangered Species Act, commercialization of wildlife, illegal trade of wildlife, introduction of exotic species, the effects of pollution on wildlife, depredation wildlife and human populations' effect upon wildlife. Possible solutions to wildlife issues will be reviewed. Cross-listed with ADMJ 125.

ENVR 130 - Introduction to Sustainable Food Systems

18 LEC, 54 LAB, 2 UNITS

CSU

Introduction to local and global food systems, and their ecological, economic and social sustainability. Includes an exploration of Plumas County's local food and farming movement, and an introduction to the basics concepts of farm design and management. Labs include field days to local farms, gardens, and community-based food projects.

ENVR 131 - High Altitude Crop Production - Fall

18 LEC, 54 LAB, 2 UNITS

CSU

Introduction to sustainable farm production techniques with an emphasis on fall crops. Includes planting schedules, season extension techniques, nutrient management, and the impact of temperature on crop productivity. Lab activities provide opportunities for hands-on experience planting, cultivating, and harvesting crops throughout the fall season.

GENERAL EDUCATION/CORE CLASS IDENTIFICATION

The transfer requirements satisfied by FRC courses for California four-year universities or University of Nevada, Reno are indicated to the right of the unit value of each course. The IGETC pattern applies to both the California State University (CSU) and University of California (UC) Systems, as well as the University of Nevada, Reno. The letters in parentheses indicate any General Education (GE) Breadth area also satisfied. Please refer to the CSU and IGETC transfer patterns (pages 49-51) or meet with an academic advisor for clarification.

ENVR 132 - High Altitude Crop Production - Spring

18 LEC, 54 LAB, 2 UNITS

CSU

Introduction to farm production techniques with an emphasis on spring and early summer crops. Includes crop planning, high altitude variety selection, nutrient management, and spring season extension techniques. Lab activities provide opportunities for hands-on experience with seed starting, soil preparation, potting-up, transplanting, greenhouse management, and spring season extension techniques.

ENVR 133 - Ecological Pest Management

9 LEC, 27 LAB, 1 UNIT

CSU

Introduction to ecological pest and weed management strategies for the small-scale farm. Includes an overview of short-term, ecologically-friendly strategies for controlling a variety of common pests, as well as long-term approaches to building a balanced farm ecosystem. Labs will include field days at local farms and gardens.

ENVR 134 - Season Extension Structures

9 LEC, 27 LAB, 1 UNIT

CSU

This course will provide students with a basic understanding of the impacts of temperature on crop growth and equip them to select and utilize the appropriate season extension techniques. Students will learn about a variety of cost effective season extension technologies and gain experience in designing, building and using them.

ENVR 135 - Small Farm Tools and Infrastructure

9 LEC, 27 LAB, 1 UNIT

CSU

This course will equip students to assess, design and select tools and infrastructure appropriate for the small-scale farm. Includes an overview of small-scale equipment, hand tools, seeders, farm structures and packing shed design, irrigation system components and design, and fencing options. Field labs will include hands-on projects at local farms.

ENVR 142 - Introduction to Environmental Science

54 LEC, 3 UNITS

CSU(B1), IGETC(5A)

Course covers the scientific basis of global environmental issues. Students explore and evaluate various environmental perspectives as they relate to the role of humanity and its relationship to the natural world.

ENVR 142L - Introduction to Environmental Science Lab

54 LAB, 1 UNIT

CSU(B3), IGETC(5C)

The laboratory section of ENVR 142 will build on students' understanding of concepts covered in the lecture course. Emphasis will be placed on quantitative methods of assessing data, collecting scientific data, representing data through graphs and charts, manipulating data in Excel and applying chemical and physical concepts.

ENVR 160 - Watershed Protection and Restoration

36 LEC, 54 LAB, 3 UNITS

CSU

This class will introduce you to the fundamental concepts, techniques, and tools used to understand the structure and function of watersheds. In addition, the class will address the basic techniques of stream corridor restoration. During the semester students will have the opportunity to apply knowledge and skills gained to collaborate on watershed restoration projects.

ENVR 164 - Native Plants Workshop

9 LEC, 27 LAB, 1 UNIT

CSU

This hands-on course focuses on native plant propagation, including identification, seed and cutting collection, transplanting, nursery and greenhouse operations, and re-vegetation techniques. Evening classroom sessions and daytime application / fieldtrips will combine to provide students with an understanding of how to initiate their own native plant projects.

ENVR 170 - Wildland Fire Behavior

54 LEC, 3 UNITS

CSU

This course is one in a series of core courses required for the Wildland Fire Technology Certificate of Achievement. This course provides students with information necessary to understand basic wildland fire behavior, wildland fire predictions, and wildland fire operation safety. Wildland fire environmental factors and the tools required to monitor weather and fire behavior will be discussed as it relates to wildland fire predictions. This course meets or exceeds the National Wildfire Coordinating Group's (NWCG) requirements.

ENVR 180 - Environmental Policy

54 LEC, 3 UNITS

CSU

A comprehensive analysis of the laws and policies that affect water, land, air, fire, wildlife, and vegetation in the American West. The class will examine the federal land management agencies (history, mission, policies), and issues specific to wilderness, wildlife, timber, grazing, water, and mining. Cross-listed with POL180.

ENVR 190 - Environmental Studies Field Course

27 LAB, 0 UNITS

CSU

Selected environmental studies field trips to areas of environmental, historical and ecological interest within four major North American biomes: Great Basin, Sierra Nevada, Southern Cascades, and Modoc Plateau.

ENVR 192 - Winter Ecology

4 LEC, 13 LAB, 0 UNITS

By taking local field trips, this course attempts to develop an understanding of winter ecology by using hands-on, practical ecological methods.

ENVR 194 - Current Environmental Issues

9 LEC, 1 UNIT

CSU

We will explore regional environmental concerns through classroom and field sessions. Readings, guest speakers, discussion, direct observation, and hands-on projects will provide students with varied perspectives and allow you to make judgments about the issues and seek solutions to these complex challenges.

ENVR 201 - Introduction to Geographic Information Systems (GIS)

36 LEC, 54 LAB, 3 UNITS

CSU

An introduction to Geographical information Systems (GIS) including basic principles as well as practices involving GIS. Students will learn about assessment of vector and raster data, scale, resolution, map projection, coordinate systems, geo-referencing, and Global Positioning Systems. In addition, students will learn how GIS facilitates interdisciplinary project approaches, methods of data collection and sampling methods, spatial analysis, project design, and implementation. Cross-listed with GEOG201.

ENVR 210 - Introduction to Soil Science

36 LEC, 54 LAB, 3 UNITS

CSU(B1, B3), UC

An introduction to the biological, chemical and physical properties of soils. Major topic areas include the relationship of soil characteristics to land management, maintenance of soil productivity, soil erosion processes and erosion control methods, soil classification and the use of soil survey information in agriculture, watershed and wildlife applications. The relationship of soil properties and the geologic/geomorphic setting is emphasized. Cross-listed with AGPS210.

ENVR 220 - Introduction to Forestry

36 LEC, 54 LAB, 3 UNITS

CSU

This course is an introduction to forest ecological and biological processes and to forest management, through discussion of silviculture, policy, operations, forest products, and management decision making. Students will learn about techniques for measuring forests and other forest ecosystem components, such as soil, wildlife habitat, etc. Emphasis will be placed both on traditional use of forest resources and emerging, multiple-use goals.

ENVR 240 - Introduction to Wildlife

36 LEC, 54 LAB, 3 UNITS

CSU

An exploration of the field of wildlife biology, including conservation, ecology, threats, and management of wildlife. The class is designed as an introductory-level course for the student interested in wild vertebrate species.

ENVR 241 - Wildlife Diversity and Field Techniques

36 LEC, 108 LAB, 4 UNITS

CSU

An applied course including field identification and natural history of vertebrate wildlife as well as field techniques used in wildlife research and management.

ENVR 250 - Introduction to Aquaculture

36 LEC, 54 LAB, 3 UNITS

CSU

An introduction to the techniques and methodology of fisheries culture, in earthen ponds and flow-through raceways. Lectures will focus on history, theory, hatchery systems, site selection, and water quality, feeding rates, and the economics of an aquaculture operation.

ENVR 251 - Ecosystem Management

18 LEC, 18 LAB, 2 UNITS

CSU

Students will apply concepts from pre-requisite courses, to analyze and synthesize information about the environment. This will lead to participation in ecosystem management decision-making.

ENVR 264 - Introduction to Fish

54 LEC, 54 LAB, 4 UNITS

CSU(B2, B3)

This course introduces students to the study of fishes. Students delve into the history of fishes and the techniques used to differentiate the 31,000 species. The course covers anatomy, behavior, structure and form, ecology of different classes, and students will identify and describe fishes that are found in and around California. Cross-listed with BIOL 264.

ENVR 266 - Advanced Aquaculture

36 LEC, 54 LAB, 3 UNITS

CSU

This course builds upon the knowledge gained in ENVR250 Fish Culture and delves deeper into the subjects of water quality, water management, feed management, inventory, and bio filtration. These subjects are the driving force for recirculation fish culture. Students will explore the important mechanical components of a system and the role each plays in the life support of the culture species. Cross-listed with AGAS266.

ENVR 280 - Professional Development Seminar

18 LEC, 1 UNIT

CSU

The objective of this class is to synthesize material learned in the major and to assist students in the development of

professional skills in seeking out, applying to, and interviewing for continued education and/or employment in Outdoor and Environmental fields. This course is cross-listed with ORL 280.

ENVR 291 - Directed Study

18 - 270 HOURS, 1 - 5 UNITS

CSU

A student may take advanced course work or complete a student designed project in Environmental Studies after having completed introductory courses. The topics, learning objectives, educational material(s), number of units to be awarded, and method of evaluation are determined in a written agreement between the instructor and the student before the student engages in the learning experience. A "Learning Contract for Directed Studies" must be completed by the student, approved by the instructor and Chief Instructional Officer, and placed on file with the Office of Instruction.

ENVR 299 - Special Topics in Environmental Studies

54 LEC, 162 LAB, 0 UNITS

Course covers selected topics in evolving issues or research in the area of environmental management or ecosystem science or special field topics as the opportunity arises. Independent student research and presentation are emphasized. Cross-listed with BIOL 299.

ENVR 480 - Human Dimensions of Natural Resources

54 LEC, 3 UNITS

The values, attitudes, and behaviors of humans related to natural resources. Students will explore their own beliefs, biases, and prejudices through the use of case studies in controversial topics such as grazing on public lands, the expansion of wolves into new habitat, listing of endangered species such as sage grouse, and recreation conflicts.

FRENCH**FRN 101 - Beginning French I**

72 LEC, 4 UNITS

CSU(C2)

Beginning level French emphasizing understanding and speaking modern French. Includes study of current grammatical structures and vocabulary, practice in reading and writing, and study of French culture. Formerly FRN001.

FRN 102 - Beginning French II

72 LEC, 4 UNITS

CSU(C2), IGETC(6A)

Continuation of French 101, emphasizing understanding and speaking modern French. Includes study of current grammatical structures and vocabulary, practice in reading and writing, study of French culture. Formerly FRN 002

FRN 201 - Intermediate French I

90 LEC, 5 UNITS

CSU(C2), UC, IGETC(6A)

Intermediate level French, continuation of FRN 102. The emphasis is on understanding and speaking modern French, using current vocabulary and grammatical structures. Course materials are based on a videotaped romantic comedy with native speakers, involving modern French culture and language. Practice in reading and writing, as well as listening and speaking.

GENERAL EDUCATION/CORE CLASS IDENTIFICATION

The transfer requirements satisfied by FRC courses for California four-year universities or University of Nevada, Reno are indicated to the right of the unit value of each course. The IGETC pattern applies to both the California State University (CSU) and University of California (UC) Systems, as well as the University of Nevada, Reno. The letters in parentheses indicate any General Education (GE) Breadth area also satisfied. Please refer to the CSU and IGETC transfer patterns (pages 49-51) or meet with an academic advisor for clarification.

FRN 291 - Directed Study

18 - 270 HOURS, 1 - 5 UNITS

CSU

A student may take advanced course work or complete a student designed project in French after having completed introductory courses. The topics, learning objectives, educational material(s), number of units to be awarded, and method of evaluation are determined in a written agreement between the instructor and the student before the student engages in the learning experience. A "Learning Contract for Directed Studies" must be completed by the student, approved by the instructor and Chief Instructional Officer, and placed on file with the Office of Instruction.

GEOGRAPHY

GEOG 102 - Physical Geography

54 LEC, 3 UNITS

CSU(B1), IGETC(5A)

This course is a spatial study of the Earth's dynamic physical systems and processes. Topics include: Earth-sun geometry, weather, climate, water, landforms, geology, soil, and the biosphere. Emphasis is on the interrelationships among environmental and human systems and processes and their resulting patterns and distributions.

GEOG 104 - Cultural Geography

54 LEC, 3 UNITS

CSU(D5), UC, IGETC(4E)

This course is an introduction to cultural geography through the study of global patterns of many aspects of human culture, including population, language, religion, urban and rural settlement, and ways of economic livelihood.

GEOG 125 - World Regional Geography

54 LEC, 3 UNITS

CSU(D5)

Survey of the world's culture regions and nations as interpreted by geographers, including physical, cultural, and economic features. Emphasis on spatial and historical influences on population growth, transportation networks, and natural environments. Identification and importance of the significant features of regions.

GEOG 201 - Introduction to Geographic Information Systems (GIS)

36 LEC, 54 LAB, 3 UNITS

CSU

An introduction to Geographical information Systems (GIS) including basic principles as well as practices involving GIS. Students will learn about assessment of vector and raster data, scale, resolution, map projection, coordinate systems, geo-referencing, and Global Positioning Systems. In addition, students will learn how GIS facilitates interdisciplinary project approaches, methods of data collection and sampling methods, spatial analysis, project design, and implementation. Cross-listed with ENVR201.

