UNIQUE PROGRAMS

Feather River College offers so many programs and degrees that are unique as the students who study them. This is a college that prides itself on one-of-a-kind programs and cutting-edge facilities to allow students the best educational experience possible.

FRC is the only California Community College to offer a 4-year bachelor's degree in Equine and Ranch Management. This unique degree combines scientific agricultural ranch management courses with hands-on horse and beef related disciplines. Students will have daily opportunities to work with horses and livestock while integrating management and business principles into working for, or creating a successful horse enterprise or ranch operation.

Outdoor Recreation Leadership (ORL) is a program designed to provide students with experience through theory, practical application, and technical skills related to teaching and leading outdoor adventure activities. Students who complete the Outdoor Recreation Leadership program will find themselves well prepared to work professionally as outdoor leaders and/or to transfer to four-year schools.

FRC also boasts one of the only working fish hatcheries on its campus, allowing students to get up close and personal with the animals they are studying! The hatchery is capable of raising trout from egg to trophy size, as well as raising a variety of aquarium fishes. These fish are then stocked at local ponds and lakes, allowing FRC students to play a vital role in our local ecosystem.

There are also lots of certificates of specialization in popular fields such as early childhood education, business, forestry technicians, and ecological farming. Plus healthcare-related fields of study for students interested in vocational nursing, certified nursing assistants, and emergency medical technicians. Needless to say, there is something for everyone at FRC regardless of what your career path is!

There are so many unique programs at FRC. Students often come here for a certain degree, and then end up getting a degree in something else they discover while at FRC.”

- Jamie Johnson, Equine Studies

FRC is a college that prides itself on one-of-a-kind programs!

HANDS-ON LEARNING & OUTDOOR CLASSROOMS

FRC is changing the way students think of the typical college classroom. We take hands-on learning to the next level through the use of outdoor classrooms and unique academic experiences. Feather River College makes great use of its million-acre classroom by getting students outside and in touch with nature.

The great thing about being surrounded by our majestic setting is that even typical indoor classes will often take their students outside to learn simply to escape the indoor learning environment. Students often talk about how much they appreciate the outdoor environment for learning and how much it helps them remain focused and refreshed.

If you are tired of the same old classroom experience, then FRC is the place to be. We believe that students learn more by using their hands, getting outside, and experiencing new techniques to help solve problems and explore different solutions.

I feel like the hands-on learning we get to do here at FRC really helps keep students engaged and wanting to learn more.”

- Claire Guyne, Equine Studies

My favorite part of the FRC experience is being able to have so many classrooms outdoors!”

- Kobree Penny, Environmental Sciences

ACADEMIC EXPERIENCE

Ask any current student at FRC and they will say the same thing; Feather River College puts student success first and foremost. Even though we are a small college, we ensure students have access to all the resources needed to succeed. This means resource centers such as Mental Health & Wellness, Instructional Resource Center, TRiO, EOPS, and more. Plus lots of other Student Service programs designed to help students accomplish their academic goals.

FRC also offers a very personal individual academic counseling experience that allows students immediate access to their academic advisors when they need them most. Our counselors work with students to develop attainable educational plans that set students up for academic success. This means creating flexible schedules that revolve around student's needs, and knowing there is not a one-size-fits-all method for creating educational road maps.

Feather River College puts student success first and foremost.

Our intimate campus means that students get the attention needed to accomplish their goals. It allows students to network in ways they may never get at larger institutions. Most importantly, it allows students access to any academic resources need to graduate on time, transfer where desired, or immediately find placement in the workforce based on their individual interests. This is an academic experience unlike any other and our student success rate demonstrates this even further.

The teachers here really go out of their way to make sure students succeed in their studies.”

- Cheyanna Burnett-Griffith, Business

**FRC is an
academic
experience
unlike any
other.**

VISION

AN

DEVELOP THE MIND
CELEBRATE THE INDIVIDUAL
STRIVE FOR EXCELLENCE
OPEN DOORS
NOURISH THE COMMUNITY

VIA

N

Feather River College cultivates engaged citizens striving for a resilient, solution-based society. As a campus community, we aim to foster the values of education, service, and stewardship in our students, staff, and community. We will continue to develop our educational and co-curricular offerings to support our students' pursuit of sustainable, fulfilling, and dynamic lives.

ND

VALUES

STUDENT LIFE

Talk to any FRC student and they all say the same thing; there is always something happening in or around campus! From movie nights, to BBQ's, to bowling, to game nights, athletic events, hangouts, and more, there is something for every student at FRC. Our small campus allows students to make connections that last a lifetime!

We also have great community support from the town of Quincy. This means businesses often host events designed for college students. There is always some sort of music or art event happening in the warmer months, with lots of other gatherings such as unique festivals, outdoor markets, lively competitions, and more. This is a true small-town experience that students embrace and love!

CAMPUS HOUSING

We are one of the few California Community Colleges to offer both on-campus and off-campus student housing in town. This allows for a true collegiate student life experience by giving students the opportunity to interact with other students in a more personal manner. It also means more opportunities for student life events both on and off campus.

GOLDEN EAGLE ATHLETICS

Feather River College features a wide variety of athletic programs in both men's and women's fields. Our programs have won countless championships and continue to excel year after year, which makes for a very fun student experience. You will always find the FRC stands packed with both students and local community members rallying behind our different athletic programs.

If you are interested in a specific athletic program to be part of during your time at Feather River College, please contact us and we will put you in touch with the appropriate coach or contact from Athletics.

- Bike Path
- Field House

It is such an amazing college for athletics, I feel like we are always winning some kind of championship!"

- Rachel Abramson, Volleyball

The love that students have for athletes is so real here. Everyone just supports each other!"

- Robert Lee III, Men's Basketball

AFFORDABLE TUITION

One of the top reasons that Feather River College is such a popular choice for students is the affordability factor. Not only are we affordable compared to any 4-year institution, but we offer the exact same courses that students normally pay premiums for. Plus, the majority of our courses are transferable to other institutions, both private and public. This means students get a quality education at a fraction of the price, which is why our student success rate is so high!

On top of this, there are endless scholarships, grants, and funding opportunities for students of all backgrounds and academic focuses. Every year there are new financial aid offerings available to most students, and our Financial Aid office is always prepared to help guide students through this process. We know how stressful affording college can be, which is why we offer a variety of student support resources. If you ever have any questions or concerns about how to afford an education at FRC, contact an advisor today to explore all the opportunities we have for students to receive a quality education without accumulating unnecessary debt!

IT'S TIME TO APPLY!

Are you ready to apply or learn more about FRC?

We have academic advisors standing by to talk to students interested in attending FRC. Many students comment on how easy it is to get in touch with our advising team, which is another benefit of having a small campus.

You can give them a call at (530)283-0202 x313 or book an appointment online at frc.edu/advising