GEOG 291 - Directed Study

18 - 270 HOURS, 1 - 5 UNITS

CSU

A student may take advanced course work or complete a student designed project in Geography after having completed introductory courses. The topics, learning objectives, educational material(s), number of units to be awarded, and method of evaluation are determined in a written agreement between the instructor and the student before the student engages in the learning experience. A "Learning Contract for Directed Studies" must be completed by the student, approved by the instructor and Chief Instructional Officer, and placed on file with the Office of Instruction.

GEOLOGY

GEOL 102 - Physical Geology

54 LEC, 54 LAB, 4 UNITS

CSU(B1, B3), IGETC(5A, 5C)

An introductory study of the phenomena shaping Earth. The modern theories about the origin of Earth, its internal structure and evolution through time. The types of rocks and formations. Geological time and plate tectonics, including seismicity, volcanism and evolution of continental and oceanic basins.

GEOL 104 - Historical Geology

72 LEC, 4 UNITS

CSU(B1, B3), IGETC(5A, 5C)

History of the earth, covering early atmosphere, development of the earth's structure, continents and oceans, evolution of life, and the interrelationship between geological and astronomical processes.

GEOL 120 - Introduction to Earth Science

54 LEC, 54 LAB, 4 UNITS

CSU(B1, B3)

An introduction to the essentials of Earth Science including the geosphere, atmosphere, hydrosphere, and solar system. This course focuses on the interactions between physical and chemical systems of the Earth such as the tectonic cycle, rock cycle, hydrologic cycle, weather and climate, the formation of the earth the solar system, and geologic time.

GEOL 191 - Geologic Field Trips: Volcanic Landscapes

4 - 8 LEC, 20 - 40 FIELD, 0.5 - 1 UNIT

This is a weekend, field-based course that will visit selected, local landscapes formed by volcanism.

GEOL 291 - Directed Study

18 - 270 HOURS, 1 - 5 UNITS

CSU

A student may take advanced course work or complete a student designed project in Geology after having completed introductory courses. The topics, learning objectives, educational material(s), number of units to be awarded, and method of evaluation are determined in a written agreement between the instructor and the student before the student engages in the learning experience. A "Learning Contract for Directed Studies" must be completed by the student, approved by the instructor and Chief Instructional Officer, and placed on file with the Office of Instruction.

HEALTH

HLTH 100 - Principles of Healthful Living

54 LEC, 3 UNITS

CSU(E)

Examination of current important health issues and practical means of effectively dealing with them. Main topics include mental and emotional health, nutrition, physical fitness, human sexuality, substance use and abuse, environmental health, communicable disease, aging, dying and death, safety, and first aid. Emphasis on the promotion of wellness. Cross-listed with HES 100.

HEALTH AND EXERCISE STUDIES

HES 001 - Strength Training and Your Body

54 LAB, 0 UNITS

This course is designed to educate students on specific techniques used to develop muscular strength and muscular endurance while maintaining a safe environment. Students will also be responsible for tracking their progress through the course in relation to their individual training goals.

HES 002 - Improving Cardio Respiratory Endurance

54 LAB, 0 UNITS

This course is designed to educate students on the body's ability to perform large muscle group activity at moderate to high intensity for a prolonged period of time. Examples include but are not limited to running, cycling, and swimming.

HES 100 - Principles of Healthful Living

54 LEC, 3 UNITS

CSU

Examination of current important health issues and practical means of effectively dealing with them. Main topics include mental and emotional health, nutrition, physical fitness, human sexuality, substance use and abuse, environmental health, communicable disease, aging, dying and death, safety, and first aid. Emphasis on the promotion of wellness. Cross-listed with HLTH 100.

HES 101 - Wellness and Body Movement

54 LEC, 0 UNITS

This course guides students into all of the dimensions of personal health promotion and disease prevention. Life skills involving fitness and wellness that truly enhance the quality and longevity of a healthy life will be taught in a lecture and laboratory format. Safe and effective exercise is conducted in various forms of movement from beginning to advanced levels.

HES 104 - Sports Management

54 LEC, 3 UNITS

CSU

This course is designed to examine the academic and professional requirements of coaching and administrating a sports program. Students will be exposed to the breadth of the coaching and administrating profession by examining philosophy, goals, objectives, ethics, and practical task orientations.

HES 105 - First Aid and Safety

18 LEC, 1 UNIT

CSU, UC

First aid in emergency and accident situations. Wounds, shock, choking, artificial respiration, adult, child, and infant CPR, injuries, burns, effects of heat and cold, medical emergencies, and transportation of the injured. Home fire safety. Upon completion, students qualify for American Red Cross Standard First Aid Certificate (three-year certificate) and American Red Cross Certification (one year).

HES 108 - Track and Field and Cross Country Skills

9 LEC, 27 LAB, 0.5 - 1 UNIT

CSU, UC

A fitness course that will teach and/or further one's knowledge in track and field. The class activity is designed to improve many areas in physical fitness, including: all events in track and field, cardiovascular, muscle toning, flexibility, and stress reduction.

HES 112 - Ultimate Disc

54 LAB, 1 UNIT

CSU, UC

Beginning through advanced. Ultimate development of individual skills, throwing and catching, and offensive/defensive team strategy.

HES 113 - Circuit Training

54 LAB, 1 UNIT

CSU(E)

This course is designed to encompass a full body work-out through circuit training, utilizing cardiovascular interval

training, core training, and resistance exercising using free weights and Nautilus equipment. Activities for injury treatment and prevention along with rehabilitation will be discussed in order to encompass the athletic training field.

HES 114 - Physical Fitness: Stretch and Tone

27 - 54 LAB, 0.5 - 1 UNIT

CSU

A fitness program designed to improve muscle tone and strength through a series of deep muscle exercises that improve flexibility and reduce stress.

HES 115 - Physical Fitness: Aerobics

27 - 54 LAB, 0.5 - 1 UNIT

CSU, UC

Activity class designed for improved cardiovascular fitness. High/low aerobics, strength training, flexibility, and stress reduction.

HES 118 - Physical Activity, Wellness and Behavior Change

54 LAB, 1 UNIT

CSU

Examines personal awareness and responsibility for maintenance of health, fitness and well-being. Information will be presented concerning the benefits, positive effects, assessment and implementation of healthy lifestyles through muscular strength and endurance activities.

HES 119 - Body Composition: Theory, Principles and Management

54 LAB, 1 UNIT

CSU(E)

Examines the relationship between exercise, diet, and body composition during muscular strength and endurance training as well as nutritional issues that affect the body both pre and post workout. The course is designed to help students develop proper lifting techniques, but also to be informed of the varying ways to evaluate and access body mass index (BMI) and body fat percentage.

HES 120 - Weight Training

54 LAB, 1 UNIT

CSU

The techniques of weight training. An individually adapted exercise program. Basic development of strength, endurance, speed, and agility through a controlled weight-training program. Activities for injury prevention, treatment and rehabilitation will be discussed in order to encompass the athletic training field.

HES 121 - Movement Fundamentals and Multi Joint Training

54 LAB, 1 UNIT

CSU

This course is designed to help students develop movement skills through resistance training, strength development and muscular endurance. Focuses on blending together different combinations and sequences of exercises while conditioning the entire body. Activities for injury treatment and prevention along with rehabilitation will be discussed in order to encompass the athletic training field. HES 122 - Performance Related Fitness

54 LAB, 1 UNIT

CSU

Course is designed to offer comprehensive, systematic training programs for students who wish to apply strength and conditioning techniques to specific skills and/or physical activities.

HES 123 - Asian Martial Arts

GENERAL EDUCATION/CORE CLASS IDENTIFICATION

The transfer requirements satisfied by FRC courses for California four-year universities or University of Nevada, Reno are indicated to the right of the unit value of each course. The IGETC pattern applies to both the California State University (CSU) and University of California (UC) Systems, as well as the University of Nevada, Reno. The letters in parentheses indicate any General Education (GE) Breadth area also satisfied. Please refer to the CSU and IGETC transfer patterns (pages 49-51) or meet with an academic advisor for clarification.

54 LAB, 1 UNIT

CSU

This course will explore the historical techniques of martial arts in light of present day practical applications. This course will be presented as a more traditional martial arts class with students exploring techniques in the forms of Karate, Kung Fu, Aikido, and Taekwondo, as well as other Asian arts. It will also introduce students to weapons used in various Asian countries including the bo, fai-gi, escrima, broad sword and others. Students will learn the historical, philosophical and physiological techniques required to correctly and safely execute the required movements through sparring, grappling, and katas.

HES 124 - Sports in American History

54 LEC, 3 UNITS

CSU

A survey of sports as a reflection of American cultural development, race and gender relations, and political and social change through the 19th and 20th centuries. The course examines the development of American life through an examination of the literature, journalism, history, film and art of sports.

HES 127 - Advanced Asian Martial Arts

54 LAB, 1 UNIT

CSU

The Advanced Asian Martial Arts course will deepen and expand the understanding and application of traditional martial arts with students not only learning the empty hand techniques of Karate, Kung Fu, Aikido, and Taekwondo, etc., but also skills in the use of weapons from various Asian countries including: the bo, fai-gi, escrima, shinai, broad sword and others. Students will become more proficient in the various arts while expanding and deepening their knowledge and expertise in the historical, philosophical and physiological aspects of martial arts. Through the study of empty hand and weapons techniques, reality based training will incorporate grappling, sparring, empty hand against weapon scenarios.

HES 129 - Basic Jujitsu

3 LAB, 1 UNIT

CSU

Course covers basic principles of Jujitsu, a system of self-defense using the attacker's aggression against them. The emphasis is on balance and fulcrum more than strength.

HES 131 - Beginning Sports Conditioning

108 LAB, 2 UNITS

CSU

Class designed to advance athletic performance. All phases of strength and power are introduced and addressed through strength, agility, balance, plyometric and speed training. Progression of exercises will be based upon performance assessment after completion of first four weeks.

HES 132 - Sports in Society

54 LEC, 3 UNITS

CSU

This course is designed to enable students to understand the relationship between specific aspects of sociology and sport. The class will examine social, political, and economic factors that directly and indirectly affect individual and team sport performance.

HES 133 - Introduction to Kinesiology

54 LEC, 3 UNITS

CSU

This course is designed to introduce the student to the discipline of kinesiology and its relationship to physical activity. This course will focus on how practical applications relate to different professions in the sub-disciplines in kinesiology in the areas of teaching, coaching, allied health, and fitness professions. Historical, ethical, and philosophical foundations of kinesiology will also be discussed. Formerly PE 133.

HES 135 - Advanced Sports Conditioning

54 LAB, 1 UNIT

CSU

Class designed to maximize athletic performance. All phases of strength and power are progressed using strength, agility, balance, plyometric and speed training techniques. Progression of exercises will be based upon performance assessments after completion of intermediate sport conditioning class.

HES 136 - Speed, Agility and Conditioning

54 LAB, 1 UNIT

CSU

Speed, agility, and conditioning are vital components of physical activity progression. This course is designed to help students train their proprioceptive senses, to learn and develop motor skills that enhance performance and prevent injury in their specific sport or activity. Activities for injury prevention, treatment and rehabilitation will be discussed in order to encompass the athletic training field.

HES 137 - Land Based Strength and Stabilization

54 LAB, 1 UNIT

CSU

Variety of individual and group activities performed on land such as plyometrics, medicine balls, hurdles, and cardiovascular equipment; student improvement of strength and stabilization through explosion and core training. Activities for injury treatment and prevention along with rehabilitation will be discussed in order to encompass the athletic training field.

HES 138 - Fitness Activities and Theories

54 LAB, 1 UNIT

CSU

Topics related to individual fitness and development of personal skills, such as form running, body positioning, muscle memory, motor control and skill development. Activities for injury treatment and prevention along with rehabilitation will be discussed in order to encompass the athletic training field. Activities for injury prevention, treatment and rehabilitation will be discussed in order to encompass the athletic training field.

HES 139 - Asian Martial Arts-Weapons

54 LAB, 1 UNIT

CSU(E)

Throughout history, weapons have been used as an extension of the body. The study of martial arts enables one to become prepared physically and mentally for challenges that arise in life. The use of traditional weapons expands upon these principles. The student will learn the historical context of weapons from various Asian countries including: the bo, escrima, shinai, broad sword, fai-gi, bokken, naginata, and many others. The student will learn techniques for the proper use of these weapons in two-person routines and for executing attacking and defensive moves. Students will become proficient in the use of several weapons, with a more in-depth study and focus on a particular weapon that will change each semester.

HES 141 - Principles of Fitness and Performance

54 LEC, 1 UNIT

CSU

Through lecture and discussion the class will explore the physiological, psychological, and sociological values of fitness and principles of performance training. The student will study and implement the guidelines on how to commence or maintain a program of a healthy and enjoyable exercise program. The student will participate in fitness assessment, and exercise prescription. Other topics of study will include exercise and the environment, exercise for diverse populations, and sport nutrition.

HES 143 - Principles of Performance Lab

45 - 90 FIELD, 0.5 - 1 UNIT

CSU

Course related to the continuation of teaching fundamentals, and implementation of plays.

HES 150 - Intramurals

54 LAB, 0.5 - 1 UNIT CSU
A variety of courses including both individual and team sports.

HES 151 - Extramural Ultimate Disc

27 - 54 LAB, 0.5 - 1 UNIT CSU
Regional tournament team play. Instruction in advanced skills of Ultimate Disc. Focusing on conditioning for advanced tournament play.

HES 152 - Introduction to Cheer Movement

54 LAB, 1 UNIT CSU(E)
Introductory class of basic cheer movements designed for the student with no prior knowledge of cheerleading. Basic cheerleading skills, techniques, and general cheer vocabulary common to all genres of cheerleading will be covered.

HES 153 - Introduction to Dance Movement

54 LAB, 1 UNIT CSU
Introductory class of basic dance movements designed for the student with no prior knowledge of dance. Basic dance skills, techniques, and general dance vocabulary common to all genres of dance will be covered.

HES 154 - Cheer Production

54 LAB, 1 UNIT
In this course designed for beginning to advanced cheerleaders, students will rehearse and/or prepare to perform student-choreographed cheer routines for performance during school athletic events. The focus is on developing technical and performance skills, as well as a professional work ethic in relation to practicing choreography.

HES 155 - Dance Production

54 LAB, 1 UNIT CSU
In this course designed for beginning to advanced dancers, students will rehearse and/or prepare to perform student-choreographed dances for performance during school athletic events. The focus is on developing technical and performance skills, as well as a professional work ethic in relation to rehearsing and practicing choreography.

HES 156 - Theory of Intercollegiate Sand Volleyball

54 LAB, 1 UNIT CSU
A course that covers all aspects of the theory of Sand Volleyball, emphasizing the philosophical foundations and history of the game, sports nutrition, healthy living, perfecting form and technique, offensive and defensive strategies, and opponent scouting and evaluation.

HES 157 - Sports Officiating

18 LEC, 108 LAB, 3 UNITS CSU
Covers current officiating topics with emphasis on basic concepts of officiating. Sports addressed include volleyball, basketball, football, baseball, softball, and floor hockey. This course will focus on the organization and techniques of officiating sports. Comprehensive instruction in rules, officiating techniques, scoring, and practical lab experience.

HES 158 - Theory of Intercollegiate Women's Track and Field

54 LAB, 1 UNIT CSU
A course that covers all aspects of the theory of track and field, emphasizing the philosophical foundations and history of the game, sports nutrition, healthy living, perfecting form and technique, and offensive and defensive strategies of running track as an individual as a team as well as field events.

HES 160 - Psychology of Coaching

54 LEC, 3 UNITS CSU
Designed to examine the various aspects of interpersonal behavior and motivational psychology as it pertains to coaching athletes, including: philosophy of coaching, motivation, leadership, anxiety, and stress, self-perception, aggression, and social influence.

HES 161 - Theory of Intercollegiate Soccer

54 LAB, 1 UNIT CSU
A course that covers all aspects of the theory of soccer, emphasizing the philosophical foundations and history of the game, sports nutrition, healthy living, perfecting form and technique, and offensive and defensive strategies, and opponent scouting and evaluation.

HES 163 - Theory of Intercollegiate Women's Cross Country

54 LAB, 1 UNIT CSU
A course that covers all aspects of the theory of cross country, emphasizing the philosophical foundations and history of the game, sports nutrition, healthy living, perfecting form and technique, and offensive and defensive strategies of running cross country as an individual and as a team.

HES 166 - Theory of Intercollegiate Men's Basketball

54 LAB, 1 UNIT CSU
A course that covers all aspects of the theory of basketball, emphasizing the philosophical foundations and history of the game, sports nutrition, healthy living, perfecting form and technique, and offensive and defensive strategies, and opponent scouting and evaluation.

HES 167 - Theory of Intercollegiate Women's Volleyball

54 LAB, 1 UNIT CSU
A course that covers all aspects of the theory of women's volleyball, emphasizing the philosophical foundations and history of the game, sports nutrition, healthy living, perfecting form and technique, and offensive and defensive strategies, and opponent scouting and evaluation.

HES 168 - Theory of Intercollegiate Softball

3 LAB, 1 UNIT CSU
A course that covers all aspects of the theory of softball, emphasizing the philosophical foundations and history of the game, sports nutrition, healthy living, perfecting form and technique, and offensive and defensive strategies, and opponent scouting and evaluation.

HES 169 - Theory of Intercollegiate Baseball

54 LAB, 1 UNIT CSU
A course that covers all aspects of the theory of baseball, emphasizing the philosophical foundations and history of the game, sports nutrition, healthy living, perfecting form and technique, and offensive and defensive strategies, and opponent scouting and evaluation.

GENERAL EDUCATION/CORE CLASS IDENTIFICATION

The transfer requirements satisfied by FRC courses for California four-year universities or University of Nevada, Reno are indicated to the right of the unit value of each course. The IGETC pattern applies to both the California State University (CSU) and University of California (UC) Systems, as well as the University of Nevada, Reno. The letters in parentheses indicate any General Education (GE) Breadth area also satisfied. Please refer to the CSU and IGETC transfer patterns (pages 49-51) or meet with an academic advisor for clarification.

HES 170 - Introduction to Nutrition

54 LEC, 3 UNITS

CSU(E)

Physiological, social and psychological factors affecting food intake are examined. The relationship of nutrients to health throughout the life cycle is explored. Cross-listed with NCA170.

HES 171 - Beginning Golf

9 LEC, 27 LAB, 1 UNIT

CSU

This short-term course will offer the individual student the opportunity to learn the basic fundamental skills necessary to play the game of golf.

HES 172 - Beginning Life Long Fitness

27 - 108 LAB, 0.5 - 6 UNITS

CSU, UC

In keeping with the primary purpose of wellness, this course is designed to provide insight relative to the values derived by enriching the quality of our lives. Further, it includes the mechanisms for identifying individual needs and providing the means for measurement and improvement of lifestyles to reach a higher level of well being. This course provides a personalized approach to assess and prescribe the necessary programs to improve the components of physical fitness and wellness. These skills will be taught through sport, such as volleyball, swimming, aerobic dancing, water aerobics, tae bo, weight training, yoga, sports massage, racquetball, kickboxing, etc. The use of the school and community facilities and equipment will enhance the students' awareness of options for different activities.

HES 174 - Intermediate Life Long Fitness

27 - 108 LAB, 0.5 - 6 UNITS

CSU

In keeping with the primary purpose of wellness, this course is designed to provide insight relative to the values derived by enriching the quality of our lives. Further, it includes the mechanisms for identifying individual needs and providing the means for measurement and improvement of lifestyles to reach a higher level of well being. This course provides a personalized approach to assess and prescribe the necessary programs to improve the components of physical fitness and wellness. These skills will be taught through sport, such as volleyball, swimming, aerobic dancing, water aerobics, tae bo, weight training, yoga, sports massage, racquetball, kickboxing, etc. The use of the school and community facilities and equipment will enhance the students' awareness of options for different activities.

HES 175 - Beginning Golf Academy

9 LEC, 27 LAB, 1 UNIT

CSU

This short-term course will offer the individual student the opportunity to learn the basic fundamental skills necessary to play the game of golf.

HES 176 - Advanced Life Long Fitness

9 - 108 LAB, 0.5 - 6 UNITS

CSU

In keeping with the primary purpose of wellness, this course is designed to provide insight relative to the values derived by enriching the quality of our lives. Further, it includes the mechanisms for identifying individual needs and providing the means for measurement and improvement of lifestyles to reach a higher level of wellbeing. This course provides a personalized approach to assess and prescribe the necessary programs to improve the components of physical fitness and wellness. These skills will be taught through sport, such as volleyball, swimming, aerobic dancing, water aerobics, tae bo, weight training, yoga, sports massage, racquetball, kickboxing, etc. The use of the school and community facilities and equipment will enhance the students' awareness of options for different activities.

HES 178 - Theory of Intercollegiate Men's Football

54 LAB, 1 UNIT

CSU

A course that covers all aspects of the theory of men's football, emphasizing the philosophical foundations and history of the game, sports nutrition, healthy living, perfecting form and technique, and offensive and defensive strategies, and opponent scouting and evaluation.

HES 179 - Theory of Sport: Nutrition for the Athlete

54 LAB, 1 UNIT

CSU

This course provides a broad coverage of the key areas of sports nutrition. It deals primarily with general principles, but draws on examples from various sports to illustrate the nutritional goals of athletes in training and competition and highlights some of the dietary strategies that can be employed to meet those goals.

HES 180 - Theory of Sport: Applied Biomechanics

54 LAB, 1 UNIT

CSU

Concepts behind how human movement is created (force) and how it can be improved (technique). Optimal performance can be attained by teaching/coaching knowledge of the appropriate muscular applications that they body must endure while in motion. On the opposite end of the spectrum, what negative positions the body is placed in which leads to injury and decreased performance is crucial. The course will also cover avoidance of injury and decreased performance. Video and whiteboard analysis of biomechanical movements will be applied to sport. Case studies will be used to reinforce biomechanical concepts.

HES 181 - Theory of Sport: Coaching Methods and Issues

54 LAB, 1 UNIT

CSU

Focus on major coaching theories, methods, practices, and outcomes. Topics include study of first principles on coaching, coaching cases and analyses utilizing film and film breakdown to identify great coaches, coaching decision making, and other contemporary issues.

HES 182 - Ballroom Dance: Swing

9 - 27 LAB, 0.5 - 1 UNIT

CSU

Designed to introduce students to various styles of swing as a ballroom dance through developing an understanding of its history, music, rhythms, techniques and fundamental social aspects. Basic dance floor etiquette and partner dancing "do's and don'ts" will be covered. Students may participate in field trips.

HES 183 - Intermediate Ballroom Dance: Swing

9 - 27 LAB, 0.5 - 1 UNIT

CSU

Complementary course to HES 182—Ballroom Dance: Swing. This course expands on swing dance with more advanced moves and sequencing. Emphasis is on styling, rhythm and technique. Some dance experience is required. Partners are not required. Students may participate in field trips.

HES 184 - Basic Ballroom Dance

9 - 27 LAB, 0.5 - 1 UNIT

CSU

Designed to introduce students to a selection of various ballroom dances through developing an understanding of their history, music, rhythms, techniques and fundamental social aspects. Basic to advanced steps in: fox trot, waltz, tango, rumba, cha-cha, samba, mambo, salsa, country western, and selected novelty dances may be covered as well as dance floor etiquette. Students may participate in field trips.

HES 192 - Physical Fitness: Beginning Yoga

18 - 54 LAB, 0.5 - 1 UNIT

CSU

Introduction to basic Hatha yoga postures. Study and practice of exercises for self-awareness, breathing, relaxation, visualization, and meditation. Formerly PE192AD.

HES 194 - Principles of Physical Education

54 LEC, 3 UNITS

CSU

Foundations and philosophies of physical education including professional requirements, fields of study for majors, legal liabilities, public relations, and teaching principles.

HES 200 - Intercollegiate Men's Football

180 FIELD, 2 UNITS

CSU

An advanced class for Football competition designed to train students for participating at the intercollegiate level. Methods of competitive team play and strategy will be emphasized. Instruction will include knowledge of and adherence to the Commission on Athletics and conference rules and regulations.

HES 201 - Intercollegiate Basketball

180 FIELD, 2 UNITS

CSU

An advanced level class for intercollegiate basketball competition designed to train student athletes participating in intercollegiate basketball. Methods of competitive team play and strategy will be addressed along with knowledge and adherence of league rules and regulations.

HES 204 - Intercollegiate Soccer

180 FIELD, 2 UNITS

CSU

An advanced level class for intercollegiate soccer competition designed to train student athletes participating in intercollegiate soccer. Methods of competitive team play and strategy will be addressed along with knowledge and adherence of league rules and regulations.

HES 208 - Intercollegiate Cross Country

180 FIELD, 2 UNITS

CSU

An advanced level course for intercollegiate Cross Country runners with specific attention to individual development. Competitive team play and strategy will also be covered. Knowledge and adherence to the California Community College Athletic Association and conference guidelines will be strictly enforced.

HES 212 - Intercollegiate Track and Field

180 FIELD, 2 UNITS

CSU

An advanced level course for intercollegiate Track and Field participants with specific attention to individual development. Competitive team play and strategy will also be covered. Knowledge and adherence to the California Community College Athletic Association and conference guidelines will be strictly enforced.

HES 214 - Intercollegiate Volleyball

180 FIELD, 2 UNITS

CSU

An advanced class for Volleyball competition designed to train students for participating at the intercollegiate level. Methods of competitive team play and strategy will be emphasized. Instruction will include knowledge of and adherence to the Commission on Athletics and conference rules and regulations.

HES 216 - Intercollegiate Baseball

180 FIELD, 2 UNITS

CSU

An advanced class for Volleyball competition designed to train students for participating at the intercollegiate level. Methods of competitive team play and strategy will be emphasized. Instruction will include knowledge of and adherence to the Commission On Athletics and conference rules and regulations.

HES 218 - Intercollegiate Softball

180 FIELD, 2 UNITS

CSU

An advanced class for Softball competition designed to train students for participating at the intercollegiate level. Methods of competitive team play and strategy will be emphasized. Instruction will include knowledge of and adherence to the Commission on Athletics and conference rules and regulations.

HES 219 - Intercollegiate Sand Volleyball

180 FIELD, 2 UNITS

CSU

This course is designed to teach the basic skills, knowledge of rules, team strategies and techniques of doubles sand volleyball. Basic skills instruction and strategies in sand volleyball will be emphasized. This course is aimed at sand volleyball players with a desire to participate on the intercollegiate sand volleyball team.

HES 220 - Management and Care of Athletic Injury I

54 LEC, 3 UNITS

CSU

Introduction to the basic management and care of athletic related injuries. Topics will include basic anatomy, injury assessment and basic rehabilitation and prevention of injuries, with emphasis on practical applications.

HES 222 - Management and Care of Athletic Injury II

54 LEC, 54 LAB, 3 UNITS

CSU

This course provides students with basic medical foundation in the prevention, recognition, assessment, management, and disposition of athletic related injuries. Topics include: Mechanism of tissue injury and healing, emergency procedures, protective equipment, acute care of injuries and other health conditions related to sports.

HES 223 - Observation and Practicum of Athletic Training

54 LAB, 1 UNIT

CSU

Applying advanced athletic training principles in rendering care to the athletic teams and/or individual student athletes. Taping techniques, wound care, therapeutic modalities, policies, and procedures of the athletic training profession.

HES 230 - Advanced Basketball

180 FIELD, 1 UNIT

CSU

An advanced level class for intercollegiate basketball competition designed to train student athletes participating in intercollegiate basketball. Methods of competitive team play and strategy will be addressed along with knowledge and adherence of league rules and regulations.

HES 234 - Advanced Women's Volleyball

180 FIELD, 2 UNITS

CSU

An advanced level course for intercollegiate Women's Volleyball designed to train students in the off-season with additional attention to individual development. Competitive team play and strategy will be covered as well. Knowledge and adherence to the Commission on Athletics and Golden Valley Conference rules and regulations will be strictly enforced.

GENERAL EDUCATION/CORE CLASS IDENTIFICATION

The transfer requirements satisfied by FRC courses for California four-year universities or University of Nevada, Reno are indicated to the right of the unit value of each course. The IGETC pattern applies to both the California State University (CSU) and University of California (UC) Systems, as well as the University of Nevada, Reno. The letters in parentheses indicate any General Education (GE) Breadth area also satisfied. Please refer to the CSU and IGETC transfer patterns (pages 49-51) or meet with an academic advisor for clarification.

HES 236 - Advanced Men's Baseball

180 FIELD, 2 UNITS

CSU

An advanced level course for intercollegiate Men's Baseball designed to train students in the off-season with additional attention to individual development. Competitive team play and strategy will be covered as well. Knowledge and adherence to the Commission on Athletics and Golden Valley Conference rules and regulations will be strictly enforced.

HES 238 - Advanced Women's Softball

180 FIELD, 2 UNITS

CSU

An advanced level course for intercollegiate Women's Softball designed to train students in the off-season with additional attention to individual development. Competitive team play and strategy will be covered as well. Knowledge and adherence to the Commission on Athletics and Golden Valley Conference rules and regulations will be strictly enforced.

HES 240 - Advanced Men's Football

180 FIELD, 2 UNITS

CSU

An advanced level course for intercollegiate Men's football designed to train students in the off-season with additional attention to individual development. Competitive team play and strategy will be covered as well. Knowledge and adherence to the Commission on Athletics and Mid Empire Conference rules and regulations will be strictly enforced.

HES 242 - Advanced Soccer

180 FIELD, 2 UNITS

CSU

A course that covers all aspects of the theory of soccer, emphasizing the philosophical foundations and history of the game, sports nutrition, healthy living, perfecting form and technique, and offensive and defensive strategies, and opponent scouting and evaluation.

HES 248 - Advanced Cross Country

180 FIELD, 2 UNITS

CSU

An advanced level course for intercollegiate cross-country designed to train student in the off season with specific attention to individual development. Competitive team play and strategy will also be covered. Knowledge and adherence to the California Community College Athletic Association and conference guidelines will be strictly enforced.

HES 252 - Advanced Track and Field

180 FIELD, 2 UNITS

CSU

An advanced level course for intercollegiate track and field designed to train student in the off season with specific attention to individual development. Competitive team play and strategy will also be covered. Knowledge and adherence to the California Community College Athletic Association and conference guidelines will be strictly enforced.

HES 253 - Advanced Sand Volleyball

180 FIELD, 2 UNITS

CSU

An advanced level course for intercollegiate Sand Volleyball designed to train students in the off-season with attention to individual development. Basic fundamentals, knowledge of rules and techniques of doubles sand volleyball will be covered. Training in the areas of appropriate sand conditioning will also be covered.

HES 291 - Directed Study

0 - 90 LEC, 0 - 270 LAB, 1 - 5 UNITS

CSU

A student may take advanced course work or complete a student designed project in Health and Exercise Studies after having completed introductory courses. The topics, learning objectives, educational material(s), number of units

to be awarded, and method of evaluation are determined in a written agreement between the instructor and the student before the student engages in the learning experience. A "Learning Contract for Directed Studies" must be completed by the student, approved by the instructor and Chief instructional officer, and placed on file with the Office of Instruction.

HISTORY

HIST 108 - The United States to 1877

54 LEC, 3 UNITS

CSU(C2, D6), IGETC(3B, 4F)

A survey of the history of the U.S. from pre-Columbian societies and European colonization through the Revolution, Westward Expansion, the Civil War and Reconstruction. Emphasis is placed on the evolution of the nation's political and economic institutions, as well as social, cultural, and foreign policy history.

HIST 110 - The United States Since 1865

54 LEC, 3 UNITS

CSU(D6, C2), UC, IGETC(3B, 4F)

A survey of the U.S. from Reconstruction through industrialization, overseas expansion, the Progressive Era, the Great Depression, the World Wars, the Cold War, and America's role in the contemporary world. Emphasis is placed on the evolution of the nation's political and economic institutions, as well as social, cultural, and foreign policy history.

HIST 111 - World History to 1500

54 LEC, 3 UNITS

CSU(C2, D6), IGETC(3B, 4F)

This course will survey world history from the Paleolithic period to the end of the 15th century CE with a particular focus on the interactions between nations and civilizations. The course will examine the political, economic, religious, and social structures that shaped civilizations in Mesopotamia, Europe, East and South Asia, Africa, and the Americas, and how they evolved over time and continue to shape our world.

HIST 112 - World History Since 1500

54 LEC, 3 UNITS

CSU(C2, D6), UC, IGETC(3B, 4F)

This course will survey world history from the beginning of the 15th century CE to the present with a particular focus on the interactions between nations and civilizations. The course will examine the political, economic, religious, and social structures that shaped civilizations in Mesopotamia, Europe, East and South Asia, Africa, and the Americas, and how they evolved over time and continue to shape our world.

HIST 120 - Women in American History

54 LEC, 3 UNITS

CSU(D4, D6), IGETC(4D, 4F)

A multicultural review of the role, status and contributions of women in American history from colonial times to present. Emphasis is on the political, social, cultural, and economic conditions that produced the attitudes and actions by and about women.

HIST 130 - Native American History

54 LEC, 3 UNITS

CSU(D6), IGETC(4F)

Survey of history of Native Americans from Columbus to present. Deals with Indian environment, culture, economy and way of life. Covers Spanish, French and British periods of contact with a greater emphasis on Indian-American period. Native American leaders, tribes, and nations and their relationship to the Federal Government from 1790 to the present are emphasized. Formerly HIST 030.

HIST 140 - California History

54 LEC, 3 UNITS

CSU(D6), IGETC(4F)

The history and development of California from the pre-contact era to the present. Includes pre-Columbian, Spanish, Mexican and American periods. Course will survey the changes as they occurred from simple agrarian economy to the agricultural-industrial political economy of today. Course will also examine California institutions, the environmental issues of the state's development, and the historical and present multicultural environment of California. Formerly HIST 040.

HIST 160 - History of the American West

54 LEC, 3 UNITS

CSU(D6), UC

Survey of the history of the American West from Pre-Columbian cultures to the present. Examines the evolution of the western frontier, patterns of European-Indian interaction, the role of the federal government in the West, as well as the importance of the railroads, mining, ranching, and farming. Also explores the impact of the West and its myths on modern America.

HIST 170 - Democracy in Practice, Washington DC Week

27 LEC, 54 LAB, 3 UNITS

CSU

This course will explore "democracy in practice" through lecture and study, attendance and participation in a local government or community political event, and a fully supervised and coordinated week in Washington, D.C., Monticello, and Gettysburg. It will explore the behavior of key actors in national government institutions. It also will examine how individuals and groups can affect and are affected by the institutions and people of national and local government. The course would be especially helpful to any who aspire to a career in education. Each student shall be required to pay for the cost of airfare, hotel, meals and incidentals for the trip to Washington, in addition to regular college fees. Cross-listed with POL 170.

HIST 172 - Democracy in Practice, Landmarks of Civil Rights

27 LEC, 54 LAB, 3 UNITS

CSU

This course will explore "democracy in practice" through lecture and discussion, attendance and participation in a community political event, and a fully supervised week visiting prominent places in the history of the Civil Rights Movement in the southern states of the U.S. It will examine how individuals and groups influence major institutional political changes in local, state and national policy. Each student will be required to pay the cost of airfare, hotels, meals, and incidental costs of a ten-day excursion that includes Georgia, Alabama, Mississippi, Arkansas, and Tennessee. Cross-listed with POL172 and HUMN172.

HIST 400 - The American West

54 LEC, 3 UNITS

CSU, UC

Study of the history of the American West from European contact to the present. Topics will include the role of the US government and the effects of American expansionism with particular focus on the environment, economic development, and conflicts over resources and land as well as the historiography of the West.

HUMANITIES

HUMN 100 - Art Appreciation

54 LEC, 3 UNITS

CSU(C1), UC, IGETC(3A)

An introductory course for both the general interest and art major student. A survey of the nature and role of the visual arts in society. An overview of art history, theory, and practices will be covered. The medias of art will also be explored. Cross-listed with ART100.

HUMN 101 - Music Appreciation

54 LEC, 3 UNITS

CSU(C1), IGETC(3A)

Designed to increase the student's understanding and enjoyment of music. Explores various composers and types of musical styles from early music to the present day. Designed for students with little or no musical background. Formerly MUS 001.

HUMN 110 - Introduction to Humanities I

54 LEC, 3 UNITS

CSU(C2), UC, IGETC(3B)

An introduction to Western Culture from 3000 BCE to 1500 CE through the lenses of literature, religion, philosophy, politics, architecture, music, and art. Students will gain a deeper understanding of present-day culture through lectures, readings, research and analysis of the arts and literature of the times from the Bronze Age through the Classical Period and the Middle Ages to the Renaissance.

HUMN 112 - Introduction to Humanities II

54 LEC, 3 UNITS

CSU(C2), IGETC(3B)

An introduction to Western civilization from 1400 CE to the present. Through lecture, research and examples of the fine arts of the times, students will learn of Western civilization's changing culture from the Renaissance to the present, thus enabling the student to better understand his/her own present-day culture.

HUMN 128 - Film Appreciation

54 LEC, 3 UNITS

CSU(C1), IGETC(3A)

Analytical and critical survey of a genre of films, including fields of production, direction and acting. Cross-listed as ENGL128.

HUMN 228 - Novel and Film

54 LEC, 3 UNITS

CSU(C2)

A study in literary and cinematic technique focusing on narrative genres and theme. Selected novels compared to transposed versions on film. Novel types covered: Bildungsroman, Gothic, Detective, Post-modern, Contemporary. Examples of theme: love and revolution, coming of age, ethnic assimilation, colonialism and consciousness. Lecture, discussion, film viewing. Cross-listed with ENGL228.

HUMN 291 - Directed Study

18 - 270 HOURS, 1 - 5 UNITS

CSU

A student may take advanced course work or complete a student designed project in Humanities after having completed introductory courses. The topics, learning objectives, educational material(s), number of units to be awarded, and method of evaluation are determined in a written agreement between the instructor and the student before the student engages in the learning experience. A "Learning Contract for Directed Studies" must be completed by the student, approved by the instructor, and Chief Instructional Officer, and placed on file with the Office of Instruction.

GENERAL EDUCATION/CORE CLASS IDENTIFICATION

The transfer requirements satisfied by FRC courses for California four-year universities or University of Nevada, Reno are indicated to the right of the unit value of each course. The IGETC pattern applies to both the California State University (CSU) and University of California (UC) Systems, as well as the University of Nevada, Reno. The letters in parentheses indicate any General Education (GE) Breadth area also satisfied. Please refer to the CSU and IGETC transfer patterns (pages 49-51) or meet with an academic advisor for clarification.

INFORMATION AND COMMUNICATION TECHNOLOGIES

ICT 091 - Keyboarding I

27 LEC, 1 UNIT

CSU

Introduction to keyboarding skills and techniques. Student will learn to key at 35 words per minute for three minutes. for students with little or no keyboarding experience. Working knowledge of computers, applications, and the internet strongly recommended.

ICT 092 - Keyboarding II

27 LEC, 1 UNIT

CSU

Intermediate level keyboarding building on the skills and techniques developed in Keyboarding I. Students will learn to key at 50 words per minute for five minutes. For students with existing keyboarding skills. Working knowledge of computers, applications, and the internet strongly recommended.

ICT 101 - Computer Literacy

54 LEC, 3 UNITS

CSU

Introduction to computers, the internet, and common software applications. Topics include computing basics, hardware, peripherals, operating systems, software, and the internet. Industry standard and alternative word processing, presentation, spreadsheet, and communication applications are covered- including Microsoft office. For students interested in learning basic applications and who may or may not have an understanding of computer software and hardware. Cross-listed with BUS 101.

ICT 111 - Introduction to Information Technology

54 LEC, 3 UNITS

CSU

Introduction to information technology and computer science. Topics include technology concepts, history of technology, the application and impact of technology, software, hardware, networks, computers, and the internet. For students who possess basic technology skills but want to learn more about how computers, applications, and the internet work. Previous enrollment in DT 100 or working knowledge of computers, applications, and the internet strongly recommended. Cross-listed with BUS 111.

ICT 131 - Computer Information Systems

54 LEC, 3 UNITS

CSU

Examination of information systems and their role in business and organizations. Topics include information systems, database management systems, networking, e-commerce, ethics and security, and computer systems. These topics will be learned and applied through the hands-on development of computer-based solutions to business problems. For all students. Working knowledge of computers, applications, and the internet strongly recommended. Cross-listed with BUS 131.

MATHEMATICS

MATH 003 - Pre-Algebra I

54 LEC, 3 UNITS

This course is designed to benefit the student who needs intensive basic math review or has very limited math background. This is the first level in the math progression leading to beginning Algebra (MATH 016).

MATH 004 - Pre-Algebra II

54 LEC, 3 UNITS

This course is designed for students who have good basic math skills but with limited algebra background. This is the second level in the math progression leading to Beginning Algebra (MATH 016).

MATH 005 - Selected Topics in Pre-Algebra

54 LEC, 54 LAB, 4 UNITS

Topics are strategically chosen to allow students to refresh their pre-algebra skills in order to successfully transfer into Elementary Algebra, MATH 016. This course will cover similar topics as MATH 003 and MATH 004, but offered at a quicker pace.

MATH 016 - Elementary Algebra

72 LEC, 4 UNITS

This course is designed to provide students with an introduction to algebra, algebraic expressions, linear equations, inequalities, word problem solving techniques and an introduction to graphing. This course also covers operations with polynomials, factoring, Solving polynomial equations, applications modeled by polynomial equations, operations with radical expressions, solving rational equations and applications modeled by rational equations.

MATH 018 - Intermediate Algebra

72 LEC, 4 UNITS

This course is designed to provide students with the fundamentals of systems of equations, rational exponents, radicals, quadratic equations, word problem solving techniques and functions. Introduction to functions, methods of solving systems of equations and inequalities, linear programming, radicals and rational exponents, complex numbers, quadratic equations, exponential and logarithmic functions and equations, word problem solving techniques. Prerequisite: MATH 016.

MATH 108 - Introduction to Trigonometry

18 LEC, 1 UNIT

CSU

This course is designed to provide students with the fundamentals of introductory trigonometry, angular measurements, right triangle trigonometry, trigonometric functions and their identities. Topics in analytic trigonometry will be presented, including inverse trigonometry functions and double angle formulas. Applications of trigonometry will be introduced. MATH110 will not transfer to UNR without the addition of this course, because of their requirement for a trigonometry component.

MATH 110 - College Algebra

72 LEC, 4 UNITS

CSU(B4), IGETC(2A)

This is a college-level algebra course with a real-world, applications approach to algebra topics. This course meets the rigor necessary for students majoring in science or engineering fields. It is designed to provide students with knowledge about advanced topics in algebra, focusing on quadratic, rational, and radical equations, relations, various types of functions and their graphs, rational and quadratic inequalities, systems of linear equations and inequalities, and solving equations of higher degree, including rational, exponential, and logarithmic functions. in addition, review of the following topics is provided: sequences, series, and analytic geometry (properties of conic sections).

MATH 114 - Finite Math

72 LEC, 4 UNITS

CSU

This course covers a range of mathematical tools commonly used in business, social sciences, and life sciences, including probability theory and linear mathematics. Selected topics from Markov chains, interest and mortgage calculations, financial decision making, linear programming, two-person zero-sum games, and logic will also be studied.

MATH 116 – Pre-Calculus

72 LEC, 4 UNITS

CSU(B4), IGETC(2A)

An in-depth study of Trigonometry. The trigonometric functions, unit-circle trigonometry, right triangle trigonometry, graphs of transformed sine and cosine functions; amplitude, period and phase shift. Trigonometric equations. The laws of sines and cosines. Complex numbers, DeMoivre's Theorem. Vectors, vector operations and applications. Analytic geometry topics, conic sections, polar coordinates, parametric equations. Formerly MATH 025. Prerequisite: MATH 110 College Algebra with a grade of "C" or better.

MATH 150 - Concepts and Structures of Mathematics for Educators

54 LEC, 3 UNITS

CSU

This course focuses on the development of quantitative reasoning skills through in-depth, integrated explorations of topics in mathematics, including real number systems and subsystems. Though emphasis is on comprehension and analysis of mathematical concepts and applications of logical reasoning, material is presented in a way that emphasizes the notion that the mathematical knowledge a teacher needs is different from the knowledge a student or practitioner of mathematics needs. It is a survey of the elements of mathematics taught in elementary grades but from an advanced standpoint. Prerequisite: Completion of two years of high school algebra and appropriate placement score, or completion of MATH 018 with a grade of C or better, or equivalent.

MATH 152 - Concepts and Structures of Mathematics for Educators II

54 LEC, 3 UNITS

CSU

This is the second of two courses designed to develop a deep understanding of mathematics relevant to the teaching of K-8 mathematics. The focus of this course will be on problem-solving, probability and statistics, measurement and the metric system, and geometry. Similar to MATH 150, MATH 152 will be presented in a way that emphasizes the idea that the knowledge a teacher needs is different from the knowledge a student or practitioner of mathematics needs. This course articulates with CSU Chico for Liberal Studies majors in the blended, pre-credential program leading to a Multiple Subjects teaching credential.

MATH 202 - Elementary Statistics

72 LEC, 4 UNITS

CSU(B4), IGETC(2A)

The use of probability techniques, hypothesis testing, and predictive techniques to facilitate decision-making processes. Topics include descriptive statistics; probability and sampling distributions; statistical inference; correlation and linear regression; analysis of variance, chi-square and t-tests; and application of technology for statistical analysis including the interpretation of the relevance of the statistical findings. Applications using data from disciplines including business, social sciences, psychology, life science, health science, and education. Prerequisite: MATH 018 with a grade of "C" or better.

MATH 218 - Single Variable Calculus I – Late Transcendentals

90 LEC, 4 UNITS

CSU(B4), IGETC(2A)

This is a first course in differential and integral calculus of a single variable. Topics include functions, limits and continuity,

techniques and applications of differentiation and integration, and the Fundamental Theorem of Calculus. This class will give students a thorough understanding of the mathematical basis for advanced studies in the fields of mathematics, the sciences, technology, engineering, business, and other related fields. Prerequisite: Completion of MATH 116, MATH 110, MATH 108, or equivalent.

MATH 220 - Calculus II

72 LEC, 4 UNITS

CSU, IGETC(2A)

This course is designed to allow students to continue the development of mathematical skills learned in Calculus I. Derivatives of exponential and logarithmic functions. Hyperbolic and inverse trigonometric function. Indeterminate forms and L'Hospital's rule. Integration by parts, trigonometric integrals, integration by partial fractions, improper integrals and approximate integration. Arc length, areas of surfaces of revolution, probability, applications to economics and biology. Differential equations, exponential growth and decay, the logistics equation. Parametric equations, areas and lengths in polar coordinates, conic sections. Sequences and series, convergence tests, representation of functions as infinite series, Taylor and MacLaurin series. Differentiation and integration in series form. Replacing MATH 001B. Prerequisite: Completion of MATH 218 or equivalent.

MATH 222 - Multivariable Calculus

72 LEC, 4 UNITS

CSU(B4)

This is the third course in a sequence for differential and integral calculus where it moves beyond single variable treatment to coverage of multivariable functions. Topics include the algebra and calculus of vectors, geometry of space, vector valued functions, functions of several variables, partial derivatives, multiple integration, Green's Theorem, Stokes' Theorem, and Divergence Theorem. This class builds upon Math 220 and completes the calculus course of study required for transfer in the fields of mathematics, the sciences, technology, engineering, business, and other related fields.

MATH 224 - Ordinary Differential Equations

4 LEC, 4 UNITS

CSU(B4)

The course is an introduction to ordinary differential equations including both quantitative and qualitative methods as well as applications from a variety of disciplines. This course focuses on linear differential equations and their applications in science and engineering. The laws of nature may be expressed as differential equations.

MATH 291 - Directed Study

18 - 270 HOURS, 1 - 5 UNITS

CSU

A student may take advanced coursework or complete a student designed project in Mathematics after having completed introductory courses. The topics, learning objectives, educational material(s), number of units to be awarded, and method of evaluation are determined in a written agreement between the instructor and the student before the student engages in the learning experience. A "Learning Contract for Directed Studies" must be completed by the student, approved by the instructor, and Chief Instructional Officer, and placed on file with the Office of Instruction.

GENERAL EDUCATION/CORE CLASS IDENTIFICATION

The transfer requirements satisfied by FRC courses for California four-year universities or University of Nevada, Reno are indicated to the right of the unit value of each course. The IGETC pattern applies to both the California State University (CSU) and University of California (UC) Systems, as well as the University of Nevada, Reno. The letters in parentheses indicate any General Education (GE) Breadth area also satisfied. Please refer to the CSU and IGETC transfer patterns (pages 49-51) or meet with an academic advisor for clarification.

MUSIC

MUS 101 - Music Appreciation

54 LEC, 3 UNITS

Problem with DESC Designed to increase the student's understanding and enjoyment of music. Explores various composers and types of musical styles from early music to the present day. Designed for students with little or no musical background. Formerly MUS 001.

MUS 140 - Mixed Chorus

54 LAB, 1 UNIT

CSU

Performance-based mixed choral training in vocal skills, ear training and sight-singing, music notation and vocabulary. Technical application of rhythm, melody and harmony in various genres.

MUS 144 - Women's Small Ensemble

27 LAB, 0 UNITS

Women's vocal ensemble focusing on vocal musicianship and wide variety of three and four part (SSAA) music, as well as a cappella and foreign language selections for public performance.

MUS 291 - Directed Study

18 - 270 HOURS, 1 - 5 UNITS

CSU

A student may take advanced course work or complete a student designed project in Music after having completed introductory courses. The topics, learning objectives, educational material(s), number of units to be awarded, and method of evaluation are determined in a written agreement between the instructor and the student before the student engages in the learning experience. A "Learning Contract for Directed Studies" must be completed by the student, approved by the instructor, and Chief Instructional Officer, and placed on file with the Office of Instruction.

NURSING

NURS 080 - Intravenous Therapy/Blood withdrawal

36 LEC, 2 UNITS

This course is designed to provide the student with instruction regarding the principles and practices of intravenous therapy and blood withdrawal. Topics include legal aspects, anatomy and physiology regarding intravenous and blood withdrawal, equipment used, assessing and treating complications, blood transfusions, total parenteral nutrition, and parenteral fluids. Certificate of achievement will be issued after the students becomes licensed as a Vocational Nurse. Intravenous sticks cannot be performed on clients until the Board of Vocational Nursing is notified by Feather River College.

NURS 100 - Nurse's Aide

72 LEC, 112 LAB, 6 UNITS

CSU

Course prepares students for the roles and responsibilities of the certified nurse assistant and covers the concepts, skills, and procedures for providing patient care in the health care field.

NURS 102 - Home Health Aide

40 LEC, 2 UNITS

CSU

This course is designed to provide knowledge and skills necessary for a home health aide to work as part of the home health care team. The focus is on basic human needs, communications, working with ill persons, eldercare, nutrition, special diets, and home management. In addition to classroom instruction, a supervised field practice in clients' homes or an adult care home for a total of 40 hours is required. This course meets the requirements of the Department of Health Services for a certification as a Home Health Aide.

NURS 111 - Drug Dosage Calculations for Health Providers

54 LEC, 3 UNITS

CSU

This course covers three major medication dosage calculation methods: ratio and proportion, formula, and dimensional analysis. A solid knowledge base of general mathematics is necessary to be able to use these concepts in calculation of medication dosage calculations. The calculations focus on application to adults and pediatric clients in health care facilities. MATH 304, Pre-Algebra, or equivalent is advised.

NURS 112 - Nursing Foundations

36 LEC, 2 UNITS

CSU

An introduction to the study of nursing, which includes understanding the role of the LVN, developing effective communication skills to better understand patient needs, and identifying medical terminology so as to understand treatments and carry out doctor's orders. Ethical and legal responsibilities of the LVN will also be discussed, as well as concepts of holistic health and transcultural nursing, to prepare students for encounters with people of different cultures. Prerequisites: NURS 100: Nurse Assistant, BIOL110 Human Biology, BIOL112 Human Physiology, HES170, Introduction to Nutrition, NURS 111, Med-Dosage Calculations, and acceptance into nursing program

NURS 114 - Nursing Foundations Lab

54 LEC 60 LAB, 1 UNIT

CSU

Laboratory component of Nursing Foundations, which includes assessment, basic skills, and documentation for vocational nursing in health care settings.

NURS 116 - Psychological Principles for Nurses

54 LEC, 3 UNITS

CSU

This course is designed to introduce students to the psychological, social, and cultural needs of clients in the health care settings. Students will learn how to identify psychosocial needs of clients in both mental health and medical/surgical settings, utilizing DSM guidelines. Appropriate coping strategies and communication techniques will be addressed.

NURS 118 - Medical Terminology

54 LEC, 3 UNITS

CSU

This online course is designed to introduce the student to the basic terminology used in the health care industry, including the origin, spelling, pronunciation, meaning and current usage of medical terms and the application to those terms within the health care setting. It provides the basis for further advancement in any health care profession. Cross-listed with AOM118.

NURS 120 - Introduction to Pharmacology

24 LEC, 1 UNIT

CSU

This is a survey class for in pharmacology, including classes of medications commonly used in nursing. Classes of medications are discussed, with examples from each. Indications, side effects, and dosages are covered with emphasis on nursing process. Prerequisite: NURS112

NURS 122 - Basic Medical Surgical Nursing

90 LEC, 5 UNITS

CSU

This is the first in a series of three sequential nursing theory courses. Each course will increase in complexity. This first course covers basic physiology, pathophysiology, and the nursing process related to body systems, including pharmacology, nutrition, communication, and other nursing interventions.

NURS 123 - Basic Medical Surgical Nursing Lab I

108 LAB, 2 UNITS

CSU

Directed supervision clinical component of Basic Medical/Surgical Nursing. Includes direct, transcultural client care, assessment, documentation, and medication administration, with effective communication. Settings include simulation lab, and health care settings.

NURS 125 - Basic Medical Surgical Nursing Lab II

192 LAB, 3.5 UNITS

CSU

Directed supervision of clinical component of Basic Medical/Surgical Nursing. Includes direct, transcultural client care, assessment, documentation, and medication administration, within effective communication. Settings include simulation lab, and health care settings

NURS 200 - Phlebotomy

54 LEC, 81 LAB, 4.5 UNITS

CSU

This course is approved by the California Department of Public Health and includes classroom instruction and is designed for all beginning students and for phlebotomists with less than 1040 hours of phlebotomy experience. Basic instruction topics include universal precautions, infection control, laboratory and equipment safety, basic anatomy and physiology, medical terminology, and blood collection techniques. Upon successful completion the student is prepared to take the California state examination to become a Certified Phlebotomy Technician I. Student will complete a minimum of 10 skin punctures that fulfill all sampling requirements of all clinical laboratory tests or examinations and 50 venipunctures performed pursuant to Business and Professions Code that fulfill all sampling requirements of all clinical laboratory tests or examinations.

NURS 212 - Intermediate Medical Surgical Nursing

60.5 LEC, 3 UNITS

CSU

This is the second in a three-semester sequence of medical/surgical courses. The intermediate course emphasizes an increasingly complex pathophysiology and the nursing process as related to body systems, including invasive procedures, pharmacology, nutrition, communication, and other nursing interventions.

NURS 214 - Intermediate Medical Surgical Nursing Lab

136 LAB, 2.5 UNITS

CSU

Directed supervision of clinical component of intermediate Medical/Surgical nursing. Includes direct, transcultural client care, assessment, documentation, and medication administration, utilizing effective communication, and current technologies. Settings include simulation lab and health care settings.

NURS 222 - Advanced Medical Surgical Nursing

90 LEC, 5 UNITS

CSU

This is the third in a three-semester sequence of medical/surgical courses. The advanced course emphasizes the complex pathophysiology and nursing processes as related to multi-body systems, including invasive procedures, pharmacology, nutrition, communication, and other nursing interventions

NURS 223 - Advanced Medical Surgical Laboratory I

102 LEC, 2 UNITS

CSU

Directed supervision of clinical component of advanced Medical/Surgical nursing. Includes direct, transcultural client care, assessment, documentation, and medication administration, utilizing effective communication, and current technologies. The student will apply critical thinking to care of the client. Settings include simulation lab and health care settings. Enrollment Limitation; students must be accepted into the LVN Program.

NURS 225 - Advanced Medical Surgical Laboratory II

96 LEC, 1.5 UNITS

CSU

Directed supervision of clinical component of advanced Medical/Surgical nursing. Includes direct, transcultural client care, assessment, documentation, and medication administration, utilizing effective communication, and current technologies. The student will concentrate on clients with multisystem disorders. Settings include simulation lab and acute health care settings. Enrollment is limited to students who have been accepted into the nursing program.

NURS 232 - Obstetrical Nursing

36 LEC, 2 UNITS

CSU

This course focuses on the maternal client, introducing the anatomy and function of male and female reproductive systems, normal and abnormal fetal development, nursing care of women with complications during pregnancy, care of mother and infant during normal labor and birth and with complications of labor and birth, postpartum care, and care of the newborn. Enrollment Limitation: students must be accepted into the LVN Program.

NURS 234 - Obstetrical Nursing Laboratory I

24 LAB, 0.5 UNITS

This course is the first of two laboratory components of obstetrical nursing, covering pregnancy, delivery, post-partum, and newborn care. Enrollment Limitation; students must be accepted into the LVN Program.

NURS 235 - Obstetrical Nursing Laboratory II

48 LEC, 1 UNIT

CSU

This course is the second of two laboratory components of obstetrical nursing, covering labor and delivery, and post-partum care in acute health care settings. Enrollment is limited to those students accepted into the nursing program.

NURS 237 - Pediatric Nursing

36 LEC, 2 UNITS

CSU

This course studies the growth and development of the normal newborn and child, which is used as a basis to study the ill child, and the child with congenital, or developmental abnormalities. Study is concerned with understanding the pathophysiology of pediatric conditions, providing appropriate care using the nursing process, and utilizing transcultural nursing care of the whole family as well as the child. Enrollment is limited to those students who have been accepted into the nursing program.

GENERAL EDUCATION/CORE CLASS IDENTIFICATION

The transfer requirements satisfied by FRC courses for California four-year universities or University of Nevada, Reno are indicated to the right of the unit value of each course. The IGETC pattern applies to both the California State University (CSU) and University of California (UC) Systems, as well as the University of Nevada, Reno. The letters in parentheses indicate any General Education (GE) Breadth area also satisfied. Please refer to the CSU and IGETC transfer patterns (pages 49-51) or meet with an academic advisor for clarification.

NURS 239 - Pediatric Nursing Laboratory I

33 LAB, 0.5 UNITS

CSU

This course is the first laboratory component of Pediatric Nursing, covering the growth and development of the child, from birth through adolescence. This includes the abnormal development and congenital abnormalities. The student will both observe and participate in nursing skills in a variety of settings.

NURS 240 - Pediatric Nursing Laboratory II

48 LAB, 1 UNIT

CSU

This is the second laboratory component of Pediatric, covering the growth and development of the child, from birth through adolescence. This includes the abnormal development and congenital abnormalities. The student will both observe and participate in nursing skills in a variety of settings.

NURS 280 - Synthesis of Nursing Concepts

36 LEC, 2 UNITS

CSU

A capstone course designed to enhance the student's ability to perform successfully on the NCLEX-PN licensure examination. Through class discussion and simulated exams, the comprehensive review course will integrate the nursing process, client needs, pharmacology, nutrition, safety, infection control, and legal issues with management of client care, including priorities and delegation, home care, and cultural diversity, reflecting client needs across the life span in a variety of settings. Tips for test taking and success are included.

NUTRITION, FOODS AND CULINARY ARTS

NCA 001 - Food Safety and Sanitation

27 LEC, 1 UNIT

CSU

This course introduced the laws and regulations governing sanitation and safety in food service. It presents necessary procedures with food, the food production area, equipment and the employee. Food-borne illnesses and their origins are introduced. HAACP and hygiene will be studied. Formerly FACS 197.4

NCA 002 - Professional Chef Cooking I

36 LEC, 54 LAB, 2 UNITS

CSU

Comprehensive introduction to fundamental techniques of food preparation, including those applicable to sauces, meats, poultry, vegetables and baking. Formerly FACS 197.14.

NCA 003 - Professional Chef Cooking II

36 LEC, 54 LAB, 2 UNITS

CSU

This course will include more advanced concepts of cooking to include meats, fish poultry, bakery and applications for commercial settings such as catering and buffet planning. Formerly FACS 197.24

NCA 004 - Food Service Cost Controls

36 LEC, 2 UNITS

CSU

Introduction to tracking quantitative measures in the restaurant business: recipes; inventory; cost of food and beverages, and the analytical tools to assess them for profitability. Formerly FACS 197.5

NCA 010 - Restaurant Operations - Breakfast

27 LEC, 108 LAB, 3 UNITS

CSU

Catalog Description: Students rotate through all facets of restaurant operation emphasizing breakfast. Students will refine culinary skills in preparation and serving of hot and cold foods, production, portion control, plating techniques and concepts of teamwork. Formerly FACS 197.15

NCA 012 - Catering for the Professional

27 LEC, 54 LAB, 2 UNITS

CSU

Students will learn how to price and present catered functions: private parties, luncheons and dinners. Budgeting, portion planning, transport, and presentation will be covered as well as staffing and serving considerations. Formerly FACS 197.8

NCA 014 - Stocks and Sauces

27 LEC, 27 LAB, 2 UNITS

CSU

Students will learn how to prepare stocks and understand how they are the foundation of sauces and soups. Students will learn to prepare the basic stocks, soups and sauces on which classic recipes are built. Formerly FACS 197.2

NCA 021 - Fundamentals of Baking

27 LEC, 54 LAB, 2 UNITS

CSU

This course will introduce the students to the terminology, basic principles and ingredients used in making baked products in a professional setting. Students will prepare basic dough, batters, and pastry items. Proper scaling procedures and baking techniques are emphasized. Formerly FACS 197.3

NCA 022 - The World of Breads

27 LEC, 81 LAB, 3 UNITS

CSU

A concentration on the world of yeasted breads: including sandwich, whole grain and artisan breads. Formerly FACS 197.23

NCA 025 - The Art of the Wedding Cake

9 LEC, 54 LAB, 1 UNIT

CSU

Baking, decorating and assembly of wedding cakes from classic to contemporary. Formerly FACS 197.22

NCA 031 - Mexican Cooking

9 LEC, 27 LAB, 1 UNIT

CSU

Students will become familiar with Mexican cuisine including techniques, ingredients and culture.

NCA 170 - Introduction to Nutrition

54 LEC, 3 UNITS

CSU(E)

Physiological, social and psychological factors affecting food intake are examined. The relationship of nutrients to health throughout the life cycle is explored. Cross-listed with HES170

OUTDOOR RECREATION LEADERSHIP

ORL 045 - Basic Trail Building Techniques

9 LEC, 27 LAB, 1 UNIT

Learn to build low maintenance trails in a safe and efficient manner. This class is suitable for students who are interested in trail building jobs or for those wishing to build trails on private land.

ORL 046 - Advanced Trail Building Techniques

9 LEC, 27 LAB, 1 UNIT

Students will learn advanced techniques related to the use of technical equipment to build low maintenance trails in a safe and efficient manner. This class is most suitable for students interested in building mountain trails on public lands.

ORL 047 - Trail Building Crew Leadership

9 LEC, 27 LAB, 1 UNIT

This class is designed for students who have demonstrated strong trail building skills. Leading trail crews requires a variety of leadership and management skills. Students will learn skills related to design, tool care, risk management, and a variety of leadership and management skills such as communication, motivation, and group norm setting.

ORL 110 - Introduction to Recreation and Leisure

54 LEC, 3 UNITS

CSU

An introduction to the history, philosophy and principles of recreation and leisure. Additional topics include the agencies providing programs and an investigation of professional employment opportunities in the broader field of recreation.

ORL 116 - Outdoor Recreation Principles

36 LEC, 54 LAB, 3 UNITS

CSU

The course is designed to prepare students for backcountry travel and other classes in the Outdoor Recreation Leadership Program. The course is also intended to expand knowledge of and appreciation for the natural environment and the agencies that manage public lands so that safe, responsible and enjoyable outdoor adventures are possible.

ORL 120 - Recreation Program Planning

36 LEC, 54 LAB, 3 UNITS

CSU

This course will equip students with a variety of program and event planning methodologies and skills. Emphasis is placed on the planning, organization, implementation and evaluation of recreation programs. Theories and philosophies are applied in an experiential setting. Field work is required.

ORL 130 - Adventure Based Outdoor Recreation

36 LEC, 216 LAB, 6 UNITS

CSU, UC

Students participate in a variety of field based activities aimed at improving teaching and leading skills in a outdoor adventure activities including: Whitewater kayaking and rafting; backpacking; winter travel and camping techniques; cross-country and Telemark skiing; as well as rock climbing and mountaineering techniques. A majority of the class time is spent in field based activities. Students must be prepared to spend time in mountain environments being physically active in a variety of weather conditions.

ORL 140 - Beginning Sea Kayaking

9 LEC, 27 LAB, 1 UNIT

CSU

This class is designed to introduce participants to the skills and techniques of sea kayaking. Students will be exposed to the fundamentals of sea kayak touring, including equipment use, proper paddling techniques, maneuvers, self and assisted rescue, and group traveling techniques. These skills will be learned in the classroom and applied on the water with an emphasis on learning safe and efficient techniques which can all be later applied to the ocean environment. Class will be conducted on local lakes and reservoirs.

ORL 142 - Intermediate Sea Kayaking

9 LEC, 27 LAB, 1 UNIT

CSU

Students will continue to develop their sea kayak touring skills by adding expedition techniques. A multi-day expedition will expose participants to the equipment and methods used to ensure a safe and enjoyable trip. Skills include advanced maneuvers, advanced rescue techniques, navigation, proper campsite selection, group travel techniques, and boat / equipment care and maintenance. Opportunities to work on Eskimo roll. Discussion of tides, currents and other ocean elements will be included.

ORL 144 - Backcountry Ski and Snowboard

9 LEC, 27 LAB, 1 UNIT

CSU

In addition to skiing and snowboarding skills, traveling safely in the winter backcountry requires additional skills. This course provides students with a breadth of knowledge related to these skills. This class requires that students are in a physical condition which allows them to exercise vigorously at high elevations. This class assumes that students know how to ski or snowboard.

ORL 145 - Intermediate Backcountry Ski and Snowboard

9 LEC, 27 LAB, 1 UNIT

CSU

This class is designed for skiers and snowboarders who have some knowledge of principles related to safe travel in winter backcountry environments. Students will utilize knowledge from previous classes, personal experience, and course materials to make decisions for themselves and the groups they are participating with. Successful students will demonstrate an ability to make appropriate decisions based on information and data available to backcountry travelers. Students will also improve skills related to route selection, mapping, weather forecasting, avalanche forecasting, avalanche rescue, and group travel.

ORL 150 - Beginning Whitewater Rafting

9 LEC, 27 LAB, 1 UNIT

CSU, UC

An introductory course designed for students interested in learning basic competencies related to effective travel in a whitewater raft. Content includes an introduction to the following skills and techniques: paddling, clothing and equipment, self-rescue, commands for navigation, basic safety, and logistical planning. Students should be prepared to spend time in cold water in a variety of weather conditions.

ORL 152 - Beginning Whitewater Raft Guide

18 LEC, 54 LAB, 2 UNITS

CSU, UC

Students in this class will learn how to logistically organize their own rafting trips. Students will enhance their ability to navigate intermediate whitewater as the guide of an inflatable raft. Students will be prepared for entry level work as commercial guides. Content includes group organization, guide commands, giving a safety talk, safety and rescue, fundamental hydrology, and raft guiding techniques. Ninety percent of class time is spent on the river. Students must be prepared for participation in all types of weather on a variety of whitewater rivers.

ORL 153 - Intermediate Whitewater Raft Guide

18 LEC, 54 LAB, 2 UNITS

CSU

This course is designed for students who have some experience with whitewater raft guiding. Students who have commercial experience guiding paddle rafts and/or students who have completed Beginning Whitewater Raft Guiding will further develop their rafting and river leadership skills. Successful students will learn to do the following: row using oars and frames; set safety in a whitewater river setting; conduct efficient and effective rescues; and lead a group of rafts on a river experience. Students must exhibit a level of fitness which allows them to swim in whitewater and in cold rivers.

GENERAL EDUCATION/CORE CLASS IDENTIFICATION

The transfer requirements satisfied by FRC courses for California four-year universities or University of Nevada, Reno are indicated to the right of the unit value of each course. The IGETC pattern applies to both the California State University (CSU) and University of California (UC) Systems, as well as the University of Nevada, Reno. The letters in parentheses indicate any General Education (GE) Breadth area also satisfied. Please refer to the CSU and IGETC transfer patterns (pages 49-51) or meet with an academic advisor for clarification.

ORL 154 - Canoe and Stand-Up Paddleboard

9 LEC, 27 LAB, 1 UNIT

CSU, UC

An introduction to flat-water paddle sports, including canoeing and stand-up-paddle boarding (SUP). Course is designed for students interested in learning basic competencies related to safe travel in canoes and SUPs. Content includes paddling techniques, clothing and equipment, self-rescue, navigation, logistical planning, and knots. May be an expedition or day trips, depending on the year.

ORL 156 - Beginning Rock Climbing

9 LEC, 27 LAB, 1 UNIT

CSU, UC

An introduction to the basic principles of top roped rock climbing. Students will learn to ascend steep rock in a safe and efficient manner. Content will include a basic introduction to equipment, systems, anchors, movement, and safe climbing practices.

ORL 158 - Intermediate Rock Climbing

9 LEC, 27 LAB, 1 UNIT

CSU, UC

In addition to advanced discussions related to moving over stone, students will develop skills related to placing protection, building anchors, ascending a fixed line, and lead climbing.

ORL 160 - Beginning Backpacking

9 LEC, 27 LAB, 1 UNIT

CSU, UC

An introduction to the basic principles of backpacking. Students will learn to visit backcountry environments for extended stays. Content will include a basic introduction to equipment and clothing, navigation with topographic maps, Leave No Trace principles, time / energy control planning, trip planning, campsite selection, trail techniques, and camp cooking.

ORL 161 - Intermediate Backpacking

9 LEC, 27 LAB, 1 UNIT

CSU, UC

A class designed for students who have obtained basic competencies related to backpacking and backcountry travel. Content will include a more advanced survey of equipment and clothing, navigation with map and compass, Leave No Trace principles, time / energy control planning, trip planning, campsite selection, trail techniques, and camp cooking.

ORL 162 - Mountaineering

9 LEC, 27 LAB, 1 UNIT

CSU, UC

An introductory course designed for students interested in learning basic competencies related to safe travel in alpine environments. Appropriate for aspiring guides, Search and Rescue team members, and recreational mountaineers. Content includes an introduction to the following skills and techniques: Equipment and clothing for the mountaineer, self-arrest, hiking techniques, ascending a fixed line, basic knots, navigation, mountain weather, basic first aid, seated glissade, and anchors and belay systems.

ORL 166 - Mountain Biking

9 LEC, 27 LAB, 1 UNIT

CSU, UC

An introduction to the basic principles of mountain biking. Students will learn to ride mountain bikes in a safe and efficient manner. Content will include a basic introduction to equipment, techniques, repairs, group management, and route finding.

ORL 168 - Cross-Country Skiing

9 LEC, 27 LAB, 1 UNIT

CSU, UC

An introduction to the basic principles of cross-country skiing. Students will learn to tour over a variety of terrains in winter conditions. Content will include a basic introduction to equipment and techniques. The course is field based.

ORL 170 - Telemark Skiing

9 LEC, 27 LAB, 1 UNIT

CSU, UC

An introductory course designed for students interested in learning basic competencies related to Telemark skiing. Content includes an introduction to the following: concepts, skills, and techniques: Equipment and clothing, body position, sequential learning of basic skills, fall line skiing, and skiing in difficult snow conditions. Students must be sufficiently fit to ski at a ski area and in the winter mountain backcountry.

ORL 171 - Intermediate Telemark Skiing

9 LEC, 27 LAB, 1 UNIT

This class is designed for students who have some experience skiing using a Telemark or Nordic style. The Telemark turn allows skiers to descend using a free heel ski. The emphasis for this class is on developing higher level skills related to descents in the winter backcountry using Telemark turns. Students must be prepared for long, physical days occurring at high elevation in winter environments.

ORL 172 - Beginning Whitewater Kayaking

9 LEC, 27 LAB, 1 UNIT

CSU, UC

This course is designed for people who are comfortable in the water but have no experience related to whitewater kayaking. We will begin by learning the kayak roll and proceed through a gradual progression that will allow students to kayak through whitewater rapids by the end of the course. Students must be sufficiently fit to spend three consecutive days actively participating.

ORL 174 - Intermediate Whitewater Kayaking

9 LEC, 27 LAB, 1 UNIT

CSU

This class is designed for students who possess basic skills related to whitewater kayaking. If you have a roll and understand basic strokes and maneuvers, this class will allow you to proceed with more advanced skills. Students will learn basic kayak safety and rescue, advanced principles related to peel outs, eddy turns, and ferries, and a variety of kayak play techniques. Students must be sufficiently fit to spend three full days actively paddling on whitewater rivers.

ORL 180 - Wilderness First Responder

18 LEC, 54 LAB, 2 UNITS

CSU

Students will learn to respond to medical emergencies in the backcountry. This course focuses on identifying symptoms and providing treatments in the backcountry given minimal first aid resources. An emphasis is placed on methods for improvising and problem solving during medical emergencies. Successful completion of the class satisfies protocols from the Wilderness Medical Society and includes certification as a Wilderness First Responder through Sierra Rescue.

ORL 182 - Swiftwater Rescue Technician Level I

9 LEC, 27 LAB, 1 UNIT

CSU

A course designed to teach river-running enthusiasts, Search and Rescue team members, and Emergency Responders, skills related to safe travel and rescue in swift water. Course content includes rope-rigging systems, rescuer/ victim psychology and physiology, boat handling, patient trauma treatment, and swimming techniques. Successful completion of the course will result in American Canoe Association Swiftwater Rescue Technician I certification.

ORL 184 - Challenge Course Facilitator

9 LEC, 27 LAB, 1 UNIT

CSU

This course will familiarize students with the necessary skills and knowledge to effectively operate, facilitate and lead groups through a Ropes Challenge Course experience. The course will be an active and dynamic exploration of such general skills as high adventure leadership and effective facilitation of high adventure pursuits. Specific areas to be covered include course set-up and maintenance, risk management, operation, debriefing, program problem solving and high-angle rescue techniques.

ORL 188 - Wilderness First Responder Recertification

9 LEC, 27 LAB, 1 UNIT

CSU

Recertification courses are focused on skills labs and scenarios with little lecture time. We offer CPR certification with this course. Students refresh skills related to their Wilderness First Responder training and certification.

ORL 190 - Avalanche Technician Level I

9 LEC, 27 LAB, 1 UNIT

CSU

This course is designed for aspiring professional guides, emergency response professionals, and recreational skiers and snow boarders who choose to spend time in avalanche terrain. Students will learn to evaluate snow pack stability, choose safe routes for winter travel, and respond to accidents involving avalanche.

ORL 192 - Swiftwater Rescue Technician Advanced

9 LEC, 27 LAB, 1 UNIT

CSU

Swiftwater Rescue Technician Advanced (SRTA) integrates techniques learned in SRT 1 and TRR: TL, taking the students beyond the emphasis on self-rescue to concentrate on victim rescue. This three-day course combines advanced water rescue techniques with rope skills. Students are exposed to more complex water rescue situations culminating in the completion of a mock night river rescue scenario and a tyrolean with a mid-point drop pick-off rescue. Upon completion of this class student will be an approved National Fire Protection Agency (NFPA) rope and water rescue technician.

ORL 200 - Outdoor Recreation Leadership

36 LEC, 54 LAB, 3 UNITS

CSU

A study of leadership as it pertains to recreation. This course allows students do develop as recreation leaders by providing a theoretical framework of leadership theory and experiential learning as recreation leaders. Emphasis is placed on appropriate theories and techniques for addressing the needs of a variety of clientele in an outdoor setting.

ORL 280 - Professional Development Seminar

36 LEC, 2 UNITS

CSU

This interdisciplinary class, which is taken toward the end of a student's ORL studies, has two broad objectives: (1) to synthesize information gathered in courses required for the ORL major; and (2) to develop skills in seeking out, applying to, and interviewing for continued education and/or employment in outdoor recreation fields. Cross-listed with ENVR 280.

ORL 291 - Directed Study

18 - 270 HOURS, 1 - 5 UNITS

CSU

A student may take advanced course work or complete a student designed project in Outdoor Recreation Leadership after having completed introductory courses. The topics, learning objectives, educational material(s), number of units to be awarded, and method of evaluation are determined in a written agreement between the instructor and the student before the student engages in the learning experience. A "Learning Contract for Directed Studies" must be completed by the student, approved by the instructor and Chief Instructional Officer, and placed on file with the Office of Instruction.

ORL 299 - Special Topics in Outdoor Recreation Leadership

4.5 - 9 LEC, 13.5 - 27 LAB, 0.5 - 1 UNIT

Selected topics that develop knowledge of recreational resources, activities, and issues.

PHILOSOPHY**PHIL 100 - Introduction to Philosophy**

54 LEC, 3 UNITS

CSU(C2), UC, IGETC(3B)

An introduction to philosophy with emphasis on identifying and evaluating central themes and issues within the history of philosophy. In this course, students are encouraged to critically evaluate their own philosophical concepts as they explore early to modern philosophy. Topics include: Ethics, Metaphysics, Epistemology, philosophy of religion, and contemporary philosophy.

PHIL 101 - Logic 54 LEC, 3 UNITS

CSU(A3, C2), UC

Students are introduced to principles of formal reasoning including categorical logic, tests for logical validity, propositional logic, and logical proofs. Topics include deductive and inductive reasoning, Venn diagrams, syllogisms, the square of opposition, modern symbolic logic, and truth tables. The development of logical systems is discussed in the context of the history of philosophy and the role of logic in scientific hypothesis formation and testing. Informal logic, informal fallacies, and critical thinking are also discussed.

PHIL 102 - Introduction to Ethics

54 LEC, 3 UNITS

CSU(A3, C2), IGETC(3B)

Introduction to philosophical analysis of ethics/morality and the formal principles of theorizing and reasoning values in personal and social contexts. Course will present various approaches within the field of philosophy and their applications to contemporary moral issues (such as abortion, euthanasia, censorship, and capital punishment).

PHIL 103 - Philosophy of Religions

54 LEC, 3 UNITS

CSU(C2), IGETC(3B)

Philosophic analysis and study of religious practices, beliefs, and rituals in the human community. Traditions will be examined through historical, textual, and cultural approaches. Topics include: Judaism, Christianity, Islam, Hinduism, Confucianism, Taoism, Buddhism, Sikhism, and Animism.

PHYSICAL SCIENCE**GENERAL EDUCATION/CORE CLASS IDENTIFICATION**

The transfer requirements satisfied by FRC courses for California four-year universities or University of Nevada, Reno are indicated to the right of the unit value of each course. The IGETC pattern applies to both the California State University (CSU) and University of California (UC) Systems, as well as the University of Nevada, Reno. The letters in parentheses indicate any General Education (GE) Breadth area also satisfied. Please refer to the CSU and IGETC transfer patterns (pages 49-51) or meet with an academic advisor for clarification.

PHSC 120 - Introduction to Astronomy

54 LEC, 3 UNITS

CSU(B1), UC, IGETC(5A)

Survey of the science of astronomy. A comprehensive, non-technical introduction to astronomy, including discussion of the structure and evolution of the solar system, stars, galaxies, and universe.

PHSC 120L - Introduction to Astronomy Lab

54 LAB, 1 UNIT

CSU(B1, B3), IGETC(5A, 5C)

An introductory lab course designed to enable students to learn about scientific processes and observational methods. Students will become familiar with the night sky, use telescopes and related equipment, and engage in laboratory activities relevant to astronomy including Newton's and Kepler's laws, optics, and spectroscopy. Field observations will include planets, stars, nebulae, the moon, and the sun; as well as the recording and analysis of occultation events involving asteroids or Kuiper belt objects.

PHYSICS

PHYS 102 - General Physics I

54 LEC, 54 LAB, 4 UNITS

CSU(B1, B3), IGETC(5A, 5C)

This is an introductory course in physics that covers kinematics, dynamics, work and energy, momentum, fluids, mechanics, thermodynamics, vibrations and wave motion using algebra. This course is the first semester of a two-semester sequence. Replacing PHYX 102.

PHYS 104 - General Physics II

54 LEC, 54 LAB, 4 UNITS

CSU(B1, B3), IGETC(5A, 5C)

An introductory course in physics that will cover electricity and magnetism, light and optics, and modern physics. Second part of a two-semester sequence.

PHYS 140 - Introduction to Chemistry and Physics

54 LEC, 54 LAB, 4 UNITS CSU(B1, B3)

An investigation of basic principles of physics and chemistry including matter, physical and chemical properties, energy, motion, light, atomic structure, bonding, solutions and chemical reactions. The inter-dependence of chemistry and physics will be emphasized. This course is intended for non-science majors.

PHYS 202 - Physics Scientists and Engineers I

54 LEC, 54 LAB, 4 UNITS

CSU(B1, B3)

A rigorous course in physics that will cover mechanics, vibrations and wave motion using calculus at a level appropriate for science and engineering majors.

PHYS 204 - Physics for Scientists and Engineers II

54 LEC, 54 LAB, 4 UNITS

CSU(B1, B3)

A rigorous course in physics that will cover thermodynamics, electricity and magnetism using calculus at a level appropriate for science and engineering majors. Second part of a three-semester sequence.

PHYS 206 - Physics for Scientists and Engineers III

54 LEC, 54 LAB, 4 UNITS

CSU(B1, B3)

A rigorous course in physics that will cover electromagnetic waves derived from Maxwell's equations, physical optics, relativity and quantum mechanics using calculus at a level appropriate for science and engineering majors. Third part of a three-semester sequence.

POLITICAL SCIENCE

POL 101 - American Government and Politics

54 LEC, 3 UNITS

CSU(D8), IGETC(4H)

Survey of the theory and practice of American ideals and government, including the origins and development of democratic principles; constitutional government; local, California and national political personalities, problems and governmental institutions. How does a citizen survive? **Note:** Course partially satisfies the state of California requirements for instruction in U.S ideals and institutions of government.

POL 130 - Introduction to International Relations

54 LEC, 3 UNITS

CSU(D8), IGETC(4H)

Students in this course will be introduced to theories of international relations and use these theories to examine the international political system and its actors. Students will look at debates surrounding the role of the nation-state in the 21st century, the power of non-state and sub-national actors in topics such as war, peace, diplomacy, human rights, environmental issues, international law, and the international political economy.

POL 140 - Introduction to Race and Ethnicity

54 LEC, 3 UNITS

CSU(D3, D8), IGETC(4H)

The experiences of European and non-European immigrant groups from the colonial period to the present. The Anglo-American "core-values" and acceptance criteria for assimilation. Replacing POL 040. Cross-listed with SOC 140.

POL 150 - Introduction to Political Science

54 LEC, 3 UNITS

CSU(D8)

An introduction to political science that explores the development of political science as a field of study by looking at the subfields within political science, its theoretical foundations, and the basic political concepts and methods used to examine political systems, structures, institutions, political ideologies and political behavior.

POL 160 - Globalization

54 LEC, 3 UNITS

CSU(D7, D0), IGETC(4J, 4G)

Students in this course will be introduced to the processes and structures of globalization that make the world more interconnected. Using theoretical perspectives and debates around globalization, students will delve into topics such as colonialism; political economy; economic and social development; the migration of people and ideas; environment and development; tourism; and responses to globalization throughout the world. Cross-listed with SOC160.

POL 170 - Democracy in Practice, Washington DC Week

36 LEC, 54 LAB, 3 UNITS

CSU

This course will explore "democracy in practice" through lecture and study, attendance and participation in a local government or community political event, and a fully supervised and coordinated week in Washington, D.C., Monticello, and Gettysburg. It will explore the behavior of key actors in national government institutions. It also will examine how individuals and groups can affect and are affected by the institutions and people of national and local government. The course would be especially helpful to any who aspire to a career in education. Each student shall be required to pay for the cost of airfare, hotel, meals and incidentals for the trip to Washington, in addition to regular college fees. Cross-listed with HIST 170.

POL 172 - Democracy in Practice, Landmarks of Civil Rights
18 LEC, 108 LAB, 3 UNITS CSU

This course will explore “democracy in practice” through lecture and discussion, attendance and participation in a community political event, and a fully supervised week visiting prominent places in the history of the Civil Rights Movement in the southern states of the U.S. It will examine how individuals and groups influence major institutional political changes in local, state and national policy. Each student will be required to pay the cost of airfare, hotels, meals, and incidental costs of a ten-day excursion that includes Georgia, Alabama, Mississippi, Arkansas, and Tennessee. Cross-listed with HIST172 and POL172.

POL 180 - Environmental Policy
54 LEC, 3 UNITS CSU(D8)

Comprehensive analysis of the laws and policies that affect water, land, air, fire, wildlife and vegetation in the American West. Cross-listed with ENVR 180.

PSYCHOLOGY

PSY 102 - Introductory Psychology
54 LEC, 3 UNITS CSU(D9, E), IGETC(4I)

Introduction to the scientific study of behavior and mental processes, including research methodology, perception, memory, motivation, emotion, personality, psychological development, intelligence, and psychobiology. Formerly PSY001A

PSY 152 - Psycho Pathology of Serial Killers and Mass Murderers
54 LEC, 3 UNITS CSU

Provides a historical examination and analysis of serial, mass, and spree homicides. Examines theories on the motives for these types of murders. Studies the historical application of the law to homicide and murder cases. Examines the detection, investigation and prosecution of murder cases including the analysis of forensic evidence in homicide cases. Explores the criminal justice system's capabilities of responding to multiple murder cases as well as society's response. Cross-listed with ADMJ 152.

SOCIOLOGY

SOC 100 - Sex, Gender, and Society
54 LEC, 3 UNITS CSU(D0, D4), UC, IGETC(4D, 4F)

This course is an overview of the sociological analysis of the social construction of masculinity and femininity historically and cross-culturally. It examines the debates on sex and gender. It analyzes the impact of economic and political change on gender expectations and practices. It focuses macro-analyses of how institutions shape gender and microanalyses of how individuals are socialized and how they “do” and practice gender.

SOC 102 - Introduction to Sociology
54 LEC, 3 UNITS CSU(D0), IGETC(4D, 4F)

This course is an introduction to the concepts, perspectives, theories, and methods of sociology. Students will study the individual's relationship with society by analyzing socialization and the self, group dynamics, social stratification, diversity, social change, and social institutions in various cultural contexts.

SOC 140 - Introduction to Race and Ethnicity
54 LEC, 3 UNITS CSU(D8, D3), IGETC(4H)

Sociological analysis of race, and ethnicity, and examination of the cultural, political, and economic practices and institutions that support or challenge racism and inequality. This course explores the historical and contemporary interactions between various racial and ethnic groups using sociological perspectives and political theories. Cross-listed with POL140.

SOC 150 - Social Trends and Problems
54 LEC, 3 UNITS CSU(D0), UC

This course examines contemporary social trends and problems in U.S. institutions, including: (1) the role of power and ideology in the definition of social problems, (2) their causes and consequences, (3) evaluations of proposed solutions, and (4) methods of intervention. Topics include crime, delinquency and violence, social inequality, family, race relations, education, environmental degradation, drugs and alcohol, and health care, among others.

SOC 160 - Globalization
54 LEC, 3 UNITS CSU(D0, D7), IGETC(4G, 4J)

Students in this course will be introduced to the processes and structures of globalization that make the world more interconnected. Using theoretical perspectives and debates around globalization, students will delve into topics such as colonialism; political economy; economic and social development; the migration of people and ideas; environment and development; tourism; and responses to globalization throughout the world. Cross-listed with POL 160.

SPANISH

SPAN 101 - Beginning Spanish
72 LEC, 4 UNITS CSU(C2)

Introduction to the language through study and practice in listening, speaking, reading and writing Spanish. Designed to instruct in basic pronunciation, grammar and conversation. Includes an introduction to Spanish speaking cultures.

SPAN 102 - Beginning Spanish II
72 LEC, 4 UNITS CSU(C2), IGETC(6A)

Continued emphasis upon listening and speaking combined with grammatical practice, reading and writing. Includes Aural-oral practice with audio, video, and/or CD “tapes.” Continuation of Spanish 101. Formerly SPAN 001B (Changed between 1987-90). Prerequisite: Completion of SPAN 101, or equivalent, with a “C” or better.

SPAN 201 - Intermediate Spanish I
72 LEC, 4 UNITS CSU(C2), UC, IGETC(6A)

Spanish 201 is a course designed for students who have successfully completed Spanish 101 and 102 or two years of high school Spanish. The course provides intensive comprehensible input in Spanish, increasing the level of vocabulary, sentence structure, and syntax to enhance the development of language skills. The student will practice listening, speaking, reading, and writing Spanish through the use of personalized questioning techniques, personalized situations, and retelling and writing stories and essays in different perspectives. Hispanic cultures will be presented utilizing cultural videos, popular and folk

GENERAL EDUCATION/CORE CLASS IDENTIFICATION

The transfer requirements satisfied by FRC courses for California four-year universities or University of Nevada, Reno are indicated to the right of the unit value of each course. The IGETC pattern applies to both the California State University (CSU) and University of California (UC) Systems, as well as the University of Nevada, Reno. The letters in parentheses indicate any General Education (GE) Breadth area also satisfied. Please refer to the CSU and IGETC transfer patterns (pages 49-51) or meet with an academic advisor for clarification.

music, realia, and novels. Grammatical concepts are embedded in input content and presented in context. The methods used in this class address national foreign language standards, the eight intelligences and all learning styles.

SPAN 204 - Intermediate Spanish II

72 LEC, 4 UNITS

CSU(C2), IGETC(6A)

This course builds on the skill and knowledge developed in Spanish 201, but adds new information in the past tense subjunctive and other areas. The class also includes reading, writing, open discussion and viewing videos in Spanish. Grammar concepts are taught both by themselves and in relation to the other activities in class. Knowledge or appropriate background that equates to Spanish 201 is acceptable for entrance into the course.

SPAN 291 - Directed Study

18 - 270 HOURS, 1 - 5 UNITS

CSU

A student may take advanced course work or complete a student designed project in Spanish after having completed introductory courses. The topics, learning objectives, educational material(s), number of units to be awarded, and method of evaluation are determined in a written agreement between the instructor and the student before the student engages in the learning experience. A "Learning Contract for Directed Studies" must be completed by the student, approved by the instructor, and Chief Instructional Officer, and placed on file with the Office of Instruction.

THEATRE ARTS

THEA 105 - Introduction to Acting

36 LEC, 54 LAB, 3 UNITS

CSU(C1)

Introduction to acting principles, techniques and application. Emphasis on learning skills such as body movement, voice control, diction, facial expression, and characterization.

THEA 106 - Advanced Acting

36 LEC, 54 LAB, 3 UNITS

CSU(C1)

Continuing concentration of acting principles, techniques and application introduced in Theatre Arts 105. Emphasis on scene study, characterization, and ensemble performance.

THEA 114 - Drama Workshop (Technical Theatre)

36 LEC, 108 LAB, 1 UNIT

CSU, UC

Participation in set construction, lighting, makeup, costume, properties, or any other technical area of production. Open entry/open-exit.

THEA 140 - Drama/Comedy Production

36 LEC, 108 LAB, 1 UNIT

CSU, UC

The rehearsal, performance and staging of a comedy or drama production. Theatre activity for the beginner or expert in acting. For students who desire to act in plays for public performance. Participation in the main stage production will be determined by the needs of each play.

THEA 142 - Musical Production

36 LEC, 108 LAB, 1 UNIT

CSU, UC

The rehearsal, performance and staging of musical productions. Theatre activity for the beginner or expert in acting for comedy or needs of each play. For students who desire to act in plays for public performance. Participation will be determined by the needs of each play.

TUTOR

TUTR 003 - Supervised Tutoring

108 LAB, 0 UNITS

A tutorial course to assist those students who desire to refine abilities and skills in any established subject area taught by the college. Students needing assistance will be tutored by skilled tutors in the desired subject area. Open entry/open exit. Non-credit.

FEATHER RIVER COLLEGE BOARD OF TRUSTEES/FOUNDATION

The Feather River Community College District Board of Trustees is authorized by Section 72200 et. seq. of the California Education Code to execute any powers delegated by law to it or the District, discharging any duty imposed by law.

It is the objective of the Board of Trustees to provide programs and curricula as outlined in Section 66701 of the California Education Code, and to maintain an academic standard sufficiently high in order to ensure an excellent reputation for the graduates of the District. These standards shall be appropriate to the institutional philosophy of providing the opportunity of further education of any student with a reasonable expectation of learning at the college level.

The Board of Trustees is comprised of six members, five members elected by the residents of five trustee areas and one non-voting student member elected by the students. Eligibility to serve on the Board is established in the Education Code. Elected Board members must be residents of their Districts, at least 18 years of age and registered to vote. The student Board member must be a resident of the state of California at the time of nomination and enrolled for a minimum of six units per semester.

Board of Trustees

The members, at the time of publication, are as follows:

Dr. Dana Ware, President
Mr. Guy McNett, Vice-President
Dr. Kevin Trutna - Board Secretary
Mr. Bill Elliott
Dr. James Meyers
Mr. John Sheehan
Ms. Gracie Yates, Student Trustee (2018-19)

Feather River College Foundation

The Feather River College Foundation is a not-for-profit corporation managed by a Board of Directors comprised of volunteer community leaders.

The Foundation was formed to obtain special resources to benefit the programs and students of Feather River College. As a community organization, the Foundation has the freedom to respond directly to the specific needs of the college with an appreciation of the needs of the community.

The Foundation seeks contributions from individuals and corporations as well as grants from public and private organizations. Priority needs, such as scholarships and instructional equipment, are determined by the Board of Directors in conjunction with college personnel.

FRC Foundation Board of Directors

The members, at the time of publication, are as follows:

Ms. Kris Miravalle, President	Ms. Nancy Gambell
Mr. Russell Reid, Vice-President	Ms. Jeanne "J.P." Harrison
Ms. Marie Anderson	Ms. Lisa Kelly
Ms. Jacque Blanton	Ms. Karen Pierson, Executive Director
Mr. Vinnie DeWitt	Mr. John Sheehan
Mr. Bob Edwards	Dr. Kevin Trutna
Mr. Bill Elliott

HOW TO FIND FEATHER RIVER COLLEGE

Feather River College is located in Quincy, California, which is 75 miles from Reno, Nevada. FRC is a 2 1/2 hour drive from Sacramento, California, and 5 hours from San Francisco, 9 hours from Los Angeles, and 12 hours from San Diego.

There are several driving routes to Feather River College. From Central California, take State Route 70 North from Oroville.

From Reno, take Interstate 395 North to the turnoff for State Route 70 at Hallelujah Junction.

From the Tahoe area, take State Route 89 North from I-80, to Reno 70, and then turn West.

It may be useful to call Caltrans at 1(800) 427-7623 before undertaking winter or other extended travel. Or contact the FRC Student Outreach Office at 1(800) 442-9799, EXT 315.

570 Golden Eagle Ave. Quincy, CA 95971
